AT UNGA, TRUMP CALLS ON IRAN TO NEGOTIATE Trump threatens to 'annihilate' Iran, says deal likely after polls

AGENCIES
United Nations, September 22

US President Donald Trump on Tuesday warned Iran that it faced a stark choice between reaching an agreement with Washington or continued military action, including what he described as the possible "annihilation" of the Islamic Republic. Speaking at the UN General Assembly, Trump also predicted that the United States and Iran could reach a deal soon after the November 3 midterm elections.

"I have a big decision to make," Trump said, asking whether Iran would reach an agreement that would allow it to rebuild and become "one of the

We expect no penal action for refusing to sing Vande Mataram on religious grounds: SC to Centre

Says two stanzas or six, it is for the central govt to decide

OUR CORRESPONDENT
New Delhi, September 22

The Supreme Court on Tuesday told the central government that no citizen who refuses to sing Vande Mataram for reasons of conscience or religion should face criminal prosecution, as it began hearing a constitutional challenge to a 2026 law that made insulting the National Song a punishable offence.

A three-judge bench of Chief Justice of India Surya Kant, Justice Joy-malya Bagchi and Justice V Mohana was hearing a writ petition filed by Carnatic musician T M Krishna, who has challenged both the Prevention of Insults to National Honour (Amendment)

CLOSER LOOK

- » Court protects conscientious objectors from criminal action
- » Religious refusal to sing should not invite punishment
- » Bench cites 1986 Bijoe Emmanuel judgment
- » Court will examine penal consequences, not National Song status
- » State can decide whether two or six stanzas apply
- » Krishna challenges 2026 amendment to national honour law

- » Amendment allows up to three years' imprisonment, fine, or both
- » MHA orders prescribe all six stanzas for official events
- » Petition challenges mandatory singing on religious grounds
- » Krishna flags references to Durga, Lakshmi and Saraswati

Act, 2026, and two Ministry of Home Affairs orders that require the complete six-stanza version of Vande Mataram to be sung at official events. Krishna argues that the

final four stanzas, which invoke the Hindu goddesses Durga, Lakshmi and Saraswati, cannot be forced upon citizens without breaching the secular

Trai directs
telcos to offer
cheaper voice,
SMS-only plans

MPOST BUREAU
New Delhi, September 22

The Telecom Regulatory Authority of India (Trai) has directed telecom operators to offer special tariff vouchers (STVs) exclusively for voice calls and SMS at reduced tariffs, without bundled data services.

The requirement is part of the Telecom Consumers Protection (Thirteenth Amendment) Regulations, 2026, issued on Tuesday. Operators must provide a voice and SMS-only STV for every validity period of 30 days or less offered for plans combining voice, SMS and data.

Trai said the move addresses cases where customers who do not need data are required to buy

45 student suicides reported from 23 IITs in 5 yrs

MPOST BUREAU
New Delhi, September 22

Twenty-three Indian Institutes of Technology (IITs) reported 45 student suicides between 2020-21 and 2024-25, with 28 involving students from Scheduled Caste (SC), Scheduled Tribe (ST) and Other Backward Classes (OBC) communities, according to official data compiled from all IITs.

The figures were collected in connection with Lok Sabha Provisionally Admitted Starred Diary No. 3682 dated December 8, 2025. The 28 students from the three communities accounted for more than 62 per cent of the total suicides recorded during the five-year period.

3 MEN ARRESTED, ONE HURT IN FIRING 17-year-old gang-raped by three men posing as cops in Delhi park

PRAJYOT DEOGHARE
New Delhi, September 22

Three men have been arrested in connection with the alleged gang rape of a 17-year-old girl at Aastha Kunj Park near Delhi's Kalkaji Mandir after they allegedly posed as policemen and threatened the teenager and her 17-year-old male friend, police said on Tuesday. One of the accused, Asif, was arrested after a brief exchange of fire with

police, while the other two, identified as Hemant and Mukesh, were later arrested from their residence.

The incident was reported on Monday evening after a PCR call was received around 8:45 pm about the alleged sexual assault near Kalkaji Mandir and the ISKCON Temple. Police reached the park and found the girl with her friend. She was subsequently taken to AIIMS for medical examination,

while crime and forensic teams examined the scene and collected evidence.

According to the girl's statement, she and her friend had travelled to Delhi from Faridabad and visited Kalkaji Mandir for darshan. At around 7:30 pm, they entered Aastha Kunj Park through Gate No. 7. Police said three men, aged between 25 and 30, approached them and claimed to be policemen.

40 days on, Monsoon Session of Parliament yet to formally end

PRESS TRUST OF INDIA
New Delhi, September 22

The Monsoon Session of Parliament is yet to end formally, 40 days after both Houses were adjourned, keeping speculations alive that the government wants to bring a key legislation without convening a fresh session. The two Houses remaining "unprorogued" for 40 days is a new record, former Lok Sabha secretary general P D T Achari told PTI.

In 2015, the two Houses of Parliament were prorogued after 28 days, he recalled. The government was then trying to create a consensus on GST law, he noted. There are strong suggestions that the government plans to move afresh an amendment to the women's reservation law to bring it into effect ahead of the 2029 Lok Sabha elections.

A previous attempt during the Budget Session fell short due to a lack of numbers.

To alleviate concerns, especially from southern opposition parties fearing a drop in Lok Sabha representation under population-based delimitation, the government proposes a flat 50 per cent seat expansion across all states and Union territories.

Both the Lok Sabha and the Rajya Sabha were adjourned sine die (for an indefinite

Gr Noida: SC lawyer killed, wife critical after Thar rams scooter

Driver fled after abandoning SUV at spot; police examine CCTV

DIPIKA KIROLA
Greater Noida, September 22

A 40-year-old Supreme Court lawyer was killed and his wife critically injured after a Thar allegedly rammed their scooter near the Itaira roundabout in Greater Noida West on Monday evening. The SUV was abandoned at the spot after the crash and its driver fled, police said.

The deceased, Neeraj Srivastav, a resident of Chipiyana, was travelling with his wife on the scooter when the collision occurred in the Bisrakh police station area. The impact left both seriously injured. They were rushed to a nearby hospital, where Neeraj succumbed to his injuries during treatment. His wife remains in critical condition.

Neeraj's elder brother, Amit Kumar, said the family was struggling to cope with the severity of his sister-in-law's injuries. He said she remains in a coma and has suffered 18 fractures in the crash.

"Her condition remains extremely critical. She is currently in a coma. Since yesterday, the doctors have raised medical bills of around Rs 7 lakh. The entire left side of her body has become paralysed. She has suffered 18 fractures, her pelvic region has been completely crushed and she has already undergone multiple surgeries," Amit said. The family has

alleged that the Thar was being driven at high speed and on the wrong side of the road when it collided with the scooter. Amit said his brother was travelling in his designated lane and had no role in causing the accident.

"My brother is no more. He was a lawyer practising in the Supreme Court. It was not his fault. He was driving in his own lane when the Thar came from the wrong side," he said.

The family has also raised allegations about the condition of those travelling in the SUV. Amit said eyewitnesses at the scene told the family that the occupants of the Thar had been drinking. According to him, four young men were travelling in the vehicle, of whom two were caught by people at the spot while the other two escaped.

"Eyewitnesses said the occupants were drunk.

TWO FLEE; TWO HELD

» The family has alleged that the Thar was being driven at high speed and on the wrong side of the road when it collided with the scooter. Amit said his brother was travelling in his designated lane and had no role in causing the accident

» Neeraj's elder brother said the family was struggling to cope with the severity of his sister-in-law's injuries. He said she remains in a coma and has suffered 18 fractures in the crash

» 'Eyewitnesses said the occupants were drunk. There were four boys in the vehicle. Two were caught by people at the spot, while the other two managed to flee,' Amit alleged

There were four boys in the vehicle. Two were caught by people at the spot, while the other two managed to flee," Amit alleged.

Police have not officially confirmed the allegation of drunken driving. They are examining CCTV footage and other evidence to establish what happened immediately before and after the collision.

Ranjeet Kumar Singh, station house officer of Bisrakh police station, said CCTV cameras installed around the accident site and on adjoining roads were being examined. The footage would help reconstruct the collision, determine the speed and direction of the Thar and identify the route taken by the driver after abandoning the SUV.

"CCTV footage around the incident spot is being examined. This will help establish how the accident occurred and ascertain the speed of the Thar. Teams

have also been formed to trace the driver," Singh said. The Thar was taken into police custody after it was found abandoned at the accident site. Police are examining the vehicle as part of the investigation and checking footage from nearby roads to establish where the driver went after fleeing.

People in the vicinity alerted police following the crash. A police team reached the spot and arranged medical assistance for the injured couple. Neeraj's body was subsequently sent for post-mortem examination and his family was informed.

Police said a complaint from the deceased's family was being obtained and legal action was being taken accordingly.

CCTV footage, witness accounts and other available evidence are being examined to establish the circumstances leading to the crash.

Unknown companies registered at AAP national office; party submits complaint

OUR CORRESPONDENT
New Delhi, September 22

The Aam Aadmi Party (AAP) on Tuesday alleged a 'conspiracy' by the Centre to defame it, as 58 unknown shell companies have been registered at the address of its national headquarters in New Delhi.

AAP's Delhi unit president Saurabh Bharadwaj said these businesses have been registered at the party's headquarters at 1, Canning Lane, New Delhi between July and September this year, and the party has sent a formal complaint to the Principal Commissioner GST and Delhi Police in this regard.

"This was planned by the BJP so that before the February 2027 elections, the BJP could have planted this news and run a campaign against us, that AAP runs several shell companies through which it receives donations," Bharadwaj said in a press conference.

He added that all these GST registrations have been done after "Aadhaar verifications", and asked the Centre to investigate the matter.

"How were these 58 businesses registered at the address of the Aam Aadmi Party's national office? This is our question directly to the central government. Does this mean that today a central government has fallen so low that just to defeat a party in elections, they will spread any lie before that?" he added.

Aastha Kunj gang-rape puts park security under scanner

OUR CORRESPONDENT
New Delhi, September 22

An expansive park in south-east Delhi, surrounded by three major temples, has come under scrutiny following the alleged gang-rape of a 17-year-old girl by men posing as police personnel, with security gaps including broken boundary walls, unmanned gates and dimly-lit stretches coming into focus.

On Monday evening, three men -- Asif, Hemant and his brother Manish -- allegedly posed as police personnel and took turns to rape the 17-year-old girl inside the Aastha Kunj Park near the Kalkaji Mandir, police said.

The incident has raised questions over access control at the sprawling green space, which has a large perimeter and several entry points, with locals saying they avoid entering the park after sunset despite the presence of security guards and regular police patrolling.

The park, under the jurisdiction of the Delhi Development Authority (DDA), is spread over approximately 142.1 acres and has 29 gates, including wicket gates. It witnesses considerable footfall during the day due to its proximity to the Lotus Temple, the ISKCON Temple and the Kalkaji Temple, besides residential areas, markets, offices and metro stations.

Speaking to reporters, guard Amar Paswan said nine security guards are deployed in each of the

KEY POINTS

» Incident has raised questions over access control at the sprawling green space, which has a large perimeter, several entry points, with locals saying they avoid entering the park after sunset

» The park is surrounded by several localities, including East of Kailash, Kailash Hills, Nehru Place, Kalkaji, Greater Kailash-I...

three shifts at strategic locations in the park. The main gates are closed after 7 pm, but people can still enter the park by crossing the boundary wall or using smaller pathways, he said.

"People from the locality are scared to enter the park after 6 pm," local resident Vijay Kumar said, adding that several people use a route through the park while travelling between the Nehru Place metro station and Garhi village.

Another resident, Krishna Kumar, said police patrol the park during the evening and night and use torches to ask people to leave. Resident Arun also advised people to avoid entering the park after sunset.

The park is surrounded by several localities, including East of Kailash, Kailash Hills, Nehru Place, Kalkaji, Greater Kailash-I, Kailash Colony, Garhi village, Okhla Mandi, Mount Kailash and Amritpuri. More than 17 residential societies are located around it, with some having smaller gates opening towards the park.

Joint Commissioner of Police (Southern) Vijay

Kumar said the park is open from many sides, while some portions of the boundary wall have collapsed. "Some gates are not manned with guards, while some places are not sufficiently lit," he added.

Meanwhile, the DDA said the lighting installations in the park are functional and inspected regularly. The DDA also maintains coordination with the beat officer and other Delhi Police officials regarding security, law and order, preventing unauthorised activities and maintaining a safe environment, it added.

"Security-related concerns pertaining to the park have also been taken up by the DDA with the Delhi Police on several occasions for appropriate action, enhanced patrolling and necessary preventive measures," the authority said.

The DDA said it has reviewed and strengthened security arrangements, assessed manpower needs across the park's 29 access points, and enhanced police coordination for patrolling.

Fake currency racket busted; two arrested

PRAJYOT DEOGHARE
New Delhi, September 22

The Delhi Police has busted an alleged counterfeit currency network operating across Delhi, Bihar, Jharkhand and West Bengal, arresting two key accused.

The accused have been identified as Danish, 35, of Gaya, Bihar, and Meraj alias Guddu, 36, of Chatra, Jharkhand.

Police said Kotak Mahindra Bank's Gandhi Nagar branch detected 18 counterfeit notes on August 22 after they were deposited by a customer. The customer told police Danish had bought clothes worth around Rs 17,200 and paid in cash. CCTV footage and local intelligence helped police identify and arrest

Danish from Gandhi Nagar market. He allegedly told investigators he had procured counterfeit currency worth Rs 30,000 for Rs 10,000 in genuine currency from Guddu.

Acting on the lead, a team arrested Meraj in Bodh Gaya on August 26 and recovered 169 counterfeit Rs 500 notes worth Rs 84,500 from his bag.

Police said Meraj allegedly named two suppliers, "Mama alias Chhotu" and "Bhaiya Ji", operating from Kaliya Chowk in Malda.

OUR CORRESPONDENT
New Delhi, September 22

The Supreme Court on Tuesday directed the Delhi Police commissioner and the Gurugram police to file affidavits explaining why the body of missing Delhi realtor Yuvraj Singh Manchanda was cremated despite lack of identification. Manchanda's body was found dumped in a Gurugram drain by Haryana Police on September 10, but the family was informed only on September 16.

His family has alleged that they were not informed about the recovery of the body and that the unidentified body was cremated on September 14.

Police have arrested

Anya Vats and her husband Sanyam Sachdeva as accused in the case and the matter is currently under investigation.

A bench of Justices Ahsanuddin Amanullah and R Mahadevan also asked the Gurugram police to explain why details concerning the recovery of the body were not uploaded on the Crime and Criminal Tracking Network and Systems (CCTNS) portal.

During the hearing, senior advocate Mukta

Gupta, who is chairperson of the committee constituted in relation to human trafficking, informed the apex court that pursuant to the observations made by it, she has taken instructions regarding an incident in which a person from Delhi had gone missing.

"Three days later, he was identified as the person whose body had been found in Gurugram and cremated by the authorities due to lack of identification," she said.

SC had directed immediate FIRs for missing persons, stronger anti-trafficking mechanisms and prompt restoration of traced children to families, noting 47,000 children remained untraced across India.

