'Indian captain thwarts co-pilot's attempt to crash Flydubai plane'

Aircraft was flying from Dubai to Tel Aviv carrying 174 passengers

AGENCIES
Dubai/Jerusalem, September 30

An Indian pilot has been credited with helping prevent a possible disaster after his co-pilot allegedly attacked him and attempted to take control of a Flydubai aircraft carrying 174 passengers from Dubai to Tel Aviv on Wednesday, forcing the plane to make an emergency landing in Saudi Arabia.

Captain Smit Machchhar, who was reportedly stabbed during the cockpit struggle, fought back against the co-pilot as the aircraft began a rapid descent, according to Israeli media reports and people familiar with the incident. Passengers and crew members then entered the cockpit and helped subdue the alleged attacker.

The flight, Flydubai FZ1073, was cruising at about 34,000 feet when the incident unfolded. Flight-tracking data analysed by BBC Verify showed the aircraft subsequently descended by more than 17,000 feet in less than two minutes before stabilising and diverting to Tabuk in northwestern Saudi Arabia.

Machchhar was taken to a hospital after the aircraft landed. His condition was not immediately known.

The identity of the Indian captain was not confirmed by Flydubai, which has said only that an in-flight altercation took place. Sources identified him as Machchhar, a Dubai-based pilot who has been with Flydubai since June 2022 and previously worked for SpiceJet.

The airline said its crew secured the aircraft and diverted it safely to Tabuk. All 174 passengers, including 27 children, and the crew were accounted for.

"At this early stage, the underlying reasons and motives behind this event are unknown and remain subject to a formal investigation," Flydubai said, urging all CONTINUED ON P4

OPPOSITION MPs TO MARCH TO ECI ON OCTOBER 6

Opposition closes ranks against EC, plans nationwide 'Save Democracy' campaign

INDIA Bloc Meeting at the Constitution Club of India, in New Delhi on Wednesday ANI

AAISHA SABIR
New Delhi, September 30

Putting forth a united front at the INDIA bloc meeting here on Wednesday, opposition leaders called for taking the fight over the Election Commission and electoral rolls to the ground and involving civil society.

The meeting was marked by consensus, while the mood remained upbeat over the political fight ahead. They also discussed a joint legal challenge to the law governing the appointment of Election Commissioners, sources said.

Leaders agreed that a clear schedule of protests and programmes must now be chalked out and momentum built to mount pressure on the Election Commission. INDIA bloc said a nationwide CONTINUED ON P4

EC drops extra voter declaration from Form 6 in states where SIR is over

OUR CORRESPONDENT
New Delhi, September 30

The Election Commission has removed an additional declaration linked to the Special Intensive Revision from the online voter enrolment process in states where the exercise has been completed, days after deciding that the requirement would apply only during the SIR period.

The declaration had required new voters to provide details connecting themselves, their parents or grandparents to electoral rolls prepared during an earlier intensive revision. It remains part of the online Form 6 process on the ECINET portal in states and CONTINUED ON P4

Govt notifies CAFE-III fuel norms

NEW DELHI: The government has notified CAFE-III fuel-efficiency norms for passenger vehicles, targeting a 16.7 per cent improvement in fleet-average consumption from April 2027 to March 2032. Average consumption limits will tighten from 3.996 litres per 100 km in 2027-28 to 3.327 litres in 2031-32. SEE P10

Ojha gets 1 more yr as PIB principal DG

NEW DELHI: Senior Indian Information Service (IIS) officer Dhirendra Ojha was on Wednesday re-employed as principal director general of the Press Information Bureau (PIB) till September next year.

Ojha, a 1990-batch officer, was appointed to the post in July 2024. The Appointments Committee of the Cabinet has CONTINUED ON P4

SC pulls up UP Police over faulty FIR

NEW DELHI: The Supreme Court has questioned the Uttar Pradesh Police over the handling of an FIR in which the accused section was allegedly left blank initially and filled in later, asking how the public could retain faith in the force if cases were handled in such a manner.

The matter arose from a petition filed by the complainant over an incident CONTINUED ON P4

REVIEW BILATERAL TIES

Modi, Trump discuss trade, defence amid tariff tensions

OUR CORRESPONDENT
New Delhi, September 30

Prime Minister Narendra Modi on Wednesday had a telephone conversation with US President Donald Trump to evaluate progress in bilateral ties and the discussion covered major areas of mutual interest and strategic cooperation, including trade, defence and energy.

The two leaders spoke against the backdrop of heightened trade friction following the enactment of the 'Lindsey O. Graham Sanctioning Russia and Iran Act of 2026', which authorises tariffs of up to 100 per cent on nations purchasing Russian oil and gas, including India and China.

PM Modi and President Trump exchanged views on regional and international developments and discussed ongoing efforts to promote global peace and security, according to a statement issued by the Prime Minister's Office.

> THE TWO LEADERS REVIEWED PROGRESS IN BILATERAL COOPERATION ACROSS TRADE, DEFENCE, ENERGY, CRITICAL TECHNOLOGIES AND OTHER AREAS OF MUTUAL INTEREST

The leaders reaffirmed their commitment to advancing the India-US Comprehensive Global Strategic Partnership and agreed to maintain close engagement to deepen cooperation for the benefit of the people of both countries, the statement said.

"The two leaders reviewed progress in bilateral cooperation across trade, defence, energy, critical technologies and other areas of mutual interest," the statement said.

Modi said in a post on 'X' that he had a productive conversation with President Trump. "We reviewed our bilateral cooperation in trade, defence, energy, critical technologies and other areas.

"We agreed to maintain close engagement to take our Comprehensive Global Strategic Partnership forward," he said. Both leaders agreed to remain in touch.

External Affairs Minister S Jaishankar recently met US Secretary of State Marco Rubio on the margins of the UN General Assembly in New York, with India's concerns related to the Sanctioning Russia and Iran Act (SRIA) figuring in their talks.

SC rules out complete ban on firecracker

MPOST BUREAU
New Delhi, September 30

Observing that a total ban on firecrackers will hurt sentiments, the Supreme Court on Wednesday said it will neither impose complete prohibition, nor allow round-the-clock fireworks.

A bench of Justices MM Sundresh and PB Varale said a middle ground was needed to be found by specifying hours during which firecrackers could be used.

"We will make it very clear. Neither we are going to agree for total ban, nor are we going to allow them to do it (fireworks) for 24 hours a day. Total ban will affect sentiments. And allowing them throughout the day will have huge impact on every other living being including the old, sick and children. CONTINUED ON P4

Cabinet clears higher Rabi MSPs, green corridor and Delhi traffic upgrades

Cabinet approves higher MSPs for all six Rabi crops

OUR CORRESPONDENT
New Delhi, September 30

- Cabinet approves Rs 1.86 lakh crore Green Energy Corridor
- Green Energy Corridor targets 135 GW renewable evacuation
- Scheme includes 50 GWh battery storage capacity
- Centre provides Rs 54,082 crore financial support
- Delhi gets Rs 1,789.52 crore intelligent traffic system
- Traffic system will cover 42 major corridors
- Project includes 1,092 adaptive signal locations
- Automated enforcement will cover 1,029 locations
- System will detect speeding and wrong-way driving
- Emergency vehicles to receive priority through green corridors

The Union Cabinet on Wednesday approved three measures covering farm prices, renewable power infrastructure and traffic management in Delhi, including higher Minimum Support Prices (MSP) for all six mandated Rabi crops for the 2027-28 marketing season.

The MSP for safflower was raised by Rs 675 to Rs 7,215 per quintal, the largest increase among the crops. Rapeseed and mustard MSP rose by Rs 413 to Rs 6,613, while lentil increased by Rs 390 to Rs 7,390. MSPs for gram, barley and wheat were raised by Rs 83, Rs 136 and Rs 25 to Rs 5,958, Rs 2,286 and Rs 2,610 respectively. The government said the rates meet its policy of keeping MSP at least 1.5 times the weighted average cost of production.

The Cabinet also cleared the Rs 1,86,405 crore Green Energy Corridor Phase-III scheme to strengthen intra-state transmission and facilitate evacuation of up to 135 GW of renewable power. It includes 50 GWh of battery storage, with the Centre providing Rs 54,082 crore in financial support.

For Delhi, a Rs 1,789.52 crore Intelligent Traffic Management System was approved for 42 corridors. The project will use adaptive signals, automated enforcement and real-time traffic data. It will cover 1,092 adaptive signal locations and 1,029 enforcement points, with systems to detect violations and provide priority movement for emergency vehicles. SEE P3 & 9

ASIAN GAMES 2026 — 60 MEDALS

GOLD: 10 | SILVER: 21 | BRONZE: 29

GOLD

COMPOUND ARCHERY

Women's Team: JYOTHI SUREKHA VENNAM, CHIKITHA & PRITHIKA PRADEEP

DEFEATED CHINA 238-234 AND EQUALLED THE WORLD-RECORD SCORE

Mixed Team: CHIKITHA & SAHIL JADHAV

BEAT KOREA 158-157 AFTER A SHOOT-OFF.

Men's Team: KUSHAL DALAL, SAHIL JADHAV & GANESH MANI RATNAM THIRUMURU

DEFEATED CHINA 238-237

TRAP SHOOTING

Mixed Team: NEERU DHANDA & KYNAN CHENAI

WON GOLD WITH AN ASIAN GAMES RECORD SCORE OF 34

BRONZE

BOXING

Priya: WOMEN'S 60KG

KAPIL: MEN'S 90KG

WRESTLING

Sunil Kumar: MEN'S 87KG GRECO-ROMAN

Special milestone: **Chikitha** and **Sahil's** mixed-team archery gold also secured India an Olympic quota place for the 2028 Los Angeles Games, making India the first country to qualify in the compound mixed-team event.

EL NINO WEIGHS ON MONSOON

India ends monsoon with 13% rainfall deficit, fourth-lowest since 2001

OUR CORRESPONDENT
New Delhi, September 30

India received 87.4 per cent of its long period average (LPA) rainfall during the June-September monsoon season, making this the fourth-lowest monsoon rainfall recorded since 2001, the India Meteorological Department (IMD) said on Wednesday.

The country received 759.4 mm of rain during the four-month season, compared with the normal 868.6 mm, leaving a deficit of 13 per cent. The shortfall was linked in part to El Nino conditions over the tropical Pacific, which emerged in June and have strengthened since then.

The IMD said strong El Nino conditions are currently prevailing and could continue until March 2027. El Nino, one of the phases of the El Nino Southern Oscillation, is generally associated with reduced monsoon rainfall over India, while La Nina, its opposite phase, tends to have a cooling effect.

Rainfall was below normal in three of the four monsoon months. June recorded the largest deficit at 35.4 per cent, followed by August at 16.3 per cent and September at 7.6 per cent. July was the only month to receive above-normal rainfall, with a surplus of one per cent. CONTINUED ON P4

CLOSER LOOK

- Monsoon rainfall stood at 87.4% of LPA
- India received 759.4 mm rainfall this monsoon
- Normal monsoon rainfall is 868.6 mm
- June recorded highest rainfall deficit at 35.4%
- August rainfall deficit stood at 16.3%
- September rainfall deficit stood at 7.6%
- July recorded one% above-normal rainfall
- IMD had forecast 90% LPA rainfall

IN UAPA CASE

Delhi riots: HC denies bail to Khalid, Imam

OUR CORRESPONDENT
New Delhi, September 30

The Delhi High Court on Wednesday refused to grant bail to activists Umar Khalid and Sharjeel Imam in a case under the anti-terror law UAPA on the "larger conspiracy" behind the February 2020 riots in north-east Delhi.

A bench of Justices Prathiba M Singh and Dinesh Bhatt dismissed the third plea for bail by Khalid and Imam in the case.

Asserting that it is bound by "judicial discipline", the bench said it cannot modify the Supreme Court's January 5 order asking the two accused to seek bail either on completion of protected witnesses' examination or expiry of one year, whichever is earlier.

"We would be modifying this (Supreme Court) order if we allow bail, which we cannot do," the bench remarked. Khalid and Imam challenged the trial court's July 4 decision rejecting their bail pleas for the third time since their arrest.

The trial court rejected the bail applications, saying it had "no option but to follow" the Supreme Court's January 5 order and, therefore, could neither entertain the plea nor grant any relief. The bench noted that while denying bail to the two accused in January, the top court had said that their roles were distinct from the other co-accused and they were the "ideological drivers" of the alleged conspiracy.

"In view of the above discussion and the overall facts of the case, specifically the conditions imposed upon the appellants, this court cannot find fault with the decision of the trial court. Accordingly, the appeals are dismissed," the court concluded.

The senior counsel appearing for Khalid argued that he has spent six years in custody and was entitled to be released on bail in view of a subsequent top court order giving relief to other co-accused.

He added that around ten months have passed since the January 5 order and charges were yet to be framed in the trial court.

Imam's counsel also said that he has been in custody for six years and he was entitled to bail considering the delay in conclusion of trial. Additional Solicitor General S V Raju opposed the pleas on behalf of the Delhi Police, asserting that the two are the "masterminds" of the riots and the Supreme Court has already set a timeline for consideration of any fresh bail pleas by them. During the hearing, the court also suggested listing the cases for consideration after the second week of January.

The counsel for the accused, however, requested the court to decide the matter at this stage itself.

Khalid and Imam have been booked under the Unlawful Activities (Prevention) Act (UAPA) on allegations of being one of the masterminds of the February 2020 riots that left 53 people dead and more than 700 injured.

The violence erupted during protests against the Citizenship (Amendment) Act (CAA), 2019, and the National Register of Citizens (NRC).

Activist Khalid Saifi and former AAP councillor Tahir Hussain, among others, were also booked for their alleged involvement in the larger conspiracy case, which was investigated by Delhi Police's Special Cell.

Imam was arrested in the case on August 25, 2020 while Khalid was arrested on September 13, 2020.

On September 2, 2025, a high court division bench denied bail to Khalid and Imam. On January 5, the Supreme Court upheld the verdict but granted relief to co-accused Gulfisha Fatima, Meeran Haider, Shifa Ur Rehman, Mohammad Saleem Khan and Shadab Ahmad. A bench of Justices Aravind Kumar and N V Anjaria had then observed that there was a prima facie case against Khalid and Imam under the UAPA.

AAP files complaint in ACB against Parvesh Verma

OUR CORRESPONDENT
New Delhi, September 30

The Aam Aadmi Party (AAP) on Wednesday filed a complaint with the Anti-Corruption Branch (ACB) demanding an FIR against PWD Minister Parvesh Verma for corruption.

AAP Delhi unit President Saurabh Bharadwaj's complaint alleged corruption in a Rs 23-crore road repair project on Outer Ring Road.

He also said that the party would approach the court if an FIR is not registered against Verma for slapping a civilian three days ago.

"Today, a complaint was filed with the ACB regarding the alleged corruption in the Rs 23 crore tender of the PWD department involving Minister Parvesh Verma. The allegation is that the road was not constructed according to the specified specifications, and when a young man was recording a video of this, Verma snatched his phone and assaulted him," Bharadwaj told reporters.

He said that for the last three days the party has been demanding an FIR against Verma, but Delhi Police is doing the opposite to intimidate its workers.

"We will ultimately go to the courts to get the FIR registered if police fail to do their duty," Bharadwaj said in a press conference.

The party leader also demanded an independent audit by a road engineering expert agency, like the Central Road Research Institute (CRRI), of the road in question, constructed by the PWD, in the Tilak Nagar area.

"It is ultimately corruption inside Verma's department which our MLA raised. An independent audit should be done of this; we will take up these demands at the ACB office," Bharadwaj said.

The AAP leader also alleged that the police misbehaved with the party's women councillors who were protesting against their inaction.

An FIR has been registered against Bharadwaj and AAP's Tilak Nagar MLA Jarnail Singh, and several party workers, for allegedly assaulting a head constable and obstructing him from discharging his duties, the police said on Tuesday.

The police have also filed a non-cognisable report (NCR) against Verma, a BJP leader, for slapping 22-year-old Sahib Singh during a road inspection last week when the latter was recording him visiting the area for road inspection.

Delhi's air quality dips

OUR CORRESPONDENT
New Delhi, September 30

Delhi's air quality fell to the moderate category on Wednesday, with the city recording an AQI of 129, as 19 stubble-burning events were detected across the six study states, including seven each in Punjab and Uttar Pradesh, according to the ICAR-Indian Agricultural Research Institute.

Of the 19 residue-burning events detected by satellites on Wednesday, four were in Madhya Pradesh and one in Haryana, according to the ICAR-Indian Agricultural Research Institute.

A total of 114 residue-burning events were detected across the six states between September 15 and 30, including 59 in Punjab, 32 in Uttar Pradesh, 17 in Madhya Pradesh, three in Haryana, two in Rajasthan and one in Delhi, the data showed. The Central Pollution Control Board (CPCB) data showed the AQI in the moderate category after five days of satisfactory AQI. Under the CPCB classification, an AQI of 0-50 is considered "good", 51-100 "satisfactory", 101-200 "moderate", 201-300 "poor", 301-400 "very poor" and 401-500 "severe".

The IIT Delhi station recorded a poor AQI of 207 at 6 pm. Of the 45 monitoring stations, 42 recorded moderate air quality and three recorded satisfactory air quality.

Farmers set fire to crop residue on fields to clear them before cultivating wheat and vegetables. Incidents of stubble burning in Punjab and Haryana directly impact Delhi's air quality, which battles severe air pollution every winter.

According to the Air Quality Early Warning System, the air quality is likely to remain in the moderate category from October 1 to 3 and during the subsequent six days.

The ventilation index is expected to remain below 6,000 square metres per second, with an average wind speed of less than 10 kmph, conditions considered unfavourable for pollutant dispersion," it said.

According to the India Meteorological Department, Safdarjung, Delhi's base station, recorded a maximum temperature of 34.2 degrees Celsius, 0.5 degrees below normal.

NDMC distributes retirement benefits to 40 retiring staff

OUR CORRESPONDENT
New Delhi, September 30

The New Delhi Municipal Council (NDMC) on Wednesday distributed pension and other retirement benefits to 40 employees who retired from service, at a ceremony held at the NDMC Convention Centre on Jai Singh Road. NDMC Chairman Manoj Kumar Dwivedi handed over the Pension Payment Orders (PPOs), gratuity, leave encashment and General Provident Fund (GPF) benefits to the retiring employees.

