News at a glance

Trump to call Putin to discuss possible case of plague

WASHINGTON: President Donald Trump on Tuesday said he has a call scheduled with Russian President Vladimir Putin to discuss a possible case of plague at a Siberian research institute.

Speaking to reporters at the White House, Trump said he would be talking with Putin about the case "very soon."

Health authorities are investigating after the death of an employee at an anti-plague institute, which authorities attributed to pneumonia with an unknown cause.

Polish police held man after attack at school left 7 injured

WARSAW: Police in Poland arrested a man following an attack on Wednesday that left seven people injured at a vocational school in a small town north of the country's capital, Warsaw.

The 19-year-old was detained after emergency services rushed to the scene at Vocational School Complex No. 4 in Ostroleka, the provincial police headquarters said. He was a student at the school. Police said the attack happened around 11 am and that the attacker used a "sharp object." They did not elaborate.

Drone strike kills 4 women in Sudan's Blue Nile state

CAIRO: A drone strike hit homes and a mosque in Sudan on Wednesday, killing at least four women and wounding dozens of other people, a rights group said.

Emergency Lawyers, which tracks the conflict, blamed the paramilitary Rapid Support Forces for the attack in the Hijra neighborhood of Damazin, the capital of southeastern Blue Nile province. The RSF has been at war with the Sudanese military for more than three years. There was no immediate comment from the RSF.

Briefs

Guterres meets Pak Army chief

ISLAMABAD: UN Secretary-General António Guterres on Wednesday met Pakistan Army Chief Field Marshal Asim Munir and they discussed matters of mutual interest, the regional security environment and the world body's role in promoting international peace.

Guterres met Munir at the General Headquarters (GHQ) in Rawalpindi, the army said in a statement.

"During the meeting, matters of mutual interest, the prevailing regional security environment and the United Nations' role in promoting international peace and security were discussed," the army said.

Forces kill 18 terrorists in Pakistan

ISLAMABAD: Pakistani security forces have killed 18 terrorists in separate operations in the restive Khyber Pakhtunkhwa and Balochistan provinces, state media reported on Wednesday

According to Radio Pakistan, the security forces "killed 13 Fitna al-Khawarij terrorists" during an intelligence-based operation in North Waziristan district of Khyber Pakhtunkhwa.

The federal government uses the term 'Fitna al-Khawarij' for terrorists belonging to the banned terror outfit Tehreek-e-Taliban Pakistan.

Houthis claim attacks on Saudi

CAIRO: Iran-backed Houthi rebels in Yemen on Wednesday claimed attacks on military facilities and airports in neighbouring Saudi Arabia as the escalation deepened the latest front in the Iran war and threatened a crucial shipping alternative to the Strait of Hormuz.

The Houthis' military spokesperson, Brig. Gen. Yahya Saree, said on social media that the rebels launched ballistic missiles and drones in the attacks targeting King Khalid International Airport in the capital, Riyadh, but didn't provide evidence. Flights to and from the airport were briefly disrupted.

UKRAINE HAD ANTICIPATED THE ATTACK

Russian strikes on Ukrainian cities kill at least 24 people in latest attack

ASSOCIATED PRESS
Kyiv, October 7

Russian missiles and drones pounded Kyiv and a dozen other Ukrainian regions overnight into Wednesday, killing at least 24 civilians, including four children, and wounding around 60 in Moscow's latest devastating barrage, Ukrainian officials said.

Three of the children killed when a Russian missile hit an apartment building were 1 year old, and the other was 8 years old, Ukrainian President Volodymyr Zelenskyy said.

Ukraine had anticipated the attack, with Zelenskyy warning the previous day that intelligence services had concluded that Russia was building up for a "massive" strike.

Although Ukraine knew about the looming attack, which coincided with Russian President Vladimir Putin's 74th birthday, it couldn't fend it off completely.

The deaths and damage illustrated the difficulty Ukraine has in countering Russia's ballistic missiles and the new jet-powered drones used in Moscow's escalating bombardments.

Russia wants Ukrainians to be afraid to fall asleep, official says

HIGHLIGHTS

- The deaths and damage illustrated the difficulty Ukraine has in countering Russia's ballistic missiles
- Russia and Ukraine are engaged in a long-range aerial war as their armies remain largely deadlocked on the battlefield

Without ammunition for its US-made Patriot air defence systems, Ukraine can't stop Russian ballistic weapons. It is racing to develop a new generation of interceptors fast enough to catch Moscow's high-flying jet-propelled drones.

Russia and Ukraine are engaged in a long-range aerial war as their armies remain largely deadlocked on the battlefield, more than 4½ years after Moscow's all-out invasion of its neighbour. The unrelenting aerial attacks are hurting Russia but could be ruinous for smaller Ukraine.

US-led peace efforts appear unlikely to bring any short-term relief, with the possibility of holding low-level technical talks still under discussion. Putin, meanwhile, is pressing ahead with the invasion in the belief that Ukrainians will buckle under the pressure and Kyiv's Western supporters won't stay the course, Western analysts say. "Russia is pursuing a deliberate strategy of terror," European Commission President Ursula von der Leyen said on X. "Trying to make daily life impossible for Ukrainians who want to live in peace."

A Russian strike destroyed an apartment block in Pryluky, in Ukraine's northern Chernihiv region, killing 18 people.

Russia grateful to India for its readiness to help resolve Ukraine conflict

PRESS TRUST OF INDIA
Moscow, October 7

India has declared its readiness to make a feasible contribution to resolving the Ukraine conflict and Russia is grateful to New Delhi for such readiness and the ideas, a key aide of President Vladimir Putin said on Wednesday. Kremlin Spokesman Dmitry Peskov made the remarks while responding to a question about media reports that India has sent a new three-part proposal for a peaceful resolution of the Ukraine conflict.

"Indeed, India is declaring readiness to make a feasible contribution to resolving the situation surrounding Ukraine, and we are grateful to our Indian friends for such readiness and the ideas that are being offered," Peskov was quoted as saying by the state-run TASS news agency. His remarks come days after Ukrainian Foreign Minister Andrii Sybiha described India's proposal for a possible ceasefire with Russia as the "broadest" among

'WE HAVE FOUR PROPOSALS. THE BROADEST ONE IS INDIA'S PROPOSAL. WE ARE READY FOR AN ENERGY AND BLACK SEA CEASEFIRE, BUT ONLY IN THIS COMBINATION'

four offers received by Kyiv. The other proposals had come from Turkiye, Egypt and the US.

"We have four proposals. The broadest one is India's proposal. We are ready for an energy and Black Sea ceasefire, but only in this combination," Sybiha told reporters in Kyiv on Friday, according to the European Pravda newspaper.

Thousands of civilians have died and millions displaced due to the Russia-Ukraine war, which is now in its fifth year. Last week, President Putin said Prime Minister Narendra Modi has "very good ideas" on a mutual settlement of the Ukraine conflict.

Mali: Junta forces retake strategic town of Kidal

ASSOCIATED PRESS
Bamako, October 7

Malian armed forces have recaptured the northern city of Kidal five months after it was seized by separatist rebels of the Azawad Liberation Front and Jama'at Nusrat al-Islam, an armed group linked to al-Qaida, the West African country's transitional government said Tuesday.

The capture of the Tuareg stronghold, carried out by air and ground forces, was assisted by Russia's Africa Corps paramilitary group, according to a statement by government spokesman Brig. Gen. Issa Ousmane Coulibaly, read on state television.

Nepal sees heavy rain in parts, flash flood risk rises in west

PRESS TRUST OF INDIA
Kathmandu, October 7

Heavy rainfall was recorded in parts of Nepal on Wednesday, prompting authorities to warn of rising water levels and possible flash floods in small rivers in several western districts.

The Department of Hydrology and Meteorology's Flood Early Warning System said 84.4 mm of rain was recorded in three hours at the Simalpani water measurement centre in Arghakhanchi district, and warned that water levels in small rivers in the area and surrounding regions could rise.

The department also said moderate to heavy rainfall was recorded

"84.4 MM OF RAIN WAS RECORDED IN THREE HOURS AT THE SIMALPANI WATER MEASUREMENT CENTRE IN ARGHAKHANCHI DISTRICT

over three hours at several locations in Banke and Bardiya districts, warning of rising water levels in small rivers and the possibility of sudden flows.

In a separate alert, the department said small rivers in Darchula, Baitadi, Bajhang, Doti, Dadeldhura, Banke, Bardiya, Kailali and Kanchanpur, and surrounding areas, faced a moderate risk of sudden flash floods Several other parts of the country have also received heavy rain. Nepal's national broadcaster Radio Nepal, citing meteorologists, said Chitwan, Palpa and Kailali had experienced heavy rainfall, while thunderstorms and lightning were reported in Nawalpur, Tanahun, Gorkha, Arghakhanchi and Rupandehi.

Israel commemorates 3rd anniversary of Oct 7 attack

The attack challenged the Jewish state's long-standing image of a country

PRESS TRUST OF INDIA
Jerusalem, October 7

Israel on Wednesday commemorated the third anniversary of Hamas' October 7 attack, which caused an unprecedented and unfathomable single-day loss in the country's history and united the nation at that time. However, three years later, Israeli society faces deep internal divisions, and many questions remain unanswered.

On October 7, 2023, Hamas-led terrorists killed around 1,200 people and kidnapped 251 in Israel, which retaliated by launching a major military offensive in Gaza, in which more than 74,200 people have been killed. The attack challenged the Jewish state's long-standing image of a country that prides itself on its intelligence and technological superiority.

Hamas, which launched the multi-front attack -- by air, land and sea -- called October 7 an "extraordinary military achievement", in a statement on Wednesday, the Times of Israel reported.

As the war enters its fourth year, fatigue, financial instability, personal losses, acute manpower shortage and unresolved questions about the war's goals have raised several internal issues in Israel, with sharp divisions emerging in the society.

On Wednesday, as Israelis gathered at commemorative ceremonies, protests were held against the government's handling of the attack.

Commemorative ceremonies began at 6:29 am, matching the time the attack began three years ago, with survivors and bereaved families coming together at Kibbutz Re'im, the site of the Nova music festival, where terrorists massacred 378 people and took 44 hostages to Gaza.

The ceremonies not only honoured those lost but also carried strong political overtones, with participants at several key locations expressing outrage at the government's failures and its resolute stand to stall an independent enquiry by constituting a state commission of inquiry.

Satellite photos show how Israeli forces have erased Gaza towns

ASSOCIATED PRESS
Deir al-Balah, October 7

It's perhaps the most dramatic wound inflicted on the Gaza Strip by Israel's military campaign over the past three years: The city of Rafah, once home to a quarter million people, has been erased.

Satellite imagery shows the Israeli military has systematically razed the southern city and other towns and districts to the ground and, in some places, ploughed away the rubble. Demolition, using bulldozers and explosives, has continued unabated since the Israel-Hamas ceasefire deal reached a year ago, as the military solidifies its hold on just over 60 per cent of the territory that it still controls.

Gaza's mangled landscape is just one of the wounds on top of wounds that the enclave's 2 million Palestinians have endured

since Israel launched its campaign to destroy Hamas after the militants' Oct. 7, 2023, attack on southern Israel.

More than one out of every 10 people from Gaza's prewar population has been killed or wounded by Israeli fire. While nearly every family mourns dead or cares for wounded, most also had to move multiple times to escape fighting and Israeli evacuation orders.

'We Will Do It': PM's 2047 mantra

OUR CORRESPONDENT
New Delhi, October 7

Prime Minister Narendra Modi on Wednesday coined a new slogan, "We Will Do It", asserting that India will become a developed nation by 2047, but flagged casteist divisions during elections as a major challenge.

Addressing the 'Viksit Bharat Sankalp Sabha' to mwwark a quarter-century as a head of government, Modi also highlighted his government's achievements in different sectors and said what once seemed unimaginable has become possible.

"The dream we are seeing today in 2026 of a developed India will surely come true. There is no reason for India to stop now. A hundred years ago, we were even less than 40 crore; today, we are more than 140 crore. The 140 crore citizens together will build a developed India by 2047, and we certainly will. We Will Do It," he said.

Prime Minister Narendra Modi receives a floral shower from attendees as he graces the 'Viksit Bharat Sankalp Sabha' event, in New Delhi on Wednesday ANI

Modi said who would have thought that 25 crore people could rise out of poverty within a decade, yet India made it happen.

"That is why I believe in the strength and potential of 140 crore Indians. After 25 years of experience, I can say with confidence that we are witnessing India's transformation right before our eyes," he said.

"Viksit Bharat by 2047: We Will Do It. Top 3 Economy: We Will Do It. Self-reliant: We Will Do It. Global Manufacturing Hub: We Will Do It. Hosting the Olympics: We Will Do It. Step into space: We Will Do It. This energy, this enthusiasm, this confidence is extraordinary," he said.

- Addressing the 'Viksit Bharat Sankalp Sabha' to mark a quarter-century as a head of government, Modi also highlighted his government's achievements in different sectors and said what once seemed unimaginable has become possible
- The prime minister said that when he looks back, he feels nothing but gratitude as he is grateful to every person and every experience that taught him something
- PM Modi also visited the residence of former deputy prime minister and BJP stalwart L K Advani and sought his blessings on completing 25 years as a head of government

Another month, another collapse

Seemapuri: Child, pregnant woman among 3 killed | Rescue ops underway | 8 injured shifted to hospital

PRAJYOT DEOGHARE
New Delhi, October 7

At least three people, including a child and a 21-year-old pregnant woman, were killed while eight others injured after a four-storey building collapsed in northeast Delhi's New Seemapuri on Wednesday, partially damaging two adjoining structures and triggering a large-scale multi-agency rescue operation.

Officials said that 11 people have been rescued so far from the site, with eight injured shifted to the Rajiv Gandhi Super Speciality Hospital in Tahirpur for treatment.

The injured persons were Momin Mirja (56), Abdaan (3), Abdul Rehma (28), Devruddin (28), Salma (50), Chote (34), Sakina (35), and Samad (30). The deceased persons included a 12-year-old girl whose identity is yet to be determined, Gulafsa (21), who was in her fourth month of pregnancy, and a child.

Rescue operation underway after a four-storey building collapsed, with debris burying portions of two to three adjoining houses, in the Seemapuri area, New Delhi PTI

KEY POINTS

- The incident took place almost a month after a PG building collapsed in southwest Delhi's Satya Niketan on September 6, killing seven students
- The collapsed building had stood on a 25-square-yard plot, partially damaging two adjoining structures and raising concerns over the stability of nearby buildings

The incident took place almost a month after a PG building collapsed in southwest Delhi's Satya Niketan on September 6, killing seven students.

HC: Exam protesters not anti-social

MUMBAI: The Bombay High Court on Wednesday said the students protesting against alleged malpractices in the MPSC examinations are not anti-social elements, and stressed that the state government was duty-bound to ensure that public recruitment exams are conducted impartially. A bench of Chief Justice Mahesh Chandra Tripathi and Justice Advait Sethna noted that the government has to give an assurance that whenever examinations are conducted, they are "impartial, fair and without any malpractices." The court was hearing a petition filed by residents of Pune against the ongoing agitations in that city by students and others over alleged malpractices in the Maharashtra Public Service Commission (MPSC) exams and examination-related controversies. Meta deploys AI tools to curb child abuse ads

NEW DELHI: Facebook and Instagram owner Meta on Wednesday said it has deployed new AI tools to crack down on ads that covertly lead users to child abuse material, as it disclosed that it acted on 5.3 million pieces of child sexual exploitation content in India during the first half of 2026. More than 98 per cent of the content on Facebook and Instagram in India was found and addressed before anyone reported it, the company said in a blog post. Globally, it actioned 33.2 million such items on the two platforms between January and June, with over 97 per cent found proactively. SEE P6

FIRST HIKE IN NEARLY 4 YRS

RBI hikes repo rate

MPOST BUREAU
Mumbai, October 7

The Reserve Bank of India (RBI) on Wednesday announced a repo rate hike to keep inflation under check. The RBI raised its benchmark repo rate by 25 basis points to 5.50 per cent, its first hike in nearly four years.

The RBI signalled that rate cuts are off the table in the near term and that further hikes could follow amid rising inflation, a weak rupee and high crude oil prices.

But already faced with higher costs of daily essentials, Indian households have to now contend with paying higher EMIs for their loans. The US-Iran war has fed into higher costs for daily use items and the impact is visible in retail inflation numbers which are steadily rising. To keep inflation under 6%, RBI-led Monetary Policy Committee has opted for a 25 basis points repo rate hike in its review on Wednesday.

The six-member Monetary Policy Committee (MPC) of the RBI voted unanimously to raise the repo rate, and sprang a surprise with a CONTINUED ON P6

KEY POINTS

- Marginally raises FY27 retail inflation projection to 5.2 pc
- Raises FY27 GDP growth forecast by 40 bps to 7.1 pc
- Rate cuts are off the table in the near term and policy action ahead can only be a rate hike or a pause, depending on the evolving conditions and the outlook: RBI Guv
- 'RBI will ensure stability in rupee'

Unity grows, security surges

CJP, students join hands; 23K CAPF to bolster security

AIMAN FATIMA & ANAMTA FATIMA
New Delhi, October 7

The Cockroach Janta Party (CJP) and student organisations on Wednesday joined hands for a united mobilisation ahead of their October 10 protest over electoral reforms, even as the Delhi Police prepares for a major security deployment with around 23,000 Central Armed Police Forces (CAPF) personnel being made available in the national capital from October 8 to 12.

At a joint press conference, the CJP, All India Students' Association (AISA), All India Students' Federation (AISF), Students' Federation of India (SFI) and the Aam Aadmi Party's student wing, Association of Students for Alternative Politics (ASAP), said they would continue their campaign demanding changes in the electoral system.

The organisations are seeking the resignation of Chief Election Commissioner Gyanesh Kumar, a halt to the Special Intensive Revision (SIR) of electoral rolls, restoration of the January 2025 voters' list and an independent inquiry into the revision process. CONTINUED ON P6

RTI data: 2,454 rape cases in Bengal in five months

AGNIHOTRI GUPTA
Kolkata, October 7

An RTI response from the State Crime Records Bureau, accessed by former MAITC Rajya Sabha MP Saket Gokhale, has purportedly recorded 2,454 rape cases in West Bengal between May and September 24, according to figures shared by the Mamata Trinamool.