WEST DELHI

MCD to pilot Indore waste mgmt model

ANAMTA FATIMA
New Delhi, September 22

The Municipal Corporation of Delhi (MCD) will pilot the Indore waste management model in the West Zone, with the South and Central zones to follow, as part of efforts to improve source segregation, waste collection and field-level accountability.

MCD Commissioner Sanjeev Khirwar reviewed the proposed pilot at a meeting where officials discussed adapting key practices from Indore to Delhi. The South and Central zones have also been identified for the initiative as new concessionaires have taken over waste col-

lection and transportation in these areas. The meeting also focused on measures to curb air pollution. Khirwar directed officials to strengthen the deployment of mechanical road sweepers, water sprinklers and anti-smog guns at identified locations. He also called for expediting road maintenance, including pothole repairs, paving and greening works.

The Commissioner

directed officials to maintain strict vigil against open and biomass burning, particularly at vulnerable locations. Surveillance teams comprising MCD officials will be constituted to monitor such areas and ensure timely action against incidents of biomass burning.

The civic body will also organise a series of activities across Delhi on October 2 to observe Swachh Bharat Diwas in remembrance of Mahatma Gandhi. Zonal Deputy Commissioners have been directed to organise cleanliness and awareness programmes at public places and old age homes, besides holding special council meetings with

public participation.

The October 2 programme will also include plantation of trees, planters and shrubs at cleaned garbage-vulnerable points (GVs) and community toilet units under the 'Ek Ped Maa Ke Naam' initiative. Officials will also undertake advocacy on the Solid Waste Management Rules, 2026, promote four-way waste segregation and administer the Swachhata Pledge. The Commissioner stressed sustained coordination among MCD officials, waste management concessionaires and citizens, directing officials to ensure ground-level implementation and regularly monitor progress.

Sharjeel Imam granted seven-day interim bail

OUR CORRESPONDENT
New Delhi, September 22

A Delhi court on Tuesday granted seven days' interim bail to student activist Sharjeel Imam to attend the weddings of his two cousins in Delhi and Bihar.

Additional Sessions Judge Sameer Bajpai allowed the plea, noting that it was Imam's second application for interim bail and was sought to attend his cousins' weddings.

The court granted bail from October 4 to 10 on a personal bond of Rs 50,000 with one surety of the same amount.

Imam's cousins, Danish Imam and Fahad Imam,

are scheduled to marry on October 4 in New Delhi and October 7 in Sasaram, Bihar.

Pre-wedding ceremonies are scheduled at the family residence in Kako, Jehanabad, from October 1 to 3.

Delhi Police opposed the plea, citing the seriousness of the allegations and previous rejection of his regular bail pleas.

The court directed Imam not to contact witnesses or persons connected with the case, use social media or interact with media persons. He must surrender before the jail superintendent on October 10.

Police bust sex racket at Paharganj spa; 4 nabbed, 8 women rescued

OUR CORRESPONDENT
New Delhi, September 22

Four people, including the owner and manager of a spa, were arrested and eight women were rescued after police busted an alleged sex racket operating from a spa in central Delhi's Paharganj, officials said on Tuesday.

The raid was conducted at the second and third floors of a property in Multani Dhand on Monday evening following a tip-off about an alleged illegal activity being run from the premises, they said.

The arrested accused have been identified as Vivek Kumar, 27, owner of spa; Dashrath Mandal, 36, the manager; Aman, 20; and Guddu Karmakar, 27, police said.

Acting on a tip-off, police formed a team and deployed a sub-inspector as a decoy customer to verify the information.

After the alleged illegal activity was confirmed, the police team raided the spa around 7 pm on Monday and rescued eight women from the premises, they said. The rescued women are aged between 22 and 34 and are from Delhi, Uttar Pradesh, Punjab, West Bengal and Nepal, police said.

Relevant evidence was taken into police possession during the raid, officials said.

Police said the accused disclosed their involvement in the illegal activity during interrogation. An FIR was registered under relevant sections of the Immoral Traffic (Prevention) Act, while further investigation is underway.

How and where Kishau project will come up across HP, U'khand

AIMAN FATIMA
New Delhi, September 22

The proposed Kishau Multipurpose Project, which is expected to strengthen water availability in the Upper Yamuna Basin and provide a water allocation to Delhi, will be developed across the Uttarakhand-Himachal Pradesh border, with the dam, reservoir, power infrastructure and rehabilitation works spread

across identified areas of the two states. The project is planned near Sambarkhera on the inter-state boundary, with the dam site on the Tons river, a tributary of the Yamuna. The site is around 45 km upstream of Dakpathar and 10 km upstream of Ichari Dam. A 232.6-metre-high concrete gravity dam is proposed to be constructed across the river.

The project will require a total land footprint of around 2,950 hectares. Of this, 2,438 hectares comprise forest and government land and 512 hectares are private land. Uttarakhand will account for 1,452 hectares, including 1,117 hectares of forest/government land and 335 hectares of private land. Himachal Pradesh will account for 1,498 hectares, comprising 1,321 hectares of forest/gov-

ernment land and 177 hectares of private land. The reservoir is planned to have a gross storage capacity of around 1,786-1,789 million cubic metres and live storage of 1,561.91 million cubic metres. The project will also include a 10.5-metre-diameter diversion tunnel, a six-bay spillway and a surface powerhouse on the left bank. The powerhouse will have four units of 105.5 MW

each, giving the project an installed capacity of 422 MW. It is expected to generate 1,457.22 million units of electricity annually. The physical footprint will also involve rehabilitation and resettlement in both states. According to the project details, 1,421 families comprising 9,284 people are likely to be affected. Uttarakhand accounts for 714 families and 5,478 people, while

Himachal Pradesh accounts for 707 families and 3,806 people. The project is proposed to be implemented through Kishau Corporation Ltd, a joint venture of the governments of Himachal Pradesh and Uttarakhand constituted in 2017. The DPR prepared by KCL is currently under appraisal by the Central Water Commission. For Delhi, the project is significant as the national

capital is among the six beneficiary states under the Upper Yamuna Basin framework. The project allocation provides Delhi with 94 million cubic metres of water benefits. The latest development came on September 15, when Rajasthan, Uttar Pradesh, Haryana, Himachal Pradesh, Uttarakhand and Delhi signed an MoU for the Kishau Multipurpose Dam Project in New Delhi.

The agreement was signed under the chairmanship of Union Home and Cooperation Minister Amit Shah, in the presence of Union Jal Shakti Minister C R Patil and the chief ministers of the six states. The agreement provides the inter-state framework for taking forward the project, which is intended to meet irrigation, drinking-water and other water requirements across the beneficiary states.

‘PINK FORCE’ PROPOSED FOR WOMEN’S SAFETY L-G Sandhu’s call: Make policing more visible...

SHIVANGI SHUKLA
New Delhi, September 22

Delhi Lieutenant Governor Sardar TS Sandhu on Tuesday called for more visible, responsive and citizen centric policing across the Capital, with the focus on whether police initiatives are producing measurable results on the ground and improving public confidence.

Addressing senior Delhi Police officials of ACsP rank and above at the PHQ Auditorium on Jai Singh Road, he said the objective should be simple – a safer Delhi and greater confidence of citizens in their police. The interaction, held in the presence of the Commissioner of Police, was Sandhu's second visit to Police Headquarters after June 24, 2026. He reviewed the changes following initiatives taken since his earlier visit, the public response to them and the gaps that still need to be addressed.

Sandhu emphasised the need for police stations to be places where citizens feel heard, helped and safe. He called for stronger links between police stations, beat officers and local communities, along with greater foot and motorcycle patrolling in vulnerable, crime prone and high foot fall areas, including those around schools, colleges, markets and transport hubs.

For Jan Sunwai grievances, he sought a digital tracking mechanism under which every complaint is acknowledged, tracked and acted upon within a defined timeline, while complaints related to other departments are promptly forwarded to the concerned agency. Women's safety

SAFER CAPITAL

- » Sandhu emphasised the need for police stations to be places where citizens feel heard, helped and safe
- » For Jan Sunwai grievances, he sought a digital tracking mechanism under which every complaint is acknowledged, tracked and acted upon within a defined timeline, while complaints related to other departments are promptly forwarded to the concerned agency
- » He also called for regular school programmes on POCSO, child safety, cybercrime, substance abuse and road safety, along with sports activities for children aged 5-15 to strengthen police community trust

was another key focus.

Sandhu called for continued action against eve teasing and harassment under Operation Shishtachar and proposed a Delhi Police “Pink Force”, modelled on Goa Police, comprising trained women personnel for deployment at schools, colleges, metro stations and other vulnerable hotspots.

He also called for regular school programmes on POCSO, child safety, cybercrime, substance abuse and road safety, along with sports activities for children aged 5-15 to strengthen police community trust.

The L-G sought sustained intelligence-led action against drug trafficking under the Nasha Mukh Bharat Abhiyaan, stronger

handling of cybercrime complaints and digital evidence, and closer monitoring of congestion points through CCTV and Traffic Control Rooms. On police welfare, he sought fixed-hour grievance hearings, timely promotions, particularly for lower ranks and women personnel, and development of police colonies as Model Zero-Waste Colonies. He also reiterated zero tolerance for corruption. Sandhu appreciated Delhi Police and other security agencies for the successful and secure conduct of the BRICS Summit, saying its operational lessons would help strengthen preparedness for future major international events in Delhi.

Labour welfare goes mobile with Namo vans

AIMAN FATIMA
New Delhi, September 22

Chief Minister Rekha Gupta on Tuesday flagged off four ‘Mobile Namo Shramik Seva Kendra Vans’ from the Delhi Secretariat under the government’s Seva Sankalp Abhiyan, aimed at taking labour-related registration and welfare services directly to workers.

The mobile centres will provide on-the-spot registration and renewal, assistance with documents, information on government schemes and access to digital services. The initiative is intended to reduce work-

ers’ visits to government offices and prevent loss of daily wages while accessing services.

“Workers are the foundation of Delhi’s development. Now, services will reach their doorstep instead of them having to visit offices,” Gupta said.

The government said the vans will visit labour chowks, construction sites and other locations where workers are employed. While four vans were flagged off on Tuesday, the initiative envisages one mobile van for each of Delhi’s 13 districts.

The mobile centres will

help new workers register and existing workers renew their registration, besides providing information on eligibility, application procedures and documents required for various welfare schemes.

Labour Minister Kapil Mishra said the initiative would help address gaps in registration and awareness among workers.

“No worker in Delhi will remain deprived of government schemes due to lack of information or registration,” Mishra said.

The government said the vans would function as multi-purpose service

centres, helping workers with registration, renewals and applications for welfare schemes near their workplaces. The initiative also includes attention to rest

areas and essential facilities for gig workers, with the government stating that the mobile outreach model will make labour services more accessible across Delhi.

Rs 25 crore projects unveiled in Najafgarh

OUR CORRESPONDENT
New Delhi, September 22

Chief Minister Rekha Gupta on Tuesday inaugurated several road and drainage infrastructure projects worth around Rs 25 crore in Najafgarh as part of the Delhi government’s Seva Sankalp Abhiyan.

The projects are aimed at improving roads and strengthening drainage infrastructure in the area, with the government saying the works would improve civic amenities for local residents. “From better roads and drains to stronger drainage infrastructure, these projects will strengthen civic amenities and make everyday life easier for the people of Najafgarh,” Gupta said while addressing a gathering.

The Chief Minister also said that 10 other projects, involving an expenditure of Rs 33 crore, are currently underway across seven unauthorised colonies in the area.

She said the government had also taken up projects that had remained

stalled under the previous government.

“Along with the projects we have inaugurated today, we have also taken up projects that had come to a halt under the previous government,” Gupta said. Public Works Department Minister Parvesh Sahib Singh said the government was also examining a proposal for an elevated road along the Najafgarh-Phirni Road to ease traffic congestion in the area. The development works come as part of the government’s ongoing Seva Sankalp Abhiyan, under which infrastructure and civic projects are being taken up across different parts of the city. The government said the works in Najafgarh are intended to improve basic infrastructure and address local requirements related to road connectivity and drainage.

BRINGS AUTOMATED CHECKS

IGL tightens checks on CNG cylinder hydro test certificates

SHIVANGI SHUKLA
New Delhi, September 22

Vehicles without a valid CNG cylinder hydro test certificate are being denied refuelling at Indraprastha Gas Limited (IGL) stations as part of a safety drive, with the company now introducing an automated system to identify such vehicles.

The technology enabled vehicle recognition and verification system has been initiated at 10 CNG stations and is aimed at strengthening checks on cylinder certification. Under the system, cameras capture the vehicle registration number, which is processed through an AI-based application.

The application establishes the vehicle’s CNG cylinder linkage and checks whether the cylinder is valid or expired through

the Petroleum and Explosives Safety Organisation (PESO) online portal. The compliance status is made available in real time, with alerts generated at the station through handheld devices, LED displays and the public announcement system.

IGL is conducting the safety drive across all its CNG stations, where station personnel are checking the validity of cylinders and verifying hydro test certificates before refuelling.

IGL officers are also making regular visits to

ensure that CNG is dispensed only to vehicles carrying valid hydro test certificates. The company said the automated system would reduce manual dependency, provide centralised visibility of compliance data and enable timely intervention to prevent refuelling of non-compliant CNG vehicles.

The system is proposed to be rolled out at all IGL CNG stations in due course. The initiative is also part of a broader digital safety ecosystem under which relevant CNG cylin-

der certification information could eventually be integrated with vehicle-related databases, subject to the applicable regulatory framework. As per Rule 35, sub-rule (I) of the Gas Cylinder (Amended) Rules, 2025, every CNG cylinder must undergo hydro-testing at a PESO approved cylinder testing centre once every three years.

IGL operates more than 30,000 km of pipeline network across Delhi, Noida, Greater Noida, Ghaziabad, Rewari, Faridabad, Gurugram, Karnal, Kaithal, Fatehpur, Ajmer, Pali, Rajasamand, Hamirpur, Shamli, Muzaffarnagar, Banda, Chitrakoot, Mahoba and parts of Kanpur and Meerut. It caters to over 2.1 million CNG vehicles through more than 1,000 CNG stations and has connected nearly 3.5 million households with PNG.

Demolition drive sweeps all 12 zones

OUR CORRESPONDENT
New Delhi, September 22

The Municipal Corporation of Delhi (MCD) carried out 42 demolition actions across all 12 zones on Tuesday as part of its ongoing enforcement drive against unauthorised constructions, dangerous buildings and violations of the Master Plan of Delhi (MPD) and building bye-laws.

Seven properties were sealed and three demolition orders were issued during the day’s enforcement exercise, according to the civic body. The action was aimed at ensuring compliance with building regulations and addressing violations that could pose risks to public safety. The MCD said demolition actions were carried out at several locations, including Sant Nagar, New Ashok Nagar, Laxmi Nagar, Telikara, Shahdara, Geeta Colony, Ram Nagar, Jayapur, Sonia Vihar and Dilshad Garden.

Delhi readies 81 ponds for Ganesh idol immersion

OUR CORRESPONDENT
New Delhi, September 22

The Delhi government has set up 110 special collection centres for the dignified disposal of old and damaged idols and religious material, while preparations have been completed for artificial immersion ponds at 81 locations across the city ahead of Ganesh immersion.