Council member Anil Valmiki felicitated the employees by presenting them with planters, mementos and suitcases as tokens of appreciation for their service. Dwivedi said the council was working to ensure that retirement benefits were provided in a timely, transparent and hassle-free manner. He said the NDMC was also addressing older pending cases.

He described pension as an employee's right and said systems had been put in place to simplify the retirement process.

MCD carries out 36 demolition actions

ANAMTA FATIMA
New Delhi, September 30

The Municipal Corporation of Delhi (MCD) carried out 36 demolition actions across the Capital on Wednesday as part of its ongoing city-wide enforcement drive against unauthorised constructions, dangerous buildings and violations of the Master Plan of Delhi (MPD) and building bye-laws.

The civic body said two properties were sealed and three demolition orders were issued during the day's exercise, which covered all 12 zones of the Corporation. The action was aimed at enforcing building regulations and addressing structures considered to be in violation of prescribed norms.

Among the locations where major demolition action was taken were Motia Khan, Paharganj, Baljeet Nagar, Ranjeet Nagar, Mukundpur, Shakurpur and Sahyog Apartment. The MCD did not provide details of the nature or extent of violations at individual properties.

The latest action follows an enforcement exercise conducted on Tuesday, during which 33 properties were demolished and 12 were sealed for alleged violations of the MPD and building bye-laws.

The civic body said field officials had been directed to maintain close surveillance across their respective areas and initiate action against violations in accordance with applicable regulations.

The MCD said its enforcement drive would continue against unauthorised constructions and dangerous buildings, as well as other violations that could pose risks to public safety.

Sri Lankan delegation visits CM Shri school

OUR CORRESPONDENT
New Delhi, September 30

A five-member Sri Lankan delegation visited a CM Shri school in Sarojini Nagar here and reviewed its technology-enabled classrooms and student-centric facilities as part of a visit to understand developments in Delhi's education sector.

Delhi Education Minister Ashish Sood interacted with the delegation during its visit and said the members had expressed interest in understanding the changes taking place in the city's education system.

"The delegation is touring various parts of India to study political and social issues. They expressed a desire to observe and understand the transformations taking place in Delhi's education sector, so we brought them to visit our CM Shri school," Sood said. The delegation comprised the General Secretary of the Janatha Vimukthi Peramuna (JVP), Tilvin Silva and other officials who were shown various facilities at the school, including smart classrooms, digital libraries, information and communication technology labs, dedicated care rooms for children with special needs and multi-sectoral skill labs, Sood mentioned in a post on X.

Security patrol at Sanjay Lake and adjoining areas

PRAJYOT DEOGHARE
New Delhi, September 30

Senior officials of Delhi Police conducted a foot patrol at Sanjay Lake and adjoining areas for assessment of security set up and to enhance their presence in the area for the safety of its public visitors, the officials said.

The patrolling was done by Milind Mahadeo Dumbere, IPS, Joint Commissioner of Police, Eastern Range, along with Rajeev Kumar, IPS, Deputy Commissioner of Police, East District, Shristi Pandey, IPS, Additional DCP-I, East District, and Vipul Anekant, Additional DCP-II, East District.

The top police officials were accompanied by Delhi Police staff, security guards and Residents' Welfare Associations (RWAs) members during the inspection of the area.

While interacting with the RWA representatives and the security guards, the police officials sought information about the security apprehensions related to the lake and its surrounding areas.

They also enquired about the requirements related to the safety and security of women who visit the park, as well as the general safety of the public using the public places around the lake, and the security set up in the area.

Further, during the patrol, the police talked with the security staff about the precautions being taken at the place and the measures needed to ensure the security of the park goers and residents' safety.

The officials also discussed ways to share the information on time with the police, if any apprehensions were brought before them by the residents, security staff, or the police itself in order to have timely action against any unwarranted activity.

According to police officials, the idea behind this foot patrol was to increase coordination between the police and the local people and increase vigilance by police in this area.

Two men killed as truck rams their bike in southwest Delhi

OUR CORRESPONDENT
New Delhi, September 30

Two men in their early 20s were killed after their motorcycle was allegedly run over by a truck in southwest Delhi's Vasant Kunj while they were returning from a party, police said on Wednesday.

The truck driver was arrested.

The victims were identified as Daksh (20), a native of Hisar in Haryana, and Chirag Umredkar (21), a native of Madhya Pradesh, police said.

Both were pursuing hotel management courses at a private institute in Delhi and lived in Chhatarpur, they said.

According to police, the incident took place around 1.30 am on Monday when the two were returning home after attending a party in Mahipalpur.

Their motorcycle was allegedly hit by a Delhi-registered truck near Nangal Devat in Vasant Kunj, following which both died at the spot, a senior police officer said.

The truck driver, identified as Ankit Yadav, a resident of Hardoi in Uttar Pradesh, was arrested on Tuesday, police said.

Investigators are examining CCTV footage and other evidence to ascertain the circumstances leading to the collision, they said.

A case has been registered and further investigation is underway, police said.

'ASSAILANT BOUGHT KNIFE FROM QUICK-COMMERCE PLATFORM'

DU student murder 'pre-planned': Cops

PRESS TRUST OF INDIA
New Delhi, September 30

The 27-year-old accused in the killing of a DU student in west Delhi's Tilak Nagar had allegedly planned the murder and purchased a knife from a quick-commerce platform two days before the attack, while a friend – named as an accomplice – helped him locate the victim's house and later harboured him, according to the chargesheet filed by police. The over-350-page chargesheet, filed in Tis Hazari court, states that accused Imran Khan purchased the knife on August 24, before attacking 21-year-old fashion content creator and University of Delhi (DU) student Muskan Sharma on August 26, indicating that the murder was pre-planned.

Police have named Digvijay Singh as an accomplice in the case, alleging that he helped Khan trace Sharma's residence, waited nearby while the murder was committed and subsequently helped him escape and provided him shelter.

A special investigation team (SIT) was constituted at the district level to investigate the case.

According to the chargesheet, Khan frequently contacted Sharma and knew when she would be home alone.

On August 26, Sharma was alone at her house in Old Mahavir Nagar when Khan allegedly came to meet her. He then allegedly strangled her and stabbed her three times in the chest and abdomen.

CHARGESHEET: KHAN FREQUENTLY CONTACTED SHARMA AND KNEW WHEN SHE WOULD BE HOME ALONE

The murder came to light around an hour later when her domestic help found her lying in a pool of blood, according to police.

Police said Khan and Sharma had known each other for around two years and had been in a relationship for nearly one-and-a-half years. Sharma used to visit a local gym where Khan had worked.

According to the chargesheet, Khan had been allegedly forcing Sharma to continue the relationship while she kept declining. He had allegedly threatened and stalked her earlier, before planning to kill her. The accused had also allegedly procured an unlicensed weapon, police said. The chargesheet states that Singh, who had also worked at gyms in west Delhi, helped Khan locate Sharma's house on the day of the incident and waited in the vicinity while the murder was committed.

Singh allegedly helped Khan flee after the murder and later harboured him, police said. Both accused are currently in judicial custody.

Police have invoked sections 103(1) (murder) and 249 pertaining to harbouring or concealing a person who has committed an offence punishable with death under the Bharatiya Nyaya Sanhita.

The charge sheet also states that Khan allegedly deleted phone data and chats from Sharma's mobile phone. Police recovered evidence of messages in which he had allegedly threatened her.

Investigators have also collected CCTV footage from several locations, including a hotel, restaurants and areas near Sharma's residence, where Khan and Sharma had allegedly met between July and August.

AI traffic system for Delhi with real-time monitoring, ambulance priority

OUR CORRESPONDENT
New Delhi, September 30

Delhi is set for a technology-driven traffic overhaul with the Cabinet Committee on Economic Affairs (CCEA) approving a Rs 1,789.52-crore Intelligent Traffic Management System on Wednesday –comprising AI-based signals, real-time congestion detection, automated enforcement and priority corridors for ambulances – to make traffic movement safer and more efficient.

The CCEA, chaired by Prime Minister Narendra Modi, approved the project, covering 42 identified traffic corridors and to be implemented by Delhi Police in three phases over 24 months, followed by five years of operation and maintenance, according to an official statement.

The system will enable traffic signals to automatically adjust timings based on prevailing road conditions and coordinate signals along identified corridors to reduce stoppages and delays. It will also facilitate priority movement of ambulances and other emergency vehicles through green corridors, besides enabling quicker detection of congestion, slow-moving traffic and road incidents -- allowing Delhi Police to take faster operational measures.

According to the statement, variable message signs and digital platforms will provide commuters with information on congestion, diversions, parking availability and traffic conditions. Such information may also be shared with navigation service providers.

The Intelligent Traffic Management System (ITMS) will strengthen automated enforcement against violations such as red-light and stop-line violations, speeding, wrong-way driving, non-use of helmets and seat belts, illegal parking and use of mobile phones while driving. Artificial intelligence-based analytics will assist in identifying stolen, hot-listed and blacklisted vehicles, repeat violators and vehicles linked to hit-and-run incidents, the statement said.

Union minister Ashwini Vaishnaw said, "We will see immediate benefit of AI cameras in the whole city. This will have a very good impact on crime rate, safety of the citizens and movement of traffic."

Delhi has around 71 lakh active registered vehicles, while vehicular growth has substantially outpaced expansion of road infrastructure, according to the Union government.

The project will cover 1,092 adaptive traffic control system locations and 1,029 enforcement locations. Traffic regulation, enforcement and dissemination of traffic information will be brought together through traffic command and control centres, supported by secure data centres and disaster recovery infrastructure.

Delhi Police will implement the project through a master system integrator selected through competitive bidding, while Centre for Development of Advanced Computing (C-DAC) will provide technical support as project consultant. A senior police officer said, as part of the initiative, around 2,500 cameras will be installed across the capital with the aim to make Delhi 'traffic-snarl free'. The project is aimed at making better use of Delhi's existing road network through real-time traffic intelligence, smoother movement, quicker incident response and technology-based enforcement, the Union government said.

WOMEN'S SAFETY

Don't cage girls, teach boys: CM

AIMAN FATIMA
New Delhi, September 29

Amid continuing concerns over women's safety in the national capital, Chief Minister Rekha Gupta on Wednesday said girls cannot be expected to sacrifice their freedom in the name of security, stressing that men and boys must instead be taught appropriate behaviour, respect and responsibility.

Addressing students at Maitreyi College during its Diamond Jubilee celebrations, Gupta said women should be free to pursue their education, careers and aspirations without being subjected to restrictions on their movement or choices. "Why is everything meant only for girls? So many restrictions, so much prudence expected, so many boundaries," Gupta said.

The Chief Minister said safety measures should focus on creating a secure environment rather than placing additional conditions on women. Referring to Prime Minister Narendra Modi's remarks about advising boys as well as girls, she said men must understand boundaries and consent while interacting with women. "Boys must also be taught about respect, responsibility, behaviour and consent. A 'no' means 'no', and respecting it is everyone's responsibility," she said.

> WHY IS EVERYTHING MEANT ONLY FOR GIRLS? SO MANY RESTRICTIONS, SO MUCH PRUDENCE EXPECTED, SO MANY BOUNDARIES: CM

Gupta said there would be no compromise on women's safety in Delhi and called for coordinated action by the police, administration, educational institutions and society.

"There is no compromise on this in Delhi. It is not solely the girls' responsibility to take care of everything. Everyone has to do their part," she said.

The Chief Minister said the government was strengthening security infrastructure across the city, including the installation of 50,000 CCTV cameras and one lakh streetlights. She said such measures were aimed at making public spaces safer and allowing women to move around without fear.

Gupta also urged women to prioritise their own aspirations instead of allowing family and social responsibilities to overshadow their individual goals.

"Women do everything for everyone, but they must also learn to live for themselves," she said, asking students to choose their careers, set goals and pursue their ambitions with confidence.

She further said that when women raise their voices against inappropriate behaviour or injustice, their complaints should be heard rather than silenced. Families, institutions, police and the administration, she said, must ensure that women can speak without fear and receive appropriate support.

"Women's safety should not mean restricting their freedom. We have to create a society where our daughters can move forward without fear," Gupta said.

During the programme, Gupta also called for better infrastructure at Maitreyi College, including a modern auditorium for academic, cultural and creative activities.

Firefighters get wheels for narrow & crowded lanes

AIMAN FATIMA
New Delhi, September 29

'SEVA SANKALP ABHIYAN'

- CM Rekha Gupta flagged off the motorcycles and QRVs during the inauguration of the Geetanjali Fire Station in Malviya Nagar under the government's 'Seva Sankalp Abhiyan'
- With the new station becoming operational, Delhi now has 71 fire stations, while the government has set a target of taking the number to 120
- Gupta said the government was working to ensure that emergency assistance reaches residents as quickly as possible, particularly in areas where conventional fire tenders face mobility constraints

With narrow lanes, crowded neighbourhoods and traffic often posing challenges for emergency vehicles, the Delhi government on Wednesday expanded the fire service's rapid-response capacity by inducting 20 specialised fire response motorcycles and 26 Quick Response Vehicles (QRVs).

Chief Minister Rekha Gupta flagged off the motorcycles and QRVs during the inauguration of the Geetanjali Fire Station in Malviya Nagar under the government's 'Seva Sankalp Abhiyan'. With the new station becoming operational, Delhi now has 71 fire stations, while the government has set a target of taking the number to 120.

Gupta said the government was working to ensure that emergency assistance reaches residents as quickly as possible, particularly in areas where conventional fire tenders face mobility constraints.

"The Delhi government is committed to providing fast, effective and professional fire and rescue services to every resident of Delhi in an emergency," Gupta said.

She said Delhi's growing population and changing urban landscape required the fire service to adopt modern technology, better mobility and faster response mechanisms.

"A modern fire service is not limited to responding to fire incidents; it also plays an important role in providing quick relief and rescue during different kinds of emergencies," she said.

Home Minister Ashish Sood said densely populated areas, narrow roads and increasing traffic had created new challenges for the city's emergency response system.

"Delhi Fire Service is being modernised to meet the challenges of urbanisation and densely populated areas," Sood said, adding that the department was strengthening its fleet, communication systems, command centres and firefighting equipment.

The 20 specialised motorcycles are designed to reach narrow roads, crowded markets and congested neighbourhoods faster than large fire tenders. They are equipped with compressed-air foam and water-mist backpack systems, high-pressure air cylinders, portable fire extinguishing systems and dual-mode nozzles. Trained firefighters can use them for initial firefighting and rescue until additional resources arrive.

The 26 new QRVs have taken the Delhi Fire Service's total QRV strength to 50. The vehicles have a 125-litre ultra-high-pressure pump firefighting system, including 100 litres of water and 25 litres of foam, along with a high-pressure pump, 60-metre hose and multi-system nozzle.

The government plans to increase the number of QRVs to 100 in phases.

The Geetanjali Fire Station has 16 firefighters, a small fire tender, a QRV and firefighting and rescue equipment. It will cater to Malviya Nagar, Geetanjali, Shivalik, Khirki, Press Enclave, Deoli, Nai Basti, Adarsh Enclave and nearby areas.

The government is also working on eight new fire stations, a vehicle workshop and training facilities, besides developing infrastructure for 23 additional stations. A state-of-the-art fire service training centre is also planned at Budhanpur Majra.

Delhi's sewer overhaul gets about Rs 18,000-crore plan

OUR CORRESPONDENT
New Delhi, September 30

The Delhi Jal Board on Wednesday approved an in-principle Rs 17,969.93-crore, 10-year programme to overhaul the city's sewer network, introducing a 'one zone, one operator' model aimed at fixing responsibility for maintenance, complaints and sewer overflows.

Under the proposed system, Delhi will be divided into eight zones, with a single operator responsible for sewer lines, manholes, pumping stations and complaints in each zone. The model will shift the system from complaint-based repairs to preventive maintenance, backed by geo-tagged inspections, real-time monitoring and 100 per cent mechanical and robotic sewer cleaning.

"For a Delhi resident, it should not matter which officer, division, or contractor is responsible for a sewer. If there is a problem, the system should know about it, someone should be responsible for fixing it, and the work should be tracked till it is completed. That is the change we want to bring," Water Minister Parvesh Sahib Singh said.

The DJB currently maintains 11,212 km of sewer lines, 6.68 lakh manholes and 145 pumping stations across 68 Assembly constituencies. Payments under the new model will also be linked to performance.

The Board also approved a Rs.6,044.05-crore project to transform South Delhi's water network, covering 247 sq km, 13 UGR command areas and 2,44,381 domestic consumers. Smart meters, bulk flow meters and sensors for chlorine and pressure monitoring will be introduced, with the project targeting continuous supply and reduction of non-revenue water below 15 per cent. "We have to know where water is going, where it is being lost, and whether the pressure and quality are right. Technology will help us make the system more accountable and efficient," Singh said.

The Board also approved tenders for 13 sewage treatment plants with a combined capacity of 328 MGD at an estimated Rs.7,373 crore under NMCG funding.

Separately, a Rs.1,214.58-crore Wazirabad project, including an 80 MGD treatment plant and rehabilitation of the existing 40 MGD plant, received administrative approval.

The Board also approved new tariff and metering regulations and cleared individual water connections irrespective of building height, subject to technical feasibility and prescribed conditions.

DDA holds ninth MPD 2047 stakeholder meet

SHIVANGI SHUKLA
New Delhi, September 30

The Delhi Development Authority (DDA) held its ninth stakeholder consultation on the Master Plan for Delhi 2047 (MPD 2047), with discussions centred on the River Yamuna, Green-Blue Infrastructure and measures to make Delhi pollution-free.

The consultation followed the directions of Lieutenant Governor Sardar Taranjit Singh Sandhu, who has stressed that issues concerning the Yamuna and other blue and green assets in the capital can be addressed substantively only when people become stakeholders in their maintenance and sustenance.

The DDA briefed participants on key provisions of MPD 2047, particularly those concerning the rejuvenation of the Yamuna and development of Green Blue Infrastructure.

The plan takes an integrated approach to protecting, restoring and sustainably managing Delhi's natural assets, with the stated aim of providing environmental, health, socio cultural and economic benefits.

The provisions include ecological restoration, strengthening of urban forests and biodiversity, rejuvenation of the Yamuna and other water bodies, and conservation of floodplains, wetlands and natural and constructed drains.