The data also listed 600 murders, 13,114 attempted murders and 32,341 cases of assault causing grievous hurt during the period.

MAITC national general secretary Abhishek Banerjee shared the figures on Wednesday, calling them "a snapshot of the BJP's 'Double Engine' disaster in West Bengal."

THE DATA ALSO LISTED 600 MURDERS, 13,114 ATTEMPTED MURDERS

The figures work out to an average of around 16 rape cases, four murder cases, 87 attempt-to-murder cases and 216 cases of grievous assault every day during the five months. CONTINUED ON P6

'Won't stop...': Protest, procession, detention — again

AAISHA SABIR
New Delhi, October 7

Leader of Opposition in the Lok Sabha Rahul Gandhi and his sister Priyanka Gandhi Vadra, MP, were detained for the second time in two days on Wednesday as the Opposition's street protests continued against Chief Election Commissioner Gyanesh Kumar.

Both Rahul and Priyanka were stopped near the Shangri-La hotel while heading towards Jantar Mantar. Priyanka resisted as police moved to detain her, eventually lying on the ground, clutching the Constitution to her chest, before being carried into a police van. Congress alleged she was pushed and manhandled.

I HAVE 45 FIRs AGAINST ME. MY TARGET IS THAT THERE SHOULD BE 100 FIRs AGAINST ME. EVERY FIR AGAINST ME IS A MEDAL FOR ME

Giving further momentum to his politics of street protest, Rahul Gandhi led INDIA bloc leaders to another resistance-packed day -- moving from the opposition grouping's lunch meeting to near Jantar Mantar in CONTINUED ON P6

KAGAN, SOAI WIN FOR BREAKTHROUGH AIDING DRUG DEVELOPMENT

Chemistry Nobel for mirror mystery

PRESS TRUST OF INDIA
Stockholm, October 7

Scientists Henri B. Kagan and Kenso Soai won the Nobel Prize in Chemistry Wednesday for untangling mysterious mirror images in molecules, a discovery that has been used to develop countless drugs and has transformed modern medicine.

Many molecules come in versions that look alike but are not exactly identical, like right and left hands. Kagan, who is from France, and Soai, from Japan, found ways to make chemistry pick a side, designing reactions to produce the desired mirror image.

"The medicines we have today would not be possible without this chemistry," said Rigoberto Hernandez, president of the American Chemical Society.

Soai was shopping at a neighbourhood supermarket when he heard he had won.

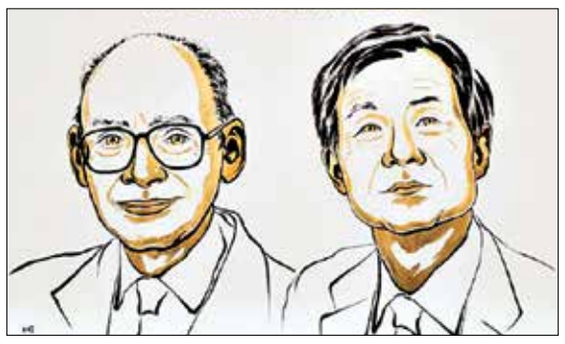

"I'm very excited to receive the very nice news," Soai told the Nobel committee and journalists by phone. "Of course, this is one of the most exciting days in my life."

Mirror images of the same molecule can have different properties. For example, one version of the chemical carvone smells like mint, while the other has a whiff of caraway, a spice often used in rye bread.

The alternate versions can also behave differently when interacting with other chemicals. When designing drugs to treat diseases, scientists want to be choosy about which mirror image they get. They want the version of a molecule to treat a cold, not one that will make the sniffles worse.

The Nobel committee described Kagan and Soai's work as a feat never previously achieved by anyone "other than life itself."

"It might be difficult to say that this drug, or that drug, was CONTINUED ON P6

Iran war: US loses 81 aircraft, report says

$3.3 bn losses: F-35s, F-15s among them

AGENCIES
Washington, October 7

The US has lost or suffered damage to at least 81 military aircraft and drones since the Iran war began earlier this year, costing nearly $3.3 billion, according to a Congressional Research Service report. The losses include advanced aircraft such as F-35A stealth fighters, F-15 jets and MQ-9 Reaper drones.

Each F-15 jet is worth more than $30 million, while the 45 MQ-9 Reaper drones are estimated to be valued between $30 and $50 million each. The fifth-generation F-34A, one of America's most advanced warplanes, is worth more than $92 million.

As per the report titled "US Aircraft Combat Damage in Operation Epic Fury: Considerations for Congress", the American forces lost 12 F-15E aircraft, one F-35A Lightning II fighter aircraft, two A-10 Thunderbolt II ground-attack aircraft, and seven KC-135 Stratotanker aerial refuelling aircraft during mission in the Middle East.

Three of the F-15 jets were shot down in friendly fire over CONTINUED ON P6

ENTRY POINTS TO DELHI FACE TIGHTER SURVEILLANCE

Cops tracking past CJP protesters, logistics suppliers ahead of Oct 10

OUR CORRESPONDENT
New Delhi, October 7

Delhi Police are going back to the details of the Cockroach Janta Party's previous protest in the capital, tracking people with alleged criminal antecedents as well as logistics suppliers who helped organise the earlier agitation, as part of preparations to prevent a repetition of the large mobilisation ahead of the outfit's proposed October 10 protest, officials said on Wednesday.

Station house officers (SHOs) across the city have been instructed to keep watch on around 2,800 people identified through facial recognition system (FRS) as having alleged criminal antecedents and ascertain whether any of them are moving towards New Delhi district for the proposed demonstration.

Officers have also been asked to identify and monitor those involved in arranging logistics for the CJP's previous protest, including providers of buses and other resources, and check whether they have again been contacted for the October 10 agitation, officials aware of the security arrangements said.

Police have not granted permission for the proposed protest so far.

"SHOs have been asked to identify and keep track of such people in their respective areas, particularly those who may have a history of serious offences. The idea is to know who is moving towards the protest site and from where," an officer said.

The directions also include monitoring local bus operators and checking bookings to ascertain who is hiring buses, the number of people being transported and their destinations. Police are particularly looking for organised movement of groups towards Delhi and the New Delhi district in the run-up to the protest.

"If there is organised movement of people towards New Delhi, local police should be aware of it and take necessary action," the officer said.

Police have also been directed to engage with heads of universities and colleges in their respective jurisdictions and request them to ensure that students do not participate in the protest. Officers have similarly been asked to contact owners of paying guest (PG) accommodations in major student hubs and advise them to discourage students from joining the demonstration.

Possible entry routes into Delhi are under heightened surveillance, particularly the eastern and Shahdara borders with Uttar Pradesh and routes on the southwest of the city, including those from Rajasthan, officials said.

"Barricades will be installed at entry points," an officer said.

Police have further instructed personnel to ensure that protesters do not sit or stage demonstrations at locations in New Delhi district if they are stopped from reaching the proposed venue. "The leaders are putting on social media that if protesters are stopped anywhere, they should sit where they are stopped. We have to ensure that doesn't happen," another officer said.

The proposed October 10 protest comes months after the CJP-led agitation over the alleged NEET-UG paper leak in July, when thousands of demonstrators attempted to march towards Parliament and demanded resignation of erstwhile Union education minister Dharmendra Pradhan over alleged examination irregularities.

Police step up security ahead of October 10 protest, citing criminal antecedents among those identified at July's Jantar Mantar agitation.

CLOSER LOOK

- 'SHOs have been asked to identify and keep track of such people in their respective areas, particularly those who may have a history of serious offences. The idea is to know who is moving towards protest site and from where,' an officer said

SEEKS COMPLIANCE REPORT

Delhi directs safety audit of CGHS buildings

New Delhi, October 7

DELHI HAS NEARLY 1,000 ACTIVE CGHS BUILDINGS, MOSTLY CONCENTRATED IN SOUTHWEST, EAST AND NORTHWEST PARTS OF THE CAPITAL

The Delhi government has directed managing committees of cooperative group housing societies (CGHS) in the city to conduct comprehensive safety audit of residential buildings for timely repairs of any major cracks, seepage and other structural deficiencies, officials said on Wednesday.

The move comes in the wake of recent incidents of building collapse in Saidul Ajab and Satya Niketan areas, that claimed multiple lives.

A recent order issued by Delhi's registrar for cooperative societies directed CGHS managing committees to undertake safety audit of society buildings and common areas to ensure there is no structural damage, major cracks, seepage, leakage, or damage to roof, external walls and staircases, which may adversely affect the safety of the building and its occupants.

Delhi has nearly 1,000 active CGHS buildings, mostly concentrated in southwest, east and northwest parts of the city.

Managing committees have also been directed to ensure verification of valid fire safety certificates and functioning of firefighting installations, as well as maintenance of lifts installed in the society buildings.

"The managing committee will take immediate remedial action if any structural defect, damage or other safety deficiency pointed in the audit or inspection. Where the matter requires intervention of a competent authority, it may take the matter with DDA, MCD Delhi Fire Services," the order said.

CGHS managing committees are "squarely responsible" for repair, maintenance and ensuring safety and stability of society buildings according to Rule 106 of the Delhi Cooperative Societies Rules, 2007, it said.

Cooperative housing societies must maintain safety, disaster management and fire prevention plans, alongside inspection records, repairs and compliance, following the minister's directive for a comprehensive safety audit and report. PTI

Fake currency racket busted, four arrested

Printing equipment recovered

PRAJYOT DEOGHARE
New Delhi, October 7

The Delhi Police's District Investigation Unit (DIU) has busted an alleged fake currency syndicate with the arrest of four persons and recovery of counterfeit Indian currency notes worth around Rs 10.50 lakh, along with printing equipment.

The accused were identified as Pushkar Raj Purbia alias Doctor, 56, of Jaipur; Gosai Ram, 22, of Barmer; Sahil Kharb, 28, of Sonipat; and Narendra Kumar, 31, of Churu.

Police said the operation began on September 30 following information about counterfeit currency being supplied in Prashant Vihar. Three accused were arrested near Japanese Park, while Kumar was apprehended from Churu during further investigation. Searches led to the recovery of 21 bundles of suspected fake Rs 500 notes and printing equipment.

HC judge recuses self from hearing Delhi Gymkhana Club eviction case

OUR CORRESPONDENT
New Delhi, October 7

Delhi High Court judge Justice Prateek Jalan on Wednesday recused himself from hearing a case over the Centre's proceedings against the Delhi Gymkhana Club for its eviction from the 27.3-acre premises on Safdarjung Road here.

Justice Jalan directed that the lawsuit by the Delhi Gymkhana Club Ltd Staff Welfare Association be listed before another bench on Friday.

"I am going to recuse from this matter. There are matters where one does not trust one's own judgement," Justice Jalan said. "There is too much personal involved. I will feel more comfortable if someone else heard it," he said without elaborating.

Gymkhana member Vijay Khurana and Delhi Gymkhana Club Ltd Staff Welfare Association have filed separate lawsuits against the Land and Development Office (L&DO)'s May 22 order terminating the colonial-era club's perpetual lease deed and asking it to return its land by June 5 on grounds of "strengthening and securing defence infrastructure".

Khurana's lawsuit is stated to be supported by more than 500 club members.

They have also filed applications seeking a stay on the June 29 show-cause notice for eviction issued to the club's management by an estate officer of the L&DO.

The Centre had earlier said it would not take any coercive action in relation to the eviction for the time being.

The Centre, in its response to the main matter, has asserted that lawsuits were liable to be dismissed.

Gymkhana staff challenged the Centre's notices, seeking protection of their livelihoods and club functioning, while Khurana alleged forced eviction without due process and sought status quo on possession.

AAP protests outside Delhi CEO office over SIR, seeks CEC's resignation

OUR CORRESPONDENT
New Delhi, October 7

Scores of AAP and other parties' workers protested outside the Delhi Chief Electoral Officer's office at Kashmere Gate on Wednesday for the resignation of Chief Election Commissioner Gyanesh Kumar over alleged irregularities in the Special Intensive Revision (SIR) of electoral rolls.

Delhi Aam Aadmi Party chief Saurabh Bharadwaj said the party will ask the polling official about the deletion of lakhs of city's voters from the voter list.

"We don't have any personal rivalry with the government. We are fighting for the Constitution and rights. We also want to cooperate with the police," Bharadwaj said.

Demanding Kumar's resignation, protesters raised slogans: "Vote chori nahi chalegi" and "Vote chor, gaddi chhor".

Bharadwaj, whose party has been seeking answers on deletion of nearly "half" of Delhi population's names from the voter roll, said the Delhi

Bharadwaj said protests would continue against the CEO, with the Cockroach Janata Party also calling an October 10 demonstration at Jantar Mantar.

Briefs

Woman killed as LPG catches fire

NEW DELHI: A woman died after an LPG cylinder caught fire in a house in outer north Delhi's Sannoth village, officials said on Wednesday.

The fire was reported around 8 pm on Tuesday. Two fire tenders were rushed to the spot and the blaze was brought under control by around 8:35 pm, the Delhi Fire Service (DFS) said.

The body of the woman, identified as Manju, was found at the scene and handed over to police, it said.

Blaze at Delhi Univ North Campus office

NEW DELHI: A fire broke out at a Delhi University North Campus office, damaging a sofa and furniture, officials said.

The fire was reported at 11:53 pm on Tuesday at the Delhi University Students' Union (DUSU) office in Law Centre-I on the university premises, the Delhi Fire Service said. Five water tenders were rushed to the spot.

The fire was confined to a sofa and furniture at the DUSU office and was brought under control.

No casualties were reported in the incident, they added.

95 ACRES ALLOTTED FOR 25 INDUSTRIAL PROJECTS

YEIDA clears 25 projs worth Rs 3,155 cr

DIPIKA KIROLA
Greater Noida, October 7

EMPTY HANDED

- Of the 25 projects, 11 have been earmarked in Sector 8D under general industry. Eight projects have been proposed in Sector 29, of which three will be located in the Apparel Park, one in the Handicraft Park and four under general industry
- The authority said the projects together would occupy nearly 95 acres and bring substantial investment into the region
- Three projects have been allotted in Sector 24 under mixed land use, while 2 projects have been proposed in Sector 6, which has been designated for proposed Pharma Park. One project planned in Sector 28 for the Medical Device Park

The Yamuna Expressway Industrial Development Authority (YEIDA) on Wednesday issued Letters of Intent (LoIs) to 25 companies for setting up industrial and other projects in the Yamuna City area. The proposed projects are expected to attract investments of around Rs 3,155 crore and generate more than 9,000 employment opportunities.

According to the officials, the projects will come up across approximately 95 acres of land. The LoIs cover projects in multiple sectors, including general industry, medical devices, mixed land use and the proposed Pharma Park. Of the 25 projects, 11 have been earmarked in Sector 8D under general industry.

Eight projects have been proposed in Sector 29, of which three will be located in the Apparel Park, one in the Handicraft Park and four under general industry.

Three projects have been allotted in Sector 24 under mixed land use, while two projects have been proposed in Sector 6, which has been designated for the proposed Pharma Park. One project has also been planned in Sector 28 for the Medical Device Park.

The authority said the projects together would occupy nearly 95 acres and bring substantial investment into the region. The employment potential of more than 9,000 jobs is expected to provide a further boost to industrial activity in the Yamuna City area.

The latest allotments come as the authority continues to develop industrial clusters and attract investments across specialised sectors, including medical devices, pharmaceuticals, apparel and handicrafts.

99 trainee officers begin intensive CRPF training

'Use training to prepare for leadership challenges...'

OUR CORRESPONDENT
Gurugram, October 7

SINGH STRESSED PHYSICAL FITNESS, PROFESSIONAL KNOWLEDGE, INTEGRITY AND CHARACTER...

The basic training of the 57th batch of Directly Appointed Gazetted Officers (DAGOs) began at the CRPF Academy, Kadarpur, on Wednesday, with Director General Gyanendra Pratap Singh urging trainees to develop discipline, competence and compassion as leaders.

The batch comprises 99 officers, including three women, selected from across the country.

Of them, 22 are postgraduates and 77 graduates, while 28 have prior experience in the Armed Forces, CAPFs, police or other government organisations. Addressing the trainees, Singh urged them to make full use of the rigorous training and prepare for the challenges of leadership in the force.

He stressed physical fitness, professional knowledge, integrity and character, and asked officers to lead by example while treating personnel with dignity and respect.

The DG also emphasised continuous learning through the ethos of "unlearning, learning and relearning" and called upon the officers to uphold the values and traditions of the CRPF.

MINISTER VERMA BLAMES AAP FOR PROJECT DESIGN

'U-turn & lane changes in works to tackle Barapullah congestion'

AIMAN FATIMA
New Delhi, October 7

The Delhi government is working on a dedicated U-turn on Ring Road near the Gurudwara to ease congestion around Barapullah Phase-III, while Google Maps is expected to update its route mapping for the newly opened corridor within 15 days, PWD Minister Parvesh Sahib Singh said on Wednesday.

The proposed U-turn, or cut, is aimed at providing residents of Siddharth Extension direct access to the Old Barapulla approach road towards Lajpat Nagar, INA and AIIMS, without forcing them to take longer diversions or make unsafe movements.

The PWD minister said the department was examining immediate traffic-management measures after congestion was reported on the newly operationalised Barapullah Phase-III. He said discussions had been held with the Delhi Traffic Police on both short- and long-term solutions.

"We recently held a meeting and discussions were on short-term and long-term solutions that have been suggested by traffic police; we will work on that," Verma said.

CLOSER LOOK

- **Proposed U-turn, or cut, is aimed at providing residents of Siddharth Ext direct access to the Old Barapulla approach road towards Lajpat Nagar, INA and AIIMS, without forcing them to take longer diversions or make unsafe movements**
- **The PWD minister said the department was examining immediate traffic-mgmt measures after congestion was reported on Barapullah Phase-III. He said discussions had been held with the Traffic Police on both short- and long-term solutions**
- **'We recently held a meeting and discussions were on short-term and long-term solutions that have been suggested by traffic police; we will work on that,' Verma said**

The department is also in touch with Google Maps to ensure that the new traffic patterns and road connectivity are reflected on the navigation platform.