The initiative, led by Chief Minister Rekha Gupta, aims to facilitate religious practices while preventing the disposal of idols and puja material in public spaces and water bodies.

The government said the collection centres, including designated locations such as temples, will provide devotees with an organised alternative to leaving damaged idols and religious material under trees, in parks or along roadsides.

At the same time, artificial immersion ponds have been prepared across Delhi to provide devotees with designated sites for Ganesh idol immersion. Arrangements for security, sanitation, lighting, medical assistance, emergency response, traffic management and environmental

protection are being coordinated across all 13 revenue districts.

The government has also made arrangements for the removal of idol remains and other material after immersion and cleaning of the sites. Chief Minister Rekha Gupta appealed to devotees to use the designated artificial immersion sites instead of immersing idols in the Yamuna or other water bodies. She also urged people to opt for eco-friendly idols and avoid Plaster of Paris (PoP), harmful chemical colours and decorative materials that can damage water bodies.

The Chief Minister said, “The government’s priority is to ensure that religious faith and environmental protection complement each other.” She appealed to residents to deposit damaged idols and religious material only in designated collection containers and use the artificial immersion sites for Ganesh idols.

The government said the initiative seeks to create a balance between religious traditions, cleanliness and environmental protection, while ensuring that devotees have clean and organised facilities to observe their traditions.

Counterfeit rabies vaccine seized in city

OUR CORRESPONDENT
New Delhi, September 22

The Delhi Drugs Control (DDC) Department seized 481 units of counterfeit rabies vaccine from a firm in Bhagirath Palace and traced its supply to an agency in Kanpur, as authorities began probing the source and distribution chain, according to a statement.

The seized vaccine, Purified Vero Cell Rabies Vaccine (Abhayrab), was found during searches at three premises of the Bhagirath Palace firm, including its sale premises and godown, it said. The original manufacturer, Human Biologicals Institute, Telangana, has confirmed that the batch was counterfeit and had not been released by the company, according to the DDC department.

MCD begins drone survey for property tax

OUR CORRESPONDENT
New Delhi, September 22

The Municipal Corporation of Delhi (MCD) has started a pilot drone-based survey of properties in two wards to improve property tax assessment and identify unassessed and under-assessed properties, officials said on Tuesday.

The aerial survey is being carried out in Rohini F Ward of Rohini Zone and Gharoli Ward of Shahdara South Zone as part of the first phase of the exercise, according to the official statement.

The Municipal Corporation of Delhi plans to use drone imagery along with GIS, LiDAR-based mapping, geo-tagging, artificial intelligence and 3D digital modelling to create a more accurate property database.

LCA MK-1A NEARS INDUCTION

Global wars rewrite IAF playbook

SIMONTINI BHATTACHARJEE
New Delhi, September 22

About new technologies like drones, cyber and space warfare, as well as networked warfare, the Indian Air Force is reassessing its planning and operations on the basis of lessons being drawn from the current conflicts all over the world, including the upcoming induction of the indigenous LCA Mk-1A.

The vice chief of air staff Air Marshal Ashutosh Dixit revealed that the Indian Air Force was closely monitoring the dynamics of warfare, taking the lessons from the battlefields and

integrating them into its exercises and planning.

“We are looking very, very carefully at all the conflicts that are happening around the globe. Tremendous lessons are being drawn, and they are slowly getting embedded into our operational exercises, and

maybe the kind of force we are developing,” Air Marshal Dixit said.

The assessment is timely in the light of modern warfare, highlighting the increasing significance of combining airpower with reconnaissance, unmanned aerial vehicles

(UAV), electronic warfare, cyber warfare, space-based information, and live intelligence.

“The vice chief of the Air Staff added that the exercise would be concentrating on developing a common and shared picture among the participants. The Red team and Blue teams would simulate various operational scenarios.” Both the Red and Blue teams have been provided with general guidelines for the exercise.

“We have provided them a big canvas. They can play out different scenarios,” he said, while adding that ideally all “possible scenarios”

should be played out.

The need to learn from ongoing conflicts comes against the backdrop of IAF efforts at enhancing its ecosystem of indigenously developed combat aircraft.

Speaking about LCA Mk-1A, Dixit informed that the engines are available and the testing is in progress, and there are “two or three points” left to prove.

The technical challenges, even those associated with radar and integration, will be sorted out in “a month or two”, after which the path would be clear for induction. “We are also eagerly waiting for induction of LCA Mk-1A,” he added.

‘True star spreads light, not darkness’: President Murmu

Urges actors against endorsing harmful health products

OUR CORRESPONDENT

Ekta Nagar, September 22

President Droupadi Murmu on Tuesday urged popular film artists not to endorse products harmful to people’s health, saying a “true star” spreads light, not darkness, highlighting the impact of words and actions of celebrities on young minds.

Murmu distributed the 72nd National Film Awards for 2024 in various categories of cinema at Ekta Nagar (Kevadia), near the Statue of Unity, in a glittering ceremony attended by top talents of the film industry.

“When successful artists speak about the benefits of

a disciplined lifestyle, millions of children and young people emulate them. I urge popular artists not to endorse products that are harmful to people’s health. A true star is the one who spreads light, not darkness,” Murmu said.

The President also called

for greater participation of women on juries selecting films for the National Film Awards.

“I would like to see women’s participation ensured in every regional jury,” she said, noting that many women had received awards at the ceremony.

From page 1

Trump

mind” when it comes to Iran. “I’m not running. I did that already and won in a landslide, and I’ll be here for two-and-a-half years,” Trump said.

Most of Iran’s delegation walked out of the General Assembly chamber as Trump defended the US military campaign. He said American and Israeli strikes had killed much of Iran’s top leadership and destroyed its air force and navy, while a US blockade of Iranian oil had left Tehran’s economy in severe difficulty.

Trump accused Iran of expanding its missile and drone capabilities and said the country had previously been the “bully of the Middle East”. He also described Tehran as the world’s leading sponsor of terrorism. Iran has consistently denied seeking nuclear weapons and has accused the US of aggression and unjust pressure.

Trump called on countries to maintain pressure on Tehran and thanked the UN Security Council for condemning Iranian attacks on commercial shipping. He said the US Navy had escorted more than 1 billion barrels of oil through the Strait of Hormuz, adding that oil flows through the crucial waterway were at their highest level since the war began.

The conflict has also affected energy markets, with oil prices remaining elevated. Trump said the increase would be temporary and that prices would fall sharply once the war ended.

He also rejected reports that the conflict had reduced US stocks of munitions and missile-defence interceptors. “We have more munitions than we could ever possibly even think of using,” he said, adding that the US was increasing weapons production and building new plants. Secretary of State Marco Rubio said Trump was open to meeting Iranian President Masoud Pezeshkian in New York, saying the president believed engagement was important to resolving problems.

Vande Mataram

character of the Constitution. The amended law allows for up to three years in prison, a fine, or both, for anyone who intentionally stops the National Anthem or National Song from being sung, or who disrupts a gathering where either is being performed. Krishna’s petition says pairing this penal clause with the MHA’s directions effectively compels people to render all six stanzas, since the orders name the six-stanza text as the “official version” and require the National Song to be played before the National Anthem whenever both appear together.

While hearing the matter, the bench made clear it would not decide what India’s National Song ought to be or how many stanzas it should contain, calling that a question for the elected government to settle. “It is for the democratic state to decide what is the National Song, whether two stanzas or four stanzas,” Justice Bagchi said.

He added that the court’s focus would instead stay on whether the criminal provision could infringe the rights of a “conscientious objector.”

Invoking the Supreme Court’s 1986 ruling in Bijoe Emmanuel v. State of Kerala, in which the court had protected three schoolchildren expelled for declining to sing the National Anthem on religious grounds, the bench said the same principle should extend to Vande Mataram. “We would expect that the law of the land, as declared by this court in Bijoe Emmanuel, will govern the Act,” Justice Bagchi observed, adding that a person declining to sing “one or all stanzas” on grounds of conscience would not be subjected to penal consequences.

Senior Advocate S Muralidhar, appearing for Krishna, told the court that the amendment never actually defines the term “National Song,” which he said leaves room for confusion and possible misuse. He also pointed out that the MHA’s directive was issued as an office memorandum that was never formally gazetted. When Justice Bagchi remarked that Vande Mataram has customarily been understood as the National Song, Muralidhar responded that the understanding had always been limited to its first two stanzas, an arrangement he said the government has now overturned without any real public debate.

The exchange between counsel turned heated when Solicitor General Tushar Mehta, appearing for the Centre, dismissed the petition’s framing by saying “secularism cannot be this narrow” and remarked that “law making cannot be as per Naxalites idea.” Muralidhar objected sharply and demanded a retraction, calling the comment unbefitting of a law officer. Mehta refused to withdraw it even after the hearing concluded. “I can repeat what I said. One has to go by law. I am not sorry about what I said. I said that is the constitutional way, not what the Naxalite wants. And I am not sorry about it,” he said. Muralidhar accused him of “playing to the gallery,” though the bench chose not to intervene, saying only that it was not taking note of the remarks.

Trai directs

bundled plans, increasing their expenses and limiting their choices. The regulator said the revised framework would give low-income consumers more flexibility to select recharges based on their needs and financial capacity. STVs are additional prepaid vouchers that provide benefits such as discounted international calls or unlimited calling under an existing plan.

The rules also require operators to offer at least one voice and SMS-only STV with a validity of more than 30 days corresponding to the validity of a bundled voice, SMS and data STV. For monthly vouchers, the validity must fall on the same date each month or the last day of the month. The regulations will take effect 30 days after notification in the official gazette.

Gang-rape

They allegedly told the teenagers that they were doing some-

thing wrong and could face legal action. The men allegedly separated the girl from her friend and took her towards a secluded portion of the park. Asif allegedly threatened her with a firearm and knife and sexually assaulted her, after which the other two allegedly assaulted her as well. Police said the male friend was also allegedly beaten and held by the accused.

An FIR was registered at Amar Colony police station under Sections 70(2), 61(2), 115(2) and 351(3) of the Bharatiya Nyaya Sanhita, besides Sections 6 and 17 of the POCSO Act.

According to the sources, the accused knew each other as they lived and worked in the vicinity of the park and also, frequently met there. Asif, who lives in Amar Colony, used to work as an onion wholesaler at the Okhla Mandi, the sources said.

During the investigation, a police team led by Special Staff Inspector Rajender Dagar traced Asif near DM Office Road in Amar Colony. Police said Asif fired three rounds when officers tried to intercept him. One bullet hit the bulletproof jacket of Head Constable Rajesh, who fired two rounds in self-defence. One bullet struck Asif’s right leg. He was taken to the AIIMS Trauma Centre for treatment.

Hemant, a lawyer, and his brother Mukesh, a final-year BSc Mathematics student, were subsequently arrested. Both are from Faridabad and live in Sri Niwaspuri. Their father, advocate J R Dhankar, alleged that police took his sons from their home around 7 am and claimed they had been beaten. He denied any connection between them and the girl and alleged that they had been framed. Police are questioning the three accused.

Police are also checking whether the men could be linked to any other similar incidents in the park, although no other complaint has been received so far. Officials said parts of the park’s boundary wall have collapsed, some gates are unmanned and certain areas are poorly lit. The investigation is continuing.

Delhi SIR

The court was hearing a PIL by Anjali Bhardwaj and Amrita Johri seeking disclosure of voters served notices, the reasons for them and the criteria, algorithmic parameters and guidelines used for classification.

Senior advocate Prashant Bhushan, for the petitioners, said notices had been issued to 33 lakh voters and alleged that many were based on flimsy grounds. He said voters were required to produce one of 12 prescribed documents to address discrepancies.

Representing the EC, senior advocate D S Naidu said around 14,000-15,000 Booth Level Officers (BLOs) and 1,200 Electoral Registration Officers (EROs) were deployed. He said the October 29 deadline for claims and objections could be extended if required and assured the court that “not a single genuine voter would be deleted”.

BLOs in parts of New Delhi district have begun house-to-house visits to collect documents from those issued notices

over “discrepancies” in electoral records, saving them the hassle of travelling to the election office. The BLOs are delivering notices, explaining what documents are required and, in some cases, collecting the papers from voters and submitting them to the concerned election office themselves. The EC said over 47 lakh names were removed from the draft rolls published on August 31, from a total electorate of 1.45 crore. It attributed the deletions to migration or absence, deaths and multiple enrolments.

India joins

General Assembly session. The initiative was also backed by Australian Prime Minister Anthony Albanese, Brazilian Foreign Minister Mauro Vieira, Barbados Prime Minister Mia Mottley, Canadian Prime Minister Mark Carney and Kenyan President William Ruto.

Jaishankar said India was joining the initiative as a co-sponsor at a time when the global order was “under stress”, citing extreme competition, geopolitical tensions and conflicts. “Reformed multilateralism is therefore essential. More participative deliberations and more transparent decision-making are both overdue,” he said.

He called for joint action on international security, climate justice, emerging technologies, development finance, resilient supply chains, pandemics and terrorism. He also said the fallout of conflicts on fuel, food, fertilisers and finance needed to be addressed alongside wider peace efforts.

“Where new capabilities and concerns arise, there is a very powerful case for frameworks and guardrails,” Jaishankar said, adding that de-risking and diversification should be encouraged where there were risks of “chokepoints, dominance and disruption”. He also said multilateralism would be strengthened when international law, rules and norms were observed.

The P4M initiative was first outlined in a joint article by Costa, Carney, Ruto and Brazilian President Luiz Inacio Lula da Silva, who proposed reforms to make multilateral institutions more representative, effective and trusted rather than create “another exclusive bloc”.

The seven participating countries have tasked senior officials with setting up a coordination channel and identifying priority areas for joint work, while inviting other nations to join.

Separately, Jaishankar held bilateral meetings with foreign ministers from France, Ukraine, Moldova, Switzerland, Ecuador, Slovakia and Hungary. Discussions covered the Ukraine and Gulf crises, UN Security Council reform, bilateral economic ties and multilateral cooperation. With Ukraine’s Andrii Sybaha, he discussed the Black Sea, freedom of navigation, peace efforts and preparations for the next bilateral intergovernmental commission.

Jaishankar is scheduled to address the UN General Debate on September 26.

Acropolis Mall

According to the FIR, the woman, her husband and their friends were allegedly targeted by the youths sitting near them. She alleged that the accused made obscene gestures and sexually explicit and indecent remarks. When they protested, the situation allegedly escalated into violence.

The six were booked under Sections 126(2) (wrongful restraint), 115(2) (voluntarily causing hurt), 3(5) (acts done by several persons in furtherance of common intention), 79 (word, gesture or act intended to insult the modesty of a woman), 74 (assault or use of criminal force against a woman with intent to outrage her modesty) and 351(2) (criminal intimidation). Section 74 is cognisable and non-bailable, while the other provisions are bailable.

Police said the FIR was registered on the basis of allegations made in the woman’s written complaint. Kolkata Police said on Tuesday that the six accused had been directed to report to the police station twice a day for 15 days – between 6 am and 8 am and between 9 pm and 11 pm. For the following 15 days, they will have to report once a day.