The plan also promotes nature-based solutions, indigenous species and connected green networks to improve environmental quality, climate resilience and urban liveability.

Pollution prevention and reduction also formed part of the discussions.

SPORTS PUSH

Delhi Sports and Youth Affairs Minister Ashish Sood meets Indian weightlifter Mirabai Chanu in New Delhi on Wednesday and invites her to contribute to the Delhi government's plans for developing sports facilities and youth programmes in the Capital

'SAFAI MITRA SURAKSHA EVAM SAMMAN SHIVIR'

Delhi govt promoting mechanical sweeping and litter-picking to facilitate sanitation workers: CM

OUR CORRESPONDENT
New Delhi, September 30

The Delhi government is promoting mechanical sweeping and garbage collection by giving funds to the MCD for procuring 1,000 litter-picking machines, Chief Minister Rekha Gupta said on Wednesday.

Addressing a gathering of sanitation workers at 'Safai Mitra Suraksha Evam Samman Shivir', the chief minister said after the 1,000 litter-picker machines are suitably deployed, the government will increase their numbers. She further said the government has provided funds to the Municipal Corporation of Delhi (MCD) for procuring mechanical sweeping machines, including 70 large ones.

The Delhi government on Tuesday decided to provide funds to the MCD for procuring 30 small-sized mechanical sweepers to ensure cleaning and dust removal in narrow lanes and streets of the city, the chief minister said.

Lauding the sanitation workers for their hard work to keep the city clean, Gupta said her government is providing them with machines and tools and also ensuring their welfare through schemes related to health and education.

Union Minister for Social Justice and Empowerment Virendra Kumar and Union Minister of State BL Verma also attended the programme held at the MCD headquarters.

The camp brought care and welfare closer to our 'safai mitras', 'swachhagrahis' (sanitation workers) and their families through preventive health check-ups, access to welfare schemes of the Centre and Delhi government, and distribution of PPE (personal protective equipment) and safety kits, Delhi CMO said in a post on X.

"Our safai mitras are the strength behind a Swachh Delhi. Delhi government expresses its deepest gratitude for their invaluable service and remains committed to their dignity, safety and welfare," the post read.

Union Social Justice and Empowerment Minister Kumar said the government is committed to ensuring safety, dignity and socio-economic empowerment for sanitation workers, asserting that no worker should lose their life while cleaning a sewer or septic tank.

"Safai mitras are not merely guardians of cleanliness; they also play an important role in building a clean and healthy India. Therefore, we all must collectively work for their respect, safety, health and socio-economic empowerment," he said.

The minister said the contribution of sanitation workers cannot be forgotten or overlooked as their work helps keep cities and towns clean, and reduces the burden of diseases and hospital expenditure.

CCTV systems within police stations must be operational 24x7: HC

MPOST BUREAU
Prayagraj, September 30

The Allahabad High Court has said that CCTV systems within police stations must remain operational 24x7 throughout the year and police must follow certain safeguards when such surveillance is non-functional.

If CCTV is non-functional, details of all persons brought for interrogation or arrest must be recorded contemporaneously in the General Diary (GD), it said.

A bench of justices Atul Sreedharan and Achal Sachdev made the observations while hearing a case of Raghvendra Dubey and another. In its order dated September 23, the court directed that CCTV systems within police stations must remain operational 24/7 and for 365 days.

The court observed, "The facts of this case, prima facie, strongly disclose that the police personnel acted as recovery agents on behalf of the complainant."

According to the petitioner, he was illegally picked up from Asansol and brought to Sardhuwa police station in Chitrakoot due to a sand-mining agreement dispute. The state argued that the petitioner was arrested pursuant to non-bailable warrants after the registration of an FIR.

Setting aside the arrest due to a "grossly deficient" arrest memo witnessed only by police personnel, the bench ordered his release and awarded Rs 10,000 as compensation for 24 hours of illegal detention.

The court directed that if a system fails, the Station House Officer (SHO) must make a GD entry recording the exact time of failure and identify the official to whom the failure was reported in writing and the Superintendent of Police (SP) of the district must be informed to ensure minimal downtime and record repair steps.

The court said, "Another worrying aspect of this case to which this court must advert to is the repeated number of cases in which the police are trying to manipulate CCTV cameras within the premises of the police station." "During CCTV non-functionality, entry time, departure time, and interrogation details of every suspect must be recorded in the GD. A signed receipt must be obtained from the person or their next of kin upon release," added the bench.

FIR REGISTERED

One killed, eight injured in MRPL oil refinery explosion

MPOST BUREAU
Mangaluru, September 30

One person was killed and eight injured in a massive explosion at the MRPL oil refinery near Jokatte here on Wednesday, police said.

Mangalore Refinery and Petrochemicals Limited (MRPL) also confirmed the death of one person.

Meanwhile, police registered a case against two officials of MRPL regarding the incident following a complaint.

The body of the deceased, identified as Manish Karkera (30) from Mulky town, was completely charred while the injured have been shifted to the hospital, according to police.

Condition of one of the injured is said to be critical, police added.

In a statement, MRPL called it a fire incident and said it the blaze was extinguished after 2.30 hours after it erupted.

"During the subsequent combing and inspection operations following the firefighting activity, the body of one deceased person was found at the affected site. One person who sustained burn injuries is undergoing treatment at the hospital and is being provided necessary medical care," MRPL Chief General Manager Rudolph V Noronha said in the statement.

Noronha added that earlier an incident involving the rupture of a Cold Separator operating at high pressure in the Coker Hydrotreater Unit resulted in a fire at around noon. The battery limits of the affected unit were immediately isolated, and MRPL's emergency response and firefighting teams were deployed to control the situation.

Earlier, the explosion was so strong that people felt the tremor and rushed out of the house suspecting that it was an earthquake.

Many houses developed cracks, glass windows broke and utensils fell on the ground. The roof tiles of a church nearby shattered into pieces.

The loud explosion was heard at least 10-12 kilometres away. A large plume of thick black smoke followed which was visible even from far-off places.

Fire tenders from Mangaluru, Pandeshwar and nearby areas rushed to the spot. The explosion occurred in the Jokatte area, where the refinery's third plant is located.

Acting on a complaint filed by the injured persons and the owner of the catering company for the workers in that plant, the Surathkal police registered a criminal case against the head of the Coker Hydrotreater Unit (Phase-3) and the top management of MRPL,

The First Information Report (FIR No. 132/2026) was registered based on a written complaint filed by 53-year-old Ravi Poojary, an employee of 'K Star Food and Hospitality Services, a catering vendor providing food and water to workers inside the refinery.

According to the complaint, the incident occurred at around 12:15 PM inside the Coker Hydrotreater Unit in Bala village, Katipalla. Poojary stated that while workers were present near the facility, a massive explosion erupted due to the failure and bursting of mechanical equipment within the unit.

Ram Temple donation theft: Bail pleas of two accused deferred

MPOST BUREAU
Ayodhya, September 30

The bail applications of two accused in the alleged Ram Temple donation theft case could not be heard on Wednesday in a special court as the judge was on leave, their lawyer said.

Advocate Kul Shekhar Singh, representing accused Subhash Srivastava and Ramashankar Yadav alias Tinnu Yadav, said that the Anti-Corruption court of Judge Rajat Verma will now hear the bail applications on October 6 and 7.

"The hearing could not take place today as the judge was on leave. The bail applications will now be heard on October 6 and 7, with one application being taken up on each day," Singh said.

He said bail pleas of the six others accused had earlier been heard on separate dates but were rejected by the special court.

"If the bail applications of the remaining two accused, Subhash Srivastava and Ramashankar Yadav alias Tinnu Yadav, are rejected at the next hearing, we will move the Allahabad High Court (Lucknow bench) with bail applications for them as well as the other accused," Singh said.

Singh said he and his colleagues were examining the charge sheet filed recently in the case, which runs into thousands of pages, and the arguments in the matter would be based on their examination of the document.

The charge sheet was filed by the Supreme Court-mandated Special Investigation Team (SIT) and runs into around 70,000 pages, naming 173 witnesses.

Investigators have also collected video evidence of 105 instances in which cash was allegedly diverted during the counting of donations, according to a senior police officer.

The case relates to alleged embezzlement of cash and valuables offered by devotees at the Ayodhya Ram Temple. Eight people were arrested after an FIR was registered on June 25 based on a preliminary SIT report.

Most of the accused are bank employees deployed for counting donations.

From page 1

Indian captain

parties to avoid premature speculation while authorities establish what happened.

Israeli Prime Minister Benjamin Netanyahu said one pilot stabbed the other and apparently attempted to crash the aircraft. He said a passenger and a crew member managed to enter the cockpit and overpower the pilot who had carried out the stabbing, while another crew member subsequently helped stabilise the aircraft.

"I salute these heroes who demonstrated extraordinary resourcefulness and courage. They saved many lives and prevented a major disaster," Netanyahu said.

Some Israeli media reports identified the co-pilot as an Omani national and said he had allegedly tried to interfere with the aircraft's systems. The allegations have not been independently confirmed by Flydubai, which has not disclosed the identities or nationalities of either pilot.

Passengers described scenes of panic during the incident. Zvika Manes, who said he helped subdue the alleged attacker, told Israeli media that his wife heard shouting and screams near the cockpit before he and others intervened.

"I'm covered in blood. It was insane," he was quoted as saying.

Another passenger, Dalia Shpigel, said there were "terrible screams throughout the plane" before several passengers entered the cockpit and subdued the attacker.

A passenger identified as Daniel said two off-duty pilots who were travelling on the aircraft later took control of the flight. He described the aircraft spinning and diving during the confrontation.

The incident initially triggered fears of a possible hijacking, and Israeli fighter jets were scrambled. Flight-tracking data showed the aircraft transmitted emergency signals, including one indicating possible unlawful interference.

The plane eventually landed safely at Tabuk Airport. Both the captain and first officer were reported to have sustained injuries and were taken to hospital, while passengers received assistance at the terminal.

Machchhar has more than 13 years of commercial flying experience on Boeing 737 aircraft, according to sources. He joined SpiceJet in 2011 and served in roles including senior commander and line training captain before leaving the airline in June 2022. He then joined Flydubai as a direct-entry captain.

After the emergency landing, the passengers later returned to Tel Aviv on a rescue Flydubai flight.

The alleged attacker was arrested after the aircraft landed and was being questioned by Saudi authorities, according to Netanyahu. The circumstances of the cockpit confrontation, including the motive and the sequence of events inside the flight deck, remain under investigation.

Opposition closes ranks

mass mobilisation would be launched against alleged 'vote chori' and demanded the removal of Chief Election Commissioner Gyanesh Kumar.

The decision was taken at a meeting attended by 20 parties, including the Congress, SP, TMC, NCP(SP), Shiv Sena (UBT), RJD, CPI(M), CPI and JKNC. Uddhav Thackeray and Hemant Soren joined virtually.

Under the plan, 'Save Democracy' marches will be held in every district from October 2 to 8, followed by a march of Opposition MPs from both Houses to the ECI headquarters on October 6. The leaders will seek an appointment with the President in the second week of October and hold five rallies across the country in October-November, the first in Delhi on November 1.

A senior leader said the Leader of Opposition in the Lok Sabha Rahul Gandhi elaborated upon how the Opposition had been raising the issue from the beginning.

"This is not an ordinary fight. We have to fight unitedly for the survival of democracy," the leader quoted Rahul Gandhi as saying. However, Gandhi also acknowledged that political dynamics change at the state level.

The discussions ranged from the Special Intensive Revision (SIR) of electoral rolls and alleged irregularities in elections to EVMs, with leaders sharing their experiences and stressing the need for the opposition parties to work together on the issue.

Rahul Gandhi stressed the need for collective action, telling the meeting that all opposition parties were "equal sufferers" and should focus on the collective fight, the sources said.

He also told the leaders that they should "walk this path together" and that someday people would remember them as those who had stood together to save democracy.

In his remarks, Congress president Mallikarjun Kharge recounted his own electoral experience, telling the meeting how he had been "conned" in his own election despite having won several elections earlier, the sources said.

Kharge, the Rajya Sabha LoP, alleged that around 1.9 lakh voters had been removed from his constituency when he lost the Lok Sabha election from Gulbarga in 2019, his first electoral loss in decades of political career. The allegation could not be independently verified.

TMC chief and former West Bengal Chief Minister Mamata Banerjee made a forceful intervention on the functioning of the Election Commission and the electoral process, questioning the manner in which the poll body was handling voter registration and the SIR exercise, the sources said.

She also referred to the situation in the state, raising the issue of violence, including incidents involving Jadavpur University, the Satyajit Ray Film and Television Institute and educational institutions, the sources said.

At another point, she attacked CEC Kumar, referring to him as "Vanish Kumar".

Banerjee also said she had spoken to BJD leader Naveen Patnaik, as leaders discussed the need to keep parties outside the INDIA bloc engaged with the wider campaign on electoral issues, the sources said.

Senior advocate and independent Rajya Sabha member Kapil Sibal suggested that opposition parties jointly approach the Supreme Court challenging the 2023 law governing the appointment of the CEC and election commissioners, a proposal backed by Banerjee, the sources said.

Sibal told the meeting that the CEC enjoyed legal immunity under the law and argued that those responsible or involved in any wrongdoing could be proceeded against, an opposition leader said.

The need for a political fight to be accompanied by mobilisation on the ground also figured prominently in the discussions. CPI(M) general secretary M A Baby stressed the need to involve civil society in the campaign.

"This is a fight against the RSS. Don't forget that. Civil society will have to be involved," Baby said, according to the sources.

RJD leader Tejashwi Yadav spoke about the Bihar election, saying that he and Rahul Gandhi had received a good response while campaigning but were nevertheless "looted", drawing a parallel with the experience of the TMC in West Bengal.

CPI (ML) Liberation general secretary Dipankar Bhattacharya spoke about the need to bring young people into the political and electoral process and raised the issue of reducing the voting age to 16 years, from the present 18 years.

National Conference leader Omar Abdullah warned that continued questions over the electoral process could undermine people's faith in elections.

Several leaders also spoke in favour of returning to paper ballots, which Kharge later announced at a joint press conference with other INDIA bloc leaders.

Shiv Sena (UBT) chief Uddhav Thackeray, who participated online, criticised the Election Commission and questioned the description of bypolls as being of lesser significance, the sources said.

Thackeray said the poll panel's role appeared to have become one of "looting elections and breaking parties" and said that after his party, the TMC was now facing a similar situation.

Jharkhand Chief Minister and JMM chief Hemant Soren also joined the meeting online and said he was on board over the issue.

During the meeting, the bonhomie between Congress parliamentary party chairperson Sonia Gandhi and TMC chief Mamata Banerjee was palpable.

The two veteran leaders sat together during the three-and-a-half-hour meeting at the Constitution Club and then at the press conference, Banerjee was seen urging Gandhi to sit next to Kharge in the centre. Banerjee then sat next to Gandhi.

Bonhomie was on full display as Banerjee addressed the presser. Sonia Gandhi was seen nodding in agreement as Banerjee called for Gyanesh Kumar's removal.

Gandhi also thumped the desk as Banerjee vowed – "We will fight; we will win; we will work to restore democracy; and we will protect the Constitution."

EC drops

Union Territories where SIR is still underway.

In states where the revision has concluded, the declaration has been taken off the ECINET app and portal, as well as the websites of the respective Chief Electoral Officers. Applicants in these states will now use only the statutory Form 6 prescribed under the Registration of Electors Rules, 1960.

The changes follow a September 26 meeting of Chief Election Commissioner Gyanesh Kumar and Election Commissioners Sukhbir Singh Sandhu and Vivek Joshi. The Commission said after the meeting that the additional declaration was intended specifically for SIR and that "for non-SIR period, the Forms applicable as per Rules (the Registration of Electors Rules 1960) will be used".

The Form 6 issue had triggered objections within the Commission. Joshi had questioned changes to the statutory form, arguing that a form prescribed under the 1960 rules could not be altered without an amendment to those rules. Sandhu had supported his position.

After the SIR declaration was added to the online Form 6 process, Sandhu again objected, calling the change "unauthorised/illegal" and seeking its withdrawal.

The EC has maintained that Form 6 itself was not changed and that the declaration was an additional requirement applicable to SIR. It has also said the declaration was upheld by the Supreme Court in its ruling on the Bihar SIR.

The September 26 meeting followed a report by The Indian Express that Sandhu and Joshi had recorded objections at least 14 times over 10 months regarding SIR-related decisions and orders. The Commission said those orders had the unanimous approval of all three election commissioners.

SC rules

"We need to find a solution by which we can give a specified time," the bench observed orally.

During the hearing, Additional Solicitor General Aishwarya Bhati submitted a note saying a limited and conditional relaxation may be considered in respect of specified 'next-generation joined green crackers' as recommended by CSIR-NEERI – complying with the applicable noise, emission and safety requirements, and subject to these firecrackers conforming to certain conditions.

Developed in collaboration with the Council of Scientific and Industrial Research - National Environmental Engineering Research Institute (CSIR-NEERI), next-generation joined green crackers are newly-formulated linked fireworks designed with reduced barium salts to lower emissions.

The note further submitted that these specific firecrackers may be permitted if they are manufactured only by duly licensed manufacturers, comply with the prescribed noise limit of 125 dB(AI)/145 dB(C) peak, and shall not contain banned chemicals.

The top court said it will consider the issue pertaining to the use of barium in firecrackers on October 15.

In a significant relaxation ahead of Diwali, the top court had last year permitted sale and use of green firecrackers in Delhi and the National Capital Region, with conditions aimed at balancing traditions with environmental and health concerns.

The court had made it clear that use of green crackers will be confined to specific hours of the day before Diwali and on the festival day itself.

Ojha gets

approved his re-employment as principal director general, PIB, on a contract basis for one year beyond his superannuation on September 20, 2026, with effect from October 1, 2026, till September 30, 2027, or until further orders, according to an order issued by the Personnel Ministry.

With the latest order, Ojha will continue as principal director general, PIB, the principal spokesperson of the central government, till September next year.

SC pulls up UP Police

involving a motorcycle. Appearing in person, the petitioner alleged that the police acted with a predetermined bias by registering the FIR against an "unknown" biker, despite his claim that he had caught the rider at the spot and handed him over to the police.