"Google Maps algorithm takes around 15 days to update the traffic situation of a road, so that will happen soon; we are in touch with them," Verma said.

The minister said the congestion was partly linked to the way traffic from different directions merges at key points of the corridor. PWD is examining lane channelisation, better utilisation of available road space and smoother movement between Sarai Kale Khan, Ring Road and ITO.

The proposed U-turn is expected to separate local traffic from the larger flow of vehicles using the Barapullah corridor and improve access for residents of Siddharth Extension.

The minister also blamed the previous Aam Aadmi Party government for the project's planning and design, saying its technical specifications had been finalised during the earlier regime.

"All tender specifications, technical feasibility were done by the AAP government. How can this be our design fault?" he said.

The Barapullah Phase-III project, constructed at a cost of around Rs 1,635 crore, connects Mayur Vihar Phase-I on Noida Link Road with Sarai Kale Khan on Ring Road. The project was approved in 2014 and construction began in April 2015, with an original completion target of 2017, but it faced prolonged delays.

The PWD is also planning to appoint a traffic and structural design consultant to assess the corridor and suggest further short- and long-term interventions.

Young legislators debate environment at Delhi Assembly

OUR CORRESPONDENT
New Delhi, October 7

The Delhi Assembly turned into a classroom of young legislators on Wednesday as children aged 7 to 17 occupied the seats of elected representatives and debated environmental conservation and sustainability during the Rashtriya Paryavaran Baal Sansad 2026.

Addressing the programme, Delhi Assembly Speaker Vijender Gupta said the informed and peaceful debate by the children offered a model for legislative deliberations and stressed that environmental protection and development must go hand in hand. "The future our children inherit will be shaped by what we choose to protect today," Gupta said, adding that the generations to come would judge the present generation by what it preserved.

Held under the theme "Sowing Today, Growing Tomorrow", the programme saw children deliberate on environmental conservation, sustainability and responsible citizenship inside the Assembly Chamber.

Gupta says dialogue, questioning and environmental responsibility can strengthen democracy while urging children to stay engaged in public issues.

Rs 65-cr GIS project to speed up PM-UDAY property rights

Delhi govt to map unauthorised colony properties

AIMAN FATIMA
New Delhi, October 7

The Delhi government is set to use GIS-based mapping and geospatial technology to speed up the process of granting property rights to residents of unauthorised colonies, with the Centre approving a Rs 65-crore 'DRISHTI' project for surveying and documenting properties under the PM-UDAY scheme.

Under the Delhi Revenue and Imaging Survey, Spatial Technology Initiative (DRISHTI), PM-UDAY Cells will be established in all 13 districts, along with a branch at the headquarters, Chief Minister Rekha Gupta said on Wednesday.

The project is aimed at making property surveys, mapping and documentation more systematic, transparent and time-bound, the government said.

Of the total Rs 65 crore estimated cost, Rs 52 crore, or 80 per cent, will be provided as a grant from the Urban Development Fund of the Union Housing and Urban Affairs Ministry, while the remaining Rs 13 crore will be contributed by the Delhi Revenue Department, which will implement the project.

KEY POINTS

- **The government said the technology-based system would help streamline property-related surveys and enable beneficiaries to access ownership, transfer and other associated rights more efficiently**
- **Gupta said the Delhi government was working to ensure that eligible residents do not face unnecessary difficulties in securing their property rights and that the benefits of PM-UDAY reach beneficiaries faster**

The PM-UDAY scheme seeks to provide ownership rights to residents of notified unauthorised colonies in Delhi. Its implementation involves the DDA, Delhi Revenue Department and the MCD.

Gupta said the initiative was intended to reduce delays faced by eligible residents in securing legal rights over their properties.

"The PM-UDAY Scheme is not merely a process of issuing property-related documents, but an important means of providing legal security over homes and property rights to lakhs of families living in Delhi's unauthorised colonies," she said.

The Rs 52-crore central grant will be released in four instalments. However, the entire approved amount may be released in a single instalment if procurement is undertaken through the Government e-Marketplace (GeM), subject to prescribed conditions.

The government said the technology-based system would help streamline property-related surveys and enable beneficiaries to access ownership, transfer and other associated rights more efficiently.

Gupta said the Delhi government was working to ensure that eligible residents do not face unnecessary difficulties in securing their property rights and that the benefits of PM-UDAY reach beneficiaries faster.

Doctors: 'Winter smog to worsen respiratory risks'

SHIVANGI SHUKLA
New Delhi, October 7

As Delhi braces for winter smog, respiratory illnesses are expected to rise, with people suffering from existing lung conditions likely to face greater health risks due to prolonged exposure to air pollution.

Dr Saurabh Mittal, Assistant Professor, Department of Pulmonary, Critical Care and Sleep Medicine at AIIMS, said long-term exposure to air pollution also increases the risk of cardiovascular events, including heart attacks and brain attacks.

He said a flu outbreak was still ongoing across the city. While the infection generally resolves within four to five days, recovery can take several weeks for patients with Chronic Obstructive Pulmonary Disease (COPD), as coughing tends to persist beyond the usual duration.

"Exposure to air pollution acts as a trigger, worsening the condition and sometimes requiring an escalation of treatment or an increase in the inhaler dose," Dr Mittal said.

He explained that while the effects of air pollution on the heart and other organs tend to be chronic, its impact on the lungs can be both gradual and immediate. People may experience fatigue, tiredness and eye pain during periods of peak pollution, he said.

Dr Mittal advised people to avoid outdoor exposure as much as possible and wear masks when stepping outside. Those with existing lung conditions should consider using air purifiers. He also suggested adjusting morning walk timings to reduce exposure to polluted air.

Over 35L women travel free on DTC buses within 6 days

New Delhi, October 7

More than 35 lakh women commuters travelled on DTC buses between October 1 and 6, amid the rollout of the Delhi government's Pink Saheli Smart Card for free bus travel.

Over 25 lakh women have travelled since October 3, when the smart card-based facility was notified. Transport Minister Pankaj Kumar Singh said eligible women need not panic as card-making will continue until all beneficiaries are covered.

"There is no need for any woman to panic or worry about the Pink Saheli Smart Card," Singh said.

The government has set up 38 centres and special camps to issue NCMC-enabled cards, offering free travel on DTC and Cluster buses to eligible women and transgender persons. MPOST

Nitin Nabin flags off BJP's 'Seva Jyoti Yatra' in Delhi

OUR CORRESPONDENT
New Delhi, October 7

The BJP on Wednesday organised the 'Seva Jyoti Yatra' in Delhi to mark Prime Minister Narendra Modi completing 25 years in public life, with Chief Minister Rekha Gupta joining party leaders and workers in carrying the ceremonial torch from the Indira Gandhi Indoor Stadium to different parts of the city.

BJP national president Nitin Nabin flagged off the yatra by handing over torches to representatives from Delhi's seven Lok Sabha constituencies. Gupta, Delhi BJP president Harsh Malhotra, MPs, ministers and senior party leaders participated in the programme.

Gupta said Modi's 25-year public journey was marked by continuous service and commitment to the nation.

"The completion of 25 years of Prime Minister Narendra Modi Ji's public life is an important occasion for the country," she said, adding that his "nation first" approach remained an inspiration.

'BJP WORKERS PLEDGED TO CARRY FORWARD SPIRIT OF 'SEVA HI SANGATHAN' AND WORK TOWARDS PUBLIC WELFARE...'

She said the Prime Minister's vision of 'Viksit Bharat @2047' could be achieved through the collective participation of citizens. She also linked the initiative with Delhi's goal of a 'Viksit Delhi'.

The yatra was organised as part of the BJP's nationwide 'Seva Sankalp Abhiyan'. Party workers from various organisational units gathered at the stadium before carrying the torches towards their respective parliamentary constituencies.

The yatra covered the seven Delhi Lok Sabha constituencies, Chandni Chowk, North-East Delhi, East Delhi, New Delhi, North-West Delhi, West Delhi and South Delhi.

Through the programme, BJP workers pledged to carry forward the spirit of 'Seva Hi Sangathan' and work towards public welfare and nation-building.

The party said the initiative was aimed not only at commemorating Modi's 25 years in public life but also at renewing its commitment towards the goal of a developed and self-reliant India by 2047.

NDMC launches three digital civic initiatives

ANAMTA FATIMA
New Delhi, October 7

The New Delhi Municipal Council (NDMC) on Wednesday launched three initiatives aimed at making civic services more accessible, transparent and accountable, including fully online birth and death registration, a digital platform for pet services and the adoption of 346 public toilets by senior officers and council members.

NDMC Chairman Manoj Kumar Dwivedi said the initiatives combine technology and field-level monitoring to improve public service delivery. He said the online birth and death registration system will allow citizens to access services such as certificate corrections, inclusion of a child's name, registration of home births and deaths, and delayed registration without routine visits to NDMC offices.

Under the new system, hospitals will electronically transmit birth and death-related information to NDMC, enabling end-to-end paperless processing. The move is expected to reduce paperwork, waiting time and physical visits while improving transparency and efficiency.

NDMC Vice Chairman Kuljeet Singh Chahal said the initiatives reflected the focus on citizen-centric governance and technology-enabled public services.

The civic body also launched a comprehensive online pet services platform through its government veterinary hospital. NDMC to digitise pet services and intensify monitoring of 346 public toilets for cleanliness, sanitation and essential amenities.

Oct 11: Heritage walks at CR Park

ANAMTA FATIMA
New Delhi, October 7

The Delhi Tourism department will organise a series of spiritual and heritage walks in Chittaranjan Park (CR Park) during Durga Puja to showcase the Bengali community's traditions, food, music, craftsmanship and cultural heritage.

CR Park, popularly known as "Mini Bengal", comes alive during the festival with Durga idols, thematic pandals, traditional rituals, dhak performances, cultural programmes, bhog and Bengali cuisine. The walks will offer visitors an opportunity to explore these aspects through curated storytelling and interactions with members of the local community.

A special walk for influencers was organised in CR Park on October 7 to familiarise digital creators with the area's spiritual and cultural heritage.

The walks will cover the history and evolution of CR Park and the Kali Mandir Society, idol-making and craftsmanship, traditional Puja practices, bhog preparation, eco-friendly immersion practices, prominent pandals, Bengali markets, food and music.

The walks are scheduled for October 11, 12, 14, 15, 16, 18 and 19. The programme includes morning and evening walks, with timings varying between 8 a.m. and 11 a.m. and 5 pm. and 8 pm. The walks cost Rs 500 plus GST per person.

NEW AGENCIES TASKED WITH ADDING A DAILY SPECIAL ITEM

With oat cookies, sambar rice on menu, mid-day meals at MCD schools to get a makeover

PRESS TRUST OF INDIA
New Delhi, October 7

Oats cookies, fruit, kheer, and sambar rice will soon become part of the mid-day meals served to children in MCD schools, with the civic body planning a more varied menu across its nearly 1,500 schools from November, officials said on Wednesday.

They added that the new agencies that will run its school kitchens have been asked to add at least one "special" item to the regular meal every day to make nutritious food more appealing to children. Oatcakes and cookies are among the options being considered, apart from fruit and kheer, officials at the civic body said.

"We are asking the companies to do something additional. Children get bored if they keep eating the same thing. If the same ingredients are made into something like a cookie or prepared in a way that children enjoy, they are more likely to eat it," a senior MCD official said.

The revised menu will include sambar rice and continue meals being served currently, such as puri-aloo, dal-rice, and chole-rice. The agencies will also be asked to introduce more variety in the preparations, with halwa made of wheat and ragi to be served twice a week, officials said.

"NEW MENU AIMS TO MAKE NUTRITIOUS MEALS MORE APPEALING..."

"On days when puri-aloo is served, children like it. We want them to eat everything, so the effort is to change the preparation rather than simply remove an item from the menu," another official said.

The changes come as the MCD prepares to hand over its school kitchens to a new set of agencies. The tender was floated around two months ago and surveys of shortlisted kitchens are underway. Officials said 13 new vendors are expected to come in, and the agencies are likely to be finalised by next week.

The civic body has also asked the agencies to work within their available kitchen infrastructure while introducing the additional items. The menu is being planned at the local level across zones, with dishes including puri-sabzi, dal-chawal, chole-chawal, rajma-chawal, kadhi-chawal continued to be served to students.

Under the Centre's PM POSHAN nutrition norms, a school meal is required to provide 450 calories and 12 grams of protein per child per day at the primary level.

Food quality is checked monthly through third-party labs, while idli-sambar introduction remains pending over funds for specialised bulk-cooking equipment.

HC gets new judge, strength rises to 50

OUR CORRESPONDENT
New Delhi, October 7

The Delhi High Court on Wednesday got a new judge with the swearing-in of Justice Gurvinder Pal Singh.

Acting Chief Justice Nitin Wasudeo Sambre administered the oath of office to Justice Singh, taking the strength of judges of the Delhi High Court to 50.

The sanctioned strength of the high court is 60 which includes 45 permanent and 15 additional judges.

The swearing-in ceremony was held in the high court premises.

Justice Singh, who was a judicial officer of the Delhi district judiciary and has been elevated to the high court as an additional judge, took oath in Hindi.

The Centre had on October 5 notified the appointment of the judicial officer as judge of the high court.

In September, a total of seven judges had taken the oath of the office of the Delhi High Court.

On September 10, the Supreme Court Collegium had recommended eight judicial officers for elevation to the Delhi High Court.

While seven were elevated, Singh did not find his name in that list.

NEW AI TOOLS TO CHECK ADS ROLLED OUT

'Meta acted on 5.3 million pieces of child abuse content in H1 2026'

MPOST BUREAU
New Delhi, October 7

Facebook and Instagram owner Meta on Wednesday said it has deployed new AI tools to crack down on ads that covertly lead users to child abuse material, as it disclosed that it acted on 5.3 million pieces of child sexual exploitation content in India during the first half of 2026.

More than 98 per cent of the content on Facebook and Instagram in India was found and addressed before anyone reported it, the company said in a blog post. Globally, it actioned 33.2 million such items on the two platforms between January and June, with over 97 per cent found proactively.

"Today we're sharing the additional measures we've put in place to strengthen our efforts to combat child sexual exploitation on our platforms," it said.

These measures include new AI tools to address the identified adversarial tactics and improve the efficacy of systems for detecting ads that either feature child sexual abuse material or that direct people to violating activity off-platform.

"Keeping young people safe on our apps is among the most important work we do, and it never stops," Meta said.

It further noted that predators have shifted tactics to advertising, where an ad can look harmless on its own while leading people to illegal material hosted off its platforms.

After identifying the scheme, it widened its investigation beyond the ads reported to it, disabled the accounts behind them and blocked the off-platform links involved, according to the company.

The new measures include a large language model system to detect "signposting", meaning ad content that appears benign but is strongly suspected of directing people to illegal content. Meta said it has also improved how it assesses where an ad leads, not only what it shows, and added AI-driven sweeps to surface material that earlier systems missed.

It is also using a red-teaming AI agent that probes its own defences for weaknesses, and has strengthened detection of banned users who create new accounts.

Besides this, Meta said it continues to use PhotoDNA and other image and video matching technology, which it has deployed across its apps since 2011, along with behavioural signals and rules-based systems.

It shares hashes of identified material with other companies through the Tech Coalition's Lantern programme, and blocks links to external sites that host such content, deleting other posts, comments or ads containing them.

Meta said it reports confirmed material to the US-based National Center for Missing & Exploited Children. In September, Meta had announced it would report child safety cases directly to the National Cyber Crime Reporting Portal run by India's Indian Cybercrime Coordination Centre.

The company said its investigators, who include former FBI personnel, work to disrupt networks of predatory accounts rather than act account by account. "We're consistently working with the authorities to hold the people behind these crimes accountable," Meta said.

India has stepped up scrutiny of social media platforms over harmful and illegal online content, including child sexual abuse content and deepfakes.

Meta CEO Mark Zuckerberg

HIGHLIGHTS

- **More than 98% of the content on Facebook and Instagram in India was found and addressed before anyone reported it, Meta said in a blog post**
- **Globally, it actioned 33.2 million such items on the two platforms between January and June, with over 97% found proactively**

MPSC protesters are not 'anti-social': Bombay HC

'Govt duty-bound to ensure impartiality in exams'

MPOST BUREAU
Mumbai, October 7

The Bombay High Court on Wednesday said the students protesting against alleged malpractices in the MPSC examinations are not anti-social elements, and stressed that the state government was duty-bound to ensure that public recruitment exams are conducted impartially.

A bench of Chief Justice Mahesh Chandra Tripathi and Justice Advait Sethna noted that the government has to give an assurance that whenever examinations are conducted, they are "impartial, fair and without any malpractices."

The court was hearing a petition filed by residents of Pune against the ongoing agitations in that city by students and others over alleged malpractices in the Maharashtra Public Service Commission (MPSC) exams and examination-related controversies.

The government has to ensure sincere effort in restoring the trust of people, especially students in such exams, the bench said. It further said that aggrieved students have a right to agitate.

THE GOVT HAS TO ENSURE SINCERE EFFORT IN RESTORING THE TRUST OF PEOPLE, ESPECIALLY STUDENTS IN SUCH EXAMS

"If they (students) do not have an opportunity and they get the idea that there has been hanky panky, they have the right to agitate. Because they have given hours of study," the court said.

Advocate General Milind Sathe, appearing for the state government, said the authorities have been showing reasonable restraint and have not lodged any FIRs against any protesters.

He further said that most of the demands raised by the protesters have been met.

"One of their demands was the resignation of the MPSC Chairman. A recommendation has been sent to the Governor as per the procedure and further action is awaited," Sathe said. Appreciating the government's move of not lodging any case against the agitators, the court said, "The protesters are students. They are not anti-social elements."