Meanwhile, the Mamata All India Trinamool Congress (MAITC) condemned the incident and criticised the BJP-ruled administration for allegedly failing to keep its “Bhoy Out, Bhorsa In” promise. In a social media statement, MAITC said: “Law and order appears to be taking a backseat while the CM, who made tall promises before the elections, seems more focused on co-curricular activities than governance.”

It also alleged that the bail granted to those accused of abusing, assaulting and heckling women showed that “even movie theatres no longer feel safe in Bengal under BJP4Bengal’s misrule”.

Airfares

He was responding to a question if government would impose a cap on airfares during the forthcoming festive season. He further said that the ongoing West Asia crisis has driven the ATF prices forward.

Fuel accounts for a massive portion of an airline’s operating expense structure. “This is not necessarily because of the festive season or anything, but there is an ongoing crisis situation,” he said. Naidu said ATF makes up 40 to 43 per cent of airfares and even a small rise in fuel costs directly pushes up ticket prices.

Parliament

period) on August 13. Usually the session is prorogued (formal end) within the next three to four days. But this time, the prorogation notification has not been issued till Tuesday morning. The Budget Session ended on April 18 and was prorogued on April 20. As per constitutional provisions, the president convenes and prorogues the session on the recommendation of the government. The Winter Session usually begins in the last week of November and ends ahead of Christmas Day.

RS polls

compared with about 103 for the SP-Congress combine. A candidate requires around 37 votes to win a seat.

The BJP can comfortably secure seven seats, while the SP-Congress combine can win two. For the 10th seat, the BJP-led alliance is expected to begin with around 31 votes against about 29 for the opposition bloc, giving it an advantage. The contest could also leave Mayawati’s Bahujan Samaj Party without representation in Parliament. Its lone Rajya Sabha member, Ramji Gautam, retires in November. The BSP has no Lok Sabha member and lost its only Uttar Pradesh MLA, Uma Shankar Singh, after his death in August. Gautam entered the Rajya Sabha in 2020 after the BJP fielded only eight candidates for 10 seats, allowing the BSP and SP to each elect one member unopposed. His election followed the rejection of an SP-backed Independent’s nomination, after which the SP alleged an understanding between the BJP and BSP.

Among the other Uttar Pradesh members whose terms end are Union Minister Hardeep Singh Puri, BJP leaders Arun Singh, Geeta Shakya, Neeraj Shekhar, Brijlal, B L Verma and Seema Dwivedi, and SP leader Ram Gopal Yadav. Puri’s continuation in the Union Cabinet will depend on whether the BJP nominates him again.

The 10th seat, earlier held by former deputy chief minister Dinesh Sharma, became vacant after his resignation following his appointment as Lieutenant Governor of the Andaman and Nicobar Islands. In West Bengal, the BJP is expected to win the lone vacant seat, increasing its Rajya Sabha strength by one. The seat fell vacant after actor Rukmini Mallick, popularly known as Koel, resigned. In Uttarakhand, BJP member Naresh Bansal is retiring. With the BJP holding a comfortable Assembly majority, the party is expected to retain the seat.

The election notification will be issued on September 29. Nominations can be filed until October 6, while polling and counting will take place on October 16, if required.

Asian Games

The men’s badminton team, silver-medallists at the last Games, also secured at least a bronze after overcoming Japan 3-0. Lakshya Sen, Satwiksairaj Rankireddy and Chirag Shetty, and Ayush Shetty all won their matches to complete a clean sweep. Lakshya produced the biggest fightback of the tie. The 25-year-old from Almora lost the opening game against world No. 7 Kodai Naraoka and then trailed 14-19 in the deciding game. He recovered to defeat the two-time world championships silver-medallist 11-21, 21-5, 21-19 and put India ahead.

Satwik and Chirag extended the lead with a 21-18, 24-22 victory over former world champions Hoki Takuro and Kobayashi Yugo. Ayush then sealed the tie by beating world No. 16 Koki Watanabe 21-10, 21-19.

The victory came a day after the Indian women’s badminton

team was eliminated by Japan 3-1 in the quarterfinals. PV Sindhu, a two-time Olympic medallist, lost to world No. 3 Akane Yamaguchi 23-21, 18-21, 6-21 after winning the opening game. Unnati Hooda then went down 16-21, 18-21 to world No. 7 Tomoka Miyazaki.

Treesa Jolly and Gayatri Gopichand kept India in contention with a 21-17, 21-16 win over Yuki Fukushima and Mayu Matsumoto. However, Tanvi Sharma lost 12-21, 10-21 to former world champion Nozomi Okuhara as Japan completed the 3-1 win.

In wushu, Roshibina Devi Naorem assured India of a medal by reaching the women’s 60kg semifinals. She defeated Maccu’s Chu Man Sin in the quarterfinals at the Aichi Prefectural Martial Arts Hall, winning on point difference. Roshibina had previously won a silver and a bronze at the last two editions.

23 IITs

Of the 28 deaths, 12 involved OBC students, nine SC students and seven ST students. Sixteen students belonged to the General category, while one was from the Economically Weaker Sections (EWS) category.

The number of reported suicides increased sharply in 2023-24, when 16 deaths were recorded, compared with six in the previous year. The IITs reported another 13 suicides in 2024-25. IIT-Hyderabad recorded the highest number of suicides during the five-year period, with seven deaths. IIT-Kharagpur, IIT-Delhi and IIT-Kanpur reported six each, followed by IIT-Madras with five and IIT (BHU)-Varanasi with four. In 2024-25, four of the 13 students who died by suicide were from the OBC community, while three were from ST and two from SC communities. The remaining four belonged to the General category. The official compilation also separately lists eight unnatural deaths during the five years. These cases are not included in the total of 45 suicides. The data does not provide a course-wise breakdown of the students who died or details of the circumstances surrounding the deaths. As a result, the figures alone do not establish the reasons behind the suicides.

20 rebel MPs

for their replies. The Secretariat had on August 26 asked the MPs to respond to a petition by Abhishek Banerjee seeking their disqualification from the Lok Sabha. The MPs had initially sought three weeks to submit their replies, which was granted. “Now we need some more time as 20 MPs are yet to collate all the documents. So we have sought four more weeks,” Ghosh Dastidar said.

The request comes amid continued uncertainty over the political alignment of the 20 MPs. Rebel MP Jagadish Chandra Barma Basunia recently claimed that 17 of the 20 NCPI MPs would join the BJP before or after Durga Puja. The claim was disputed by fellow dissident MPs, while the BJP also distanced itself from it.

TMC leader Kunal Ghosh criticised the rebels for seeking additional time, questioning why they needed so long to respond to the notices.

PURPOSE OF SHIVIR TO ASSESS GOVERNMENT PERFORMANCE TILL NOW

PM's Chintan Shivir to set course for next phase of third term

SIMONTINI BHATTACHARJEE
New Delhi, September 22

The sources from the government confirmed that Prime Minister Narendra Modi will be conducting a two-day Chintan Shivir of the Council of Ministers, which will be held from Wednesday, September 23 and 24 at Seva Teerth, here in New Delhi.

The purpose of the Shivir will be to assess the performance of the government till now and then discuss the plans of reforms, ideas, and priorities towards the Viksit Bharat@2047 vision.

Viksit Bharat@2047 is a vision of the Modi government to develop the country as a developed nation by 2047, which will be the centenary of the country's independence.

The vision aims at

PM Narendra Modi with Cabinet ministers inside Parliament complex MPOST

the development of the nation in all sectors like economic growth, social

development, infrastructure, technology, governance, and human capital,

to enhance the quality of life of citizens. The process of making this road-

CLOSER LOOK

- » Viksit Bharat@2047 is a vision of the Modi government to develop the country as a developed nation by 2047
- » The vision aims at the development of the nation in all sectors like economic growth, social development, infrastructure, technology, governance, and human capital

map was started back in 2021 through the constitution of 10 sectoral groups of secretaries for preparing the Vision@2047 and strategies.

This is taking place as the Modi government enters the next stage of its third tenure and is likely to give a platform to the ministers to deliberate on important initiatives and how these could be implemented.

According to the government officials, the ses-

sion is going to deliberate on governance, ease of living, reducing compliances and other reforms that are needed for making the government more efficient. The inputs received from Groups of Secretaries, ministries and departments, Cabinet Secretariat and NITI Aayog would be discussed.

Viksit Bharat campaign was launched in 2021 when the ten Sectoral Groups of Secretaries were formed for preparing Vision@2047

and formulating a roadmap for the same. Consultations were also made with stakeholders in various sectors.

Since then, there have been eight such presentations and discussions on various facets of the Viksit Bharat@2047 vision by the Council of Ministers.

The next Chintan Shivir will take forward the efforts made in this regard, with the scope of discussion having been broadened now to also include reviewing and improving upon implementation of the vision, along with priority areas for the next phase.

The two-day event is most likely to adopt a thematic approach, with ministers being split up into groups to discuss matters relating to governance, communication, coordination and efficiency of

the government. The presentations made by the groups would be the basis of interaction between the ministers.

On Wednesday last week, at the meeting of the Union Cabinet, Modi had asked for the creation of more than a half dozen groups, each of around eight ministers, to deliberate upon the matters of governance, communication and self-improvement.

This is akin to the Chintan Shivir that was held on October 21, 2021, in the second term of the Modi-led government, just after the major reshuffle of the cabinet.

The discussions would focus on governance and policy-making, and the senior ministers would present papers on different aspects of governance.

NATIONAL HERALD CASE

Sonia, Rahul term ED's plea in HC 'abuse of process of law'

OUR CORRESPONDENT
New Delhi, September 22

Congress leaders Sonia Gandhi and Rahul Gandhi have termed as "abuse of the process of law" a plea filed in the Delhi High Court by the Enforcement Directorate challenging a trial court order refusing to take cognisance of its chargesheet against them in the National Herald-linked money laundering case.

In their response, the Gandhis have opposed the ED's revision petition saying it is "not maintainable" as the trial court's order is "perfectly legal and sound in law and does not suffer from any jurisdictional error, perversity, irregularity or illegality".

On Tuesday, Justice Sachin Datta was informed by the Gandhis' counsel that they have filed the replies on September 18. The court listed the matter for further hearing on October 12.

"The petitioner (ED) has miserably failed to

ON DECEMBER 16, 2025, THE TRIAL COURT HAD HELD THAT COGNISANCE OF THE AGENCY'S COMPLAINT IN THE CASE WAS "IMPERMISSIBLE IN LAW" AS IT WAS NOT FOUNDED ON AN FIR

demonstrate that the complaint filed by the ED was maintainable on the basis of the statutory provisions, applicable to the case. It is writ large that the words 'private complaint' or 'a complaint by a public person/citizen', do not find any place in the entire statutory framework," the replies, filed through advocates Sushil Bajaj, Taranum Cheema and Kanishka Singh, said.

On December 16, 2025, the trial court had held that cognisance of the agency's complaint in the case was "impermissible in law" as it was not founded on an FIR.

Supreme Court rejects plea challenging provisions of SC/ST Act

'Enough safeguards in place'

OUR CORRESPONDENT
New Delhi, September 22

The Supreme Court on Tuesday refused to entertain a PIL challenging the constitutional validity of the 2018 amendment to the Scheduled Castes and Scheduled Tribes (Prevention of Atrocities) Act, which restored restrictions on anticipatory bail.

The amended law had also removed the requirement of a preliminary inquiry before registration of an FIR and prior approval before arrest.

A bench comprising Chief Justice Surya Kant and justices Joyimalya Bagchi and V Mohana rejected the petition filed by Brijbhushan Saini, saying that the amended provisions had already been upheld by the top court in 2020.

It also declined the submission of lawyer Vishnu Shankar Jain, appearing for Saini, that the 2020 verdict be reconsidered and said that adequate safeguards

had already been laid down against possible misuse of the provisions.

Jain said that the statutory bar on anticipatory bail under the SC/ST Act amounted to "reverse discrimination" and contended that the provisions were susceptible to misuse.

The lawyer also referred to the low conviction rate in cases registered under the Act and questioned the manner in which compensation was being distributed under the statutory scheme.

Referring to a speech by a Rajya Sabha member, he alleged that Rs 493 crore had been distributed as compensation and said that such a mechanism could encourage the filing of FIRs.

He further said that Parliament, through the 2018 amendment, could not simply "validate" provisions that had earlier been diluted by the Supreme Court without curing the defects identified in the Court's 2018 judgment.

Dear Doctor,
Please start the treatment right away...
And don't worry about the cost

Because now we have the assurance of Ayushman Bharat.

- Free treatment of up to ₹5 lakh for 60+ crore poor & vulnerable people
- Ayushman Bharat also benefits 6 crore senior citizens aged 70+
- Direct savings of ₹2 lakh crore for beneficiaries
- 13+ crore hospital admissions

Treatment facilities in more than 38,000 hospitals across the country

60+ tests and 150+ medicines are free at 1.86 lakh Ayushman Arogya Mandirs

Beneficiaries can also avail treatment outside their state, anywhere in the country

100% coverage for serious illnesses such as cancer, heart disease and organ transplants

8 years of Ayushman Bharat, Free treatment, healthy family

Check your eligibility now Ayushman App | beneficiary.nha.gov.in Toll-Free 14555

THIS IS A PUBLIC ANNOUNCEMENT FOR INFORMATION PURPOSES ONLY. THIS IS NOT A PROSPECTUS ANNOUNCEMENT AND DOES NOT CONSTITUTE AN INVITATION OR OFFER TO ACQUIRE, PURCHASE OR SUBSCRIBE TO SECURITIES. NOT FOR RELEASE, PUBLICATION OR DISTRIBUTION, DIRECTLY OR INDIRECTLY, OUTSIDE INDIA. THE EQUITY SHARES OF THE COMPANY WILL GET LISTED ON MAIN BOARD PLATFORM OF BSE LIMITED ("BSE") AND NATIONAL STOCK EXCHANGE OF INDIA LIMITED ("NSE, AND TOGETHER WITH BSE, THE "STOCK EXCHANGES") IN COMPLIANCE WITH CHAPTER II OF THE SECURITIES AND EXCHANGE BOARD OF INDIA (ISSUE OF CAPITAL AND DISCLOSURE REQUIREMENTS) REGULATIONS, 2018, AS AMENDED ("SEBI ICDR REGULATIONS")

ARMEE INFOTECH LIMITED

(TO BE LISTED ON THE MAIN BOARD OF BSE AND NSE)

Our Company was originally incorporated as "Blossom Infraspace Private Limited" a private limited company under the Companies Act, 1956 through a certificate of incorporation dated February 8, 2011, issued by the Registrar of Companies, Gujarat at Dadra and Nagar Haveli. On March 1, 2017, our Company was admitted into a partnership, namely, M/s Armee Infotech (the "Partnership Firm"). Subsequently, through a deed of dissolution dated April 1, 2017, the Partnership Firm was dissolved, and the business of M/s Armee Infotech was transferred to our Company. Pursuant to a resolution passed by our Board at its meeting held on March 31, 2017 and the special resolution passed by our Shareholders at their meeting held on April 8, 2017, the name of our Company was changed to "ArMee Infotech Private Limited" to resonate with the nature of business, and a fresh certificate of incorporation consequent upon change of name was issued by the Registrar of Companies, Gujarat at Ahmedabad ("RoC") on April 21, 2017. Upon conversion of our Company into a public limited company, pursuant to the approval accorded by our Shareholders at their extra-ordinary general meeting held on February 20, 2024, the name of our Company was changed to "ArMee Infotech Limited" and a fresh certificate of incorporation consequent upon change of name upon conversion to public limited company was issued to our Company by the RoC on April 24, 2024. For further details, relating to the changes in name and the Registered Office of our Company, please see the section titled "History and Certain Corporate Matters" on page 255.