"Why did you write unknown if the person was caught at the spot?" the court asked. "How will people trust the police?"

The court also expressed strong displeasure over the handling of the investigation and said, "It is better if we ask the CBI to step into all UP Police investigations. We might as well disband the UP Police."

The petitioner further alleged that the police changed their version after the Allahabad High Court sought a status report. He claimed the rider's name was later added to the FIR and chargesheet, before the accused was subsequently exonerated. He also alleged that the seized motorcycle had no number plate, but a registration number later appeared in the case records.

Monsoon

The seasonal outcome was also lower than the IMD's own forecasts. On May 29, the weather department had projected rainfall at 90 per cent of the LPA, with a model error of 4 per cent. Its earlier forecast, issued on April 13, had put the expected rainfall at 92 per cent of the LPA.

IMD Director General of Meteorology Mrutyunjay Mohapatra said the rainfall deficit could have been larger without the formation of several low-pressure systems during the season.

"There were 14 low-pressure systems that formed this season, and 77 low-pressure system days were witnessed against the normal 57 days," Mohapatra said. These systems brought additional rainfall to several parts of the country and helped limit the overall seasonal shortfall.

The monsoon has also begun its withdrawal from northern and western parts of the country. According to Mohapatra, it has so far retreated from most parts of Punjab, Haryana and Rajasthan, the whole of Delhi, and some parts of Uttar Pradesh and Gujarat.

The IMD said conditions are favourable for the monsoon to withdraw from most parts of central and northwest India during the first week of October. Withdrawal from most parts of eastern and northeastern India and some areas of north peninsular India is expected during the second week.

Looking ahead, the weather department has forecast below-normal rainfall for October. Mohapatra said average rainfall across the country during the month is likely to be 85 per cent of the LPA. The LPA for October, calculated using rainfall data from 1971 to 2020, is about 75.4 mm. Most parts of the country are expected to receive below-normal rainfall, although some areas of northwest India, southern parts of peninsular India and isolated areas of eastern India could receive normal to above-normal rainfall.

The IMD also expects both maximum and minimum temperatures to remain above normal during October.

LPA refers to the average rainfall recorded over a region during a specified period, calculated over a long-term period, generally spanning several decades.

Briefs

Pralhad Joshi meets Tripura Guv

NEW DELHI: Union Education minister Pralhad Joshi met Tripura Governor Indra Sena Reddy Nallu and deliberated upon strengthening the state's education ecosystem.

"Indra Sena Reddy Nallu ji, Governor of Tripura, met me today. We discussed key priorities in the education sector and deliberated on strengthening the state's education ecosystem, improving quality and accessibility and expanding opportunities for students in line with the vision of a #ViksitBharat," Joshi said in a post on X.

AAP MLA marshalled out in J&K

SRINAGAR: AAP MLA from J&K's Doda, Mehraj Malik, was on Wednesday marshalled out of the Legislative Assembly after he went to the well of the House to register his protest for not being allowed to speak.

Malik went into the well of the House while the Question Hour was going on, alleging that he was not being allowed to speak on issues in the Assembly.

'AAP govt allowed drug trade'

JALANDHAR: Union Home Minister Amit Shah launched a scathing attack on the AAP government in Punjab on Wednesday over the drug menace in the state, accusing it of allowing the trade in the contraband to run openly.

Seeking support for the BJP in the Assembly polls due early next year, Shah said the saffron party will free Punjab from "chitta" (heroin) by December 31, 2029.

Rahul to visit MP on October 1

BHOPAL: Congress leader Rahul Gandhi will visit Madhya Pradesh's tribal-dominated Balaghat district on October 1 and meet the families of more than 30 children who have died due to suspected infectious diseases in the last few months, a party leader said on Wednesday.

Gandhi will travel to Jalga village and interact with the parents of about 30 children who have died.

Ladakh L-G inaugurates futsal ground

LEH: Ladakh Lieutenant Governor V K Saxena on Wednesday inaugurated a Rs 1.70-crore futsal ground at Spituk and said the initiative marked another milestone in the Union Territory's efforts towards youth empowerment.

Futsal is a fast-paced version of football (soccer) played mainly indoors or on a small, hard court.

'RAHUL REJECTED AS ITS LEADER'

'Zero vision, 100% frustration' outcomes of Oppn meet: BJP

OUR CORRESPONDENT
New Delhi, September 30

The BJP said the outcomes of the INDIA Bloc meeting on Wednesday were "zero vision, 100 per cent frustration, and an advance excuse for poll defeats", with the leaders of the Opposition grouping rejecting Rahul Gandhi's leadership.

"The INDI Alliance fell apart even before the meeting took place. The DMK did not attend the meeting. Akhilesh was busy elsewhere. The AAP had already declined," Union minister Shivraj Singh Chouhan said at a press conference at the BJP headquarters.

The senior BJP leader further pointed out that Shiv Sena (UBT) chief Uddhav Thackeray said he will join the meeting virtually.

"Why is this happening? It is because the INDI Alliance is simply not willing to accept Rahul Gandhi as its leader. His leadership is not being accepted; that is why they are not even showing up," Chouhan said, contending that Samajwadi Party president Akhilesh Yadav would have come to attend the meeting if it was "really so important."

Chouhan claimed that the Opposition INDIA Bloc is crumbling.

"No matter how many times they (Congress) try to re-launch Rahul Gandhi, the INDIA Bloc does not consider him their leader," he said.

INDIA Bloc meeting underway to finalise an action plan for a joint agitation over alleged irregularities in the SIR exercise, in New Delhi PTI

KEY POINTS

- Chouhan claimed that the Opposition INDIA Bloc is crumbling
- 'Leave the INDIA Bloc aside; even Congress leaders and members of the party are not willing to accept Rahul Gandhi as their leader'

"Leave the INDIA Bloc aside; even Congress leaders and members of the party are not willing to accept Rahul Gandhi as their leader. Rahul himself, during Congress Working Committee meetings, keeps pleading: 'Accept me as your leader, trust me'," the BJP leader said, and wondered how the country could accept someone as a leader whom his own party does not.

The BJP's remarks came after the INDIA Bloc leaders met here to finalise an action plan for a joint agitation over alleged irregularities in the SIR.

The Congress asserted that the Opposition stands united to protect the Constitution from "repeated assaults" of the Modi government, including its "vote chori gameplan" to remain in power.

While the DMK and the AAP skipped the meeting, Akhilesh Yadav did not attend it on account of nominations for Rajya Sabha polls in Uttar Pradesh.

Congress president Mallikarjun Kharge, former party chiefs Sonia Gandhi and Rahul Gandhi, AICC general secretaries Jairam Ramesh and K C Venugopal, the TMC's Mamata Banerjee, and leaders from the SP, CPI, CPI(M), NCP(SP) and Shiv Sena (UBT), among others, attended the meeting.

Chouhan alleged that the INDIA Bloc's proposed marches from October 2 to October 8 at various locations in the country are not meant to save democracy, but to save the "dynasty" of the Congress and its constituents.

'PM against social justice, his entire system hates education'

Prime Minister Modi does not want students to think or ask questions, alleges Rahul Gandhi

OUR CORRESPONDENT
New Delhi, September 30

Congress leader Rahul Gandhi on Wednesday alleged that Prime Minister Narendra Modi is against social justice and his entire system hates education because he does not want students to think or ask questions.

The leader of opposition (LoP) in the Lok Sabha shared a screenshot of a media report which claimed that works of prominent intellectuals and academics recommended as readings in several higher learning institutions are under the scanner of the Higher Education Department following an inquiry by the Prime Minister's Office.

The probe was triggered by an anonymous social media post terming these works "poison", the report also claimed.

In his post in Hindi, Gandhi said, "Modi ji is against social justice and equality. His entire system hates education because they do not want students to think or ask questions."

"Here is the latest proof. In an anonymous tweet, essential books like Babasaheb Ambedkar's 'Annihilation of Caste' and Jyotiba Phule's 'Ghulamgiri' were described as injecting 'poison' into the minds of youth," he said.

Gandhi claimed that the very next day, on Sunday, at the direction of the PMO, the Ministry of Education asked all central universities for information on their syllabi, and inquired how many students are enrolled in these courses.

Congress MP Rahul Gandhi meets people living in Bela Estate on the banks of Yamuna river amid the strike off of voter names following a SIR, in New Delhi PTI

AAP not part of INDIA Bloc: Sanjay Singh

OUR CORRESPONDENT
New Delhi, September 30

Aam Aadmi Party MP Sanjay Singh on Wednesday said his party is not part of the INDIA Bloc and is therefore not attending the meeting called to discuss issues concerning the Election Commission.

The AAP leader also said his party supported the impeachment motion against Chief Election Commissioner Gyanesh Kumar and was fighting against what he described as shortcomings of the Election Commission "from the streets to Parliament".

The AAP announced its exit from the Opposition INDIA Bloc on July 18, 2025, with Singh saying the alliance was formed specifically for the 2024 Lok Sabha elections. Top leaders of the INDIA bloc are meeting here to finalise an action plan for a joint agitation over alleged irregularities in the Special Intensive Revision. Among those at the meeting are Congress president Mallikarjun Kharge, former party chiefs Sonia Gandhi and Rahul Gandhi, AICC general secretaries Jairam Ramesh and K C Venugopal, the TMC's Mamata Banerjee, and leaders from parties such as the SP, CPI, CPI(M), NCP(SP) and Shiv Sena (UBT).

RS polls: SP candidates Ram Gopal, Nathwani file nomination

OUR CORRESPONDENT
Lucknow, September 30

Samajwadi Party candidates Ram Gopal Yadav and Dhanraj Parimal Nathwani on Wednesday filed their nomination papers for the Rajya Sabha polls in Uttar Pradesh.

Both Yadav and Nathwani, an executive of Reliance Industries Limited (RIL), filed their nominations in the presence of party president Akhilesh Yadav, Shivpal Yadav and party MLAs.

Based on the current strength of the Uttar Pradesh Assembly, the BJP-led alliance is in a position to win eight seats, while the SP, with Congress support, can secure two.

However, the Samajwadi Party is likely to filed its third candidate also.

Nathwani has held senior responsibilities across several key businesses and institutional initiatives of the Reliance group. Nathwani serves as board member of Reliance Corporate IT Park Ltd and drives critical manufacturing and business verticals of RIL, bringing extensive experience across industry, infrastructure and emerging technologies.

Akhilesh Yadav with SP candidates, in Lucknow on Wednesday PTI

According to the Election Commission schedule, October 6 is the last date for filing nominations. Scrutiny will be held on October 7 and candidates can withdraw their nominations till October 9.

ED arrests Vatika Group CMD, promoter in PMLA case

OUR CORRESPONDENT
New Delhi, September 30

The Directorate of Enforcement (ED) has arrested the chairman and promoter of a realty firm in a money laundering case linked to the alleged non-delivery of residential plots for which buyers had paid hundreds of crores.

Vatika Group chairman-cum-managing director Anil Bhalla and promoter Gautam Bhalla were arrested on Monday under the Prevention of Money Laundering Act (PMLA), 2002.

They were produced before a special PMLA court in Gurugram on Tuesday and remanded in ED custody till October 3, an ED spokesperson said on Wednesday.

The case stems from multiple FIRs registered by the economic offences wing (EOW) of Delhi Police for alleged fraudulent inducement and non-delivery of residential plots.

Left seeks wider mobilisation against CEC Gyanesh Kumar

Urges non-NDA parties, civil society to join agitation

OUR CORRESPONDENT
New Delhi, September 30

The Left parties on Wednesday sought to widen the agitation against Chief Election Commissioner (CEC) Gyanesh Kumar beyond the INDIA Bloc, calling for the participation of all non-NDA parties as well as civil society groups, artistes, writers and prominent personalities.

CPI(M) general secretary M A Baby said the Left front wanted to turn the agitation into a sweeping movement over what it described as erroneous functioning of the Election Commission (EC) under Kumar.

"Besides non-NDA parties, big, medium and small, we want the civil society to participate in the agitation, alongside artists, writers and cultural personalities," Baby told news agency.

> **BESIDES NON-NDA PARTIES, BIG, MEDIUM AND SMALL, WE WANT THE CIVIL SOCIETY TO PARTICIPATE IN THE AGITATION, ALONGSIDE ARTISTS, WRITERS AND CULTURAL PERSONALITIES**

He said this issue was separate from the organisational future or composition of the INDIA Bloc, and individual parties would have to decide their position on the alliance.

"As far as the content of the INDIA Bloc is concerned, that is a separate matter. It depends not only on INDIA Bloc, but on each of these parties," Baby said.

Opposition parties, including the Left front, are seeking Kumar's removal in the wake of allegations of misconduct related to the functioning and decisions of the EC, including the Special Intensive Revision (SIR) of electoral rolls.

Top leaders of INDIA Bloc parties met here on Wednesday to finalise an action plan for a joint agitation over alleged irregularities in the functioning of the EC and the conduct of SIR. Leaders from CPI, CPI(M), and other Left front parties joined the meeting.

Baby said the agitation should also reach out to parties that are not part of the INDIA Bloc and have political differences with its constituents. "We are requesting them to join... this agitation must be made broader."

The CPI(M) leader also pointed to concerns raised by parties belonging to the BJP-led alliance on the EC's functioning.

Special PMLA Court frames charges against Jharkhand CM

OUR CORRESPONDENT
Ranchi, September 30

A special PMLA court here on Wednesday framed charges against Jharkhand Chief Minister Hemant Soren in an alleged 8.86-acre land fraud case, his lawyer said.

The Enforcement Directorate has registered a money laundering case in connection with the alleged illegal acquisition and transfer of the land in the Bargain area of the state capital.

"The special PMLA (Prevention of Money Laundering Act) court framed charges against the Jharkhand chief minister and now put the matter for trial," Soren's lawyer Sanjeev Sahay said.

The chief minister appeared before the court through video conferencing.

Trial in the case will start, and witnesses will be examined, Sahay said.

Punjab Cong chief set to quit, Vijay Inder Singla frontrunner for post

OUR CORRESPONDENT
Chandigarh, September 30

Punjab Congress president Amarinder Singh Raja Warring is set to be replaced following weeks of infighting in the state unit, party sources said on Wednesday.

Former minister and MP Vijay Inder Singla has emerged as the frontrunner for the post ahead of the 2027 Assembly polls, they said.

The Congress high command has informed Warring of its decision to replace him, following which he has offered to resign, the sources said.

Singla, a Hindu face and a Congress Working Committee member, was appointed the chairperson of the party's election management and coordination committee on July 1.

Besides Singla, the names of former Olympian and Jalandhar Cantt MLA Pargat Singh, former MLA Rana KP Singh, Raja Sansi MLA Sukhbinder Singh Sarkaria, former chief minister Charanjit Singh Channi and Gurdaspur MP Sukhjinder Singh Randhawa are also doing the rounds for the post.

The announcement of a new Punjab Congress chief is expected soon, party sources said.

The development came days after the issue of appointing a new Punjab Congress chief was discussed by Leader of Opposition in the Lok Sabha Rahul Gandhi, Congress president Mallikarjun Kharge, AICC general secretary K C Venugopal and general secretary in-charge of Punjab Affairs Sachin Pilot at a recent meeting.

Sena (UBT) leader shot dead in Thane

OUR CORRESPONDENT
Thane, September 30

Shiv Sena (UBT) leader Sanjay Raut on Wednesday attacked Maharashtra Chief Minister Devendra Fadnavis over the killing of a party functionary in Thane, calling it a "disgrace" for the state Home Department.

Party leader Aaditya Thackeray also targeted the govt over "repeated" such incidents, which he claimed prove that the state's law and order situation was deteriorating.

NORTHERN RAILWAY
(E-Auction Notice)

SERVING CUSTOMERS WITH A SMILE 3405/2026

'HE WAS EX-PAK ARMY SSG COMMANDO'

Senior LeT commander killed in intelligence-led op in J&K

NARESH BISWANI
New Delhi, September 30

HIGHLIGHTS

- The operation was part of Operation Sheruwali, which started in May 2026
- The four commanders' modules were responsible for numerous terror strikes apart from the ones named above
- Asif, who also operated under aliases such as Fauji and Sulaiman Shah, infiltrated into Jammu and Kashmir in 2021

Security forces killed a senior Lashkar-e-Taiba (LeT) commander, Moosa alias Asif Fauji, in an intelligence-led joint operation in Budgam district of Jammu and Kashmir, the Ministry of Home Affairs said in a statement on Wednesday.

Moosa was killed in Gurwatkalan in the Khansahib police station area of Budgam after an operation based on technical and human intelligence inputs regarding his movement and location.

The security forces had been monitoring him for a long time and recently laid a trap involving multiple stakeholders to kill him, the statement said.

The operation was part of Operation Sheruwali, which started in May 2026. According to the government, Moosa's killing completes the killing of a group of four senior commanders of LeT who had been active in Jammu and Kashmir since 2022 and were allegedly involved in several terror attacks.

The other three commanders – Junaid Bhat, Suleman and Yasir – were killed in encounters.

Junaid Bhat was killed in Dachigam on December 3, 2024, Suleman during Operation Mahadev on July 28, 2025, and Yasir during Operation Asdhar on September 4, 2026.

The four commanders' modules were responsible for numerous terror strikes apart from the ones named above. They were linked to attacks in Halan, Kandi, DKG, Shahsitar, Shiv Khori, Gagangir, Bootapathri and Baisaran between 2023 and 2025.

The government said Jammu and Kashmir Police, the Indian Army and Central Armed Police Forces have been carrying out counter-terrorist operations in close coordination.

The slain terrorist of the banned LeT was a retired havildar from the Pakistan Army's elite Special Services Group (SSG), who once served in former president Pervez Musharraf's security convoy, officials said on Wednesday.

Asif, who also operated under aliases such as Fauji and Sulaiman Shah, infiltrated into Jammu and Kashmir in 2021 and was serving as the LeT's chief operations commander in the region.

Security officials said his death not only concluded an intensive five-year hunt but also rendered the Pakistan-based terror group leaderless in the region.

During his 23-year tenure with the Pakistani military, Asif spent 18 years in the SSG.

Between 2006 and 2008, he was deputed to the security detail of former Pakistan president Pervez Musharraf.

During his service, he underwent specialised VVIP protection training in the United States and completed medical courses with US Special Forces.