The court, however, also asked the students to go back to their education and studies as the court was now seized of the issue.

"The court is now seized of the matter and the trust should be restored. Their grievances should be addressed. Free and fair examinations should take place. I will look into how the state is moving. They should trust the court," the HC said. It requested the students to consider the plight of their families and return to their colleges.

"These children are innocent, but now they are on the roads. Their careers will be spoilt," Chief Justice Tripathi said while also asking them to ensure that no hardship is caused to the peace-loving city and citizens.

From page 1

'We Will Do It'

Referring to Captain Smit Machchhar, an Indian pilot with flydubai who foiled an attempt by his co-pilot to crash an Israel-bound flight despite being stabbed, the PM said the world is talking about India's pilot today and a day will come when the world will talk about made-in-India aircraft.

"These goals will be achieved through visionary policies and relentless hard work. India may have challenges, but we also have 140 crore solutions," he said. The prime minister said that when he looks back, he feels nothing but gratitude as he is grateful to every person and every experience that taught him something.

Modi said those who opposed him explained to him the power of democracy and every crisis tested his patience, every success expanded his responsibilities and every achievement gave him the courage and determination to move towards greater goals.

PM Modi also visited the residence of former deputy prime minister and BJP stalwart L K Advani and sought his blessings on completing 25 years as a head of government.

In a post on X, the prime minister said, "Met Advani Ji at his residence and sought his blessings. His decades of public service and contribution to our national life have left a lasting imprint. He has played a pivotal role in strengthening India's progress."

Another month

on Wednesday afternoon. The building had come down on a plot of about 25 square yards and partially damaged two other structures, which raised questions about the stability of the other buildings.

The collapsed building had stood on a 25-square-yard plot, partially damaging two adjoining structures and raising concerns over the stability of nearby buildings.

Delhi Fire Services has sent four fire tenders to the spot after getting an information about the incident at around 3:30 pm.

The personnel of Delhi Police, Delhi Fire Services, Delhi Disaster Management Authority (DDMA), Municipal Corporation of Delhi (MCD), Centralised Accident and Trauma Services (CATS) and National Disaster Response Force (NDRF) were engaged in rescue and relief operations.

In addition, local people helped the authorities and emergency responders in rescuing the people trapped beneath the building rubble. Moreover, rescue teams were still searching the site of the disaster for any more trapped people.

Meanwhile, Chief Minister Rekha Gupta directed the authorities to keep a close watch on the situation at the site of the building collapse. "Rescue and relief operations are underway at the site of the building collapse in Seemapuri," she said.

"The Delhi Fire Services, Delhi Police, DDMA, MCD, CATS, and NDRF have been directed to rescue all the trapped people and provide the best possible medical aid to those injured in the tragedy," the CM added.

CM Gupta also urged the concerned authorities to facilitate the rescue operations and provide all possible assistance to the affected people.

Details about the cause of the tragedy and the condition of those rescued from the building were not immediately available.

RTI data

The monthly breakup showed 349 rape cases in May, 389 in June, 786 in July, 459 in August and 471 till September 24. Murder cases stood at 125 in May, 134 in June, 133 in July, 111 in August and 97 till September 24. Attempt-to-murder cases stood at 2,947 in May, 3,096 in June, 2,562 in July, 2,498 in August and 2,011 till September 24. Cases of assault causing grievous hurt stood at 7,794, 6,922, 6,191, 6,334 and 5,100 respectively.

The Mamata Trinamool, while sharing the data on X, accused the BJP government of failing to ensure law and order and questioned its "safe and secure Bengal" promise. Referring to the BJP's "Bhorsha In, Bhoy Out" slogan, the party alleged that the figures presented a different picture and demanded security, accountability and justice.

Outside the Assembly, MAITC MLA Kunal Ghosh called the data "explosive" and sought an urgent Assembly discussion and statements from the government and Governor. He also alleged that some complaints were not properly registered and cases diluted.

ISF MLA Nawsad Siddiqui also cited the RTI figures, saying the situation was "frightening" and that the government must explain what steps it was taking.

Unity grows

They have also demanded changes to the 2023 law governing appointments to the Election Commission.

CJP co-convener Saurav Das appealed to people from across the country to participate in the October 10 mobilisation and said the campaign would continue despite the challenges involved.

"This fight is not going to be easy. I appeal to everyone across the country to join us, book train and flight tickets," Das said.

AISA president Neha Bora said the participating organisations had come together despite differences in their political affiliations, describing the mobilisation as a broader campaign involving students, civil society and opposition groups.

"There are no divisions. We, the people of India, versus the BJP. If we lead this fight unitedly, we will do it effectively," Bora said. The groups also backed the October 6 protest march by INDIA bloc MPs towards the Election Commission office, saying elected representatives had a responsibility to raise public concerns.

Das said the organisations were united around the objective of addressing what they described as shortcomings in the electoral system.

Meanwhile, the Centre has made available 221 CAPF companies, comprising roughly 23,000 personnel, to the Delhi Police for law-and-order duties between October 8 and 12. The deployment includes 111 companies that had already been made available during the CJP's July protests and another 110 companies sanctioned on October 6.

The additional deployment comprises 85 CRPF companies, 10 SSB companies, seven RAF companies, seven ITBP companies and one CISF company. Besides the CAPFs, around 15,000 Delhi Police personnel are expected to be deployed on the ground.

The scale of the deployment is larger than during several previous protests in the capital. Around 150 CAPF companies were deployed during the CJP's July agitation, while 93 companies were deployed during the 2020-21 farmers' protests.

The security arrangements come as the CJP has announced its fresh mobilisation as 'Jantar Mantar 2.0', beginning October 10.

On police permission for the protest, Das said the organisers had submitted a formal intimation at Parliament Street police station along with undertakings. "Please don't use the word permission. Who is Delhi Police to give us permission?" he said, adding that the organisers would cooperate with the police.

"We will cooperate with Delhi Police and we hope Delhi Police will cooperate with us," Das said.

RBI hikes

shift in policy stance to "calibrated tightening" from "neutral".

The decision to change the policy stance was taken with a 4:2 majority.

External members Nagesh Kumar and Ram Singh were of the view that the policy stance should be retained at neutral, the RBI said in its policy statement.

The hike in the repo rate -- the first in the tenure of Governor Sanjay Malhotra, who assumed office in December 2024 -- comes as key global central banks raise rates due to pressure from high oil prices following the West Asia crisis, weak currencies, and the impact of El Nino. "Rate cuts are off the table in the near term and policy action ahead can only be a rate hike or a pause, depending on the evolving conditions and the outlook," Malhotra said while announcing the MPC's decisions.

He, however, cautioned that the timing and extent of any further tightening would depend on the evolution of inflation and growth, particularly underlying price pressures and the extent to which supply shocks become embedded in the broader economy. India's consumer-price inflation rose to 4.82 per cent in August - above the RBI's 4 per cent medium-term target for a third consecutive month, while core inflation accelerated to 4.2 per cent.

The RBI said inflation risks were no longer as benign as they had been a year earlier, pointing to higher food and fuel prices, deficient monsoon rains, El Nino conditions and renewed volatility in international oil prices.

"There are also early signs of inflation becoming generalised," Malhotra said.

The RBI marginally raised the forecast for retail inflation for the current fiscal to 5.2 per cent from its earlier estimate of 5 per cent, and said price pressures are increasingly becoming visible across a range of commodities.

Oil prices have emerged as a particular risk following the renewed escalation of the West Asia conflict. The Indian crude basket averaged USD 116.1 a barrel in September, up sharply from USD 82 in July, the RBI said.

The RBI also raised the GDP growth forecast for 2026-27 by 40 basis points to 7.1 per cent, after the economy expanded 7.8 per cent in the first quarter.

Economic activity remained resilient in the second quarter, although momentum had moderated. Manufacturing and services continued to expand, while indicators such as capital-goods production, credit growth and consumer spending remained supportive, the RBI said.

"The Indian economy has been strong, and the economic momentum remains broad-based," Malhotra said.

"We shall strive for price and financial stability as both are essential for sustainable growth in the long run," Malhotra said.

The hike in interest rates may lead to moderation in banks' credit growth from the present levels of over 18 per cent, but is unlikely to impact broader economic expansion, the RBI said.

Fixed deposit (FD) investors, struggling with the lowest interest rate cycle for the last four years, may now see the return of the rising-rate era as the RBI increased the repo rate. WITH AGENCY INPUTS

'Won't stop...'

a procession of buses for a surprise dharna. But for the second day, police stalled the planned anti-CEC protests midway, forcibly detaining him and other leaders.

"We are not going to stop protesting till (Chief Election Commissioner) Gyanesh Kumar resigns. This is a fight to protect the most sacred thing in this country. There is nothing that Narendra Modi and Amit Shah can do that will stop us," Gandhi said.

There were several dramatic moments in the nearly three-hour-long bus procession and an impromptu sit-in at the roundabout in front of the Shangri-La hotel when the opposition MPs were stopped by security personnel, with Congress general secretary Priyanka Gandhi Vadra lying flat on her back on the street, clutching a copy of the Constitution, along with other women leaders.

Rahul Gandhi kept resisting police attempts to put him inside a van for detention. The INDIA bloc leaders also jostled with security personnel.

A day after INDIA bloc MPs' march from Parliament and Rahul Gandhi's sit-in at Akashvani Bhawan, Congress president Mallikarjun Kharge hosted the lunch for the MPs of the alliance at a South Indian restaurant at Janpath, seen by many as a show of solidarity and a cover for launching another street protest.

The MPs converged at the all-vegetarian Sagar Ratna. The lunch began at 1:30 PM with opposition MPs congregating for a second straight day.

After about one-and-a-half hours, the MPs streamed out of the eatery and went and sat in three buses parked on Janpath Road and headed towards Jantar Mantar.

Some Congress leaders, including Amarinder Singh Raja Warring, Imran Masood, Imran Pratapgarhi, Deepender Hooda and Srinivas B V climbed the roof of the bus in which Kharge, Rahul and Priyanka were travelling, and waved the tricolour, as the procession crawled from Janpath to Jantar Mantar, bringing the high security area to a halt for the second day.

However, the buses were stopped by a multi-layered security cordon at Ashoka Road, after travelling a kilometre, near the Shangri-La hotel, barely another kilometre away from the Jantar Mantar protest site.

MPs of the Congress, TMC, CPI-M, CPI, RJD, IUML and some other parties were among the protesters. The Samajwadi Party was unrepresented at an INDIA bloc lunch, with the Congress attributing the absence of some allies to short notice.

However, SP sources separately voiced concerns over a lack of consultation ahead of Rahul Gandhi's surprise protests. Representatives of the Shiv Sena (UBT) and NCP-SP also could not attend because of prior commitments.

Congress general secretary Jairam Ramesh said all parties of the INDIA bloc had been invited, but the decision and communication came late on Tuesday night.

Before embarking on the bus ride, Gandhi spoke to the media and said, "Today, we feel that we will protest at Jantar Mantar, which is a designated protest site, and tell the country that for us Gyanesh Kumar is not a legitimate Election Commissioner."

Asked about an FIR being registered against him for entering the Akashvani Bhawan premises and staging an eight-hour sit-in there, Gandhi said, "I have 45 FIRs against me. My target is that there should be 100 FIRs against me. Every FIR against me is a medal for me."

Kharge said the Election Commission is making mistakes and "Modi ji is getting these mistakes done".

"We have decided that we will together take the voice of the people to the country. We will tell the people that their rights are being taken away. We are working hard to protest those rights of people. We are all united and will continue to fight against this government," the Congress chief said.

Chemistry Nobel

developed using this," said Peter Somfai, a member of the Nobel Committee for Chemistry. "I would say all of them, because we use this as a tool; we use this as an understanding of how to develop catalysts, how they function."

In the 1980s, Kagan's work showed there might be a way to design reactions to produce one form of a molecule over the other. Years later, Soai perfected the process. He created the first-ever chemical reaction to efficiently produce only one of a molecule's mirror images, in what's now known as the Soai reaction.

"This is probably the coolest experiment in organic chemistry," Somfai said.

Even life prefers one mirror image over the other. DNA twists to the right, and the proteins in human bodies are made of mostly left-handed building blocks.

In addition to developing better medicines or perfumes, deciphering the mirror images of molecules can help scientists understand the chemical architecture of life, said chemist Holden Thorp, editor-in-chief of the journal Science.

Kagan, 95, is affiliated with the Universite Paris-Sud in Orsay, France. Soai, 76, is affiliated with the Tokyo University of Science.

Neither of the universities immediately responded to requests for comment from The Associated Press.

Iran war

Kuwait on March 2, with another shot down over Iran the following month, the report showed. It added that at least eight other F-15Es also sustained minor damage during Iran's airstrikes on the Muwaffaq Salti Air Base in Jordan on September 9 and 10.

The White House and the Pentagon have not commented on the reports yet.

SIR BATTLE SPILLS ONTO STREETS

Opposition readies bigger showdown on Day-three

SIMONTINI BHATTACHARJEE
New Delhi, October 7

Congress leaders Rahul Gandhi, Priyanka Gandhi Vadra and others during a protest against Chief Election Commissioner, in New Delhi, Wednesday PTI

The Opposition will take their protest against SIR and resignation of Chief Election Commissioner Gyanesh Kumar into a bigger street-level struggle on Thursday when more Members of Parliament, including some from the Samajwadi Party, are expected to join the struggle along with civil society organisations as the debate over the electoral roll controversy turns into a political issue of credibility of the election process.

According to a senior Opposition MP, there will be an expanded mobilisation under the slogan 'India on the Ground', which clearly shows that the struggle has been taken out of Parliament and Opposition parties' ambit. The former chief minister of West Bengal, Mamata Banerjee is also expected to join the struggle in the coming days.

The agitation escalated when Rahul Gandhi and Priyanka Gandhi Vadra, along with other Opposition leaders, were arrested for the second consecutive day on Wednesday, following the detention of MPs' buses by Delhi Police near Jantar Mantar, making it the latest flashpoint of the ongoing confrontation over the resignation of CEC.

KEY POINTS

- More MPs, including some from the Samajwadi Party, are expected to join the struggle along with civil society organisations
- The agitation escalated when Rahul Gandhi and Priyanka Gandhi Vadra, along with other Opposition leaders, were arrested for the second consecutive day on Wednesday

Earlier, the Opposition had been stopped while marching to the Election Commission headquarters premises on Tuesday, with nearly 300 MPs participating in the march. But this time, while changing their plan, the Opposition chose Jantar Mantar as the location for protests, but once again, it ended up in a confrontation as three buses of Opposition MPs were stopped near the junction of Janpath and Ashoka Road, just 100 meters away from the demonstration venue.

The Opposition criticised the police for the raid, claiming that even the protest march organised within the venue was not allowed. The Opposition once again insisted on the resignation of Chief Election Commissioner Gyanesh Kumar and charged the Election Commission with ruining the integrity of the democratic process.

Rahul Gandhi got down from the bus and clashed with the police force as the Opposition MPs chanted slogans and climbed on the buses. Priyanka Gandhi Vadra lay down on the road to protest as the protestors chanted slogans like "No vote theft, no democracy theft" and "Election Commission, not BJP Commission".

LAW GOVERNING APPOINTMENT OF CEC,ECs

SC to examine plea for recall of split verdict

OUR CORRESPONDENT
New Delhi, October 7

ON WEDNESDAY, A BENCH COMPRISING THE CJI WAS TOLD ABOUT THE RECALL APPLICATION BY SENIOR ADVOCATE GOPAL SANKARANARAYANAN

The Supreme Court on Wednesday agreed to examine a plea seeking recall of its recent split verdict on whether challenges to the 2023 law governing the appointment of the Chief Election Commissioner and Election Commissioners should be referred to a larger Constitution bench.

On September 23, a bench of Justices Dipankar Datta and Satish Chandra Sharma gave split opinions on whether a batch of pleas challenging the validity of a 2023 law that excludes the Chief Justice of India from the panel for selecting the Chief Election Commissioner (CEC) and Election Commissioners (ECs) should be referred to a larger Constitution bench.

It had said due to a difference of opinion, the matter be placed before CJI Surya Kant on the administrative side for constitution of a bench of appropriate strength for an effective and authoritative adjudication.

On Wednesday, a bench comprising the Chief Justice of India and Justices Joymalya Bagchi and V Mohana was told about the recall application by senior advocate Gopal Sankaranarayanan.

"We will examine and take a call," the CJI said.

Sankaranarayanan told the bench that the recall application had earlier been mentioned before a bench headed by Justice Datta, but the matter had subsequently been released from that bench and he was asked to mention it before the CJI.

"There is a split verdict on the Chief Election Commissioner issue. We have mentioned an application for recall of the judgment," the senior advocate said.

When the CJI asked whether there was any other interlocutory application (IA), Sankaranarayanan said that a curative petition had also been filed, but added that the recall application was a separate plea.

"A curative petition has been filed. That, I think, will have to go in its own form. Whether it is maintainable, I don't know. Ours is an IA seeking recall of the judgment. Curative often requires a review," he said.

The development comes after a two-judge bench of Justices Datta and Sharma delivered split opinions on September 23 on the Centre's plea seeking reference of the challenge to the 2023 law to a larger Constitution Bench.

Justice Datta declined the Centre's request for such a reference, while Justice Sharma favoured placing the matter before a larger bench.

In view of the difference of opinion, the matter was placed before the Chief Justice for the constitution of an appropriate bench.

Amit Shah congratulates PM Modi on 25 years of public service

OUR CORRESPONDENT
New Delhi, October 7

Union Home minister Amit Shah on Wednesday congratulated Prime Minister Narendra Modi on completing 25 years in public service, tracing his journey from Gujarat Chief Minister to Prime Minister and talking about his achievements.

In a series of posts on X, Shah said that Modi took oath as Chief Minister of Gujarat on October 7, 2001, and that the last 25 years have been a journey of 'Seva, Sangharsh and Samarpan'.

'25 long years of journey have made him (Modi) dedicate his life to the welfare of the poor, empowerment of women, youth and prosperity of all sections of society. This period has also established a new model of governance focused on welfare, implementation, decisive leadership and transparency,' he said.