Registered and Corporate Office: ArMee House, 17, Goyal Intercity, Row House Thaltej, Thaltej Road, Ahmedabad, Gujarat – 380054, India; Contact Person: Purnima Jain, Company Secretary and Compliance Officer; Telephone: +91 79 4911 4911; E-mail: cs@armeeinfotech.com; Website: www.armeeinfotech.com; Corporate Identity Number: U72100GJ2011PLC063953

OUR PROMOTERS: AMI RIDHISH PATEL, KIRITKUMAR CHIMANBHAI PATEL AND RIDHISH KIRITBHAI PATEL

INITIAL PUBLIC OFFERING OF UP TO [●] EQUITY SHARES OF FACE VALUE OF ₹ 10 EACH ("EQUITY SHARES") OF ARMEE INFOTECH LIMITED ("OUR COMPANY" OR THE "ISSUER") FOR CASH AT A PRICE OF ₹ [●] PER EQUITY SHARE ("ISSUE PRICE") (INCLUDING A PREMIUM OF ₹ [●] PER EQUITY SHARE) AGGREGATING UP TO ₹ 30,000 LAKHS (THE "ISSUE"). THE ISSUE COMPRISES OF A FRESH ISSUE OF UP TO [●] EQUITY SHARES OF FACE VALUE OF ₹ 10 EACH AGGREGATING UP TO ₹ 30,000 LAKHS BY OUR COMPANY (THE "FRESH ISSUE"). THE ISSUE SHALL CONSTITUTE [●]% OF OUR POST-ISSUE PAID-UP EQUITY SHARE CAPITAL OF OUR COMPANY.

PRICE BAND: ₹ 350 TO ₹ 375 PER EQUITY SHARE OF FACE VALUE OF ₹ 10 EACH. THE FLOOR PRICE IS 35 TIMES OF THE FACE VALUE OF THE EQUITY SHARES AND THE CAP PRICE IS 37.5 TIMES OF THE FACE VALUE OF THE EQUITY SHARES. BIDS CAN BE MADE FOR A MINIMUM QUANTITY OF 40 EQUITY SHARES OF FACE VALUE OF ₹ 10 EACH AND IN MULTIPLES OF 40 EQUITY SHARES OF FACE VALUE OF ₹ 10 EACH THEREAFTER.

THE PRICE TO EARNINGS RATIO ("P/E"), BASED ON DILUTED EPS FOR FINANCIAL YEAR ENDED 2026 FOR OUR COMPANY AT THE LOWER END OF PRICE BAND IS 18.27 TIMES AND AT THE UPPER END OF PRICE BAND IS 19.57 TIMES AS COMPARED TO THE AVERAGE INDUSTRY PEER GROUP P/E RATIO OF 70.63 TIMES FOR FISCAL 2026. WEIGHTED AVERAGE RETURN ON NET WORTH FOR LAST THREE FINANCIAL YEARS IS 31.42%.

The details of the fresh issue and post-issue market capitalization of our Company, each at the Floor Price and Cap Price, are given below:

Total Issue Size	85,71,428	30,000.00	80,00,000	30,000.00
Post-Issue Market Capitalization of our Company	3,23,02,814	1,13,059.85	3,17,31,386	1,18,992.69

BID / ISSUE PROGRAMME

BID / OFFER OPENS TODAY

BID/ISSUE CLOSING ON : FRIDAY, SEPTEMBER, 25, 2026 ^

^ The UPI mandate end time and date shall be at 5:00 p.m. on the Bid/Issue Closing Date.

We are an IT infrastructure and IT managed services Company, which has ventured into the retail sales space through Experience Zones engaged in the sale of IT, consumer electronics, and gaming and merchandise products, and engaged in the Renewable Energy Space, including engineering, procurement and construction ("EPC") of solar power projects and development of solar power projects under power purchase agreements ("PPAs") and Battery Energy Storage System ("BESS"). We are headquartered in Ahmedabad, Gujarat. We service both Government/public sector undertakings (PSUs) and private sector clients including wherein the end users are Government / PSUs which operate across a wide variety of industries.

THE ISSUE IS BEING MADE THROUGH THE BOOK BUILDING PROCESS IN ACCORDANCE WITH REGULATION 6(1) OF THE SEBI ICDR REGULATIONS. THE EQUITY SHARES OF OUR COMPANY WILL GET LISTED ON THE MAIN BOARD OF BSE LIMITED AND NATIONAL STOCK EXCHANGE OF INDIA LIMITED. BSE LIMITED SHALL BE THE DESIGNATED STOCK EXCHANGE. QIB PORTION: NOT MORE THAN 25% OF THE ISSUE |NON-INSTITUTIONAL PORTION: NOT LESS THAN 22.50% OF THE ISSUE |RETAIL PORTION: NOT LESS THAN 52.50% OF THE ISSUE

IN MAKING INVESTMENT DECISION, POTENTIAL INVESTORS MUST ONLY RELY ON THE INFORMATION INCLUDED IN THE RED HERRING PROSPECTUS ("RHP") AND THE TERMS OF THE ISSUE, INCLUDING THE RISKS INVOLVED AND NOT RELY ON ANY OTHER EXTERNAL SOURCES OF INFORMATION ABOUT THE ISSUE AVAILABLE IN ANY MANNER. IN RELATION TO PRICE BAND, POTENTIAL INVESTORS SHOULD ONLY REFER TO THIS PRICE BAND ADVERTISEMENT FOR THE ISSUE AND SHOULD NOT RELY ON ANY MEDIA ARTICLES/REPORTS IN RELATION TO THE VALUATION OF THE COMPANY AS THESE ARE NOT ENDORSED, PUBLISHED OR CONFIRMED BY EITHER THE COMPANY OR THE BOOK RUNNING LEAD MANAGERS TO THE ISSUE ("BRLMs").

In accordance with the recommendation of committee of Independent Directors of our Company, pursuant to their resolution dated September 17, 2026 the above provided price band is justified based on quantitative factors/key performance indicators ("KPIs") disclosed in the "Basis for Issue Price" on page 113 of the RHP vis-à-vis the weighted average cost of acquisition ("WACA") of primary and secondary transaction(s), as applicable, disclosed in the "Basis for Issue Price" on page 119 of the RHP and provided below in the advertisement.

RISK TO INVESTORS

For details refer to the section titled "Risk Factors" on page 16 of the RHP

1. **Geographical Concentration Risk:** For Fiscal 2026, Fiscal 2025 and Fiscal 2024, 86.48%, 73.75% and 86.52% of our revenue from operations was generated from projects executed in the states of Gujarat, Maharashtra and Tamil Nadu. The revenue from operations generated during the Fiscal 2026, Fiscal 2025, and Fiscal 2024, from Gujarat, Maharashtra and Tamil Nadu is set out below:

(In ₹ lakhs, except for percentages)

State / Union Territory	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Revenue from Operation	% of Revenue from Operation	Revenue from Operation	% of Revenue from Operation	Revenue from Operation	% of Revenue from Operation
Gujarat	32,520.18	23.28%	47,605.80	36.25%	88,273.49	86.49%
Maharashtra	47,016.75	33.66%	48,650.69	37.04%	29.57	0.03%
Tamil Nadu	41,250.27	29.54%	608.74	0.46%	1.74	0.00%

2. **Dependence on Government/PSU Clients:** We depend significantly on orders from Government/PSU clients. Revenue from Government/PSU clients and projects where the end users are Government/PSU clients accounted for 83.84%, 90.91% and 90.96% of our revenue from operations in Fiscal 2026, Fiscal 2025 and Fiscal 2024, respectively. Any delay or change in tender processes, qualification criteria, Government policies or budgetary allocations, or our inability to qualify for or secure such orders, may adversely affect our business, financial condition, results of operations and prospects. Revenue from operations generated from Government/PSU clients and projects where the end users are Government/PSU clients during Fiscal 2026, Fiscal 2025 and Fiscal 2024 is set forth below:

(In ₹ lakhs, except for percentages)

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Revenue from Operation	% of Revenue from Operation	Revenue from Operation	% of Revenue from Operation	Revenue from Operation	% of Revenue from Operation
Government / PSU clients	32,115.39	22.99	75,481.35	57.47	92,830.73	90.96
Wherein end users are Government / PSU clients	84,980.80	60.85	43,922.22	33.44	-	-
Total	1,17,096.19	83.84	1,19,403.57	90.91	92,830.73	90.96

3. **Our in-house procurement operations for renewable energy space projects expose us to certain risks:** We may incur unexpected expenses if the suppliers of components in our power projects default on their warranty obligations. We are exposed to construction cost risks, including increases in the price and availability of land, labour, equipment and materials, delays in delivery of equipment and materials, local and seasonal weather conditions and unforeseen design, engineering or site conditions. Although we generally obtain warranties from our equipment suppliers and Erection All Risk (EAR) Insurance Policies, we cannot assure that we will be successful with any warranty or insurance claims.
4. **Dependence on Technology Partners:** We are dependent on our Technology Partners for various hardware and software products which we provide to our clients. As of March 31, 2026, 65.84% of our purchase from Technology Partners are from top three Technology Partners. We do not enter into any long-term contracts with our Technology Partners for supply of these products. Any failure on part of our Technology Partners to deliver products in necessary quantities, to adhere to delivery schedules or to meet specified quality standards or technical specifications, could adversely affect our ability to deliver orders on time to our clients. The following table depicts the expenses towards procurement of equipment and other related services from technology partners as a percentage of total expenses of the Company:

(In ₹ lakhs, except for percentages)

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
Expenses towards procurement of equipment and other related services from technology partners	1,13,426.94	1,20,521.66	87,721.45
% of total expenses	84.08%	95.46%	91.36%

5. **Risk Relating to Bidding for New Projects:** We may not always be able to qualify for, compete and win projects. The success rate of the bids made by us in Fiscals 2026, 2025, and 2024, were 19.48%, 24.57%, and 30.91%. The growth of our business mainly depends on our ability to obtain new projects. In the event that we are not able to continually and consistently secure new projects of similar or higher value this would have an adverse impact on our financial performance. Further, as we are new to the Renewable Energy Space, we may not be eligible for specific projects where experience is required.
6. **Negative Cash Flows:** We have experienced negative cash flow from operating activities of ₹(1,798.14) lakhs in Fiscal 2025 and any negative cash flows in the future would adversely affect our cash flow requirements, which may adversely affect our ability to operate our business and implement our growth plans, thereby affecting our financial condition. There can be no assurance that our future cash flows will be positive, which may affect our ability to meet working capital requirements, repay loans, or fund operations without raising additional external financing. The following table sets forth certain information relating to our cash flows for the Fiscals 2026, 2025, and 2024:

(In ₹ lakhs)

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
Net cash from/ (used in) operating activities	1,247.58	(1,798.14)	5,518.60
Net cash from/ (used in) investing activities	(10,166.05)	(1,265.20)	(2,131.56)
Net cash from/ (used in) financing activities	10,387.64	1,593.78	(1,304.89)
Net increase/ (decrease) in cash and cash equivalents	1,469.17	(1,469.56)	2,082.15
Cash and cash equivalents at the end of the period/ year	2,130.81	661.64	2,131.20

7. **Working Capital Requirements Risk:** Our business is working capital intensive. We have a continued and sustained working capital requirements to maintain sufficient inventory of products for steady supply. Our working capital requirements in the Fiscals 2026, 2025, and 2024 were ₹15,711.93 lakhs, ₹12,277.08 lakhs and ₹5,757.62 lakhs, respectively. Our inability to maintain sufficient cash flows, credit facilities and other sources of funds, in a timely manner or at all, to meet our working capital requirements may adversely affect our operations and financial condition.
8. **Client Concentration Risk:** We derive a significant portion of our revenues from a limited number of clients. As of March 31, 2026, our revenue contribution from our top five clients was ₹1,07,061.89 lakhs, representing 76.66% of the revenue was recognized from our top five clients for the said period. The loss of any significant clients or delay, cancellation, termination and rescission of any specific projects from any of such clients may have an adverse effect on our business, financial condition, results of operations, and prospects. There can be no assurance that we will not lose all or a portion of the revenue generated from these clients or will be able to offset such loss by obtaining new clients in a timely manner.

9. **Renewable Energy Business Risk:** Certain portion of our Company's revenue is now derived from, and is dependent upon, the renewable energy sector, particularly Renewable Energy EPC and Renewable Energy PPAs, which is a new line of business for us, in which the expertise of our Promoters and senior management is minimal. As on June 30, 2026, of our total Order Book of ₹2,66,344.35 lakhs, an aggregate of ₹2,35,404.38 lakhs (constituting 88.38% on a standalone basis and 90.59% on a consolidated basis) is attributable to renewable energy projects. Accordingly, a significant portion of our future revenue is expected to be dependent on the renewable energy sector, in which the expertise of our Promoters and senior management is minimal.
10. **Performance Bank Guarantee Risk:** We are required to furnish PBGs as part of our business contracts and we competitively bid for Government/PSU projects where such bank guarantees may be required. Our inability to arrange such guarantees, the invocation of such guarantees, or our inability to win and service sufficient competitive bids, may adversely affect our business, cash flows, financial condition, results of operations and the deployment of the Net Proceeds against the object of 'expansion of business by securing PBGs for projects'. If we are unable to maintain required margins to secure the PBGs, we may not be able to continue obtaining new PBGs in sufficient quantities to match our business requirements and this can impact our ability to bid for and enter into new contracts.
11. **Multi-Locational Project Execution Risk:** We have been involved in and will continue to be involved in a number of multi locational projects. Since, such procedural requirements involve multiple stakeholders at multiple check points, we cannot assure that all such necessary procedural requirements will be completed in a timely manner, which could delay timely completion of our contractual obligations. If we are not able to manage the risk of such expansion, it could have a material adverse effect on our operations.
12. **Brand Partner and Product Quality Risk:** Our Company is not an original equipment manufacturer of electronic items and accessories, and we depend on third party procurements for our operations under IT Infrastructure, IT managed services, and Experience Zones. There can be no assurance that companies which are owners of various leading electronic products will be able to effectively promote, develop their brands or maintain standard quality of the electronic products. If any of the offerings which we launch from our Experience Zones from time to time do not meet standards for quality and performance or customers' subjective expectations, our Company's reputation and customer retention may be impacted.
13. **Indebtedness and Financing Covenants Risk:** We have incurred indebtedness and an inability to comply with repayment and other covenants in our financing agreements could adversely affect our business and financial condition. As at June 30, 2026, the total outstanding borrowings by our Company and its Subsidiaries, on a consolidated basis was ₹31,854.82 lakhs (including fund-based borrowings of ₹21,154.72 lakhs and non-fund-based facilities comprising bank guarantees of ₹10,700.10 lakhs). A failure to observe the covenants under our financing arrangements constitute defaults under the relevant financing agreements and will entitle the respective lenders to declare a default against us and enforce remedies under the terms of the financing agreements.
14. **Government/PSU Contractual Terms Risk:** Our projects with Government/PSU clients usually contain terms that are framed by them and our ability to negotiate terms of these projects is limited and we may have to accept exacting provisions. The contractual terms may present risks to our business, including: liability for defects arising during the warranty period; clients' discretion to grant time extensions, which may result in project delays and/or cost overruns; the right of the Government/PSU clients to terminate the projects without cause after providing us with the required written notice; and the right of the Government/PSU clients to debar us from bidding from future projects with them upon failure on our part to perform or remedy failure after providing us with the required written notice. In the event we commit a delay in delivering the products, we may be subjected to a penalty amounting to a maximum of 10% of the project value.
15. **Strategic Diversification and New Business Risks:** Our strategic diversification into new lines of business, being Renewable Energy EPC and PPAs and retail sales through Experience Zones, may expose us to more challenges and new risks. We may also make substantial investments in undertaking activities relating to the new lines of business and expansion of our offerings or business verticals may also strain our management and operational resources. We cannot assure you that we will be able to recover our investments in these new lines of business or that any products or services being rendered pursuant to these new lines of business will be successful by any measure. The segment wise revenue contribution for the financial years ended Fiscal 2026, Fiscal 2025, and Fiscal 2024, is as follows:

(Amount in ₹ lakhs)

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Revenue generated from Operation	% of Revenue from Operation	Revenue generated from Operation	% of Revenue from Operation	Revenue generated from Operation	% of Revenue from Operation
IT Infrastructure	1,19,848.88	85.81%	1,22,431.53	93.22%	93,500.81	91.62%
IT managed services	7,344.13	5.26%	8,899.84	6.78%	8,556.66	8.38%
Renewable Energy Solar EPC	12,469.60	8.93%	-*	-*	-*	-*

*There was no Renewable Energy Space revenue recognised in Fiscal 2025 and Fiscal 2024.