Following his retirement from the army, Asif, whose service number was PA-3106947, was handpicked by terror handler networks initially to train cadres before being infiltrated into Jammu and Kashmir to lead LeT operations.

'Satyamev Jayate, Supreme Court motto linked to Upanishads and Mahabharata'

Mahatma Gandhi visualised ideal model of governance as 'Ram Rajya', according to the NCERT's Class 9 social science textbook

OUR CORRESPONDENT
New Delhi, September 30

NCERT'S PUBLISHED SYLLABUS INCLUDES SIX CHAPTERS SPANNING HISTORY, GEOGRAPHY, POLITICAL SCIENCE AND ECONOMICS

The new class 9 social science textbook links mottos of several modern Indian institutions, such as 'Satyamev Jayate' and 'Yato Dharmastato Jayah', to the Upanishads, the Mahabharata and other texts.

The NCERT book, 'Understanding Society India and Beyond-Part 2', was released on Tuesday, six months after the new academic session began. The first part of the textbook was released in June.

According to the chapter 'Governance and Public Policy', India's national motto 'Satyameva Jayate' is linked with the Mundaka Upanishad, while the Supreme Court motto, 'Yato Dharmas Tato Jayah', has origins in the Mahabharata.

"Since Independence, Indian institutions have continued to draw upon traditional ideas and values of governance and have adapted them to the needs of a modern democracy. For example, the British-era 'Order of the Star of India' used the phrase 'Heaven's Light, Our Guide' as its motto, but after Independence, we have adopted 'Satyamev Jayate' (Truth alone triumphs) from the Mundaka Upanishad as our national motto," the textbook read.

"This reflects the continuing importance of Indian ethical values in public life. The motto of the Supreme Court of India was chosen to be 'Yato Dharmastato Jayah'. The phrase is taken from the Mahabharata and it means 'where there is dharma (righteous duty), there is victory," it read.

The textbook says the mottos are not just symbolic or superficial but signify the "core values as well as the ideals of our institutions, which have been bestowed along with the responsibility of ensuring good governance."

The Part 2 textbook is part of the wider transition to revised class 9 learning material under NCF-SE 2023 and NEP 2020.

NCERT's published syllabus includes six chapters spanning history, geography, political science and economics.

"Sengol", installed in the new Parliament building in 2023, is now part of NCERT's Class 9 Social Science textbook, which describes it as a "cultural marker of rulership and good governance" and links its tradition to the Chola period.

Mahatma Gandhi visualised an ideal model of governance as "Ram Rajya" rooted in principles of probity, transparency, compassion and welfare, according to a new Class 9 social science textbook prepared by the NCERT.

Shah: 526 kg meth, heroin seized from Iranian boat in EEZ, 5 Pakistanis held

NARESH BISWANI
New Delhi, September 30

Security agencies have busted an Iranian boat that was carrying 526 kg of methamphetamine and heroin in India's Exclusive Economic Zone (EEZ) and arrested five Pakistani nationals, Union home minister Amit Shah announced on Wednesday.

The Gujarat ATS, Indian Coast Guard and central agencies intercepted the Iranian boat between September 14 and 30.

It was nearly 160 nautical miles northwest of Lakshadweep and 490 nautical miles southwest of Mumbai when the boat was intercepted, Shah said, adding that the agencies also seized the boat.

The minister noted that the 16-day-long operation showcased the synergy between the central and state agencies in countering drug trafficking through the seas. The five Pakistani nationals who were arrested are being interrogated, he added, with efforts underway to trace the network that was behind the consignment and its buyers.

The operation is part of a larger drive by agencies to enhance vigilance along the country's maritime borders to prevent the use of sea lanes for trafficking synthetic drugs and narcotics.

MP: Ex-IAS officer found dead with throat slit

OUR CORRESPONDENT
Bhopal, September 30

A 70-year-old retired IAS officer was found dead with his throat slit at his home in Bhopal on Wednesday, with the police suspecting the involvement of his househelp, who is missing, officials said.

Chief Minister Mohan Yadav expressed condolences over the murder of the former Indian Administrative Service (IAS) officer Rakesh Agarwal, stressing that the guilty won't be spared, while the Congress targeted the state government over the "law and order situation" in Bhopal.

Assistant Police Commissioner Ankita Khatarkar told reporters that the police received information about the alleged crime, which took place in Suraj Nagar within the jurisdiction of the Ratibad police station area, at around 5 am.

Agarwal lived in the house with his wife. At the time of the incident, she was asleep in another room, the official said.

Khatarkar said that preliminary investigations pointed to a domestic help named Varun, who had joined two days ago and has been missing since the incident.

She said police and crime branch teams are trying to trace the missing help. The official said that the police are investigating every angle to determine whether the murder was linked to a personal grudge, robbery, or some other dispute.

Briefs

CSR racket: ED searches 8 locations

NEW DELHI: The ED's Mumbai Zonal Office-I conducted searches at eight locations across Maharashtra, West Bengal, Gujarat and Delhi-NCR on Wednesday as part of a money laundering probe into an alleged bogus Corporate Social Responsibility (CSR) donation racket that involves charitable trusts, middlemen and other entities.

Theft at BJP councillor's home

DEHRADUN: A domestic help of a BJP councillor in the Baliwala area allegedly drugged the family members by mixing a sedative into their food and fled with jewellery and cash worth lakhs of rupees, police said.

Police said on Tuesday night, Councillor Amita Singh and other family members fell ill after consuming the food allegedly laced with the sedative.

UP: Man kills wife with axe

BUDAUN : A 32-year-old woman was allegedly hacked to death with an axe by her husband here over suspicion of having an illicit relationship with his friend, police said on Wednesday.

The incident took place on Tuesday night in the Ujhait police station area, they said.

BLUE DRUM MURDER

Court convicts accused after 576 days of killing

BISWAJEET BANERJEE
Lucknow, September 30

A Meerut court on Wednesday convicted Saurabh Rajput's wife Muskan Rastogi and her lover Sahil Shukla in the murder case that came to light after his body was found chopped up and sealed in a blue plastic drum filled with cement.

District and Sessions Judge Arvind Kumar Mishra held both Muskan and Sahil guilty after 126 hearings and statements from more than 22 witnesses. The court has reserved its order on the quantum of sentence. The sentence will be announced after arguments on the punishment.

The murder took place on March 3, 2025. The trial began in the district judge's court in July 2025, after police filed a charge sheet running into around 1,000 pages. The court reserved its judgment on September 19.

Saurabh, an officer in the Merchant Navy, had returned to Meerut from London on February 24, 2025. According to the prosecution, Muskan and Sahil first mixed sedatives in his food and later attacked him while he was sleeping in the bedroom.

After the murder, the body was taken to the bathroom, where Sahil allegedly chopped off the head and both hands. The body parts were then placed in a plastic drum and sealed with cement, according to the prosecution case.

Police said Muskan subsequently left for Shimla and Manali with Sahil and continued uploading photographs and videos on Instagram for around 13 days to create the impression that she was travelling with her husband.

GM of NFR inspects Sairang Railway Station

OUR CORRESPONDENT
Maligaon, September 30

General Manager Northeast Frontier Railway, Chetan Kumar Shrivastava, inspected Sairang Railway Station on September 28, as part of his review of Railway infrastructure and passenger facilities in the region.

He was accompanied by senior officials of Headquarters and Lumding Division.

During the inspection, the General Manager reviewed the overall functioning and development of Sairang Railway Station, with particular emphasis on passenger amenities, operational efficiency, safety arrangements and station infrastructure.

Haryana to strengthen its revenue system, says CM Saini

'By expanding tax base, not by raising tax rates'

MPOST BUREAU
Chandigarh, September 30

Chief Minister Nayab Singh Saini presides over a review meeting at Chandigarh MPOST

Haryana Chief Minister Nayab Singh Saini said that the goal of strengthening Haryana's own revenue system will be achieved not by increasing tax rates, but by expanding the tax base, improving compliance, curbing revenue leakages and making effective use of modern technology.

The govt's clear objective is to enhance the state's fiscal capacity without imposing any additional burden on honest taxpayers. Saini was addressing the inaugural session of a national conference organised to analyse and strengthen 'Haryana's Own Tax Revenue System' for Viksit Haryana 2047 on Wednesday.

The conference was organised by the Swarna Jayanti Haryana Institute for Fiscal Management (SJHIFM). Chief Economic Adviser to the Government of India, V Anantha Nageswaran, Additional Chief Secretary, Finance Department, Arun Gupta, Commissioner and Secretary, Excise and Taxation Department, Ashima Brar, Director General, SJHIFM, Raj Nehru, and Advisor N K Bishnoi, along with policymakers, tax administrators, economists, academicians and technical experts, participated in the conference.

The CM said that the ultimate objective of a strong revenue system is not merely to mobilise more revenue, but to use it to provide better roads, schools, hospitals and public services, thereby improving the lives of the people.

He said it is the govt's priority to ensure that taxpayers have clear information about rules and procedures and that tax compliance is simple and transparent for them.

Over 150 dead in monsoon in Himachal

According to officials, state suffering losses estimated at Rs 3,220 crore

OUR CORRESPONDENT
Shimla, September 30

KEY POINTS

- As many as 19 people died in landslides and flash floods, while no deaths were reported in cloudburst incidents
- Huge mounds of debris and boulders were scattered on the road, blocking it

Rain-related incidents claimed 153 lives in Himachal Pradesh from the onset of the monsoon on June 30 till September 29, with the state suffering losses estimated at Rs 3,220 crore, officials said on Wednesday.

The Himalayan state received 652.6 mm of rainfall against the normal 733.4 mm during the monsoon season from June 1 to September 29, a deficit of 11 per cent, officials said.

As many as 19 people died in landslides and flash floods, while no deaths were reported in cloudburst incidents.

A total of 62 people died after falling from heights, 17 drowned, 16 died of snake bites, 10 were killed in electrocution incidents and 29 died due to other reasons, the officials said.

Light rain lashed a few parts of the state since Tuesday evening, with Rampur receiving 16.8 mm and Khadrala 7.1 mm, they said. The met has predicted a wet spell in the state on October 5 and 6.

Vehicular traffic was obstructed on National Highway-205 connecting Kharar in Punjab with Shimla in Himachal Pradesh, following a massive landslide near Rajghati in Arki subdivision of Solan district on Wednesday morning.

Huge mounds of debris and boulders were scattered on the road, blocking it.

Commuters were advised to take alternate routes via Solan and Bilaspur, officials said, adding that teams have been deputed to clear the road at the earliest.

As of Wednesday evening, 45 roads were closed to vehicular traffic and 34 power transformers and four water supply schemes were disrupted, according to the State Emergency Operations Centre (SEOC).

Mandi had the highest number of blocked roads at 28, followed by six in Kangra, five in Kullu, two each in Sirmaur and Una, and one each in Shimla and Lahaul and Spiti districts.

HC: CCTV in police stations must be operational 24x7

MPOST BUREAU
Prayagraj, September 30

The Allahabad High Court has said that CCTV systems within police stations must remain operational 24x7 throughout the year and police must follow certain safeguards when such surveillance is non-functional.

If CCTV is non-functional, details of all persons brought for interrogation or arrest must be recorded contemporaneously in the General Diary (GD), it said.

A bench of justices Atul Sreedharan and Achal Sachdev made the observations while hearing a case of Raghvendra Dubey and another.

In its order dated September 23, the court directed that CCTV systems within police stations must remain operational 24/7 and for 365 days.

The court observed, "The facts of this case, prima facie, strongly disclose that the police personnel acted as recovery agents on behalf of the complainant."

According to the petitioner, he was illegally picked up from Asansol and brought to Sardhuwa police station in Chitrakoot due to a sand-mining agreement dispute.

EDITORIAL

Debt Demands Prudence

India's growing external debt warrants careful examination, but its rising absolute value should not automatically trigger alarm. The Reserve Bank of India's latest figures, placing outstanding external debt at approximately $778.2 billion at the end of June 2026, underline the importance of maintaining financial stability amid an uncertain global economic environment. For a growing economy, overseas borrowing can provide valuable resources for infrastructure, industrial expansion, technological development and investment. The central question is whether these liabilities are creating productive assets capable of generating sufficient returns to meet future repayment obligations. Borrowing that expands manufacturing capacity, improves infrastructure or strengthens export competitiveness can contribute positively to long-term growth. Conversely, excessive dependence on foreign capital without corresponding improvements in productivity could create financial vulnerabilities. India's external borrowing strategy must therefore be assessed through its economic purpose, repayment structure and contribution to sustainable development rather than the headline debt figure alone.

The composition of external debt presents another important consideration. Foreign currency liabilities become more expensive when the rupee depreciates, particularly for businesses earning predominantly in domestic currency. Companies borrowing internationally without adequate protection against exchange-rate fluctuations may face substantial repayment pressures during periods of financial volatility. Higher global interest rates can compound these difficulties by increasing refinancing costs and restricting access to international capital. Short-term liabilities deserve particular attention because sudden changes in investor sentiment could complicate repayment arrangements. Policymakers must consequently monitor debt maturity, currency exposure and the ability of borrowers to generate foreign exchange earnings. Stronger corporate disclosure requirements and prudent regulatory oversight would help identify emerging risks before they threaten wider financial stability. Developing deeper domestic bond markets could also reduce unnecessary dependence on overseas financing while providing businesses with reliable long-term funding alternatives. External borrowing should complement domestic investment rather than substitute for efforts to strengthen India's financial institutions and capital markets.

India's substantial foreign exchange reserves provide an important safeguard against external shocks, but reserve adequacy must be evaluated alongside repayment obligations, import requirements and potential capital outflows. The external debt-to-GDP ratio, short-term debt relative to reserves and debt servicing requirements offer more meaningful measures of sustainability than absolute borrowing levels. Equally important is the distinction between stable long-term financing and volatile capital flows that can reverse during international financial disruptions. Improving export competitiveness, encouraging productive foreign investment and maintaining credible macroeconomic policies would strengthen India's capacity to meet its international commitments. The government must also ensure that infrastructure development and industrial expansion generate lasting economic returns rather than accumulating liabilities without adequate repayment capacity. Financial resilience requires continuous monitoring, transparent reporting and effective coordination between fiscal and monetary authorities. India need not retreat from international borrowing to protect its economy. Instead, it must ensure that foreign capital supports productive investment, strengthens domestic capabilities and remains consistent with sustainable repayment obligations.

LETTER

letter2editor.mp@gmail.com.

Beyond Targets

The Cabinet's approval of the Rs 1.86 lakh crore Green Energy Corridor-III scheme is significant. However, renewable energy ambitions require efficient transmission networks and reliable storage. Financing constraints, implementation delays and inadequate Centre-state coordination could undermine progress. Affordable electricity must remain central to India's transition towards sustainable energy.

Small Steps, Wider Circles

Through Brain Bristle, Devangana Mishra has helped under-resourced schools build inclusive classrooms by equipping teachers to recognise and support neurodivergent children effectively

NEXUS OF GOOD

ANIL SWARUP

THE WRITER IS AN AUTHOR AND A FORMER CIVIL SERVANT

Inclusion isn't a policy document; it's a hundred small decisions

Some years ago, Devangana Mishra, founder at Brain Bristle, found herself asking a question she couldn't quite let go of: what actually helps us become more inclusive to those who fall out of man-made moulds? She had spent almost two decades inside classrooms and leadership rooms across New York, Jakarta and Hong Kong, building systems meant to help autistic and neurodivergent children thrive. But it was back home, in Mumbai's low-income schools, that the question felt most urgent and most unanswered. Brain Bristle grew out of that urgency.

Brain Bristle started small and stayed close to the ground, working directly inside low-income schools across Mumbai, sitting with teachers who often have thirty or forty children in a classroom and no training in recognising, let alone supporting, a neurodivergent child. The starting premise was simple: inclusion isn't a policy document; it's a hundred small decisions a school makes every hour. If these decisions could be changed, a child's entire experience of school could be changed.

That premise has shaped everything that was built. The Social Work Fellowship, where the organisation selects, trains and places excellent psychologists and special educators in training into low-income schools, now supports 120+ special needs students across 16 partner schools, each with over a thousand children. The Social Work Fellows receive 18-20 hours of training and supervision every month in autism, inclusion and education. The work has now gone pan-India, training educators, schools and non-profits well beyond Mumbai, because the gap that was seen in Mumbai was not the problem of one city. It was, in some form, every under-resourced classroom's problem.

Alongside the classroom work, Devangana kept writing. A verse novel, *26, Kamala Nehru Ridge, Civil Lines, Delhi,* and more recently a book of poetry and art called Desierto Florido. For her, Brain Bristle and writing are both, at their core, an attempt to put daily life to art, to put to visibility what usually goes unnoticed, to bring to life passion otherwise lost. If the classroom work is where she tried to build the structures of belonging, the writing is where she builds the inner architecture of it, so that by the time someone walks into one of our schools, they already understand, in their body, why any of this matters.

BRAIN BRISTLE EQUIPS EDUCATORS TO BUILD CLASSROOMS THAT EMBRACE NEURODIVERSITY

It is known that systemic change takes time. But it's encouraging. Teachers who once had no vocabulary for what they were seeing in a child now have language, and more importantly, small tools. Schools that treated a neurodivergent child as a discipline or an intellectual problem have now started asking what needs to change in the room. A growing number of educators across the country are coming to see inclusive practice as something learnable, not innate.

A lot of this work happens in rooms that never make it into a report. Devangana thinks of a teacher in one of her partner schools who, after a few days of watching our Social Work Fellow build systems of inclusion, changed nothing about her curriculum but asked: would placing him by the wall instead of the window help him focus? That curiosity is a metric of growth. That willingness to include, and to collaborate at the school level toward the same vision, is exactly what Brain Bristle is trying to multiply across hundreds of classrooms. Not grand interventions, but the right small one, made possible because we created a system where inclusion works, and is easily possible.

Looking ahead, three things sit at the centre of their plans.

First, sharpening the Social Work Fellowship, and taking the Modules of Learning to 50 schools and NPOs across the country, so that institutions that could never host a Brain Bristle team in person can still build real inclusion capability on their own timeline. The first cohort of the modules opens this September, running twenty sessions from September to June.

Second, building a stronger bridge between the classroom and the wider public conversation, through writing, public art and dialogue, because inclusion spreads faster through stories, impact and real advocacy than through circulars.