Sharing some of the major initiatives taken during the time Modi was at the helm of the state, Shah said that the reconstruction of earthquake-affected Kutch, the Jyotigram Yojana that provides round-the-clock electricity to villages and Vibrant Gujarat that transformed the state's business and industry ecosystem, laid the foundation for Gujarat's rise as a model state.

Nitin Nabin, Yogi, Himanta target Oppn at BJP rally in Varanasi

BISWAJEET BANERJEE
Varanasi, October 7

BJP national president Nitin Nabin, Uttar Pradesh Chief Minister Yogi Adityanath and Assam Chief Minister Himanta Biswa Sarma on Wednesday shared the stage for the first time at a public meeting in Kashi, where they highlighted the Modi government's achievements and attacked the Opposition.

Addressing a gathering at the Jagatpur Inter College ground, Nabin said the country's youth were increasingly becoming "job givers" rather than job seekers under the BJP government.

He said Prime Minister Narendra Modi had realised the vision of "Ek Bharat, Shreshtha Bharat" and the goal of Antyodaya, which seeks to ensure that the benefits of development reach the poorest sections of society.

"Looking at the Prime Minister's 20-year journey, one sees service and dedication," Nabin said.

Welcoming participants of the bike service yatra, Nabin described Modi as a "maker of history". He said only those capable of turning the pages of history could create history.

He accused previous governments of weakening the poor in the name of eradicating poverty. Modi, he said, understood the pain of the poor and helped 25 crore people come out of poverty.

"By providing houses to the poor, the Prime Minister has created history," he said.

Briefs

Cong leader Thummar passes away

AMRELI: Veteran Congress leader and former Amreli MP Virji Thummar died at his residence here on Wednesday after a prolonged illness, a party leader said.

Thummar, who had been battling cancer for the past four years, died around 12.15 pm, Congress' Amreli district unit president Pratap Dudhat said.

Dharmendra Kashyap to quit BJP

BAREILLY: Former Uttar Pradesh minister Dharmendra Kumar Kashyap on Wednesday said he will make a formal announcement about joining a new party after discussions with his supporters.

The OBC leader from the BJP was hopeful of securing a Rajya Sabha ticket but was not included in the list, according to sources.

CISF jawan found dead

GORAKHPUR: Police are investigating the death of a 38-year-old CISF jawan whose body was found near an embankment here, two days after the post-mortem indicated that he died from a severe head injury, officials said.

Gorakhpur Industrial Development Authority area police registered a murder case against unidentified persons.

UP CEO rejects claim of 16.18L 'mysterious voters' addition

BISWAJEET BANERJEE
Lucknow, October 7

The political debate over the revision of Uttar Pradesh's electoral rolls has intensified, with Aam Aadmi Party leader Manish Sisodia questioning the increase in the number of voters.

Sisodia has alleged that while around 71 lakh forms were submitted, the number of voters increased by nearly 84 lakh, leaving a gap of about 13 lakh. He questioned how these additional names were included in the electoral rolls and at whose direction.

The office of the Uttar Pradesh Chief Electoral Officer has rejected the allegation that 16.18 lakh "mysterious voters" were added to the electoral rolls during the Special Intensive Revision (SIR) exercise, describing the claim as misleading and factually incorrect.

According to the CEO's office, around 16.18 lakh Form 6 applications were collected during the enumeration phase of the revision. Booth-level officers visited households and collected applications from eligible citizens whose names were not included in the electoral roll as of October 27, 2025.

The office clarified that the submission of a Form 6 application does not mean that a voter's name was automatically added to the electoral roll. Each application had to go through the prescribed verification process before approval.

The CEO's office also said the revision exercise was conducted in accordance with the law and Election Commission guidelines, with the participation of political parties.

No caste column in census, alleges Hooda

MPOST BUREAU
Chandigarh, October 7

The Congress party has submitted a memorandum before the the President of India, through the Governor, demanding a caste census as the current census does not have a clearly defined caste counting mechanism.

A party delegation, led by former Chief Minister and Leader of Opposition Bhupinder Singh Hooda, party in-charge Sanjay Dutt, State President Rao Narendra Singh, National President of the Congress OBC Department Dr. Anil Jaihind, former MP Raj Babbar, and State OBC President Chandra Prakash, met the Governor and handed over the memorandum.

Subsequently, all the leaders participated in the state-level 'OBC Rights Rally' (OBC Haq Hunkar) organized at the Haryana Pradesh Congress office in Chandigarh.

'Yogi's threatening tone shows atrocities over PDA won't stop'

OUR CORRESPONDENT
Lucknow, October 7

"THE TRUTH IS THAT THE BALANCE HAS BEEN DISTURBED BECAUSE OF THE DEFEAT IN THE 2024 ELECTIONS

Samajwadi Party chief Akhilesh Yadav on Wednesday hit out at Uttar Pradesh Chief Minister Yogi Adityanath over his remark on PDA, accusing the BJP government of threatening and targeting the "Pichhda, Dalit, Alpsankhyak" (backward, Dalit, and minority) communities.

In a post on X, Yadav said the chief minister, in his "usual threatening tone", admitted that the "harassment of PDA" would not stop under his government.

"This means that the atrocities and injustice of the BJP government against the 'victimised, distressed and humiliated' as well as the 'backward, Dalit, minorities, half the population, and tribals' are going to increase further," he said.

Yadav posted a few seconds clip of the chief minister's address, in which he says, "..What is going to happen to the PDA will again be before you."

Yadav said the "five-second confession threatening the PDA" would ensure that those involved in its suppression would not be able to "raise their heads and meet its eyes" for decades.

"When the honourable chief minister sees 'PDA-PDA' all the time, whether asleep or awake, our advice is: why not get 'PDA' written on 108 beads, make a rosary and chant 'PDA'? At least some of his sins will be reduced," the former UP chief minister said.

He alleged that the chief minister's remarks were a result of the BJP's "defeat" in the 2024 Lok Sabha election.

"The truth is that the balance has been disturbed because of the defeat in the 2024 elections, which is why such unbalanced statements are being made," the SP chief said.

Earlier in the day, Adityanath said the Rajya Sabha elections in the state have set the tone for the 2027 Assembly polls with an "80 versus 20" political equation.

"The Rajya Sabha election (nominations) in Uttar Pradesh showed what the result of the Assembly election is going to be. The 80 versus 20 fight has returned. Eighty per cent is with the NDA and 20 per cent with the PDA, and what is going to happen to the PDA will again be before you," the chief minister said.

VEERANGANA DURGAVATI IS STATE'S LARGEST TIGER RESERVE

Nauradehi becomes MP's third cheetah habitat as CM releases pair

SATYAPRAKASH SHARMA
Bhopal, October 7

CM Mohan Yadav releases two cheetahs into Veerangana Durgavati Tiger Reserve MPOST

Madhya Pradesh on Wednesday expanded its cheetah conservation programme to the Bundelkhand region, with Chief Minister Mohan Yadav releasing two cheetahs into the Veerangana Durgavati Tiger Reserve, formerly Nauradehi Wildlife Sanctuary.

The reserve is now the state's and the country's third dedicated cheetah habitat after Kuno National Park and Gandhi Sagar Wildlife Sanctuary.

KEY POINTS

- Yadav said the move would expand conservation efforts while enabling local communities to benefit from wildlife tourism
- Project Cheetah seeks to establish a viable cheetah metapopulation after the species went extinct in India in 1952

The male and female cheetahs, named Vyom and Neera and brought from Kuno in Sheopur district, were released into a 439-hectare soft-release enclosure, or boma.

They were earlier identified as Tholo and CCB-3. CCB-3 is the sister of Radha, a cheetah at Gandhi Sagar.

The Cheetah Steering Committee has approved the relocation of four cheetahs to the reserve, with two more expected later.

The boma has been divided into five sections and equipped with power fencing and round-the-clock tracking and monitoring systems to help the animals acclimatise before wider movement.

Spread across about 2,339 sq km in Sagar, Damoh and Narsinghpur districts, Veerangana Durgavati is Madhya Pradesh's largest tiger reserve.

Notified in 2023 after the integration of Nauradehi Wildlife Sanctuary, it has open forests and grasslands supporting prey such as chital, nilgai and chinkara, besides tigers, leopards and other carnivores.

The release coincided with the concluding day of Wildlife Conservation Week and followed the birth of five cubs at Kuno, taking India's cheetah population to 60, including 41 born in the country.

All are in Madhya Pradesh; Kuno will have 54 and Gandhi Sagar four after the relocation.

Launched in 2022, Project Cheetah seeks to establish a viable cheetah metapopulation after the species went extinct in India in 1952.

Yadav said the move would expand conservation efforts while enabling local communities to benefit from wildlife tourism.

EVE OF INDIAN AIR FORCE ANNIVERSARY

Air Force moving in right direction, but pace can be improved: IAF chief

OUR CORRESPONDENT
New Delhi, October 7

IAF Chief Air Chief Marshal A P Singh on Wednesday said the Air Force is moving in the "right direction" but the pace can be little faster than it is today as he asserted that it needs to bolster its capabilities in the age of rapidly evolving technology.

In his address at an event here on the eve of the 94th anniversary of the Indian Air Force, he also flagged the delay in delivery of the Light Combat Aircraft (LCA) Mk-1A, while underlining that the IAF has been "actively engaging" with the Hindustan Aeronautics Ltd (HAL) on this programme.

"We have come to a way forward, and a now we are waiting for the HAL to complete whatever has been promised... I am very confident that in this financial year, we will be able to get a reasonable number of aircraft, at least the defence secretary has spoken about it," the IAF chief said.

The LCA Mk-1A variant is an indigenously designed, developed and manufactured state-of-the-art modern 4+ generation fighter aircraft.

Air Chief Marshal Singh said IAF's support to LCA Mk-2 or Advanced Medium Combat Aircraft (AMCA) programmes continue, as also for the procurement of the 114 Rafale aircraft under the multi-role fighter aircraft (MRFA) programme, and procurement for medium transport aircraft, medium range helicopters, among other assets.

Air Force officials take part in a full dress rehearsal ahead of the 94th Indian Air Force Day 2026, in Ghaziabad, Tuesday PTI

CLOSER LOOK

- The LCA Mk-1A variant is an indigenously designed, developed and manufactured state-of-the-art modern 4+ generation fighter aircraft
- 'The 17th aircraft, the very first aircraft, to be made in India, is already in production'

"These contracts are likely to be signed maybe in this financial year or positively the next financial year," he said, without elaborating.

On the C-295 aircraft medium tactical transport aircraft, the air officer said, "The 17th aircraft, the very first aircraft, to be made in India, is already in production. There are some minor issues, which are getting resolved, hopefully it will come up in a month or two."

The first C-295 was inducted into the IAF in September 23, after India sealed a Rs 21,935-crore deal with Airbus Defence and Space to procure the jets to replace its ageing Avro-748 fleet.

Airbus will deliver the first 16 aircraft in fly-away condition from its final assembly line in Seville by 2025 and the subsequent 40 aircraft will be manufactured and assembled by Tata Advanced Systems (TASL) in India as part of an industrial partnership between the two companies.

In his addressing to a gathering of air warriors and IAF veterans at the Air Force Auditorium at Subroto Park, Air Chief Marshal Singh also said there are areas in which we need "greater capacity, faster induction and more combat mass", and a need to accelerate indigenous R&D and production capacities.

India, Canada to boost security ties, extradition cooperation

Move comes amid growing concerns over activities of pro-Khalistani elements from Canadian soil

OUR CORRESPONDENT
New Delhi, October 7

India and Canada have agreed to deepen coordination on combating transnational organised crime, terrorism, violent extremism, and the extradition of criminal offenders, a move that comes amid New Delhi's growing concerns over activities of pro-Khalistani elements from Canadian soil.

These issues were discussed during talks in New Delhi on Tuesday between National Security Adviser Ajit Doval and David Morrison, the Senior Diplomatic and International Affairs Advisor to the Canadian prime minister.

A joint press statement released on Wednesday said the two sides noted with satisfaction the sustained and constructive bilateral engagements over the past year, guided by mutual trust, respect for each other's concerns and sensitivities, and a shared commitment to strengthening bilateral relations.

NSA Ajit Doval with senior Diplomatic and International Affairs Advisor to the PM of Canada David Morrison, in New Delhi PTI

It said both sides welcomed efforts to advance negotiations for a Comprehensive Economic Partnership Agreement (CEPA), adding they discussed the growing potential for advancing a substantive bilateral defence relationship.

Morrison was on a three-day visit to India from October 5 to 7.

In the Doval-Morrison talks, the two sides reviewed progress in bilateral security and law enforcement cooperation, including the implementation of the shared Security Work Plan concluded in February 2026, the statement said.

"They agreed to deepen coordination and cooperation in combating transnational organised crime, terrorism and violent extremism, human and drug trafficking, cybercrime, extortion, and extradition of criminal offenders.

Kohli's spokesperson denies cricketer took money to visit Premanand's ashram

BISWAJEET BANERJEE
Lucknow, October 7

Indian cricketer Virat Kohli's spokesperson has rejected a claim made by Shri Krishna Janmabhoomi Sangharsh Nyas president Dinesh Falahari Maharaj that the former India captain was paid Rs 5 crore to visit spiritual leader Premanand Maharaj's ashram in Vrindavan.

In an official statement, Kohli's spokesperson described the allegation as "completely false and baseless" and said the cricketer's visits to Premanand Maharaj were solely driven by his deep faith and reverence for the spiritual leader.

Falahari Maharaj had alleged that a group associated with the ashram had spent Rs 5 crore to bring Kohli to Premanand Maharaj's darbar. He claimed that the visit subsequently helped increase the spiritual leader's popularity across the country.

The allegation was made in a letter in which Falahari Maharaj urged Premanand Maharaj to leave the Belvan Ashram and move to Govardhan, citing concerns over his security and alleged factionalism around the ashram.

Briefs

Latur: Farmer commits suicide

LATUR: A 60-year-old farmer allegedly died by suicide in Palshi village in Maharashtra's Latur district, with police trying to ascertain the exact trigger behind the incident, an official said on Wednesday.

The incident comes against the backdrop of severe drought in nearly 80 per cent of talukas in western state.

UP: 3 tennis players killed

SULTANPUR: Three tennis players were killed and an equal injured when the car they were in rammed into a truck's behind on the Purvanchal Expressway here on Wednesday, police said.

The accident took place around 5.30 am near Sukhbaderi in the Dhanpatganj Police Station area.

Guj: Man forced to rape partner

SURENDRANAGAR: In a case of vigilante justice, a married woman and her lover were subjected to extreme physical assault, sexual violence, and public humiliation under the guise of a traditional "social purification ritual," prompting police to launch an investigation and arrest nine people. The case came to light after video clips of the incident started circulating on social media.

'CBI returned empty handed from Punjab'

MPOST BUREAU
Chandigarh, October 7

Chief Minister Bhagwant Mann on Wednesday hit out at the BJP over the 12-hour Central Bureau of Investigation (CBI) raids conducted across Punjab, asserting that the agency's teams returned empty-handed and that nothing was found despite an extensive search across Punjab.

He said the outcome was a clear reflection of the govt's integrity and accused the BJP of using central agencies to intimidate and tarnish the image of an elected Chief Minister ahead of elections. He affirmed neither he nor the Punjab govt would be cowed down by such tactics, asserting that they had entered public life to serve Punjab, not to make money, and that Punjabis would never tolerate 'Dhakkashahi'.

Taking to X, CM Mann stated: "...The CBI raids are merely the result of political frustration. We will not be intimidated by or bow down to these petty attempts to scare or defame us. We have come here not to make money, but to serve Punjab, and Punjabis never tolerate injustice."

Meanwhile, Mann on Wednesday said Punjab has ended the decades-long wait for ownership rights to houses built in the Lal Lakir, handing Property Ownership Certificates to families under the 'Mera Ghar Mere Naam' scheme and marking the beginning of a process that will provide legally recorded ownership, mapped property boundaries and access to institutional credit.

He said the initiative will particularly benefit poor, Dalit and landless families whose houses were earlier not part of govt records, while accurate maps and revenue records will help resolve long-standing property disputes.

CM Soren's mother Rupi Soren dies at 80

OUR CORRESPONDENT
Ranchi, October 7

Jharkhand Chief Minister Hemant Soren's mother Rupi Soren died at a private hospital here on Wednesday evening, an official of the medical establishment said. She was 80.

The wife of Jharkhand Mukti Morcha founder and former CM, the late Shibu Soren, was in critical condition and on ventilator support.

"CM Hemant Soren's mother Rupi Soren, who was admitted here, passed away around 8.30 pm. She was admitted to the hospital on September 18 with breathing difficulty," Director of Hill View Hospital and Research Centre, Nitesh Priya, told news agency.

Rupi Soren was critical with multiple complications. A team of doctors was constantly monitoring her health condition, and she was put on ventilator support on Wednesday, he added.

Farmers may not face inconvenience during crop procurement: CM Saini

Ensure timely lifting of procured produce, directs CM

MPOST BUREAU
Chandigarh, October 7

Haryana Chief Minister Nayab Singh Saini, while chairing a meeting in Chandigarh to review the ongoing procurement of Kharif crops at Chandigarh, directed officers to ensure the timely lifting of paddy and bajra procured at mandis across the state, so that farmers do not face any inconvenience in selling their produce.

He directed that the entire procurement process–from purchase and lifting to timely payment–must function smoothly and efficiently.

During the meeting, the Chief Minister was apprised that 5 lakh quintals of paddy have been procured so far. The Chief Minister directed the officers to ensure that lifting of the paddy is done promptly to avoid accumulation of stocks in the mandis.

CM SAID THAT STATE GOVT WILL ENSURE THAT FARMERS RECEIVE THE BENEFIT OF THE MINIMUM SUPPORT PRICE OF RS 2,900 PER QUINTAL FOR BAJRA THIS YEAR

The Chief Minister said that the state government will ensure that farmers receive the benefit of the Minimum Support Price (MSP) of Rs 2,900 per quintal for bajra this year.