16. **Dependence on Third Party Service Providers and Suppliers:** We rely on independent contractors and third party service providers for some part of our services and on third party suppliers for our products and any failure on their part to perform their obligations could adversely affect our reputation, business, results of operations and cash flows. In case the independent contractors and third party service providers on which we depend are unable to continue to provide their services, we could have difficulty in operating key aspects of our business. The failure of any of our suppliers to deliver these materials or components in the necessary quantities, to adhere to delivery schedules for supply, or to comply with specified quality standards and technical specifications, could adversely affect our projects.
17. **Credit Rating Downgrade Risk:** Any downgrade in our credit ratings currently "Crisil BBB+/Stable" (long-term) and "Crisil A2" (short-term) from Crisil Ratings, "IVR BBB with a stable outlook" (long-term) and "IVR A3+" (short-term) from Infomermics, and "ACUIE B+" (long-term) and "ACUIE A4" (short-term) from Acuité Ratings & Research, could increase our borrowing costs, affect our ability to obtain financing, and adversely affect our business, results of operations and financial condition. We cannot assure you that our Company's instruments will not face ratings downgrades in the future. Any downgrade in our credit ratings could increase borrowing costs, result in an event of default under our financing arrangements and adversely affect our access to capital and debt markets.
18. **Risk Relating to IREDA Loan Conversion:** Our Company has availed a Rupee Term Loan facility of ₹100.10 Crores from Indian Renewable Energy Development Agency Limited ("IREDA") which may be subject to conversion into Equity Shares of our Company upon the occurrence of a payment-related Event of Default. In the event IREDA exercises the conversion right, the shareholding of our existing Promoters and public Shareholders may be significantly diluted and IREDA may become one of the largest Shareholders of our Company. The market price of the Equity Shares may be adversely affected due to the issuance of a large number of Equity Shares at a potentially unfavourable valuation. Our Promoters may cease to retain control over the management and affairs of our Company.
19. The 2 BRLMs associated with the Issue have handled 9 public issues during the current fiscal year and the two fiscal years immediately preceding the current fiscal year, out of which 7 issues closed below the issue price on listing date. Khandwala Securities Ltd, have not handled any main board IPOs in the past.

---	--

In case of any revision in the Price Band, the Bid/ Issue Period shall be extended for at least three additional Working Days after such revision of the Price Band, subject to the total Bid/ Issue Period not exceeding 10 Working Days. In cases of force majeure, banking strike or similar unforeseen circumstances, our Company may, for reasons to be recorded in writing, extend the Bid/ Issue Period for a minimum of one Working Day, subject to the Bid/ Issue Period not exceeding 10 Working Days. Any revision in the Price Band, and the revised Bid/ Issue Period, if applicable, shall be widely disseminated by notification to the Stock Exchanges, by issuing a public notice and also by indicating the change on the websites of the BRLMs and at the terminals of the Members of the Syndicate and by intimation to Designated Intermediaries and Sponsor Bank(s), as applicable.

The Issue is being made in terms of Rule 19(2)(b) of the SCRR read with Regulation 31 of the SEBI ICDR Regulations. The Issue is being made through the Book Building Process in accordance with Regulation 6(1) of the SEBI ICDR Regulations wherein not more than 25% of the Net Issue shall be available for allocation on a proportionate basis to QIBs (the “**QIB Portion**”), provided that our Company, in consultation with the Book Running Lead Managers, may allocate up to 60% of the QIB Portion to Anchor Investors and the basis of such allocation will be on a discretionary basis by our Company, in consultation with the Book Running Lead Managers, in accordance with the SEBI ICDR Regulations (the “**Anchor Investor Portion**”), of which, (i) 33.33% shall be available for allocation to domestic Mutual Funds, and (ii) 6.67% for Life Insurance Companies and Pension Funds, subject to valid Bids being received from domestic Mutual Funds, Life Insurance Companies and Pension Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription in (ii) above, the allocation may be made to domestic Mutual Funds. In the event of under-subscription, or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the QIB Portion (other than Anchor Investor Portion) (“**Net QIB Portion**”). Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis only to Mutual Funds, subject to valid Bids being received at or above the Issue Price, and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIBs, including Mutual Funds, subject to valid Bids being received at or above the Issue Price. Further, not less than 22.50% of the Net Issue shall be available for allocation to Non-Institutional Investors (“**Non-Institutional Category**” or “**Non-Institutional Portion**”) of which one-third of the Non-Institutional Category shall be available for allocation to Bidders with an application size of more than ₹ 2.00 lakhs and up to ₹ 10.00 lakhs and two-thirds of the Non-Institutional Category shall be available for allocation to Bidders with an application size of more than ₹ 10.00 lakhs and under-subscription in either of these two sub-categories of Non-Institutional Category may be allocated to Bidders in the other sub-category of Non-Institutional Category in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Issue Price. Further, not less than 52.50% of the Net Issue shall be available for allocation to Retail Individual Investors (“**RII**”), in accordance with the SEBI ICDR Regulations, subject to valid Bids being received from them at or above the Issue Price. All Bidders (except Anchor Investors) shall mandatorily participate in this Issue only through the Application Supported by Blocked Amount (“**ASBA**”) process and shall provide details of their respective bank account (including UPI ID (defined hereinafter) in case of UPI Bidders (defined hereinafter)) in which the Bid Amount will be blocked by the Self Certified Syndicate Banks (“**SCSBs**”) or the Sponsor Bank(s), as the case may be, Anchor Investors are not permitted to participate in the Anchor Investor Portion through the ASBA process.

Bidders/Applicants should ensure that DP ID, PAN, Client ID and UPI ID (for UPI Bidders bidding through UPI Mechanism) are correctly filled in the Bid cum Application Form. The DP ID, PAN, UPI ID and Client ID provided in the Bid cum Application Form should match with the DP ID, PAN, Client ID and UPI ID available (for UPI Bidders bidding through the UPI Mechanism) in the Depository database, otherwise, the Bid cum Application Form is liable to be rejected. Bidders/Applicants should ensure that the beneficiary account provided in the Bid cum Application Form is active. Bidders/Applicants should note that on the basis of the PAN, DP ID, Client ID and UPI ID (for UPI Bidders bidding through the UPI mechanism) as provided in the Bid cum Application Form, the Bidder/Applicant may be deemed to have authorized the Depositories to provide to the Registrar to the Issue, any requested Demographic Details of the Bidder/Applicant as available on the records of the depositories. These Demographic Details may be used, among other things, for giving Allotment Advice or unblocking of ASBA Account or for other correspondence(s) related to the Issue. Bidders/Applicants are advised to update any changes to their Demographic Details as available in the records of the Depository Participant to ensure accuracy of records. Any delay resulting from failure to update the Demographic Details would

AN INDICATIVE TIMETABLE IN RESPECT OF THE ISSUE IS SET OUT BELOW:
Submission of Bids (other than Bids from Anchor Investors):

Bid/Issue Period (except the Bid/Issue Closing Date)	
Submission and Revision in Bids	Only between 10.00 a.m. and 5.00 p.m. Indian Standard Time (“IST”)
Bid/Issue Closing Date*	
Submission of Electronic Applications (Online ASBA through 3-in-1 accounts)–For RIIs, other than QIBs and NIs and Eligible Employees Bidding in the Employee Reservation Portion	Only between 10.00 a.m. and up to 5.00 p.m. IST

MULTINATIONAL AIR EXERCISE TARANG SHAKTI-2026

F-35 to Rafale, Tejas to Su-30MKI:
Stage set for high-end air combat

SIMONTINI BHATTACHARJEE
New Delhi, September 22

The Indian Air Force's Tarang Shakti 2026 is set to take India's multinational air engagement several notches higher, bringing advanced combat and support aircraft from various countries together for realistic and challenging combat scenarios.

The multinational air exercise will be conducted at Air Force Station Jodhpur from September 26 to October 11 and will feature fighter jets, air mobility platforms, airborne early warning aircraft and air-to-air refuelling assets. The participation of US F-35A, French Rafale and A400M, UAE F-16, German A400M and Australian C-130J aircraft alongside the IAF's Su-30MKI, Rafale, Tejas, Jaguar and Mirage-2000 fighters is expected to create a demanding operational environment.

The IAF has stressed that Tarang Shakti will not be an exhibition of military hardware, but an opportunity for participating forces to examine their existing operational concepts and learn from one another. Air Marshal Ashutosh Dixit said the exercise would focus on questioning established processes in view of the rapidly evolving character of warfare.

"Operational engagement with foreign air forces has traditionally been mostly bilateral. We learned how to operate with one partner

HIGHLIGHTS

- » The multinational air exercise will be conducted at Air Force Station Jodhpur from September 26 to October 11
- » It will feature fighter jets, air mobility platforms, airborne early warning aircraft and air-to-air refuelling assets

at a time. But in 2024, for the very first time, we conducted a multinational air exercise involving many air forces hosted by the Indian Air Force. And Tarang Shakti 26 will logically follow," Dixit said.

The first edition of Tarang Shakti, held in 2024, represented a significant expansion of India's multinational air engagement. Across its two stages, 11 countries participated with air power, deploying 45 aircraft. The exercise involved 76 sorties and more than 1,180 flying hours.

For the 2026 edition, the IAF has extended invitations to 65 friendly foreign nations. While some countries will participate with aircraft, others will attend as observers or distinguished visitors. The exercise will cover a broad spectrum of air operations, includ-

ing within-visual-range and beyond-visual-range engagements, large-force engagements involving high-value aerial assets, air interdiction, dynamic targeting, air-to-air refuelling and combat search and rescue.

The Indian contingent will deploy Su-30MKI, Rafale, Tejas, Jaguar and Mirage-2000 fighters, besides helicopters, transport aircraft, airborne early warning and control aircraft and IL-78 air-to-air refuelling aircraft.

The French Air and Space Force will participate with Rafale fighters, MRTT and A400M aircraft, while the US Air Force will field F-35A and KC-135 aircraft. The UAE will contribute F-16s and Global 6000 aircraft, Australia will deploy C-130Js, Germany A400Ms, Greece KC-135s and Bangladesh C-130Js.

Dixit said the composition of the exercise itself reflected its operational character and was intended to test how different platforms and air forces function together in a combat environment.

Dixit said the exercise will also provide India an opportunity to demonstrate its expanding indigenous aerospace and defence capabilities to international partners.

"India is no longer just interested in buying things from the world. We are more interested in developing and manufacturing it at home. Tarang Shakti 26 gives us a chance to showcase the increasing capabilities of Indian aerospace and defence," the Vice Chief of the Air Staff said.

He said self-reliance and international cooperation were mutually reinforcing rather than competing objectives. "Whereas for us, Atmanirbharta and international collaboration do not contradict. On the contrary, they go hand-in-hand. The more self-reliant we are, the more significant our interaction with the outside world," he said.

The exercise will also include professional and public outreach events, with the opening ceremony scheduled for September 26, Saksham Marathon on October 4, Open Day on October 8, Air Power Seminar in Delhi on October 9, and Distinguished Visitors and Media Day on October 10.

Jamui molestation case: Two accused arrested; political slugfest continues

SIT investigating incident; 3 minor boys detained on Monday: Jamui SP

MPOST BUREAU

Patna, September 22

Police on Tuesday claimed to have nabbed the two main accused in the molestation of a minor girl in Bihar's Jamui district, taking the total number of people held in connection with the September 19 incident to five, including three minors.

The two men were nabbed following an encounter in which both were injured, police said. The teenage girl and a boy from the same coaching centre were allegedly caught by a group on a road and harassed.

Video clips circulating on social media showed the molestation.

Jamui SP Biswajeet Dayal said Nandan Yadav, who was spotted in the

INSIGHT

» A teenage girl and a boy from the same coaching centre were allegedly caught by a group on a road and harassed

» Police arrested two 'main' accused following an encounter

viral video with his face covered while groping the girl, suffered a bullet injury in his leg after he opened fire at police. Hareram fractured his knee while fleeing.

"An SIT had been constituted to investigate the incident. Three minor boys were detained yesterday. Raids were on today for the remaining accused. When Nandan and his

accomplice Hareram were spotted by a police team this morning, the former opened fire," the SP said.

The incident, which took place near the district's border with adjoining Lakhisarai, came to light on Monday after video clips, apparently shot by accused persons, went viral. The girl was seen being picked up and touched inappropriately, while her friend pleaded for mercy.

The SP said police acted after the video went viral because neither the girl nor her male friend had lodged a complaint.

DIG Munger Range Rakesh Kumar said the three minors would be presented before the Juvenile Justice Board, while Nandan and Hareram would face trial. More

arrests could follow after interrogation.

ADG Law and Order K Suhita Anupam said those who circulated the video, showing the girl's face, would also be booked under the IT Act.

The incident triggered a political war of words. Congress leader Priyanka Gandhi Vadra said schemes were meaningless if women could not be kept safe on streets. Rahul Gandhi had called the incident "deeply disturbing" and demanded action under the POCSO Act.

RJD leader Tejashwi Yadav alleged a "collapse of law and order" and criticised its description as a "stray incident". The BJP alleged Nandan was an RJD supporter, drawing a response from Rohini Acharya.