And third, bringing parents and communities across India into this work more directly, since a child's experience of belonging doesn't stop at the school gate.

Devangana keeps returning to that idea because she has seen it work both ways. A teacher who reads a storybook to the whole class sometimes catches a distracted child faster than one who reads a training manual on autism or ADHD. And a reader who has never set foot in one of the schools sometimes understands what they are trying to do the moment they read a few honest lines about a child who didn't fit the room but now matches crayons to his teacher's saree. Story and inclusive structures aren't competing projects.

What has been accomplished by Brain Bristle is a wonderful example of Nexus of Good. Here is a model that can be replicated and scaled through public-private partnership.

A Crisis Without Borders

Renewed persecution in Myanmar has deepened the humanitarian crisis facing stateless Rohingyas

STATELESS LIVES

DIPANKAR DEY

THE WRITER IS A PROFESSOR OF BUSINESS ADMINISTRATION

A new UN Human Rights report, released on September 3, 2026, paints a grim picture of the Myanmar Rohingya Muslim minority. The report, covering June 2025 to May 2026, finds that Rohingya civilians were trapped between two armed actors – the Myanmar military and the Arakan Army – due to airstrikes, arson attacks, displacement, denial of assistance, and systematic abuse and persecution. In areas it controls across northern Rakhine, the Arakan Army has mirrored the military's denial of Rohingya identity, referring to them as "Bengali," a term that casts them as foreign migrants rather than a recognised minority of Myanmar. The report states that 2025 was the deadliest year on record for Rohingya undertaking maritime journeys, with 892 people dead or missing at sea. By May 2026, 4,665 people had attempted the crossing, with 280 reported dead or missing. By the end of April, nearly 150,000 Rohingya had newly registered as refugees in Bangladesh. According to the UN refugee agency UNHCR, more than 1.2 million Rohingya refugees are now living in Bangladesh, most of them in camps in the Cox's Bazar area. A large number arrived after August 2017, when more than 7,00,000 Rohingya fled Myanmar's Rakhine State following a military crackdown amid widespread violence and human rights abuses.

The Rohingya people of Myanmar are the world's largest stateless population, estimated at some 2.8 million people. Denied citizenship and subjected to decades of persecution by military authorities, most were forced by genocidal violence to flee and are now spread across several countries. While the conditions of Rohingya refugees in Bangladesh, Malaysia, Thailand and Indonesia are widely documented, less attention is given to the approximately 22,500 Rohingya refugees registered with UNHCR who have fled to India, observes Refugees International. As Myanmar identifies Rohingya as a Bengali community, the ruling Hindu nationalist parties of India often stigmatise Bengali citizens as Rohingya infiltrators and illegally detain them. During the last Assembly elections in West Bengal and Assam, propaganda against Rohingya Muslim refugees was a major election topic, which helped polarisation of Hindu votes in favour of Hindu nationalist parties. Rohingya refugee issues are also impacting Malaysia and Thailand, where refugees face deportation threats.

The UN refugee agency estimates that since the 2017 genocide in Myanmar, more than 126,000 Rohingya have resettled in Malaysia, making it the second-largest host country after Bangladesh. Rights groups believe the actual number is far higher. The biggest exodus began in August 2017, after a brutal military crackdown. This followed attacks in which Rohingya militants killed up to 99 Hindu civilians, according to Amnesty International. The Myanmar army massacred thousands of Rohingya, raped women and burned their villages. Myanmar is now facing a landmark genocide case at the International Court of Justice, which saw deposed leader and Nobel Peace Prize winner Aung San Suu Kyi testify. As Myanmar's leader at the time, she was sharply criticised for her government's response to the killings, including playing down the violence.

Continued displacement has drawn comparisons between the Rohingya and the Palestinian crises

DECADES OF PERSECUTION HAVE LEFT ROHINGYAS SEARCHING FOR SAFETY AND CITIZENSHIP

Despite Malaysia being a Muslim-majority country, the Rohingya there face pressure, including an online campaign that rights advocates say is fuelling xenophobia and intimidation. For years, efforts to repatriate Rohingya to Myanmar have stalled over the ethics of returning them to a country where conditions have worsened since the 2021 coup. Caught between a hostile adoptive home and a motherland that denies their rights, Rohingya migrants in Malaysia face an agonising choice. Analysts observe that Malaysian Prime Minister Datuk Seri Anwar Ibrahim is "politically embattled" and "wants to be seen as powerful on immigration enforcement" ahead of elections due by early 2028. Anwar has invited coup leader turned civilian president Min Aung Hlaing for an official visit to expedite repatriations. It would be the first such welcome since the coup for Min Aung Hlaing, named as a chief architect of the Rohingya crackdown in numerous legal cases. As anti-Rohingya sentiment rises, Anwar appears to have bowed to it. He has announced a plan to send the Rohingya home; the first set of roughly 1,500 left on Tuesday (September 29).

Political commentators observe that the Rohingyas and Palestinians share certain similarities. Like the Palestinians, the Rohingyas have been subjected to state-sponsored persecution, violence, pogroms, ethnic cleansing and genocide in their homeland in northern Rakhine State. They have also been expelled from their homeland in numerous waves: 1978, 1991-1992, 2012, 2015 and 2016-2018. Unfortunately, just as the Western-led international community has failed the Palestinians, it is failing the Rohingyas in finding a political solution, facilitating refugee repatriation and providing adequate funds for basic needs. Consequently, Bangladesh, host of the world's largest refugee camp, faces the massive socio-economic burden of the Rohingya crisis. At the recently held 81st UN General Assembly, Bangladesh Prime Minister Tarique Rahman urged continued aid for Rohingya refugees. He said only their safe return to Myanmar can ease mounting pressure and avert a deeper crisis. Rahman urged the United Nations and the wider international community to continue life-saving assistance until the Rohingya can return to Myanmar, saying, "If the international community fails to ensure justice for the displaced Rohingya people, this could turn into a humanitarian crisis in the near future."

Rohingya and Palestinians share patterns of persecution and state-sanctioned aggression. Both groups face massive displacement, widespread destruction of homes and strict restrictions on movement. Both are devoid of state sovereignty and citizenship, attracting critical international scrutiny. The Palestinianization of the Rohingya crisis is complete.

News at a glance

Afghanistan's forces killed 41 insurgents crossing from Pak

KABUL: Afghanistan's defense ministry says its forces have killed more than 40 fighters it described as insurgents who crossed into the country from neighbouring Pakistan, and captured dozens more over three days amid repeated clashes along the tense border.

The insurgents included members of the Islamic State group, the ministry said in a statement issued late Tuesday night. It said it had killed 41 & captured another 62 in Kamdesh district of the northeastern province of Nuristan from Sunday to Tuesday.

Indian sailor among 5 killed in hijacked Somalia Tanker

DUBAI: An Indian sailor was among five crew members killed and another injured by pirates aboard a hijacked fuel tanker in Somalia, authorities said, as security forces of the African nation retook control of the vessel.

The High Commission of India in Kenya in a social media post on Wednesday said it is "deeply saddened by the tragic death" of the Indian crew member on board MT Honour, who "lost his life reportedly at the hands of pirates during the counter-piracy operation conducted by Police force.

Death toll in Nepal's Himlung Himal avalanche rises to 7

KATHMANDU: Three more bodies were recovered from Nepal's Himlung Himal peak on Wednesday, taking the total death toll in the avalanche that struck the mountain on Sunday to seven.

The avalanche struck the base camp of the 7,126-metre Himlung Himal peak in the Nar Phu area of Nepal's Manang district, burying tents where 16 people, including supporting staff and mountain guides, were taking shelter. According to officials, so far seven bodies have been recovered and nine people remain missing.

US removes Syria from arms export ban

ASSOCIATED PRESS
Washington, September 30

The Trump administration is removing Syria from a list of countries that are not allowed to purchase or import US weaponry, a step that is part of a monthslong process of easing sanctions on the new government in Damascus and its leaders.

In a notice published Wednesday in the Federal Register, the State Department said it was amending its International Traffic in Arms Regulations, or ITAR, so that Syria no longer was among the nations subject to a policy of denial for licenses and other approvals needed for the sale of US weapons and munitions.

The change effective Thursday means that arms sales requests from Syria will now be considered on a case-by-case basis. President Donald Trump acted last year to ease economic sanctions on Syria.

ENDS 12-YEAR MISSION AGAINST ISIS

US completes Iraq troop withdrawal

ASSOCIATED PRESS
Washington, September 30

The US military announced on Wednesday that it has completed the withdrawal of all American troops from Iraq, ending a 12-year mission to fight the Islamic State group. The last US troops left an air base in northern Iraq under a deal between Baghdad and Washington.

The withdrawal, agreed on two years ago, comes against the backdrop of the ongoing war between the United States and Iran that has also sometimes spilled over into Iraq, with Iran-backed militias firing on US troops and the US striking the groups' strongholds.

In recent years, Washington has appeared to seek to shift its focus from the Mideast toward Asia, but that shift has been inconsistent, with the Pentagon alternating between reducing its Mideast presence and then finding itself engaging in new conflicts – including the ongoing war in Iran. Baghdad touted the end of the US mission as a sign of the country's increasing strength and sovereignty.

HIGHLIGHTS

- The withdrawal, agreed on two years ago, comes against the backdrop of the ongoing war between the United States and Iran
- Baghdad touted the end of the US mission as a sign of the country's increasing strength and sovereignty

The withdrawal was also celebrated by Iran-backed groups but raised concerns among some other Iraqis, particularly in the Kurdish region, where many fear a resurgence of IS as well as more attacks by Iran-linked groups, possibly emboldened by the departure of U.S. forces.

Meanwhile, questions loom around the future of the Iraqi militias, which the Baghdad government has sought to disarm, with little success so far. Pentagon spokesperson Sean Parnell said in a statement that US troops and equipment had completed an "orderly departure" from the air base in Irbil, in northern Iraq's semi-autonomous Kurdish region.

Received US response to its proposal to end ongoing war: Iran

ASSOCIATED PRESS
Dubai, September 30

Iranian officials indicated Wednesday they have received an official US response to Tehran's latest proposal to end the seven-month war, which US President Donald Trump had publicly rejected just days earlier.

The officials did not say what the response contained, and whether it was a rejection or not.

Iranian Foreign Minister Abbas Araghchi presented the US response to President Masoud Pezeshkian at a Cabinet meeting, government spokesperson Fatemeh Mohajerani told the state-run IRNA news agency.

"We will make every effort to bring the agreement to fruition and will firmly stand up for the rights of the Iranian people," Pezeshkian said.

"The agreement must now be based on a win-win strategy."

> WE WILL MAKE EVERY EFFORT TO BRING THE AGREEMENT TO FRUITION AND WILL FIRMLY STAND UP FOR THE RIGHTS OF THE IRANIAN PEOPLE

The Cabinet meeting follows Araghchi's return to Iran after travelling to New York for the UN General Assembly last week. While there, officials held indirect talks with US officials and also met with Qatari and Pakistani mediators on the sidelines of the annual gathering of world leaders.

EAST CENTRAL RAILWAY

OPEN E-TENDER NOTICE

The Divisional Railway Manager (Mechanical)/ E.C. Railway/Samastipur for and on behalf of the president of India invites Open e-tender under Single packet system from experienced and financially capable tenderers for the following works in E-tendering mode of IREPS web portal of Indian Railways: **S. No. :1, Tender notice No. :** M-TC-24- 09-2026 (Open E- Tender), Dt.- 25.09.2026, **Name of Work :** Annual maintenance contract for maintenance of fire detection & Suppression system in Power/Pantry car & Automatic Smoke/Fire detection system in AC coaches (LHB & ICF) at Coaching Depots of SPJ Division for three years. **Tender value (In rupees):** 52164426.67, **Earnest money (In, rupees) :** 1043300.00, **Completion period of the work :** 03 Years. **2.** Receiving date and time for e-tender mode on IREPS web portal: 19.10.2026 up to 15.00 hrs. **3.** Opening date and time for e-tender, 19.10.2026 at 15.30 hrs. **4.** Web site particulars where complete details of tender and tender document can be seen on website: **www.ireps.gov.in.**

2027-28 RABI MARKETING YEAR

Centre raises wheat MSP to Rs 2,610 per quintal; pulses, oilseeds get 'bigger' hike

OUR CORRESPONDENT
New Delhi, September 30

The Centre on Wednesday raised the minimum support price (MSP) of wheat marginally by Rs 25 to Rs 2,610 per quintal for the 2027-28 rabi marketing year, while increasing support prices of pulses and oilseeds by up to Rs 675 per quintal.

The MSP for wheat in the 2026-27 rabi marketing year (April-March) was Rs 2,585 per quintal.

The proposal from the Agriculture ministry on MSP for wheat and five other rabi crops was cleared at a meeting of the Cabinet Committee on Economic Affairs (CCEA) chaired by Prime Minister Narendra Modi.

Wheat is the main rabi (winter) crop, along with gram, masur and rapeseed/mustard. Sowing of all six rabi crops begins next month, while harvesting starts in April.

"The production cost of wheat is Rs 1,264 per quintal, but MSP has been kept at more than double, at Rs 2,610 per quintal for 2027-28," Information and Broadcasting Minister Ashwini Vaishnaw told reporters.

Barley MSP has been raised to Rs 2,286 per quintal from Rs 2,150 in 2026-27.

Among pulses, the MSP of gram has been increased by Rs 83 to Rs 5,958 per quintal from Rs 5,875, while that of masur (lentil) has been raised by Rs 390 to Rs 7,390 per quintal from Rs 7,000.

For oilseeds, the MSP of rapeseed/mustard has gone up by Rs 413 to Rs 6,613 per quintal from Rs 6,200. Safflower has seen the steepest increase of Rs 675, to Rs 7,215 per quintal from Rs 6,540.

The total payout to farmers for procurement of 324 lakh tonnes in the 2027-28 marketing year is estimated at Rs 90,962 crore, the minister said.

Asked about the marginal increase in wheat and gram MSP, Vaishnaw said the government has assured a margin of at least 50 per cent over the cost of production for all six mandated rabi crops.

The expected margin over the All-India weighted average cost of production is 106 per cent for wheat, followed by 96 per cent for rapeseed and mustard, 92 per cent for lentil, 59 per cent for gram, 58 per cent for barley and 50 per cent for safflower.

"This increased MSP of rabi crops will ensure remunerative prices to the farmers and incentivise crop diversification," the ministry said in a statement.

In recent years, the government has been promoting the cultivation of pulses and oilseeds, as opposed to cereals, by offering a higher MSP for these crops, the minister said.

On the possible impact of the MSP hike on food inflation, Vaishnaw said the Commission for Agricultural Costs and Prices (CACP) had factored in the interests of farmers and consumers, as well as the need for sustained agricultural growth, while recommending the MSP.

Taking a dig at the previous governments, Vaishnaw said: "Modi's NDA government has been working in the interest of farmers. The same decisions in the previous regime were seen as having vested interest; now those decisions are seen as universal interest."

He said that since Independence, agricultural growth had been a big challenge, with 3-3.5 per cent growth considered significant. But the growth in the last 12 years has been consistent at over 4 per cent.

"This is a big change. Its impact is directly on farmers' wellbeing, food security and self-sufficiency. We never thought there could be such good growth in the farm sector," he said, adding that the government was committed to providing at least a 50 per cent margin through MSP.

The agriculture ministry has set a food grain production target of 177.72 million tonnes for the 2026-27 crop year (July-June), including 121 million tonnes of wheat.

REPRESENTATIVE PIC

HIGHLIGHTS

- The MSP for wheat in the 2026-27 rabi marketing year (April-March) was Rs 2,585 per quintal
- The Agri Min's proposal on MSP for wheat and five other rabi crops was cleared at a meeting of the CCEA
- The MSP of pulses and oilseeds increased by up to Rs 675 per quintal
- Barley MSP has been raised to Rs 2,286/quintal
- The MSP of gram has been increased by Rs 83 to Rs 5,958/quintal
- The MSP of masur has been raised by Rs 390 to Rs 7,390/quintal

NOD TO PM-DHARA

Cabinet approves Rs 1.86 lakh crore scheme for green energy evacuation

OUR CORRESPONDENT
New Delhi, September 30

The Union Cabinet on Wednesday approved a Rs 1.86 lakh crore PM-DHARA Scheme to set up an intra-state transmission system with 50GWh battery storage to evacuate 135 GW of renewable energy.

The PM-DHARA stands for PM-Developing Harmonized and Accelerated Renewable-energy Access. This is significant in view of India's ambitious target of 500 GW of renewable energy capacity by 2030.

According to an official statement, the Union Cabinet chaired by Prime Minister Narendra Modi has approved the PM-DHARA Scheme.

This initiative will strengthen India's Intra-State Transmission System (InSTS) to enable evacuation of up to 135 Gigawatt (GW) of renewable energy across States/Union Territories.

THE INITIATIVE WILL STRENGTHEN INSTS TO ENABLE EVACUATION OF UP TO 135 GW OF RENEWABLE ENERGY

The scheme also provides for deployment of 50 GWh of Battery Energy Storage Systems (BESS) at the Renewable Energy (RE) developer/generator end or any other location of importance for grid flexibility to address intermittency, congestion, peak-hour curtailment and meet non-solar hour demand.

The scheme will facilitate grid integration and power evacuation within the States/UTs of India.

The scheme is targeted to be set up by FY 2032-33 with a total project outlay of Rs 1,86,405 crore, comprising Rs 1,36,378 crore for the development of Intra-State Transmission Systems (InSTS) under GEC-III and Rs 50,000 crore for 50 GWh of Battery Energy Storage Systems (BESS). The Scheme involves a total Central Financial Support of Rs 54,082 crore.

The Central Financial Assistance (CFA) will help in offsetting the Intra-State transmission charges and thus keep the power costs down.

Thus, the government support will ultimately benefit the end users - the citizens of India.

All Greenfield projects under the InSTS component will be implemented through Tariff Based Competitive Bidding (TBCB) mode, while brownfield upgradation and network strengthening works will be executed under Cost Plus Basis (CPB).

Windfall tax on diesel, ATF exports slashed

MPOST BUREAU
New Delhi, September 30

The government on Wednesday cut the windfall gains tax on the export of diesel and aviation turbine fuel (ATF), while retaining it at the same level for petrol for the fortnight beginning October 1.