He said that bajra will be procured by the government at Rs 2,300 per quintal. In case a farmer gets a price higher than Rs 2,300 per quintal in the open market, the difference between the sale price and the MSP of Rs 2,900 per quintal will be compensated by the government under the Bhavantar Bharpai Yojana. Under the scheme, farmers will receive a benefit of Rs 600 per quintal from the government.

In the meeting, it was informed that bajra is currently being sold in the open market at an average price of around Rs 2,235 per quintal. Bajra is also being procured by private dealers.

The officers further informed the Chief Minister that last year, the government had initially fixed the procurement price of bajra at Rs 2,150 per quintal, which was subsequently revised to Rs 2,200 per quintal. The difference between the procurement price and the price of arhtiyas, the MSP of Rs 2,900 per quintal was compensated separately by the government to farmers.

Captain Smit Machchhar's health is improving: MEA

OUR CORRESPONDENT
New Delhi, October 7

Indian pilot Captain Smit Machchhar, who was injured in an attack by his co-pilot on a flydubai plane, is responding well after operation at a hospital in Abu Dhabi and his health is improving, the Ministry of External Affairs (MEA) said on Wednesday.

MEA spokesperson Randhir Jaiswal said this during his bi-weekly media briefing. "Capt Machchhar is in a hospital in Abu Dhabi. Our Embassy in the UAE has been in regular touch with his family, his doctors, and hospital and local authorities there, so as to get the latest update about his health," he said.

"According to the information that we have, his health is improving, and after operation, he is in the stage of recuperation. He is responding well," Jaiswal said.

Ladakh launches India's first high-altitude snow leopard wildlife safari

This marks a major step towards promoting responsible wildlife tourism & community-based conservation

OUR CORRESPONDENT
Leh, October 7

India's first high-altitude wildlife safari in Ladakh has become a reality, with Lt Governor Vinai Kumar Saxena on Wednesday flagging off six vehicles for the safari focused on snow leopards.

This marks a major step towards promoting responsible wildlife tourism and community-based conservation in the Union Territory, while creating sustainable livelihood for the local youth and communities, a Lok Bhavan spokesman said.

Ladakh L-G VK Saxean flags-off 6 vehicles for Ladakh Snow Leopard Safari MPOST

He said the decision to introduce wildlife safari in Ladakh was announced on August 5 this year and the same has been executed in just two months.

HIGHLIGHTS

- The decision to introduce wildlife safari in Ladakh was announced on August 5, this year
- The vehicles will initially operate in identified areas like Rumbak, Shang and Uley, where snow leopards are frequently sighted

This initiative by the L-G is being conducted by the Snow Leopard and High-Altitude Nature Conservation (SHAN) Society, in collaboration with the Department of Forest, Ecology and Environment, UT Ladakh, the spokesman said.

He said the vehicles will initially operate in identified areas like Rumbak, Shang and Uley, where snow leopards are frequently sighted.

This will provide the visitors with rare guided opportunity to witness Ladakh's distinctive flora and fauna.

Specially designed open-back vehicles, trained local drivers and wildlife guides will be deployed, with suitable routes being identified across Hemis National Park, Changthang and Karakoram Wildlife Sanctuary, besides Nubra, Zanskar, Sham, Kargil and Drass districts, the spokesman said.

He said the objective behind introducing guided safaris is to prevent the incidents of illegal off-roading and disturbing wildlife, besides strengthening sustainable and responsible eco-friendly tourism and enhancing visitor experience.

It envisages a unique model of environment conservation in Ladakh, wherein the government alone will not be responsible for environment protection but the local communities will be made active partners in protecting Ladakh's fragile ecosystem and wildlife, he said.

EDITORIAL

Protecting Price Stability

Inflation is often discussed in India as though it were principally a story about food prices. A poor harvest pushes up vegetables, an erratic monsoon raises cereal prices and supply disruptions make pulses expensive. That explanation, while important, is increasingly inadequate. The renewed pressure on prices comes at a time when India is exposed to a more complicated combination of external and domestic risks. Expensive crude oil, geopolitical instability, volatile global commodity markets, a weaker rupee and uncertain weather can reinforce one another, transmitting inflation through transport, manufacturing, fertilisers and household consumption. The Reserve Bank of India's decision to raise the policy rate reflects the seriousness of these pressures. Yet higher interest rates can restrain demand; they cannot produce crude oil, repair disrupted supply chains or bring rain.

This distinction matters because an excessive reliance on monetary policy carries its own economic costs. Higher borrowing costs affect homebuyers, small businesses and companies considering fresh investment. They can weaken consumption at precisely the moment when domestic demand is expected to provide resilience against an uncertain global economy. More importantly, interest rates are a relatively blunt instrument against supply-driven inflation. If petroleum becomes more expensive because of an international conflict, making credit costlier in India does little to address the source of that increase. Similarly, monetary tightening cannot resolve shortages created by extreme weather or weaknesses in agricultural supply chains. The RBI must preserve price stability and prevent temporary shocks from becoming entrenched in inflationary expectations, but it cannot be expected to fight this battle alone.

Fiscal and sectoral policy must therefore carry a greater share of the burden. India's dependence on imported crude remains a structural vulnerability, making diversification of energy supplies and faster expansion of renewable energy an economic necessity as much as a climate objective. The government must also retain sufficient fiscal flexibility to calibrate fuel taxes when global oil prices rise sharply, without turning every external shock into a prolonged domestic price spiral. Agriculture requires an equally structural response. Better storage, irrigation, cold chains, crop diversification and more efficient movement of produce can reduce the extraordinary volatility that allows relatively localised shortages to translate into nationwide price increases. Climate resilience must become central to food security as increasingly unpredictable weather alters production patterns.

The larger lesson is that inflation management can no longer be confined to Mint Street. India is dealing with an interconnected inflation problem in which energy dependence, currency movements, climate vulnerability, global conflicts and domestic supply constraints converge. Interest rates remain essential for anchoring expectations, but repeated monetary tightening cannot substitute for reforms that make the economy less vulnerable to shocks in the first place. A durable anti-inflation strategy must combine credible monetary policy with prudent fiscal management, energy security and stronger agricultural infrastructure. Price stability is ultimately not merely the responsibility of the central bank. It is a test of economic governance across the state.

Right to protest

The Bombay High Court's defence of MPSC aspirants' right to protest is timely. Students raising concerns over examination irregularities cannot be casually portrayed as troublemakers. Authorities must protect public order, but they must equally ensure fair recruitment, accountability and credible grievance redressal. Democratic dissent deserves engagement, not suspicion.

SAURABH DESHMUKH,
PUNE

Building an AI-ready Generation

Mission Prabal transformed smartphones into classrooms, enabling thousands of government school students to learn coding, AI and software development skills

NEXUS OF GOOD

ANIL SWARUP

THE WRITER IS AN AUTHOR AND A FORMER CIVIL SERVANT

Mission Prabal is taking artificial intelligence skills directly to government school students

Technology can be a game-changer, be it in administration or education. This is amply being demonstrated in Saharanpur, Uttar Pradesh, under the able guidance of a young District Magistrate.

Mission Prabal is a district-level initiative by the Saharanpur District Administration, in partnership with CodeYogi Foundation (technical implementation) and Safex Group (CSR funding), to equip government school students with practical AI, software development, and professional technology skills. Launched in May 2024, Saharanpur became the first district in Uttar Pradesh to implement a structured, district-wide technology skilling programme for government school students. The programme delivered a 150-hour curriculum entirely through students' own smartphones, in Hindi, at zero cost to the government, covering Classes 9-12 across all streams.

The District Administration's Role: Government as Convener

The Saharanpur District Administration approached Mission Prabal not as a sponsorship but as an implementation challenge – using the district's convening power to bring together technical expertise, CSR funding, and the existing school network around a common objective.

The administration conducted large-scale orientations reaching 146 school leaders and nodal teachers, and worked with school leadership, parents, and students to drive enrolment across all blocks of the district. School heads and teachers were positioned as the first point of contact between the programme and students – ensuring that the initiative was understood, trusted, and adopted at the school level.

A real-time data dashboard was established for school-wise and student-wise progress monitoring – a shift from monitoring inputs (enrolments, coverage) to monitoring outcomes (progression, completion, skill acquisition). The administration also introduced a system of district-level felicitations and recognition events for high-performing students, reinforcing the message that achievement in technology is valued and that government school students can aspire to opportunities traditionally associated with elite institutions.

CodeYogi Foundation provided the curriculum, learning platform, live doubt support, and mentorship. Safex Group provided CSR funding, enabling the programme to operate at zero cost to the district government. InMobi provided laptops for the top-performing students, recognising the calibre of talent emerging from the programme.

A DISTRICT-LED INITIATIVE IS HELPING GOVERNMENT SCHOOL STUDENTS BECOME CONFIDENT TECHNOLOGY BUILDERS

Programme Structure

The curriculum spans 150+ hours, organised into modules of 1 to 3 hours each. It begins with the foundations of technology and AI – how software works, how applications are built, and how AI is applied across domains. Students then progress through hands-on exercises where they apply these concepts to build real software. Every assignment is evaluated automatically by the system – a student cannot move forward until they demonstrate competency at the current level. No physical teacher is required for doubt resolution or evaluation; the system handles both. By the end of the curriculum, a student has demonstrable, verifiable skill in creating functional software – including websites, web applications, and more – all learned through their smartphone, in Hindi.

Results (as of February 2026)

The programme has enrolled 18,500+ students across 127 government schools. Of these, 7,222 began writing software, 3,818 completed their first hour of structured learning, and 3,010 can now independently build functional applications. 59% of enrolled students are girls. 95% of all learning was done entirely on smartphones. 18 students have cleared technical interviews and obtained industry certification. Three students have secured software internships.

Students have independently built applications addressing real community problems – blood-donor discovery, women's and children's safety, local employment matching, scholarship information, affordable medicine access, and citizen grievance redressal. This shift from learning to problem-solving is among the programme's most significant outcomes.

Ten of the top-performing students – recipients of InMobi laptops – went on to a clear trajectory shift:

Payal Bhardwaj, a humanities-stream student with no prior exposure to technology, discovered her aptitude through the programme and now works with CodeYogi's core engineering team in Dehradun on AI engineering projects, while completing her graduation remotely.

Arjun Dhiman enrolled during his first year of BCA after learning about the programme through his school. He is now a full-time member of CodeYogi's engineering team, working on professional software products.

Himanshu Kashyap, still a school student, has completed an internship, built digital solutions for multiple organisations, and earned revenue from client work. He developed and published an AI-powered app on the Google Play Store that helps students weak in English type confidently. The app has paying subscribers internationally.

Road Ahead

The programme is building structured pathways from foundational digital literacy through advanced AI skills, certification, higher education (including the IIT Madras BS Degree programme for high performers), internships, and employment. The district administration is exploring replication of the PPP model in other districts of Uttar Pradesh, with Mission Prabal as the proof of concept. The long-term objective is to create a pipeline of AI-ready, digitally skilled young people who can contribute to Uttar Pradesh's goal of becoming a trillion-dollar economy by 2030 – not as job seekers, but as builders.

What has been accomplished in Saharanpur is a wonderful example of Nexus of Good. The model can be replicated and scaled through public-private partnership.

Old Nuclear Fears Return to Haripur

Reliance's proposed nuclear plant revived questions over Haripur's ecology, local resistance and the changing rules governing India's nuclear energy sector

ENERGY CROSSROADS

DIPANKAR DEY

THE WRITER IS A PROFESSOR OF BUSINESS ADMINISTRATION

Haripur is more densely populated today than when the nuclear project was abandoned

Reliance Industries proposed a nuclear power plant in Bengal at a recent meeting with the chief minister, Suvendu Adhikari, and Chief Secretary Manoj Agarwal, in addition to developing hotels, a modern data centre and a coal gasification facility. News reports suggest that the proposed power plant can bring in investment worth about ₹2 lakh crore over a period of six to seven years. Reliance had suggested the plant at Haripur, a coastal village near Contai in East Midnapore, where a Nuclear Power Corporation of India (NPCIL) plan for a similar 1,000 MW project was buried 15 years ago. Chief Minister Suvendu Adhikari's ancestral home is a few miles away from the proposed site. He was one of the major local leaders who opposed the construction of the nuclear plant.

In 2007, anti-nuke protesters raised concerns that a nuclear plant, requiring millions of tonnes of fresh water to cool its reactors, would deplete the water table and destroy this agrarian economy. Also, the location of Haripur – along a cyclone-prone coast – made setting up a nuclear plant there dangerous. Moreover, hot water from the reactors released into the sea would affect marine life in the Bay of Bengal.

Considering all these factors, Suvendu Adhikari, then a local Trinamool MLA, objected. In 2011, the nuclear project was scrapped. By now, Haripur is more densely populated and houses a large number of fishermen's families.

Reliance Industries' proposal for establishing a nuclear plant in Bengal assumes significance as, in December 2025, the Indian Parliament passed a major reform of the country's nuclear energy sector. The Sustainable Harnessing and Advancement of Nuclear Energy for Transforming India Bill, also known as the SHANTI Bill, repeals two earlier laws governing India's nuclear sector and replaces them with a single consolidated legal framework. The new law opens the nuclear sector to private and foreign participation on an unprecedented scale and removes the operational monopoly of the Nuclear Power Corporation of India.

India's Parliament enacted the Civil Liability for Nuclear Damage Act in 2010. The law established strict operator liability under the "polluter pays" principle and allowed operators to seek a right of recourse from suppliers in cases involving defective equipment or gross negligence. The new Bill

INDIA'S NUCLEAR AMBITIONS COLLIDE WITH OLD RESISTANCE AND GROWING DATA CENTRE DEMANDS

significantly restructures the liability regime governing nuclear accidents. It sharply limits the civil liability of nuclear plant operators and weakens references to supplier liability – an issue that foreign reactor manufacturers have long raised in negotiations with India. Compensation for nuclear accidents is capped according to the installed capacity of nuclear plants. Even for the largest power plants, operator liability is capped at ₹3,000 crore (approximately $319 million).

Critics argue that the liability caps fall dramatically short of the cost of historical nuclear disasters. Cleanup costs from the Fukushima Daiichi nuclear disaster have exceeded $180 billion, while the long-term economic consequences of the Chornobyl disaster continue to run into hundreds of billions of dollars. Also, the SHANTI Bill remains largely silent on criminal liability in the event of nuclear accidents. By failing to define criminal accountability, the legislation risks insulating corporate actors from legal scrutiny, observes the Bulletin of the Atomic Scientists.

India has planned to boost nuclear energy at a time when its share as an energy source is declining worldwide. In 2025, nuclear power accounted for just 8.8 per cent of electricity flowing through the world's grids, roughly half of what it was 30 years ago. In contrast, 19.5 per cent came from fast-growing renewables such as solar and wind power. In the United States, each unit of electrical energy from a new nuclear reactor costs about three times the corresponding energy from a solar or wind power plant.

Nevertheless, recent talks of the "renaissance" and "revival" of nuclear power centre around the growth of gigantic data centres, which require a massive supply of electricity and water for 24/7 operation. Big tech companies have signed major contracts for nuclear energy. Google signed a deal with Kairos Power to buy power from a new fleet of advanced reactors to supply its data centres, while Microsoft committed to a 20-year deal to restart Unit 1 of Three Mile Island. On October 6, 2026, Google contracted for 3,590 megawatts of power from Constellation Energy, with new nuclear energy accounting for about a quarter of that supply.

As citizens' resistance against data centres is also rising in developed countries, big tech companies are relocating data centres to India. There is a massive push for data centre construction despite water, land and energy pressures. Capacity has surged more than fourfold in the past five years to reach 1,575 MW by 2025, and electricity consumption is projected to quadruple by 2030. It may be noted that, along with a nuclear plant, Reliance Industries also proposed to construct a 'modern data centre' in West Bengal. The intersection of nuclear energy and artificial intelligence data centres presents a double threat to the local people and the ecosystem.

AMID PRESSURES FROM SUPPLY SIDE

FY 2027: Reserve Bank raises retail inflation projection from 5% to 5.2%

REPRESENTATIVE PIC

OUR CORRESPONDENT
Mumbai, October 7

The Reserve Bank of India on Wednesday marginally raised the forecast for retail inflation for the current fiscal to 5.2 per cent from its earlier estimate of 5 per cent and said price pressures are increasingly becoming visible across a range of commodities.

The near-term outlook on inflation points towards continued pressures from supply side on account of the deficient southwest monsoon, El Nino conditions and high volatility in international oil prices, Governor Sanjay Malhotra said while announcing the central bank's October bimonthly monetary policy.

"Price pressures are increasingly becoming visible across a range of commodities within the food component, apart from oil," he said.

In addition, the early signs of inflation becoming generalised are also evident from the increase in core inflation and higher inflation across a larger segment of the consumer price index (CPI) basket, he said.

Considering all factors, he said CPI inflation for 2026-27 is projected to be 5.2 per cent with Q2 at 4.9 per cent; Q3 at 6.0 per cent; and Q4 at 5.7 per cent.

Inflation for Q1:2027-28 is projected at 5.6 per cent, with risks being evenly balanced.

Core inflation has been projected at 4.4 per cent for the current fiscal ending March 2027.

CPI-based retail inflation rose to 4.8 per cent in August 2026 from 4.5 per cent in July.

This was largely driven by higher inflation in food and fuel components.

"Food price increases have become more broad-based along with notable spikes in certain items such as sugar and onion," Malhotra said, and added fuel inflation inched up in August, mostly due to unfavourable base effects.

Core inflation, excluding precious metals, increased to 2.9 per cent in August.

The Governor also said that the Monetary Policy Committee (MPC) observed that in light of available data, it is clear that inflation and its outlook are not benign as they were last year.

In this milieu, recalibrating the policy rate is imperative, he said as the MPC unanimously decided to hike the key interest rate (repo) by 25 basis points to 5.5 per cent.

The MPC also changed its stance to 'calibrated tightening' from 'neutral'.