Women's economic empowerment, safety Chhattisgarh's 'top priority'

MPOST BUREAU

Raipur, September 22

Chhattisgarh Chief Minister Vishnu Deo Sai on Tuesday said women's respect, safety and economic empowerment were among the state government's highest priorities, asserting that they were equal partners in building a developed Chhattisgarh.

Addressing a Teej Milan ceremony at Revenue Minister Tank Ram Verma's residence, Sai said the Mahatari Vandan Yojana was strengthening women's

financial independence, with over 68 lakh women receiving Rs 1,000 monthly and more than Rs 20,000 crore transferred through 31 instalments.

He said 13.85 lakh women

had become Lakhpati Didis through self-help groups and livelihood activities. Sai also said a Film City costing around Rs 650 crore was being developed to promote local talent.

Haryana CM reviews public grievances

MPOST BUREAU

Chandigarh, September 22

Haryana Chief Minister Nayab Singh Saini on Tuesday held a nearly six-hour meeting with MLAs, administrative secretaries and department heads to review public grievances and development issues raised through the Jan Samvad portal.

Development and Panchayats Minister Krishan Lal Panwar, Education Minister Mahipal Dhanda, Agriculture and Farmers' Welfare Minister Shyam Singh Rana, Public Health Engineering Minister Ranbir Gangwa, Chief Principal Secretary Rajesh Khullar and Principal Secretary Arun Kumar Gupta were among those present.

Saini directed officials to ensure time-bound resolution of complaints and said issues raised by elected representatives as the voice of the people should not be met with mere assurances. Visible action must be ensured, he said.

Administrative secretaries were asked to personally monitor cases and coordinate with MLAs. The chief minister said grievances that could be resolved at the district level should not be unnecessarily referred to higher authorities, adding that reducing the distance between citizens and administration was a government priority.

MLAs apprised Saini of constituency-level issues, following which he directed officials to take time-bound action. He said unnecessary delays in development projects would not be acceptable at any level.

Briefs

Haryana CM calls on BJP workers

CHANDIGARH:

Haryana CM Nayab Saini on Tuesday said BJP organisational posts are responsibilities, not designations. He urged party workers to participate actively in the 'Seva Sankalp Abhiyan', being observed from September 17 to October 17 to mark PM Narendra Modi's birthday.

CISF shines at Pencak Silat Cup

NEW DELHI: The CISF finished runner-up at the 10th Pencak Silat Federation Cup 2026 in Leh, winning 26 medals, including 12 gold, eight silver and six bronze. The three-day championship, held from September 19 to 21, featured over 830 participants from CAPFs and state police forces. J&K Police bagged the championship title.

Hry 2024 polls rigged: LoP Hooda

CHANDIGARH:

Haryana LoP Bhupinder Singh Hooda alleged that the BJP won the 2024 Assembly elections through rigging and claimed voting figures increased even after EVMs were sealed. Addressing a Panipat Urban Block Congress conference, Hooda urged workers to strengthen the organisation.

MP govt, Rashtriya Raksha Univ ink cyber security pact

SATYAPRAKASH SHARMA
Bhopal, September 22

The Madhya Pradesh government on Tuesday signed an MoU with the Rashtriya Raksha University (RRU), Gandhinagar, to train and develop the skills of officers and employees of the state Police and Jail Headquarters in cyber security and related fields.

The MoU was exchanged in the presence of Chief Minister Mohan Yadav at the state Secretariat. A separate relationship agreement was also signed between the RRU and Rajiv Gandhi Proudyogiki Vishwavidyalaya (RGPV), Bhopal, for the smooth functioning and coordination of the university's Bhopal campus.

CM Yadav said the rapid expansion of digital systems

had brought new challenges, making greater vigilance and specialised expertise in cyber security and digital forensics essential. Education, training and research in these areas would help ensure that digital systems continued to serve public welfare, he said.

Training programmes for police and prison personnel under the MoU are expected to begin shortly. The CM said the RRU's establishment at Gandhinagar, on the initiative of Prime Minister Narendra Modi, was an important step towards strengthening capabilities in the cyber and forensic sectors.

The RRU was established by the Union Home Ministry in 2020. It has regional campuses in seven states and has trained around 40,000 personnel so far.

Shah sets 2029 deadline to eradicate drug trade in India

NARESH BISWANI

New Delhi, September 22

Union Home Minister Amit Shah has set December 31, 2029, as the deadline for collectively eliminating the drug trade from the country, calling for a shift from merely seizing narcotics to dismantling entire trafficking networks.

Addressing the third National Conference of Anti-Narcotics Task Force (ANTF) heads of states and Union Territories, Shah said combating drugs must become a national mission and priority.

He said the Vision Document for Narcotics Control 2026-29, prepared in consultation with more than 35 departments, lays down benchmarks, targets, timelines and responsibilities. It is based on four pillars: enforcement, intelligence and operations; control of precursor and synthetic drugs; demand and harm reduction; and capacity building and coordination.

Calling for a shift from "Meeting to Mission", "Reporting to Result", "Seizure to dismantling of Networks" and "Case to Conviction", Shah said financial investigations and tracing digital footprints must supplement backward and forward investigations.

He said drug cartels must be targeted at entry points, inter-state trade routes and local supply chains, while authorities

also need to tackle emerging threats involving synthetic drugs, precursor chemicals, darknet, cryptocurrency, dead-drop logistics and international trafficking routes.

Shah said ANTFs should evolve into an "Anti-Narco Mission Command" and urged states to strengthen manpower, technology and resources. He also called for greater use of PITNDPS, closer coordination with prosecutors from investigation to conviction, and steps to deport and blacklist foreigners involved in drug trafficking.

He said 46,780 Nashamukt Mitras had been enrolled against a target of one lakh. The volunteers will take the anti-narcotics campaign to 10 lakh schools, colleges and institutions.

'Security is a fundamental prerequisite for empowerment'

Women's safety, the defining test of law and order in Yogi's Uttar Pradesh

PRIYANKA SRIVASTAVA

The first measure of any government is not the number of schemes it announces. Rather, it is the quiet confidence a citizen feels while leaving home, opening a shop, or sending a daughter out into the world.

In Uttar Pradesh, that confidence has become the central claim of Chief Minister Yogi Adityanath's government. Its supporters regard the restoration of law and order as the administration's crowning achievement—and not without reason. When he took charge, the state was widely seen as a place

where restoring public order would be the hardest task of all.

The problem was not merely crime in the statistics; it was the pervasive sense of insecurity that accompanied it, a deeper belief that the powerful offender stood above the system. Dispelling that belief was the first task of governance.

For years, UP bore an ugly reputation, summed up in a stark shorthand: one district, one mafia. Across regions, strongmen, land mafias, contracting cartels and networks of fear had made the ordinary citizen feel like a spectator,

not a stakeholder. Hence, imposing the rule of law in so large a state was never going to be simple. Yet the Yogi Adityanath government has staked its reputation on this front more than on any other.

Traders, women and investors, it argues, are safer than they were. These

three groups are not incidental; they are vital to a state's economic and social stability. A trader who feels safe keeps the market alive. An investor who feels safe is willing to commit capital. And a woman who feels safe can help her family—and, through it, society—move forward.

The fading of the mafia tag is not merely a story of police encounters and property attachments. It is a story of public self-belief — of people beginning to believe that the state can protect them, and that they can reclaim the freedom to live, work and invest without fear.

Empowerment is not only reservation, welfare or a speech from the podium. Its first step is freedom from fear. A person who is afraid, cannot use even those rights that are written into the statute book. In that sense, security is empowerment.

The test is sternest in the case of women. For a long time, crimes against women defined much of the conversation about Uttar Pradesh. From harassment to grave assault, the victim often suffered twice — first from the crime, then from a slack system and social pressure. The government's argument is

that this culture is being checked because the old practice of letting offenders slip away has been broken.

The conventional debate on women's empowerment runs to education, health, jobs and representation. All of these matter; however, all of them rest on personal security.

Influence and access were once tools of escape. Action is now presented as the default. Encounters, attachment of assets, pressure on local gangs and the return of absconders can be debated as methods. The direction, however, is clear. Yogi Adityanath wants the state to say

that an offender will be known by the offence, not by caste, money or connections.

The Yogi Adityanath years, seen through this lens, are an attempt to put the law back at the centre of government. The retreat of the mafia label, a rise in public confidence, and a harder line on crimes against women belong to one argument. If security is empowerment, women's safety is its final examination.

EDITORIAL

Beyond ‘Fast Lanes’

India’s highway transformation has become one of the most visible markers of its infrastructure ambitions. Expressways and access-controlled corridors have shortened journeys, improved freight movement and connected economic centres at speeds that would have been difficult to imagine on much of the country’s older road network. The National Highways Authority of India’s new guidelines for high-speed, access-controlled National Highways are therefore timely. The framework will apply to upcoming four- and six-lane greenfield and brownfield corridors and seeks to standardise planning and Detailed Project Reports at a time when the government envisages developing 50,000 km of access-controlled high-speed corridors under its Viksit Bharat 2047 roadmap. Among the provisions are restrictions on median openings and at-grade intersections, advance notification of entries and exits, lane configurations linked to projected traffic and boundary walls intended to prevent unauthorised access, encroachments and the entry of stray cattle. These may appear to be technical details, but they address a fundamental reality: a road designed for high speed cannot be managed like an ordinary highway. The faster vehicles travel, the smaller the margin for error becomes.

That recognition is important because India’s highway success story exists alongside a road-safety crisis. The latest comprehensive official road-accident report, covering 2023, recorded 4,80,583 accidents and 1,72,890 deaths across the country. Straight roads alone accounted for 3,22,005 accidents and 1,14,447 deaths, a reminder that seemingly uncomplicated stretches are not necessarily safe when higher speeds reduce reaction time and magnify the consequences of mistakes. The problem is particularly relevant as India moves from conventional highways towards long, uninterrupted high-speed corridors. Such roads can reduce some traditional conflict points, but they create a different safety environment. A driver entering the wrong lane, braking abruptly for a missed exit, stopping on the carriageway or travelling far above the permitted speed can trigger a catastrophic collision. India has already seen the consequences of excessive speeds on access-controlled roads. The government acknowledged in 2023 that vehicles had been detected travelling at 150-160 kmph on the Bengaluru-Mysuru corridor, with high-speed overtaking and frequent lane changes contributing to accidents. Building roads capable of carrying faster traffic must therefore be accompanied by systems capable of managing that traffic safely.

Engineering is the first defence. Removing median cuts and surface-level intersections can eliminate dangerous crossing movements, while advance exit signs at five kilometres, two kilometres, one kilometre and 500 metres can discourage sudden lane changes. Physical access control is equally important in a country where high-speed roads frequently coexist with settlements, agricultural land and local traffic. But good design cannot end when construction ends. Lane markings fade, crash barriers are damaged, signs become obscured and unauthorised access points can emerge. Safety audits therefore have to become continuous operational exercises rather than compliance requirements completed before inauguration. The government already mandates third-party road-safety audits at different stages of National Highway projects and has been identifying and rectifying accident blackspots. The larger task is to make safety performance itself a measure of highway performance. Contractors and concessionaires should be assessed not only on pavement quality, toll collection and traffic flow, but also on whether hazards are identified and corrected quickly. A world-class highway should be judged as much by how safely people arrive as by how quickly they travel.

Engineering, however, cannot compensate indefinitely for poor driving behaviour and weak enforcement. High-speed corridors require stricter lane discipline, consistent speed enforcement and far greater respect for basic rules governing stopping, overtaking and entry. Technology can help bridge the enforcement gap. Automatic number-plate recognition, speed detection, intelligent cameras and video-based incident detection can identify violations without depending entirely on physical policing. The government is already deploying Advanced Traffic Management Systems on National Highways, including AI-based video incident detection and enforcement systems, surveillance cameras and automatic number-plate recognition. NHAI is also upgrading the 1033 highway helpline with real-time location tracking and technology intended to dispatch assistance more quickly. These systems should eventually work as an integrated safety network: detecting an accident, locating it immediately, warning approaching motorists and mobilising an ambulance, patrol vehicle or recovery team. Enforcement must also be predictable. Drivers are more likely to obey speed and lane rules when violations are consistently detected rather than when enforcement appears sporadically around toll plazas or known checkpoints.

The final piece is emergency response. Even the safest highway system cannot eliminate crashes entirely, and on high-speed corridors the difference between survival and death may depend on what happens in the first minutes after impact. Ambulance availability, trauma-care links, clearly identified emergency access points, rapid incident detection and trained responders must therefore be planned as essential highway infrastructure, not as services added later. India’s highway programme has understandably celebrated kilometres constructed, travel time reduced and logistics efficiency improved. Its next stage requires an equally visible safety ambition. The new NHAI guidelines provide a useful foundation because they acknowledge that high-speed roads require their own design discipline. But standards on paper will matter only when design, maintenance, enforcement, driver behaviour and emergency care operate as parts of the same system. As India builds thousands of kilometres of faster corridors, the measure of progress cannot simply be how much sooner a traveller reaches the destination. It must also be how reliably that traveller reaches it safely.

When Moral Awareness is not Enough

Gandhari’s tragedy showed how moral clarity could prove inadequate when loyalty, hierarchy and attachment weakened the power to intervene

BHARAT
KI SOCH

ANIL RAJPUT

THE WRITER IS CHAIRPERSON,
BHARAT KI SOCH

Some of the most consequential failures do not begin with ignorance. They begin when people recognise that something is wrong, understand where it may lead, and yet fail to convert that understanding into action strong enough to change its course.

This is what makes Gandhari one of the most complex figures in the Mahabharata. Her problem was not an inability to recognise adharma. At crucial moments, she understood the danger posed by Duryodhana’s conduct, recognised where dharma lay and repeatedly counselled restraint. Yet the destruction of the Kuru family still unfolded around her. Her tragedy therefore lies in the difficult distance between moral awareness and moral agency, and in the limits of insight when it does not become intervention strong enough to alter events.

Born a princess of Gandhara, Gandhari was married to Dhritarashtra, the blind prince of Hastinapura. According to epic tradition, she chose to blindfold herself after marriage, resolving not to enjoy the advantage of sight that her husband did not possess. The act has been read as one of marital solidarity, extraordinary self-denial and identification with her husband’s condition. The modern lesson is not that sacrifice is misguided. It is that sacrifice must also be tested against the responsibilities attached to one’s position. A choice rooted in loyalty may be noble in intention, but leadership also demands that personal commitments do not diminish the judgement required by a larger duty.

As queen, mother and an influential elder of the Kuru household, Gandhari stood at the centre of competing loyalties. Duryodhana was her son, yet his ambitions increasingly endangered both the family and the kingdom. Her dilemma is therefore deeply human. It is easy to defend a principle when it costs us little. The real test begins when principle asks us to challenge someone we love, trust or have personally invested in.

This is where Gandhari’s story offers a powerful lesson about parental attachment. Love becomes ethically dangerous when it asks others to bear the consequences that we protect those closest to us. In institutions, the same danger appears when familiarity, loyalty or long association softens judgement. A trusted colleague, protégé or long-serving associate may be treated differently because of past contributions or personal bonds. Responsible leadership does not require abandoning people when they make mistakes, but it does require ensuring that loyalty never becomes protection from accountability.