The rate of special additional excise duty (SAED) along with road and infrastructure cess on the export of diesel will now be Rs 16 per litre, down from Rs 20 a litre. SAED on export of ATF is set at Rs 10.5 per litre, as against Rs 15 per litre currently.

Duty on petrol exports has been retained at Rs 0.5 per litre for the next fortnight. The finance ministry, in a notification, said the duty Cuts will be effective from October 1.

Amid escalating tensions in West Asia, the government had imposed an export duty on diesel and ATF on March 27 and revised the rate every fortnight. Beginning May 16, the levy was imposed on petrol exports.

The ministry also said that there was no change in the existing duty rates on petrol and diesel cleared for domestic consumption.

The windfall tax was levied to increase domestic availability of the fuel amid the war in West Asia. It was also aimed at preventing exporters from taking undue advantage due to price differences, as global crude oil prices had risen since the war began.

Briefs

FY27: Crisil ups growth forecast

MUMBAI: Domestic rating agency Crisil on Wednesday upped its FY27 GDP growth estimate for India to 7 per cent from the earlier 6.6 per cent. Its chief economist D K Joshi said the revision was made on expectations of strong growth in the first half, with the Q1 GDP growth at 7.8 per cent.

Govt extends RoDTEP scheme

NEW DELHI: The government on Wednesday extended the duty refund scheme, Remission of Duties and Taxes on Exported Products (RoDTEP), for exporters by three months till December 31. The scheme was set to end on September 30.

Textile Min extends RoSCTL scheme

NEW DELHI: The Ministry of Textiles has extended the Rebate of State and Central Taxes and Levies (RoSCTL) scheme for exports of apparel, garments and made-ups by another three months up to December 31. Operational since 7 March 2019, the Scheme provides remission of eligible embedded State and Central taxes and levies that are not refunded through other mechanisms.

FY27 H2 going to be challenging as global interest rates rise: CEA

MPOST BUREAU
New Delhi, September 30

Chief Economic Advisor V Anantha Nageswaran on Wednesday said the second half of the current fiscal is going to be challenging because downside risks to global growth have increased and interest rates are rising across the world.

He also said the 7.8 per cent GDP growth in the April-June quarter is based on "credible and reliable data" and did not come out of "thin air" as high-frequency data, including GST collection, credit growth and export numbers, indicate continuing economic momentum in the July-August period.

"All these numbers were pointing to a fairly strong GDP growth print in the first quarter. To some extent, one might say that 30-40 bps of it would have come from the new technique of double deflation method etc because import prices went up too much," Nageswaran said.

'DOWNSIDE RISKS TO GLOBAL GROWTH HAVE INCREASED AND INTEREST RATES ARE RISING ACROSS THE WORLD'

India's GDP grew by 7.8 per cent in the first quarter of the fiscal 2026-27, beating the Reserve Bank of India forecast of 7 per cent. Critics questioned the Q1 GDP number, saying it does not reflect the economic realities.

In a conversation with Sumant Sinha, the Chairman and CEO of ReNew, Nageswaran said September has been a difficult month with rising oil prices.

"But, based on July-August data, we are looking at something like 7.3 per cent GDP growth. So it is not something that 7.8 per cent (GDP growth in June quarter) came out of thin air," Nageswaran said.

The second half of the year is going to be a challenging one, he said, adding the landed cost of fuel for India this month is USD 117 per barrel for the Indian basket, as against USD 80-85 for June-August. "So what happens in the second half, we will need to wait and see," he said.

The domestic economic momentum induced by GST rate cuts is still there, Nageswaran said, adding that but it is going to be a "challenging environment as you have interest rate rising in the world and India as well".

Inflation currently at 4.3 per cent is within the RBI's 2-6 per cent range, he said, adding, "whether that requires an interest rate response or not, it is for RBI to decide. They will definitely look at second-round effects if it is only food and energy related or all-pervasive."

He said India's growth performance and resilience owe a lot to reforms which were implemented in 2014 but they all take some time to show their results.

Tata Sons boardroom feud spills into Tata Trusts

Venu Srinivasan seeks probe into governance of SDTT

MPOST BUREAU
Mumbai, September 30

The widening boardroom dispute at Tata Sons has opened a new front, with trustee and Tata Sons nominee director Venu Srinivasan seeking a regulatory inquiry into the governance of the Sir Dorabji Tata Trust, one of the charitable entities that collectively control about 66 per cent of the holding company.

In a letter to Maharashtra's Charity Commissioner, Srinivasan has questioned the appointment and continued status of Noel N. Tata as a perpetual trustee, the appointment of Noel Tata's son Neville Tata, and what he describes as attempts to constrain his independent role as a nominee director on the Tata Sons board.

The move could add another layer of complexity to an already bitter dispute over Tata Sons' leadership, a potential stock-market listing and the extent of Tata Trusts' authority over the company. The conflict has already split trustees and spilled into the Tata Sons boardroom, where Srinivasan and Noel Tata took opposing positions on key decisions earlier this month.

Srinivasan's complaint centres in part on Circular Resolution No. 107, which he says was issued by SDTT on September 16 to prevent him from participating in or voting on the proposed listing of Tata Sons.

He alleges that the move sought to "prevent me from exercising my independent judgement and vote" and amounted to an attempt to concentrate decision-making within a smaller group of trustees.

The following day, at a Tata Sons board meeting, Srinivasan backed the reappointment of Chairman N. Chandrasekaran for a third five-year term and supported moving ahead with the listing process, while Noel Tata opposed both positions.

The board proceeded with the resolutions, with the Chandrasekaran vote requiring a casting vote. Tata Trusts subsequently disputed the validity of the board decisions and has maintained that its nominees were required to agree on such matters.

The dispute is particularly consequential because Srinivasan occupies positions on both sides of the Tata Sons shareholder relationship: he is a trustee of the Tata Trusts and also their nominee on the Tata Sons board.

The latest complaint potentially brings the conduct of the trusts themselves under regulatory scrutiny at precisely the point when their internal divisions are having a direct bearing on decisions at the company they control.

REPRESENTATIVE PIC

INSIGHT

- Tata Sons nominee director Venu Srinivasan wrote a letter to Maharashtra's Charity Commissioner
- Srinivasan has questioned the appointment and continued status of Noel N. Tata as a perpetual trustee

NASSCOM BPM CONFLUENCE 2026

'AI driving major reinvention of India's BPM industry'

MPOST BUREAU
New Delhi, September 30

Artificial intelligence has not made India's business process management (BPM) industry obsolete but is instead driving one of its biggest transformations, Nasscom President Rajesh Nambiar said on Wednesday.

Addressing the Nasscom BPM Confluence 2026 here, Nambiar said the industry had an opportunity to evolve into the world's "intelligent operations and transformation hub".

He recalled that when generative and agentic AI emerged about two years ago, there were predictions that the BPM industry would be wiped out. However, the sector had "actually gotten better" and would continue to evolve, he said.

Nambiar acknowledged that routine transactions, standard workflows and basic customer interactions would increasingly be automated by AI agents. But he said the focus should shift from what AI would do to BPM to what the industry could become because of AI.

India's BPM industry generated nearly USD 60 billion in revenue last year, but the more significant change was taking place beneath the headline figure, he said. AI and analytics, cloud-based operations, domain-specific platforms and automation-led outcomes were gaining importance over traditional call-centre operations.

"This industry has gone through multiple reinventions... and I believe that we are in the midst of one of the most significant reinventions of the BPM industry ever," Nambiar said.

Client discussions, he said, had shifted from whether a process could be automated to whether it could be completely redesigned using AI. As service providers increasingly take responsibility for outcomes, the boundaries between technology, operations and other functions would also become less distinct.

Nambiar said enterprise technology was earlier divided into "systems of record" and "systems of engagement", but AI agents were now creating a third category -- "systems of action".

KEY POINTS

- Nambiar said the industry had an opportunity to evolve into the world's 'intelligent operations and transformation hub'
- He said the focus should shift from what AI would do to BPM to what the industry could become because of AI

Govt to auction Andaman offshore mineral blocks

MPOST BUREAU
New Delhi, September 30

The Mines Ministry will launch the auction of offshore mineral blocks in the Andaman Sea on Thursday, a move aimed at tapping the country's offshore mineral reserves and bolstering long-term mineral resource security.

Two offshore mineral blocks in the Andaman Sea region will be offered for grant of composite licence.

Composite licence or prospecting licence-cum-mining lease means a two-stage concession granted for the purpose of undertaking prospecting operations followed by mining operations.

"The Ministry of Mines will launch the auction of offshore mineral blocks tomorrow," the mines ministry said in a statement on Wednesday.

Offshore mineral resources are crucial for technological growth, green energy transition and building resilient supply chains. Key minerals like cobalt, nickel, manganese, copper, and rare earth elements are vital for electric vehicles, renewable energy systems, advanced electronics and strategic sectors.

News at a glance

'Bank credit to industry up 18.2% in August'

MUMBAI: Bank credit to industry grew 18.2 per cent year-on-year in August, sharply up from 7 per cent a year ago, according to RBI data released Wednesday. Overall non-food bank credit expanded 18.8 per cent as of August 31, against 10.2 per cent a year earlier.

Credit to services rose 24.3 per cent, led by NBFCs, trade, professional services and commercial real estate. Personal loans grew 16.9 per cent, while agriculture and allied activities recorded 17.2 per cent growth, it said.

RBL Bank gets over Rs 173-cr GST demand notice

NEW DELHI: RBL Bank on Wednesday said it has received showcause notice with a GST demand of over Rs 173.08 crore for alleged wrongful input tax credit (ITC) availment in the 2022-23 fiscal year. "The notice proposes a GST demand of Rs 1,73,08,68,535, including interest and penalty, for the financial year 2022-23, in relation to input tax credit availed by the bank under the separate GST registration obtained for its digital banking business vertical," RBL Bank said in a regulatory filing. RBL Bank said it will submit a response to the show cause notice received from the Maharashtra state GST authorities.

Mobile retailers association calls off No UPI Day protest

KOLKATA: The All India Mobile Retailers Association (AIMRA) and the All India Consumer Products Distributors Federation (AICPDF) on Wednesday called off their proposed 'No UPI Day' protest on October 2, after a trade delegation met Union Finance Minister Nirmala Sitharaman, officials said on Wednesday. The mobile retailers association had earlier announced the 'No UPI Day' protest on October 2 against the proposed 0.4 per cent Merchant Discount Rate (MDR) on UPI transactions above Rs 2,000, saying the charge would put additional burden on small retailers.

Rupee ends flat at 95.94 against US dollar

MUMBAI: The rupee pared gains to settle flat at 95.94 against the US dollar on Wednesday as an overnight decline in the US dollar index and retreating crude oil prices from their elevated levels were offset by heavy FII outflows.

At the interbank foreign exchange market, the rupee opened at 95.87, then lost ground to touch an intra-day low of 95.98 against the dollar. At the end of the session, the domestic unit ended flat at 95.94 against the greenback.

AUTOMAKERS GET MULTIPLE COMPLIANCE OPTIONS

Govt notifies CAFE-III norms, targets 16.7% rise in fuel efficiency by 2032

OUR CORRESPONDENT
New Delhi, September 30

REPRESENTATIVE PIC

HIGHLIGHTS

- The norms, notified by the Ministry of Power, will come into force from April 1, 2027 and remain applicable until March 31, 2032
- The benchmark for average fuel consumption will progressively tighten from 3.996 litres per 100 km in 2027-28 to 3.327 litres per 100 km in 2031-32

The government has notified tighter Corporate Average Fuel Economy (CAFE-III) norms for passenger vehicles, targeting a 16.7 per cent improvement in fleet-average fuel efficiency over five years while allowing automakers greater flexibility to use electric vehicles, hybrids, alternative fuels and fuel-saving technologies.

The norms, notified by the Ministry of Power, will come into force from April 1, 2027 and remain applicable until March 31, 2032. The benchmark for average fuel consumption will progressively tighten from 3.996 litres per 100 km in 2027-28 to 3.327 litres per 100 km in 2031-32.

Replacing the existing CAFE regime, the new framework seeks year-on-year improvement in fleet efficiency while providing manufacturers multiple technology and compliance pathways.

The target curve has been made more sensitive to vehicle weight, with the reference vehicle weight raised to 1,229 kg from 1,082 kg under the existing norms. The government said this would result in relatively softer targets for lighter vehicles and higher efficiency requirements for heavier ones.

Electric and hybrid vehicles will receive additional weightage in fleet-average calculations. Battery electric and range-extended electric vehicles will get a 3.0 volume multiplier, while plug-in hybrids and strong hybrids running on flex-fuel ethanol will receive a 2.5 multiplier. Strong hybrids will get 1.6 and flex-fuel vehicles 1.1.

The framework also expands the list of recognised fuel-saving technologies from four to 12. Manufacturers can claim a reduction of 1 gram of CO_2 per kilometre for each eligible technology, subject to a maximum benefit of 9 g/km.

The technologies include start-stop systems, tyre-pressure monitoring, regenerative braking, efficient alternators, micro-hybrid systems, exterior LED lighting, advanced glazing, electric water pumps, solar-reflective paint and high-efficiency air-conditioning systems.

The norms provide additional compliance recognition for alternative fuels through a Carbon Neutrality Factor. E20 and higher ethanol-blended petrol vehicles, including specified hybrids, will receive an 8 per cent factor on tailpipe CO_2 emissions, while flex-fuel ethanol vehicles will get 22.3 per cent. CNG vehicles will receive a 5 per cent factor or the notified CBG-blending percentage, whichever is higher.

Under the credit mechanism, manufacturers that outperform their targets will earn compliance credits, while those falling short will accumulate debits. Credits can be carried forward within the relevant compliance block and traded or exchanged between manufacturers.

Automakers can also buy credits from the Bureau of Energy Efficiency to offset debit balances. The price of such credits will rise from Rs 2,500 per gram of CO_2/km in 2027-28 to Rs 4,500 in 2031-32.

The first compliance block will run for three years from fiscal 2027-28, followed by a two-year block beginning in fiscal 2030-31. Unsettled credits will lapse at the end of each block.

From April 2027, manufacturers will have to report vehicle performance under both the Modified Indian Driving Cycle and the Worldwide Harmonized Light Vehicles Test Procedure. The Ministry of Road Transport and Highways will oversee testing, certification and reporting, while the Bureau of Energy Efficiency will administer the credit and compliance framework.

Manufacturers with annual eligible production or imports of fewer than 1,000 vehicles will be exempt from meeting a specific fleet-average target but will continue to report fuel-consumption data.

India's domestic air passenger traffic fell 7.5% in August: IATA

India recorded largest traffic decline among major domestic markets

MPOST BUREAU
New Delhi, September 30

REPRESENTATIVE PIC

India's domestic air passenger volume dropped 7.5 per cent in August on an annual basis, recording the largest traffic decline among the major domestic markets, according to global airlines' grouping IATA.

In its air passenger market analysis report for August, the International Air Transport Association (IATA) on Wednesday said industry-wide RPK slipped back into contraction, falling 0.8 per cent year-on-year (YoY) after registering a marginal growth of 0.3 per cent in July.

Revenue Passenger Kilometres (RPK) is an indicator of passenger volumes.

"Higher demand in China, Brazil and Australia contrasted with declines in Japan, the US and India. Despite growth across several major markets, overall domestic traffic remained slightly below its level a year earlier," IATA said.

IATA's Senior Vice President Sustainability and Chief Economist Marie Owens Thomsen said the coming months will reveal whether travellers, whose purchasing power has been reduced by higher energy prices, are adjusting their travel budgets, and might be discouraged from travelling due to the prevailing geopolitical instability.

"India recorded the largest traffic decline among the major domestic markets. Domestic RPK fell by 7.5 per cent YoY, following a 5.2 per cent decrease in July. Capacity contracted by 1.2 per cent, substantially less than the 0.1 per cent year-on-year decrease in demand in August.

"Capacity decreased 0.9 per cent year-on-year and the load factor was 85.6 per cent (+0.7 ppt compared to August 2025). Traffic on routes within Asia fell 2.0 per cent and capacity declined for the fourth month in a row. By contrast, traffic on the Asia-North America corridor grew by 2.5 per cent," IATA said.

Thomsen said the recovery trajectory for carriers in the Middle East was interrupted and the region's carriers reported that in August demand was 14.6 per cent lower year-on-year, reversing an improving trend.

"Excluding the Middle East carriers, demand for air travel grew by 0.6 per cent year-on-year in August, half the pace seen in July. With some important exceptions such as domestic China, global connectivity was generally weaker in August," she said.

She also noted that forward schedules for October are showing cautious optimism with 2 per cent growth in available seats.

Interest rates on small savings schemes remain unchanged

MPOST BUREAU
New Delhi, September 30

The government on Wednesday left interest rates unchanged for various small savings schemes, including PPF and NSC, for the tenth straight quarter, beginning October 1, 2026.

"The rates of interest on various Small Savings Schemes for the third quarter of FY 2026-27, starting from October 1, 2026, and ending on December 30, 2026, shall remain unchanged from those notified for the second quarter (July 1, 2026, to September 30, 2026) of FY 2026-27," the Finance Ministry said in a notification.

As per the notification, deposits under the Sukanya Samriddhi Scheme will attract an interest rate of 8.2 per cent, while the rate on a three-year term deposit remains at 7.1 per cent during the third quarter.

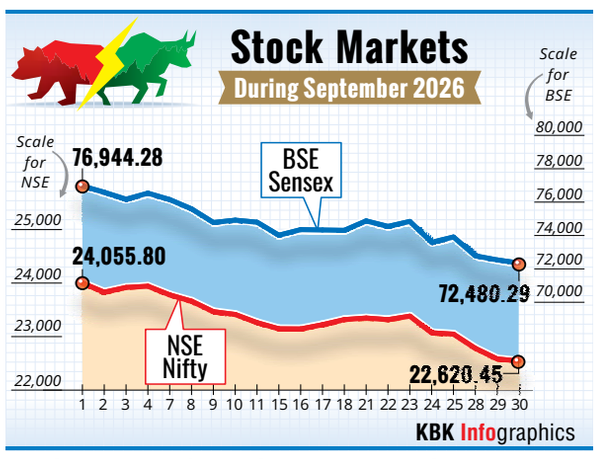

The interest rates for popular public provident fund (PPF) and post office savings deposit schemes have been retained at 7.1 per cent and 4 per cent, respectively.