RBI will ensure stability in rupee: Guv Malhotra

OUR CORRESPONDENT
Mumbai, October 7

Stating that the rupee may be "undervalued" as per many estimates, Governor Sanjay Malhotra on Wednesday assured that the Reserve Bank of India will ensure that the currency "stabilises" and will support it in reaching its "correct value".

Speaking to reporters on a day that saw the local currency inching towards all-time low against the dollar, Malhotra noted that while markets can be "irrational" in the short term, they reflect their right value in the long run.

"We will ensure that the rupee stabilises, that the rupee finds its correct value, and we will support an orderly movement of the rupee in finding its correct value and at the same time in ensuring that there is no excessive volatility," the Governor told reporters at the central bank headquarters here.

He was replying to a specific question about the rupee inching towards its all-time low of 96.96 against the dollar, during intraday trading on Wednesday.

It can be noted that the domestic currency has been under pressure for much of this year, especially since the beginning of the West Asia conflict in late February, resulting in a spike in crude oil prices, which poses a direct challenge to an oil-importing country like India.

To counter the fall the RBI introduced a concessional swap facility for diaspora deposits and bond issuances. Banks have mobilised nearly USD 133 billion under the FCNR(B) deposits facility alone, which lifted the pressure on the currency in the markets for a few days. However, the currency is back under pressure and has depreciated in the last few sessions.

"By a number of estimates, including the REER (Real Effective Exchange Rate), the rupee is not overvalued; it may be undervalued," Malhotra said on Wednesday.

RBI raises GDP growth forecast for FY 2026-27 by 40 bps to 7.1%

'Geopolitical tensions could pose a risk to economic outlook'

OUR CORRESPONDENT
Mumbai, October 7

The Reserve Bank on Wednesday raised its GDP growth forecast for the current fiscal year by 40 basis points to 7.1 per cent, while cautioning that lingering global geopolitical tensions could pose a risk to the economic outlook.

Unveiling the October bimonthly monetary policy, Governor Sanjay Malhotra said domestic economic activity exhibited resilience amidst global headwinds, as evident from real GDP growth of 7.8 per cent in Q1 2026-27.

MALHOTRA SAID DOMESTIC ECONOMIC ACTIVITY EXHIBITED RESILIENCE AMIDST GLOBAL HEADWINDS, AS EVIDENT FROM REAL GDP GROWTH OF 7.8% IN Q1 2026-27

Growth was driven by resilient private consumption and strong investment activity, while the contribution of net exports also remained positive.

He further said global headwinds from protracted geopolitical tensions, elevated international commodity prices, additional frictions in global trade and tightening global financial conditions may weigh on the growth outlook.

"Taking all these factors into consideration, real GDP growth for 2026-27 is projected at 7.1 per cent; Q2 at 7.2 per cent; Q3 at 6.9 per cent; and Q4 at 6.8 per cent," Malhotra said.

The upward revision in the growth forecast by 40 bps further underscores the strength of economic activity despite significant headwinds, he added.

The central bank also said GDP growth for Q1:2027-28 is projected at 7.1 per cent and that the risks are evenly balanced. Meanwhile, the World Bank has also raised India's GDP growth forecast for the current fiscal year to 7.1 per cent, up 0.5 percentage points from its projections in April, supported by robust domestic demand and strong exports, despite global headwinds.

Last month, Asian Development Bank (ADB) and OECD and other global agencies like S&P and Fitch raised India's FY27 GDP growth projection to around 7 per cent, boosted by robust June quarter economic activity and resilient domestic demand despite the West Asia conflict.

Reliance-led demand set to push India's imports of Venezuelan oil

MPOST BUREAU
New Delhi, October 7

Reliance Industries is likely to emerge as a key destination for a sharp increase in Venezuelan crude supplies to India, with the country's imports of the South American oil expected to reach their highest level in nearly seven years this month as refiners seek discounted barrels amid rising Russian crude prices.

INDIA'S IMPORTS OF VENEZUELAN OIL ARE SET TO SURGE TO THE HIGHEST IN SEVEN YEARS THIS MONTH

Venezuelan crude deliveries to India are projected to more than double to around 465,000 barrels per day in October from 196,000 barrels per day in September, according to Kpler estimates. If scheduled shipments arrive as planned, the volume would be the highest since December 2019.

All Venezuelan cargoes headed for India list Sikka as their destination, the port serving Reliance Industries' Jamnagar refinery complex, the world's largest refining facility. Actual imports could vary, with at least two tankers scheduled to arrive on India's western coast on October 31, according to ship-tracking data.

India resumed Venezuelan oil purchases in February after an almost year-long gap, following the easing of US sanctions that helped revive supplies.

Briefs

Rupee slumps 40 paise

MUMBAI: The rupee slumped 40 paise to close at 96.75 against the US dollar on Wednesday. At the interbank foreign exchange market, the rupee opened at 96.37 and traded in the range of 96.34-96.84 before eventually settling at 96.75, down 40 paise from its previous close.

Govt: Onion prices to fall further

NEW DELHI: The Food ministry on Wednesday said it expects retail prices of onion to moderate further as Kharif crops have started to arrive in the market to support supplies from stored stocks of the rabi season. It asserted that the government is keeping a close watch on the availability as well as the price situation of onions.

RBI: Rs 2L cr VRRR auction today

MUMBAI: The RBI on Wednesday said it will conduct a 29-day variable rate reverse repo (VRRR) auction for a notified amount of Rs 2 lakh crore on October 8 to absorb surplus liquidity from the banking system. The auction will be conducted between 9.30 am and 10 am, with the amount parked with the RBI scheduled for reversal on November 6.

H1FY27: Hindustan Zinc's digital metal commerce jumps 50%

MPOST BUREAU
Udaipur, October 7

Hindustan Zinc Limited has reported more than 50 per cent year-on-year growth in transaction value on its digital commerce platform Vedanta Metal Bazaar (VMB) during the first half of FY27, as metal procurement increasingly shifts towards technology-driven platforms.

The platform, launched in 2022, enables customers to discover products, access live prices, place orders and manage transactions digitally. Hindustan Zinc said customers across more than 500 cities in 23 states are using the platform.

Digital transactions on VMB also increased by more than 40 per cent year-on-year during the first half of FY27. The platform integrates procurement processes including LME-linked price discovery, ordering, payments, invoicing, dispatch planning and shipment tracking.

The company said features such as Zinc Moolya and Lead Moolya provide market-linked INR price discovery, particularly benefiting MSMEs and small-volume buyers seeking greater transparency in procurement.

Hindustan Zinc CEO Amarendu Prakash said digitalisation was helping make metal procurement simpler and more accessible, particularly for MSMEs that play an important role in India's manufacturing ecosystem.

The company, which operates an integrated mine-to-metal business, offers products including Special High-Grade Zinc, High-Grade Zinc, EcoZen low-carbon zinc, Prime Western Zinc and Continuous Galvanizing Grade Zinc, besides lead and die-casting alloys.

GAIL launches campaign to promote cleaner energy options

MPOST BUREAU
New Delhi, October 7

GAIL (India) Limited has launched Season 2 of its consumer awareness campaign, 'Wah Kya Energy Hai', featuring four short films and an anthem, 'Naye Bharat Ki Nayi Energy'.

The campaign promotes cleaner energy choices including CNG, PNG, LNG and CBG, with a focus on Gen Z and sustainable consumption. The films use humour and everyday situations to highlight cleaner fuel applications.

The campaign is being promoted through social media, radio, cinema and music-streaming platforms. Each episode has a runtime of around 8-10 minutes and is available on GAIL's official YouTube channel.

Actors Srikant Verma, Divya Jagdale, Luv Vispute and Ahmed Khan feature in the four films.

Sensex falls 429 pts as RBI stance, high crude prices dent sentiment

OUR CORRESPONDENT
Mumbai, October 7

INSIGHT

- The 50-share NSE Nifty declined 173.05 points, or 0.76 per cent, to end at 22,603.05
- Rising crude oil prices and persistent foreign fund outflows also hit market sentiment, analysts said
- Among the 30 Sensex firms, Titan, Bharat Electronics, Asian Paints, Infosys, Larsen & Toubro and Adani Ports were the major laggards

Stock markets closed lower on Wednesday, with the benchmark Sensex down 429 points after two straight days of gains, as the RBI raised the key policy rate for the first time in nearly four years.

Snapping the two-day rally, the 30-share BSE Sensex fell 429.11 points, or 0.59 per cent, to settle at 72,638.70 with 26 of its constituents closing lower and four higher. During the day, Sensex lost 599.09 points, or 0.81 per cent, to hit a low of 72,468.72.

The 50-share NSE Nifty declined 173.05 points, or 0.76 per cent, to end at 22,603.05.

Rising crude oil prices and persistent foreign fund outflows also hit market sentiment, analysts said.

Among the 30 Sensex firms, Titan, Bharat Electronics, Asian Paints, Infosys, Larsen & Toubro and Adani Ports were the major laggards.

Kotak Mahindra Bank, Bharti Airtel, ICICI Bank and Bajaj Finance were the gainers.

Brent crude, the global oil benchmark, jumped 1.41 per cent to USD 102 per barrel.

The Reserve Bank of India raised its benchmark interest rate by 25 basis points to 5.50 per cent on Wednesday, its first increase in nearly four years, and signalled that further hikes could follow as rising inflation and a weakening currency prompt a policy pivot.

The six-member Monetary Policy Committee voted unanimously to raise the repo rate, the first such increase since Governor Sanjay Malhotra took office in December 2024.

While the move was widely expected, the central bank sprang a surprise in shifting its stance towards "calibrated tightening", effectively ruling out a rate cut in the near term.

Foreign Institutional Investors (FIIs) offloaded equities worth Rs 2,961.30 crore on Tuesday, according to exchange data.

PRANA partners with HYROX Gujarat

Nila Spaces CEO Deep Vadodaria

MPOST BUREAU
Gandhinagar, October 7

PRANA by Nila Spaces has partnered with IndusInd Bank HYROX Gujarat as the Official Real Estate Partner for the first HYROX event in Gujarat, scheduled from November 26 to 28 at the Helipad Exhibition Center in Gandhinagar.

HYROX, a global fitness racing format for everyday fitness enthusiasts and seasoned athletes, is making its Gujarat debut as the event expands its presence in India following competitions in cities including Delhi and Mumbai.

The partnership is centred on a shared focus on physical and mental wellbeing. PRANA, located in GIFT City, promotes what Nila Spaces describes as "Power Living" through a holistic living environment combining wellness infrastructure, technology, fitness, recovery and community.

Its ecosystem includes fitness technologies, recovery tools, biophilic design, air and water systems, and spaces aimed at supporting physical vitality and mental wellbeing.

Deep Vadodaria, CEO, Nila Spaces, said the partnership reflected the belief that people can achieve more than they often realise. He said HYROX enables participants to discover their physical potential by challenging themselves, while PRANA seeks to extend that mindset into everyday living through fitness, recovery and wellbeing.

'Housing sales may take a hit on higher mortgage rates'

RBI monetary policy to have a bearing on cost and availability of funds: CREDAI president

MPOST BUREAU
New Delhi, October 7

REPRESENTATIVE PIC

KEY POINTS

- CREDAI national president Shekhar Patel and NAREDCO president Parveen Jain said the increase in the repo rate would lead to a rise in interest rates on home loans
- Both Patel and Jain said that the hike in the repo rate should be seen in the context of global uncertainties and inflationary concerns

Costlier home loans could be a dampener for housing sales during the upcoming festive season, according to realtors' industry bodies CREDAI and NAREDCO.

On Wednesday, the Reserve Bank of India raised its benchmark repo rate by 25 basis points to 5.50 per cent, its first hike in nearly four years, while signalling that rate cuts are off the table in the near term and that further hikes could follow amid rising inflation, a weak rupee and higher crude oil prices.

Commenting on the RBI's monetary policy, CREDAI National President Shekhar Patel and NAREDCO President Parveen Jain said the increase in the repo rate would lead to a rise in interest rates on home loans, which in turn could have some impact on housing sales.

Both Patel and Jain said that the hike in the repo rate should be seen in the context of global uncertainties and inflationary concerns.

The CREDAI President stated that the RBI monetary policy would have a bearing on the cost and availability of funds.

"We are also entering the festive season, which is an important period for the housing market, and the increase in borrowing costs could have some impact on sales during this period, although the underlying demand for housing remains strong," Patel said.

Jain noted that the housing demand remains strong at present.

"We expect the impact of this increase on the residential market to remain limited, supported by strong buyer sentiment, festive demand and the long-term need for homeownership," the NAREDCO President said.

The real estate sector will continue to demonstrate strength and resilience in maintaining its current momentum, Jain observed.

Patel further said, "We should understand that for a homebuyer, the interest rate at any particular point is only one part of a much longer decision."

"A home loan is generally a commitment of at least 15 years. During that period, there will be times when rates go up and times when they come down. We should not look at repo rate changes in isolation. What matters is the long-term outlook for the economy and overall growth," he added.

Briefs

U17 India men blank Myanmar

THANLYIN: The India U17 men's team ended their friendly tour of Myanmar with a comprehensive 4-0 victory over the hosts in the second match here on Wednesday.

Captain Dallalmoun Gangte (40th) put the Blue Colts ahead in the first half.

An own goal by Kyi Thar (53rd) doubled the lead before Kamgouhao Doungel (60th) and Hrishikesh Charan Manavathi (72nd) found the net once each to complete the tally, as Mehrajuddin Wadoo registered his first win as India U17 men's head coach.

China Open: Swiatek enters QFs

BEIJING: Iga Swiatek broke Iva Jovic's serve twice in the last four games to beat the 18-year-old American 6-1, 6-3 on Wednesday and advance to the quarterfinals of the China Open. No. 8-seeded Swiatek will next play either third-seeded Coco Gauff or Elise Mertens in the WTA 1000 tennis tournament in Beijing.

Gauff, who said she received an "insane" amount of racist comments on social media following a controversial point in her Monday match against Chinese player Sun Xinran, was scheduled to take on Mertens later Wednesday in another fourth-round match.

ISL to be live & free on Youtube

MUMBAI: The Indian Super League on Wednesday announced that all its 163 matches will be available live and free on YouTube, which has been roped in as its digital streaming partner for the 2026-27 season.

The move is aimed at expanding ISL's digital reach, with the league seeking to make every match accessible without a subscription barrier through YouTube, the ISL said in a press release. The 2026-27 season will feature 13 teams, with the first phase comprising 78 matches from October 10 to January 17. The schedule has a weekend-centric approach, with 53 of the 78 Phase 1 matches set to be played on Fridays, Saturdays or Sundays.

GILL CONSOLIDATES TOP SPOT IN ODI LIST

Iyer rises to career-best 7th in T20I rankings

SHREYAS IYER

PRESS TRUST OF INDIA
Dubai, October 7

India T20 captain Shreyas Iyer on Wednesday climbed to a career-best seventh spot in the latest ICC rankings for the shortest format, while ODI skipper Shubman Gill retained the top position in the 50-over batting list.

Iyer's unbeaten 102 from 43 deliveries that was studded with 10 fours and six sixes, propelled the T20 world champions to a commanding eight-wicket victory in the series-opener against the West Indies in Lucknow on Tuesday.

The explosive innings has lifted Iyer 18 places, making him India's third-highest ranked batter in the format. Ishan Kishan and Abhishek Sharma continue to occupy the top two spots with Tilak Varma at 10th, giving India four batters in the top 10, stated an ICC release. Teen sensation Vaibhav Sooryavanshi has climbed eight places to 46th.

West Indies batter Sherfane Rutherford's brisk 56 has lifted him 10 places to 37th while Pakistan's Hasan Nawaz (up 62 places to 48th) has moved up the list following some strong performances in the Asian Games.

Abrar Ahmed's figures of none for 29 and one for 29 in the semifinal and final at the Asian Games were not enough for him to retain the No. 1 position among bowlers. Leg-spinner Rashid Khan is back for his eighth spell at the top, having already spent more than twice as long as anyone else as the No.1.

SHUBMAN GILL

India's left-arm spinner Axar Patel grabbed two wickets each in three matches this past week to gain 16 spots and reach seventh position.

Gill consolidated his position at the top of the ODI batting rankings after his 223 not out in the second match against the West Indies in Guwahati.

His second double-century in the format, which was the highest score in an ODI run chase, has helped him add 25 rating points and equal his career-best 841 rating points.

Former captain Virat Kohli has slipped from second to third. KL Rahul is back in the top 10 at 10th, jumping seven places after a swashbuckling hundred in the third ODI against the West Indies.

Manush-Diya enters SFs at WTT China Smash

ASSOCIATED PRESS
Bamako, October 7

Manush Shah and Diya Chitale created history by becoming the first Indian mixed doubles pair to reach a WTT Grand Smash semifinal after beating Romania's Eduard Ionescu and Bernadette Szocs 3-0 at the China Smash here on Wednesday.

The fifth-seeded Indian pair prevailed 11-9, 13-11, 11-3 in the quarterfinals to book their place in the last four.

The Indian duo thus scripted a dramatic turnaround, avenging last year's straight-games defeat to the Romanian combination.

However, India's Manav Thakkar bowed out in the men's singles round of 32 after suffering a 0-3 defeat against seventh seed Alexis Lebrun of France.

The women's doubles pair of Diya Chitale and Yashaswini Ghorpade also suffered a narrow 2-3 defeat against China's Gao Yuxin and Xiang Junlin in the round of 16.

Pant fits perfectly in DC's middle order: new head coach Ganguly

PRESS TRUST OF INDIA
Dubai, October 7

Newly-appointed Delhi Capitals head coach Sourav Ganguly is confident that embattled wicketkeeper-batter Rishabh Pant will "fit perfectly" in the team's middle order, bringing the best out of him in the next IPL season.

Pant played 111 matches for the Capitals and scored 3,284 runs besides captaining the unit before moving to Lucknow Super Giants in 2025. After a not-so-successful stint with LSG, he has been reinstated into his former team after being traded for Kuldeep Yadav.

"We needed a middle-order batter and Pant fits it perfectly. He was with us and he played well for us. Next year, when he turns up again, I think he'll use the time and space and the matches to become a better player," Ganguly said in a video posted by DC on their official Youtube channel. "You know he enjoys batting at the Feroz Shah Kotla (Arun Jaitley Stadium) in Delhi and hopefully we'll see the best of Pant in the years to come for the Delhi shirt," added the former India captain who is also heading the Cricket Association of Bengal.

Pant has been enduring a slump in form and also battling nagging injuries since recovering from a life-threatening car accident in 2022. It is a homecoming of sorts for Ganguly too. His association with Delhi Capitals began in 2019 when he joined the franchise as an Advisor. Over the years, the 54-year-old has held multiple leadership positions across the Capitals ecosystem.

Rishabh Pant, right, during Day 1 of the Irani Cup match, in Srinagar PTI/FILE PHOTO

HIGHLIGHTS

- Rishabh Pant played 111 matches for the Capitals and scored 3,284 runs
- Pant has been enduring a slump in form and also battling nagging injuries since recovering from a life-threatening car accident in 2022

Asian Games stars, Olympic medallists in focus as APL returns

PRESS TRUST OF INDIA
Hyderabad, October 7

THIS TIME, THE MEDAL-WINNING ARCHERS WILL BE INVOLVED IN A COMPLETELY DIFFERENT SETTING

Olympic medallists and India's Asian Games stars will be in focus as the second season of the Archery Premier League gets underway here on Thursday, with the six-team franchise competition bringing together leading recurve and compound archers from India and abroad.

The return of APL, after a successful first season in New Delhi, coincides with India's sensational performance in Aichi-Nagoya that saw the country's archery contingent emerge as the best in the field, ahead of powerhouses South Korea. Now, the country's star archers will take center stage from October 8 to 18 at People's Plaza in Hyderabad's Necklace Road.

This time, the medal-winning archers will be involved in a completely different setting -- shooting against their own national teammates in some cases and with a quicker shooting deadline, with each arrow allotted an average of just 15 seconds in a thrilling format.

The APL will also witness recurve and compound archers going up against each other, another novelty that makes this franchise league stand out from regular World Archery events on the international circuit.

Artic Open: Prannoy, Mannepalli, Chouhan out

PRESS TRUST OF INDIA
Vantaa, October 7

India's men's doubles pair of Krishna Prasad Garaga and Pruthvi Krishnamurthy Roy registered a stunning win over fifth seeds He Ji Ting and Ren Xiang Yu of China to enter the second round, but it was a dismal performance from the men's singles players at the Arctic Open Super 500 here on Wednesday.

Krishna and Pruthvi saw off the fifth seeds He and Ren 10-21, 21-18, 22-20 to notch up one of the biggest wins of their careers.

However, HS Prannoy, Tharun Mannepalli, and Rounak Chauhan were ousted in the opening round.

Messi retires from international football as Argentina win 3-0

Defeats Benin in friendly match

ASSOCIATED PRESS
Buenos, October 7

Lionel Messi turned his official farewell to Argentina into a gala performance, contributing a penalty and two assists in a 3-0 win over Benin at the Monumental Stadium in Buenos Aires, where the crowd offered a deafening final ovation to the genius who defined the footballing pulse of a nation for two decades.

In front of 85,000 fans, the superstar capped off an international career spanning 21 years, 126 goals, a 2022 World Cup victory, and two Copa América titles.

"It was a source of great pride to wear this jersey for over 20 years," Messi told the crowd, speaking into a microphone from the center of the pitch. "I never stopped fighting, never stopped giving my all. I would love to keep coming back forever, because playing for the Argentine national team is the most beautiful thing that can happen to you."

His teammates – many of them overcome with emotion – along with the coaching staff led by Lionel Scaloni and the fans, gave him a standing ovation.

"I'm going to miss you all. Now I'll be on your side, supporting the national team and the guys who come next," Messi promised.

KEY POINTS

- In front of 85,000 fans, the superstar capped off an international career spanning 21 years, 126 goals, a 2022 World Cup victory, and two Copa América titles
- His teammates — many of them overcome with emotion — along with the coaching staff led by Lionel Scaloni and the fans, gave him a standing ovation

News at a glance

Watling to take over from Ronchi as NZ"s batting coach

CHRISTCHURCH: Former wicketkeeper batter BJ Watling will replace Luke Ronchi as New Zealand's batting coach at the end of the Test series against India, the country's cricket board said on Wednesday.

Watling, however, will join the NZ squad on November 16. The Kiwis will face India in a two-match Test series from November 19, and Ronchi's stint will come to an end on December 1, the scheduled final day of the second Test. Watling will assume the role full-time thereon ahead of the away four-Test series against Australia.

Para-shooters allege corruption in Asiad selection

NEW DELHI: Para-shooters have sought an urgent independent inquiry into alleged financial corruption, extortion and manipulation in the selection process for the Para Asian Games, prompting the Paralympic Committee of India (PCI) to reject the charges and insist that the team was picked entirely on merit.

In a representation to the Director General of the Sports Authority of India (SAI) on Wednesday, the shooters alleged "illicit monetary extortion", "brazen corruption" and violations of Sports Ministry's guidelines by PCI officials.

Arteta signs new contract at Arsenal to 203

LONDON: Arsenal manager Mikel Arteta has signed a new contract that is set to extend his stay at the English champions beyond a decade. Arteta penned a deal that keeps him at Arsenal until 2030, the club said Wednesday.

The 44-year-old Spanish coach took charge in December 2019 and is now comfortably the longest-serving coach in the Premier League. "We have already built a special bond and created memories that will last a lifetime," Arteta said in a club statement, "and what is so exciting is that this is only the beginning of what we can achieve together."

Tilak Varma, front, and captain Shreyas Iyer arrive ahead of the second T20I match against West Indies, at the Birsa Munda Airport, in Ranchi on Wednesday PTI

EAST BENGAL EYE REVENGE

Mohun Bagan seek back-to-back IFA Shield titles

PRESS TRUST OF INDIA
Kolkata, October 7

East Bengal FC will look to avenge last year's IFA Shield final defeat when they take on arch-rivals Mohun Bagan in another high-voltage Kolkata derby at the Salt Lake Stadium, here on Thursday.

The final will be the fifth meeting between the two sides this year and comes barely two months after East Bengal got the better of Mohun Bagan in the Durand Cup final, winning 4-1 to claim one of their biggest derby victories in recent years.

Mohun Bagan, however, have since won the Calcutta Football League to end an eight-year wait for the title and will be bidding to retain the Shield they won against East Bengal at the same venue last year.

The 2025 final ended 1-1 before Mohun Bagan prevailed 5-4 on penalties to lift the Shield for the 21st time.

East Bengal, the record 29-time champions, will now be aiming to reach the 30-title mark, while the Mariners are chasing their 22nd crown.

The rivalry has been evenly poised this year.

The 2025 final ended 1-1 before Mohun Bagan prevailed 5-4 on penalties to lift the Shield for the 21st time

The first derby, in the Indian Super League in May, ended 1-1, before Mohun Bagan won 1-0 in the Durand Cup opener in July. East Bengal then responded with their emphatic 4-1 victory in the Durand Cup final, while their latest meeting in the Calcutta Football League in September again ended 1-1.

East Bengal entered the Shield final on a high after producing a statement performance in the semi-finals, thrashing NorthEast United 7-2.

David Lalhlansanga scored a hat-trick, while Rohit Kumar, Chris Ikonomidis, Ake Loba and Lukas Zwolinski were also on target.

They had opened their campaign with a 3-1 win over Calcutta Customs before losing 0-1 to Punjab FC in the group stage.

Mohun Bagan have taken a more difficult route to the final.

They began with a 6-0 win over Sreenidi Deccan, Lallianzuala Chhangte scoring three, and drew 1-1 with NorthEast United to progress from the group.

The Mariners were then held goalless by Punjab FC over 120 minutes in the semi-final before goalkeeper Vishal Kaith made two saves in the shootout to secure a 4-3 victory.

The demanding schedule has emerged as a concern for both teams, particularly Mohun Bagan, who have several players returning from national duty after India's back-to-back friendlies against Brazil and Uruguay.

Manvir Singh, Sahal Abdul Samad, Apuia, Aniruddha Thapa and Abhishek Singh have joined the Mariners after national duty, having been involved in two high-intensity matches within 78 hours.

Mohun Bagan coach Panagiotis Dilmperis said his staff had been monitoring the workload of the players and would decide on their involvement only after assessing their freshness.

"Since last night, I and my assistants, especially the assistant coach, have been working on measuring the load of the footballers. They have played a lot of minutes in the Kolkata League, IFA Shield and for the national team," Dilmperis said.

'Setbacks made me rediscover love for boxing'

PRESS TRUST OF INDIA
Guwahati, October 7

Ace boxer Lovlina Borgohain on Wednesday said rediscovering her love for boxing after the disappointment of the 2024 Olympics helped her regain confidence and culminated in a gold medal at the recently concluded Asian Games in Japan.

Borgohain, who won the women's 75-kg gold after defeating China's Bao Ziyi 5-0 in the final, said the blessings and support of her well-wishers had also played an important role in her success.

"I was devastated after my 2024 Olympic loss. I had forgotten how much I love boxing. Now, I have rediscovered the love, and I enjoy my game," she said at a felicitation ceremony in Guwahati.

The 28-year-old boxer said her immediate target is the World Championships, where gold and silver medallists will earn direct qualification for the Olympics.

She expressed confidence that with proper preparation, she could upgrade the colour of her Olympic medal from the bronze she won in 2020 to gold in the next.

Borgohain said she was not able to prepare adequately for the Asian Games due to an injury but remained confident of performing well.

"The fights were tough. I did not have much expectation, but I wanted to live every moment. I had to be mentally strong, and I think my experience also counted in tackling my opponents," she said.

'LIKE TO ROOT for talented, good human beings'

Shweta Tripathi turned to Anurag Kashyap & Neeraj Ghaywan for lessons in film production

MUMBAI: Actress-turned-producer Shweta Tripathi said she sought advice from her filmmaker friends Anurag Kashyap and Neeraj Ghaywan as she ventured into film production, a decision driven by her desire to find good scripts and support talented new storytellers.

Tripathi is making her feature production debut with 'Mujhe Jaan Na Kaho Meri Jaan', where she stars alongside actor Tillotama Shome. The film is directed by Sanjoy Nag. Calling Kashyap and Ghaywan her 'go-to people', Tripathi said the duo guided her on the intricacies of film production. "It's important to be surrounded by people who are open, who are ready to share things. Like, I had called up Neeraj and I had asked him a few things. Besides, I've discussed it (turning a producer) with Kashyap multiple times. So, I have that relationship with him where I keep asking for guidance because it is important," she told PTI in an interview.

SHE IS MAKING HER FEATURE PRODUCTION DEBUT WITH 'MUJHE JAAN NA KAHO MERI JAAN'

She added, "They told me a lot of small things, whether it's about budget, how to approach a project, etc." PTI

SRK, Rizwan Sajan reunite for Shahrukhz Residences

The residences set a new benchmark for celebrity-inspired living

THE TOWER WILL FEATURE 40+ LIFESTYLE AMENITIES, INCLUDING A FIRST-OF-ITS-KIND LONGEVITY LOUNGE

OUR CORRESPONDENT
Dubai, October 7

Following the success of 'Shahrukhz' by 'Danube', the commercial tower that sold out on launch day, Danube Properties announces the next chapter of its iconic partnership with superstar Shah Rukh Khan with the launch of Shahrukhz Residences by 'Danube', a landmark fully furnished waterfront residential tower in Dubai Maritime City, with apartments starting at AED 1.65 million and a flexible payment plan of 30 per cent during construction and 70 per cent upon handover.

Positioned as the world's first celebrity-named residential tower, Shahrukhz Residences sets a new benchmark for celebrity-inspired living, offering breathtaking views of the sea and the Dubai skyline. Adding to its exclusivity, celebrated interior designer and SRK's wife, Gauri Khan, has designed the penthouses, allowing customers to bring her distinctive design touch into their homes.

The tower will feature 40+ lifestyle amenities including a first-of-its-kind Longevity Lounge with cryotherapy, hyperbaric oxygen therapy, a red-light therapy bed and infrared sauna, alongside aqua-themed play areas, sports facilities, kids' daycare, cycling and jogging tracks, and premium experiences inspired by 'King style' living. The development will feature an exclusive King's Club on the rooftop, while residents will also have access to a private yacht.

Expressing his excitement, Shah Rukh Khan said, "I'm delighted to partner with Rizwan again for Shahrukhz Residences. The idea is to create a home that allows my fans to experience a similar lifestyle to mine. Having Gauri by my side in this project makes it even more special."

Rizwan Sajan, Founder and Chairman, Danube Group, said, "Shahrukhz Residences by 'Danube' is a vision to create an address that people will aspire to own and remember for generations. After the phenomenal response to Shahrukhz by 'Danube', our customers asked us to bring this experience to residential living and we listened. With Shahrukhz Residences, we are bringing together luxury to create a truly iconic way of living, just like Shah Rukh's and mine."

SPECIAL HANDLOOM EXPO

A platform for authentic handloom & handicraft products

OUR CORRESPONDENT
Noida, October 7

The Development Commissioner (Handlooms), Ministry of Textiles, Government of India, presents the 'Special Handloom Expo - Vastra Parampara: A Celebration of India's Handloom Heritage'. The eight-day exhibition will be held till October 15, 2026, at Noida Haat, Sector 33A, Noida, Uttar Pradesh.

The 'Special Handloom Expo' will remain open to the general public throughout the exhibition period. More than 75 weavers and artisans from different states across India will participate in the expo, providing visitors with an opportunity to explore and purchase authentic handloom and handicraft products from across the country.

The exhibition aims to promote India's rich handloom and handicraft traditions, provide market opportunities to weavers and artisans and create direct connections between traditional craftspeople and consumers. Weavers and artisans from different states across India will showcase their traditional art, weaving techniques, handloom and handcrafted products. Visitors will be able to experience the distinctive colours, designs, techniques and craftsmanship associated with different regions of the country under one roof.

The expo will feature a wide range of handloom and handicraft products, including handloom sarees, suits, dupattas, shawls, stoles, kurtas, dhotis, bedsheets and home décor textiles, along with traditional handicrafts, artworks and decorative items.

The expo is designed not only as a platform for showcasing products, but also as an opportunity for people to experience India's diverse textile and craft traditions. It seeks to strengthen direct interaction between weavers, artisans and consumers while encouraging the purchase and promotion of Indian handloom and handicraft products.

The initiative by the Development Commissioner is aimed at strengthening the handloom and handicraft sector, supporting the livelihoods of weavers and artisans, expanding market opportunities and giving greater visibility to India's rich textile and craft heritage.

Remembering Jeffrey Archer

As I read about his death on October 5, 2026, his books and stories filled my mind

SUTAPA MUKHERJEE
Kolkata, October 7

I still remember how long I stood and how much patience it took before I reached the table. The queue at the Kolkata bookstore had already left the shop and was running out into the mall corridor. I was holding four copies of 'Mightier than the Sword', heart racing for a signature. Jeffrey Archer had come to the city to launch the book. When my turn came, he looked up and asked who the copies were for. I told him, suddenly as eager as a schoolgirl, that they were for both my sons and friends who could not come that afternoon. He smiled the way the English do, a small smile and signed all four. I came away feeling I had something worth keeping and giving.

As I read about his death on October 5, 2026, his books and stories filled my mind. He was 86. 'HarperCollins' said the death was sudden and peaceful, at home, a day before his last novel, 'Adam and Eve', came out. I read the news and ordered a copy.

'Kane and Abel' was the first of his I read in college. The day I spotted its sequel, 'The Prodigal Daughter', I fished out my pocket money and bought it. That was more satisfying than a Dutch Chinese lunch with friends.

The feud did not shock me. The boy with a missing nipple did. One odd detail: Władek, born in a Polish forest and raised by trappers, knows the baron was his father. William Kane, born the same day in a Boston hospital, is no relation. They turn into enemies over a bank. I can still see those pages. The sentences were plain. The pictures were not.

His life was rougher than the plots. In 1974, an investment in a Canadian firm, 'Aquablast', left him about £427,727 in debt and he gave up the parliamentary seat he had held since 1969. 'Not a Penny More, Not a Penny Less' came out of that crash. It did not pay off what he owed. On his own site, jeffreyarcher.com, he says the first book 'kept hope alive' and 'did not rescue me financially' and that it took the next books and about five years, 'one payment at a time'. He is plain about which book finished the job: "'Kane and Abel', not this book, is what actually paid the debts." I don't think he was Abel in any way, but for sure, the wish to climb was his.

THE BOOK THAT NEVER QUITE LEFT ME IS 'A QUIVER FULL OF ARROWS', HIS FIRST COLLECTION OF STORIES

The book that never quite left me is 'A Quiver Full of Arrows', his first collection of stories. 'Old Love' still haunts me. William Hatchard and Philippa Jameson meet as rivals in English at Oxford, share a prize that was meant for one student and then spend a marriage teasing each other. It is a simple, almost ethereal love, far from the material world. Even a crossword consumes them. One June morning, Philippa is stuck on eight squares in 'The Times'. He writes in 'whymwham', tells her the word is in the dictionary on his desk and leaves for college. She has a heart attack and dies calling for him. He shoots himself so she will know she was wrong. The note says, "Forgive me, but I had to let her know." I still think it is one of the finest love stories I have read.

Hindi cinema and television kept returning to the same fight. 'Khudgarz', in 1987, was taken from 'Kane and Abel' and Doordarshan's 'Junoon' ran for years on it. Archer used to say Indian readers thought they were Abel: hard-working; sure, the top could be reached. He also used to say 50 million Indians had read the book, including pirated copies. On Park Street the pavement sellers, a temporary shop every few yards, had stacks of it.

I studied literature and I would not call this a literary appeal. I could never name a style. What held me was the pattern. Two men, born on the same day, one rich and one poor, spend their lives trying to undo each other. You take a side. You turn the page. It is comfort reading: you can start in the middle and still know where you are. He kept going back to the feud, the missing letter, the death of someone you had just begun to like. Readers who wanted to be carried along got what they had come for. Both kinds, I know, kept reading him. So did I.