The interest rate on Kisan Vikas Patra will be 7.5 per cent, and the investments will mature in 115 months.

The interest rate on the National Savings Certificate (NSC) will remain at 7.7 per cent for the October-December quarter.

Stock markets fall for third day

MPOST BUREAU
Mumbai, September 30

Benchmark stock indices Sensex and Nifty closed lower for the third consecutive session on Wednesday, dragged down by last-hour selling in metal and pharma shares amid firm crude oil prices and elevated global bond yields.

Giving up all intraday gains, the 30-share BSE Sensex declined 48.78 points, or 0.07 per cent, to settle at 72,480.29 on fag-end selling. After a flat start, the index had gained 533.16 points, or 0.73 per cent, to hit a high of 73,062.23.

The 50-share NSE Nifty dropped 95.75 points, or 0.42 per cent, to end at 22,620.45.

This month, the BSE benchmark tanked 4,476.98 points, or 5.81 per cent, and the Nifty dropped 1,459.95 points, or 6 per cent.

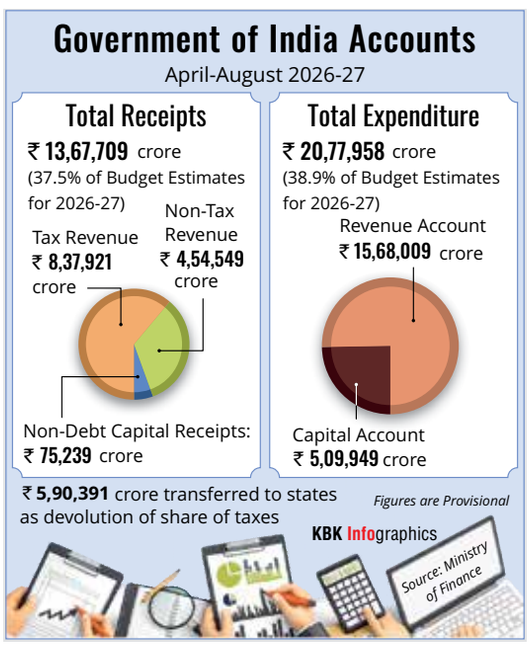

Among the 30 Sensex firms, Eternal, Sun Pharma, Titan, Adani Ports, Tata Steel and HDFC Bank were among the major laggards.

Kotak Mahindra Bank, ICICI Bank, InterGlobe Aviation and Axis Bank were among the winners.

Brent crude, the global oil benchmark, was up 0.54 per cent to USD 103.1 per barrel.

'Fiscal deficit touches 41.9% of full-year target at end of Aug'

MPOST BUREAU
New Delhi, September 30

The Central government's fiscal deficit stood at Rs 7.1 lakh crore or 41.9 per cent of the full-year target at the end of August, according to data released by the Controller General of Accounts (CGA) on Wednesday.

The deficit was at 38.1 per cent of Budget Estimates (BE) of 2025-26 during the corresponding period last year.

In absolute terms, the fiscal deficit, or the gap between the government's expenditure and revenue, was Rs 7,10,249 crore during April-August period of the 2026-27.

The data on monthly accounts showed that the total expenditure during the first five months was at about Rs 20.78 lakh crore, or 38.9 per cent of BE. In the year-ago period, it was at 37.1 per cent of BE.

PSPCL launches VDS scheme to regularise extra tubewell load

MPOST BUREAU
Patiala, September 30

Punjab State Power Corporation Limited (PSPCL) has introduced a 45-day Voluntary Disclosure Scheme (VDS) for regularisation of unauthorised additional load of agricultural power tubewell consumers.

The scheme, issued under the directions of Punjab Chief Minister Bhagwant Singh Mann, will remain in force from October 1, 2026. It will apply to agricultural tubewell connections existing up to May 29, 2026.

Under Commercial Circular No. 37/2026, consumers can either remove the unauthorised additional load or regularise it by depositing the prescribed charges. The service connection charge for regularisation has been reduced to Rs 2,500 per horsepower from the normal Rs 6,572, while the security amount has been fixed at Rs 200 per horsepower against Rs 400 earlier.

Consumers opting for self-declaration will have to submit Form 1, while authorised representatives will have to furnish an undertaking in Form 2.

PSPCL field officers and enforcement teams will inspect connections to verify load and assist consumers. No penalty or load surcharge will be imposed on unauthorised load detected during inspections or voluntarily disclosed during the VDS period.

Employment in industries cross 2-cr mark in 2024-25

Manufacturing sector adds more than 14 lakh workers during the period: Govt survey

MPOST BUREAU
New Delhi, September 30

REPRESENTATIVE PIC

KEY POINTS

- 'The estimated number of persons engaged in industries rose significantly from 1.96 crore in ASI 2023-24 to 2.10 crore in 2024-25, a growth of 7.19 per cent'
- Total emoluments paid to the workforce also increased by 12.08 per cent in 2024-25 as compared to 2023-24

Total employment in industries crossed the 2 crore mark in 2024-25, driven mainly by the manufacturing sector, which added more than 14 lakh workers, according to the Annual Survey of Industries (ASI) released on Wednesday.

The estimated number of persons engaged in industries rose significantly from 1.96 crore in ASI 2023-24 to 2.10 crore in 2024-25, a growth of 7.19 per cent, the ASI showed.

Employment in the registered manufacturing sector continued to expand, an official release said.

Total emoluments paid to the workforce also increased by 12.08 per cent in 2024-25 as compared to 2023-24.

Tamil Nadu, Maharashtra, Gujarat, Uttar Pradesh and Haryana were the five leading states in terms of the number of persons engaged in the manufacturing sector in 2024-25. Together, these states accounted for about 56 per cent of total manufacturing employment during the year. Ministry of Statistics and Programme Implementation (MoSPI) has released the results of the ASI for the reference period April 2024 to March 2025 (i.e. financial year 2024-25) through the factsheet.

The field work for this survey was carried out during October 2025 to June 2026 for ASI 2024-25. A brief note about the survey ASI 2024-25 is given at the Endnote.

Annual Survey of Industries is conducted with the primary objective to provide a meaningful insight into the dynamics of change in the composition, growth and structure of various manufacturing industries in terms of output, value added, employment, capital formation and a host of other parameters.

The registered manufacturing sector recorded broad-based growth during FY2024-25, with most of the major economic indicators–such as invested capital, input, output, Gross Value Added, employment and wages–witnessed an increase over the previous year.

Hockey: Indian women beat Korea 2-0 to enter final

PRESS TRUST OF INDIA
Nagoya, September 30

The in-form Indian women's hockey team placed itself on the verge of ending a 44-year wait for an Asian Games gold, beating South Korea 2-0 to enter the final of the continental showpiece here on Wednesday.

Ishika Chaudhary (44th minute) and skipper Salima Tete (48th) were the goal scorers for India.

India are now just a victory away from securing its only second Asian Games women's hockey gold medal. The previous triumph came way back in the 1982 New Delhi games.

India will take on defending champions China in the final on Friday. China beat Japan 4-2 in a shoot-out after both sides failed to break the deadlock in the entire 60 minutes of the first semifinal.

The Indians dominated the proceedings in the first two quarters and secured as many as eight penalty corners, but the Koreans produced a resolute defence to deny their opponents.

INDIAN MIXED, WOMEN'S AND MEN'S TEAMS CLAIM TOP FINISH

Golden hat-trick in compound archery

PRESS TRUST OF INDIA
Nagoya, September 30

India's compound archers displayed admirable poise under pressure to complete a golden sweep in the Asian Games team competitions, successfully defending their crowns in men's, women's and mixed events here on Wednesday with performances that ranged from domineering to gritty.

Cherry on top was the mixed combination of Chikitha Taniparthi and Sahil Jadhav also securing an Olympic quota place for the country following their top finish.

India thus became the first country to qualify for the 2028 Olympics in the compound mixed team event, which will mark the discipline's debut in the Los Angeles Games.

The women's trio of Jyothi Surekha Vennam, Chikitha and Prithika Pradeep kicked off the gold rush that culminated with the men's combination of Kushal Dalal, Sahil Jadhav and Ganesh Mani Ratnam Thirumuru rallying to outwit the Chinese trio of Jiahao Liao, Jinyi Liu and Jingyu Shi in the finals 238-237.

HIGHLIGHTS

- India thus became the first country to qualify for the 2028 Olympics in the compound mixed team event
- The Indian duo had entered the gold-medal match after beating Thailand 156-155 in the semifinals

For Chikitha and Sahil, the day brought two gold medals as they had earlier showed nerves of steel to prevail over Korea's Jungyoon Park and Choi Eun Gyu in a thrilling mixed team final, winning 158-157 after a shoot-off.

"It's awesome. We were so confident when we were playing team matches. I have trust on my team-mates, they have trust on me. We will shoot our best in any condition," Sahil said, summing up India's dominating performance, after winning the men's team gold.

The Indian duo had entered the gold-medal match after beating Thailand 156-155 in the semifinals.

This was after the Indian women's compound team produced a sensational performance to outclass the Chinese trio of Wunier, Yue Wang and Fangyao Wei 238-234 and retain its gold with a world record-equalling score.

Jyothi, Chikitha and Prithika dominated the women's summit clash to secure the top spot on the podium. Of these, Jyothi was a part of the gold-winning women's team in Hangzhou as well.

"We pushed each other and kept telling each other that we have to give our best. Even if we had one bad shot, a nine score, we kept bucking each other up and saying 'Get back to what you know best and keep focusing on that'," said Prithika after the final.

"I know it's a big tournament, but at the end of the day it's the same people, it's the same archery that I have to shoot. So I was just focusing on that to be honest. But it feels really good to win gold with my teammates," she added.

Neeru, Kynan strike gold as India's shotgun queen shines again

PRESS TRUST OF INDIA
Nagoya, September 30

Neeru Dhanda combined with Kynan Chenai to add the mixed team gold to her individual women's trap shooting title, capping a historic campaign which made her the most successful Indian athlete at the ongoing Asian Games, here on Wednesday.

The 26-year-old, who made history a day earlier as the first Indian woman to win an individual shotgun gold at the Asian Games, completed a remarkable three-medal haul, having won silver in the women's team trap event.

The triumph, achieved despite Neeru battling fatigue and the after-effects of an illness that had left her hospitalised in India 10 days before the Games, was all the more remarkable as Kynan stepped up to shoulder the responsibility when his partner struggled to find her rhythm.

The Indian duo clinched gold with an Asian and Games record of 34 hits out of 40 in the final, beating Qatar (32) to deliver another landmark moment for Indian shotgun shooting.

They overcame Qatar, which was coached by Australian shooting legend and two-time Olympic champion Michael Diamond, to secure the gold with three shots to spare.

Neeru missed her final two targets, having already done enough to ensure India's victory. The celebrations that followed were as emphatic as the achievement itself.

For Neeru, who had won the team silver alongside Manisha Keer and Aashima Ahlawat, the gold this morning was a fitting reward after battling health concerns owing to an H1N1 scare in India that left her hospitalised for three days.

Gill, Rohit power India's 8-wicket victory in 2nd ODI, seal series 2-0 vs WI

PRESS TRUST OF INDIA
Guwahati, September 30

Skipper Shubman Gill clobbered an unbeaten 223, the fastest double hundred in 50-over cricket, and Rohit Sharma belted a 101 as two generations of super stars came together to give India a series-sealing eight-wicket win over the West Indies in the second ODI here on Wednesday.

West Indies might have desperately hoped that 405 for seven remained target far from Indians but how wrong were they!

The incumbent captain, who snatched the crown for the fastest ODI 200 (117 balls) from his teammate Ishan Kishan (126 balls), and his predecessor, who made his 35th one-day century, piled 255 runs for the opening wicket in just 26.2 overs as India made 406 for two in 43.3 overs.

On a night when records tumbled at furious pace, India also recored their highest ODI run chase, and now they are only behind South Africa who lead the world pecking order with the chase of 435 against Australia in 2006 at Johannesburg.

The storm always has a precursor.

The Barsapara pitch had already shown its batting-friendly nature when West Indies batters John Campbell (101; 68b), Shai Hope (104; 94b) and Amir Jangoo (114; 77b) scored hundreds of their own.

But once Indians ended their chase those centuries now resemble calm beach breeze. The home side bettered their previous best chase of 362 for one against Australia in Jaipur in 2013, courtesy an epic by Gill (133 ball, 26x4, 8x6).

However, the initial challenge for India was to pull off their first-ever 400-plus chase, and Rohit and Gill took it a notch higher with a dazzling array of strokes.

Along the way, Rohit brought up 12,000 ODI runs, becoming only the seventh batter and third Indian after Sachin Tendulkar and Virat Kohli to reach the landmark, before reaching another ODI hundred with an uncharacteristic little hop and jump celebration.

Gill earlier brought up his 11th ODI century in just 62 balls -- his fastest in the format. The duo attacked from the outset, combining clean hitting with superb placement.

Gill was particularly fluent, using his wrists to place deliveries in the gaps and then stepping out to drive the spinners over the infield.

Rohit, on the other hand, brought out his trademark pull and pick-up shots, while also finding the boundaries with crisp drives through off side.

FILM

'GREAT TO LIVE IN STREAMING AGE'

Siddharth on playing varied roles in 'Op Safed Sagar' & 'Lust Stories'

Siddharth said he is grateful to be working in the streaming era, where artists can move freely between vastly different characters.

Citing his last two streaming projects, the war drama series 'Operation Safed Sagar' and the anthology movie 'Lust Stories 3', he thanked streaming platforms like 'Netflix' for letting him take on contrasting roles in 90 days.

"I'm grateful for the work I get and for the belief that people put in me. So, the difference between Ajay Ahuja and Badru isn't much, because the director who gave me Ajay Ahuja wanted me to walk in his shoes and then Vishal Bhardwaj gave me Badru and wanted me to walk into his little sarong. So, the confidence and belief they put in you is the same," he said on day one of FICCI FRAMES.

'I'M GRATEFUL FOR THE WORK I GET AND FOR THE BELIEF THAT PEOPLE PUT IN ME,' HE SAYS

In 'Operation Safed Sagar', Siddharth played the decorated war hero Ajay Ahuja, while in Bhardwaj's segment of 'Lust Stories 3', he portrayed Badru, who becomes the subject of a woman's fantasy.

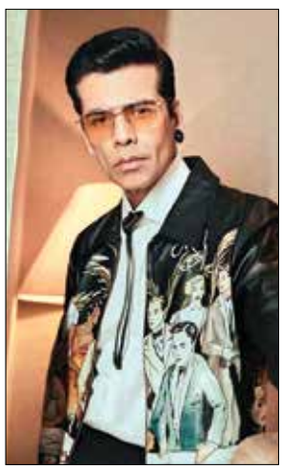

Talking about 'Lust Stories', the actor said he found the idea of women's fantasy 'progressive'. "It talks about what women want, which is equally an important agenda to talk about. I'm grateful that we live in a streaming age where you can get work, which, in one word, you say, 'Tudum'," he said.

The actor was part of a panel discussion, titled 'What audiences want, what creators are imagining and how bold programming choices are shaping what comes next'. It was attended by filmmakers like Suresh Triveni, Farah Khan, actor Riteish Deshmukh, writer-creator-showrunner Abhijeet Singh Parmar and Monika Shergill, Vice-President, Content,'Netflix India'. 'Saying goodbye is emotional'

Karan Johar's 'Koffee With Karan' to end after 22 years

THE FINAL NINTH SEASON IS SET TO PREMIERE ON 'JIOHOTSTAR' ON OCTOBER 14

Filmmaker-host Karan Johar announced that he's ending his popular celebrity chat show, 'Koffee With Karan', with its upcoming ninth season, set to premiere on 'JioHotstar' on October 14.

Johar, who began the show in 2004 and invited a host of prominent celebrities from Hindi cinema over the course of 161 episodes in eight seasons, said the final season is his way of raising the mug one last time 'with gratitude'.

"There are some journeys you don't plan to end. You simply know, somewhere deep within you, when it's time to let them go. 'Koffee With Karan' has been an extraordinary part of my life. It has given me friendships, memories, moments of complete madness, a lot of love and yes, its fair share of controversy! But through all of it, what has remained constant is the audience. They have laughed with us, debated us, trolled us, celebrated us and most importantly, kept coming back for another cup. Saying goodbye is emotional, but it also feels right. This final season is my way of raising the mug one last time with gratitude, with love and with everyone who has made 'Koffee With Karan' what it is. So, come have one last cup of Koffee with me. One last time," he said."

The show first premiered in 2004 on 'Star World' and instantly became a hit with the audience with its candid conversations, rapid-fire rounds and celebrity revelations that generated headlines and controversies. It then moved to the streaming space in 2022. PTI

'Aegon's Conquest' to be released on June 6, 2029

The 'Game of Thrones' franchise is heading to the big screen with 'Game of Thrones: Aegon's Conquest', the first feature film set in the fictional world of Westeros, which will hit theatres worldwide on June 6, 2029.

Owen Harris, who has directed episodes of HBO's 'A Knight of the Seven Kingdoms', will direct the film from a screenplay by Beau Willimon, known for creating the political drama 'House of Cards' and writing for 'Andor', reported 'Variety'.

Little is known about the plot, but the film is expected to follow Aegon I Targaryen, founder of the Targaryen dynasty and his conquest of Westeros several centuries before the events of the 'Game of Thrones' series, which ran for eight seasons on HBO and spawned spin-off shows 'A House of the Dragon' and 'A Knight of the Seven Kingdoms'.

OWEN HARRIS TO DIRECT THE 'GAME OF THRONES' MOVIE

Aegon was the first Targaryen king to unite much of Westeros under one ruler and forged the Iron Throne from the weapons of his defeated enemies. His conquest and the early history of the Targaryen dynasty were chronicled in George R R Martin's 'Fire & Blood'.

The character has never appeared on screen and the actor who will portray him hasn't been announced.

Based on Martin's 'A Song of Ice and Fire' novels, 'Game of Thrones' ran from 2011 to 2019 and became one of television's most successful fantasy dramas.

The Targaryen family has remained central to HBO's expansion of the franchise's universe. 'House of the Dragon', set about 200 years before the original series, follows the Targaryen civil war and stars Matt Smith, Emma D'Arcy and Olivia Cooke. PTI