The aftermath of Draupadi’s humiliation and the dice game gives this tension sharper form. Gandhari understood that the course being pursued by Duryodhana and enabled by Dhritarashtra was destructive. When another game of dice was proposed, she warned Dhritarashtra against reopening the crisis and reminded him of the danger she had already seen in their son. Her intervention is important because it shows that she was neither silent nor morally confused. She saw the danger and she spoke.

There is another lesson in that episode. A crisis that has been temporarily contained should not be mistaken for a problem that has been solved. Dhritarashtra’s initial attempt to restore what had been lost did not remove the hostility, entitlement and resentment that had produced the crisis in the first place. In organisations, temporary calm can create false confidence. A settlement, apology or reversal may address the immediate event while leaving the underlying behaviour untouched. Responsible leadership therefore asks not only whether the crisis has ended, but whether the conditions that created it have changed.

But leadership often demands more than seeing and speaking. When advice is repeatedly ignored, the method of intervention must sometimes change. In organisational life, concerns may be raised again and again while the underlying conduct continues. At that stage, repetition alone can become ineffective. A concern may need to be escalated, formally recorded, placed before a wider decision-making body or supported by others who recognise the same risk. Private disagreement cannot always substitute for public responsibility. The greater one’s influence, the greater the responsibility to ensure that disagreement leads to meaningful action.

This does not mean that Gandhari should be made responsible for the choices of the powerful men around her. She could not command Dhritarashtra, control Duryodhana or single-handedly reverse the politics of Hastinapura. To recognise the limits of her interventions is not to transfer to her the responsibility that

Her story reveals the cost of delayed action when loyalty, responsibility and accountability collide

FROM FAMILIES TO BOARDROOMS,
GANDHARI’S DILEMMA PERSISTS WHEN
PERSONAL LOYALTY BEGINS TO OUTWEIGH
INSTITUTIONAL RESPONSIBILITY TODAY

belonged to those who held greater authority and made their own choices. Moral responsibility does not require complete control. It requires making responsible use of the influence and authority one does possess.

Her story therefore becomes even more significant when viewed as a lesson in collective institutional failure. Hastinapura was not devoid of wisdom. Bhishma embodied duty, Vidura repeatedly offered counsel, Drona possessed stature, Gandhari understood many of the dangers surrounding her son, and Dhritarashtra himself recognised the risks at several points. Yet insight remained dispersed while corrective authority remained weak. Institutional failure becomes possible when many people recognise parts of a problem but no mechanism converts their collective awareness into effective action.

This is why values cannot depend only on the presence of good individuals. Organisations require structures that allow concerns to travel, dissent to be heard and power to be checked. Culture may tell people what an institution believes, but governance determines what happens when those beliefs are tested. Where rules bend according to hierarchy, relationships or convenience, moral awareness can remain present even as institutional discipline erodes.

The question of Duryodhana also raises an important lesson about succession and authority. The future of an institution cannot be treated

merely as a matter of entitlement, proximity or continuity. The person most naturally positioned to inherit authority is not automatically the person best prepared to exercise it. Competence cannot compensate for defects of character when authority is at stake.

Duryodhana was not without courage, ambition or political skill. Yet these qualities became dangerous when separated from restraint, justice and respect for institutional norms. The lesson for leadership is clear. Capability matters, but capability must be accompanied by judgement and character. When power is involved, ambition without restraint can endanger the very institution it seeks to command.

Gandhari’s repeated counsel before the war makes this especially clear. She understood where Duryodhana’s choices were leading and continued to urge restraint. The tradition remembers her response when he sought a blessing for victory: “Where there is dharma, there is victory.” The statement reveals moral clarity, but it also highlights the central tragedy of her story. She could recognise the right principle and articulate it, yet insight alone could not prevent disaster.

Gandhari’s response also reveals an important distinction between affection and endorsement. She did not cease to love Duryodhana, but neither did motherhood compel her to declare his cause righteous. This distinction matters in leadership. Supporting a person does not require validating every deci-

sion they make, just as loyalty does not demand agreement when principle is at stake. Mature leadership preserves relationships without surrendering independent judgement. The ability to stand by an individual while refusing to legitimise a wrongful course of action is itself an important form of ethical courage.

This is where foresight becomes a form of responsibility. The more clearly a leader understands the likely consequences of a course of action, the stronger the obligation to respond before those consequences become irreversible. Awareness is not merely an advantage. It creates a duty to act while correction remains possible.

The Mahabharata repeatedly shows what happens when intervention comes too late. Rivalry becomes hostility, hostility leads to humiliation, and unresolved grievances harden into conflict. The larger lesson is not that every disagreement will become a crisis, but that unresolved patterns acquire momentum. In institutional life, leaders sometimes mistake the absence of visible conflict for stability. Yet peace is not the same as avoidance. Difficult conversations postponed in the name of harmony may return later in a far more destructive form.

After the war, Gandhari’s grief becomes one of the Mahabharata’s most powerful expressions of loss. Her anguish and anger, including towards Krishna, arise from suffering of an almost unimaginable scale. That grief should not be reduced to a management lesson. Yet it also reminds us that after failure, accountability must look beyond the final act. Institutions must ask what warning signs appeared, who recognised them, whether concerns were heard, whether hierarchy discouraged challenge and whether attachment interfered with judgement.

Gandhari’s life ultimately resists easy judgement. She was neither devoid of conscience nor indifferent to dharma. She saw, warned, endured and understood. But her story also shows that moral insight, however sincere, may remain insufficient when it is unable to become timely and effective intervention.

Gandhari leaves us with a lesson extending far beyond the halls of Hastinapura. Conscience is indispensable, but conscience that remains private cannot always prevent public harm. Loyalty must not shield wrongdoing, peace must not become avoidance, and foresight must lead to timely intervention. The true test of character is not simply whether we recognise the right course, but whether, when affection, hierarchy and personal cost stand in the way, we possess the courage and practical wisdom to pursue it. Knowing what is right is the beginning of responsibility, not its fulfilment.

Avoiding Escalation

Pakistan’s airstrikes in Afghanistan risk deepening instability in an already fragile region. Whatever the security concerns along the border, civilian casualties and violations of sovereignty can intensify hostility rather than resolve underlying disputes. India’s condemnation rightly underscores the importance of territorial integrity and regional peace. Islamabad and Kabul must prioritise dialogue, restraint and credible mechanisms to address cross-border militancy.

A Timely
Warning

DEEPANSHU SAHA

India may have beaten Japan by two runs, but the result offered little room for complacency. In a rain-shortened five-over contest, India’s celebrated batting order struggled to impose itself, while Japan played with remarkable freedom and pushed the match to its final moments. Such contests demonstrate why reputations

count for little in cricket’s shortest format. For India, the escape should serve as useful preparation rather than cause for alarm. Strong teams are distinguished by how quickly they recognise weaknesses and correct them. Japan, meanwhile, showed that emerging cricket nations can no longer be treated as ceremonial opponents.

Sefcovic said it would create "a modern, forward-looking partnership between the EU and the Philippines, one that will open new opportunities for our exporters and investors, strengthen our supply chains and deepen bilateral economic ties for years to come."

News at a glance

GST 2.0 boost prompts Maruti to accelerate capex

NEW DELHI: Maruti Suzuki India is accelerating its capital expenditure plans amid a sharp rise in passenger vehicle demand following GST 2.0 rationalisation, MD and CEO Hisashi Takeuchi said on Tuesday. PV sales grew about 36% year-on-year during April-August 2026, while entry-segment sales surged over 96%. Takeuchi said the growth highlighted improved affordability and consumer demand. Mahindra & Mahindra ED & CEO Rajesh Jejurikar said GST rationalisation supported demand, with SUVs growing 17% and LCVs and tractors around 20%.

Steel prices at four-year high on costlier raw materials

NEW DELHI: Domestic steel prices have touched a four-year high, driven by costlier raw materials, particularly coking coal, and stronger post-monsoon demand, market research firm BigMint said. HRC and CRC prices rose to Rs 64,000 and Rs 75,000 per tonne, respectively, levels last seen in June 2022. Since August 1, prices have increased by Rs 6,000 and Rs 8,500 per tonne. Coking coal prices surged \$65 to \$305 per tonne, while iron ore fines rose Rs 200-250 to Rs 4,500 per tonne. Steel consumption rose 7 per cent year-on-year to 70 MT in April-August FY27, supporting further price gains.

Air India to roll out new IFE platform in 2027 second-half

NEW DELHI: Air India will introduce a new in-flight entertainment (IFE) platform combining entertainment, loyalty, commerce and travel services, Chief Digital and Technology Officer Satya Ramaswamy said. The in-house 'Vista Digital Platform' will be progressively deployed from the second half of 2027, starting with new wide-body aircraft. It will later be extended across the airline's wide-body fleet and Airbus A321 XLRs. The platform will use artificial intelligence and in-flight connectivity to enable faster, lower-cost introduction of content and services.

SoftBank-backed AceVector's ₹420-cr IPO to open on Friday

NEW DELHI: SoftBank-backed digital commerce firm AceVector Ltd on Tuesday fixed the price band for its Rs 420-crore IPO at Rs 30-32 per share. The issue will open on September 25 and close on September 29, with anchor bidding on September 24. It comprises a fresh issue worth Rs 287 crore and an OFS of 4.16 crore shares valued at Rs 133 crore. Existing investors, including SoftBank, Nexus Venture Partners and Foxconn, will sell shares, while co-founders Kunal Bahl and Rohit Bansal will not. AceVector reported FY26 revenue of Rs 510.38 crore, up 29 per cent year-on-year.

SEVENTH HIGH-LEVEL ENERGY DIALOGUE

India & OPEC step up energy co-op amid global supply uncertainties

OUR CORRESPONDENT
New Delhi, September 22

Amid the ongoing challenges related to geopolitical threats, uncertainties in the supply chain and volatility in the energy sector, India and OPEC, on Tuesday, have decided to enhance their collaboration to ensure stability and reliability in the global oil market.

This collaboration was agreed upon during the Seventh High-Level Meeting of the OPEC-India Energy Dialogue here in New Delhi, chaired by Union Petroleum and Natural Gas Minister Hardeep Singh Puri and OPEC Secretary General Haitham Al Ghais. The importance of this event lies in the fact that, as one of the world's rapidly growing economies and a major consumer of energy resources, India is striving to ensure reliable access to energy while OPEC is of critical importance in the oil market.

In addition, both parties discussed issues related to oil market stability and energy security and the need for adequate investments in the oil industry in a timely manner. In addition, the outlook for the energy sector in the short-, medium-, and long-term period and growing energy

demand of India were discussed as well. The involvement of OPEC becomes even more crucial in light of the present-day uncertainties. In 2025, OPEC member countries exported an average of 19.85 million barrels of crude oil per day, including 14.79 million barrels of crude oil per day exported to Asia, which highlights the significance of the organisation for the region's energy security. Furthermore, OPEC has been consistently stressing the need for a collaborative effort to ensure oil market stability, as in 2026, OPEC+ countries were keeping the monitoring mechanism of the market conditions and production. In relation to India, the involvement becomes strategically crucial consider-

ing the growing needs for energy in the country and its dependency on external supplies of crude. As per OPEC's forecasts, the organisation was anticipating the continuous growth of energy demand in the world, as well as investment in the future needs. Speaking at the meeting, Puri stated that the cooperation of India and OPEC is complementary and mutually beneficial. "As one of the fastest-growing major economies in the world, India will continue to be an important factor driving global energy demand in the coming decades," Puri said, emphasising that continuous dialogue between producers and consumers is essential to foster investments and improve energy resilience as well

KEY POINTS

- » Both parties discussed issues related to oil market stability and energy security and the need for adequate investments in the oil industry in a timely manner
- » In 2025, OPEC member countries exported an average of 19.85 million barrels of crude oil per day, including 14.79 million barrels of crude oil per day exported to Asia

as energy security for sustainable global growth and development. Puri also thanked OPEC for its efforts to bring stability and transparency to the international energy market in times of uncertainty and volatility and urged for more cooperation between India and OPEC for achieving balance, stability and predictability in the energy market. For his part, Al Ghais described the engagement with India as a top priority for OPEC due to its growing significance in the international energy scene. He referred to the fact that the OPEC-India Energy Dialogue is now celebrating its 11th anniversary since its inception in New Delhi in 2015. The OPEC Secretary General also appreciated

India's "balanced, realistic and pragmatic" approach to energy issues and noted that many of the energy concerns of India are similar to those of OPEC. The present meeting thus becomes significant not merely as part of routine discussions between producers and consumers of energy. Given the increasing openness of the oil market to geopolitics, the possibility of disruptions of seaborne trade, and uncertainties regarding future investments, the dialogue between one of the world's largest consumers of oil and the biggest producers' association has become an institutionalised means of tackling energy security concerns. Indeed, OPEC has even stated that disruptions in energy infrastructure or in international seaborne transportation can cause instability in energy markets. Both parties discussed the achievements of the dialogue and the importance of further energy cooperation. Both parties have decided to convene the Eighth High-Level Meeting of the OPEC-India Energy Dialogue in Vienna, Austria, on a mutually agreed-upon date.

PhonePe gets UAE central bank's nod for two payment licences

AGENCIES
New Delhi, September 22

Fintech major PhonePe on Tuesday said it has secured in-principle approval from the Central Bank of the UAE for two operating licences, marking its first international expansion. The approval covers retail payment services and card schemes (RPSCS) and stored value facilities (SVF). PhonePe will seek final regulatory clearances before starting commercial operations. It plans to partner with regional banks, licensed payment service providers and technology vendors, while exploring support for UAE payment rails Aani and Jaywan. "The UAE advances toward an interconnected, digital-first economy," Ritesh Pai, CEO and Executive Director, International Payments, PhonePe, said. PhonePe currently enables Indian travellers to make QR-code payments in the UAE through NIPL partnerships.

Paramount clears legal hurdle for \$110 billion Warner Bros deal

AGENCIES
New Delhi, September 22

Paramount Skydance has reached a settlement with a California-led group of US states and the Writers Guild of America, clearing a major legal hurdle to its proposed \$110 billion acquisition of Warner Bros Discovery, Reuters reported. Under the agreement, Paramount will increase US film production spending by at least \$300 million annually and meet theatrical release quotas for five years. It will also establish a news editorial independence board overseeing CBS and CNN. California Attorney General Rob Bonta said the settlement would

ensure more production and choice while adding safeguards for competition. Paramount will produce 30 films annually in the first two years and 32 in the next three, with penalties for failing to meet quotas. Warner Bros Discovery shares rose over 10 per cent, while Paramount shares pared gains. The combined company is expected to generate \$6 billion in savings and carry \$80 billion in debt.

Centre inks 21 MoUs with states, UTs under UDAN

NARESH BISWANI
New Delhi, September 22

The Ministry of Civil Aviation on Tuesday signed 21 Memoranda of Understanding (MoUs) with States and Union Territories to start the next phase of the UDAN scheme to develop regional connectivity. The MoUs were signed in the presence of Civil Aviation Minister Ram Mohan Naidu, Minister of State Murlidhar Mohol, Civil Aviation Secretary Samir Kumar Sinha and Airports Authority of India Chairman Vipin Kumar. The documents set

up a framework for the Centre, States/UTs and the Airports Authority of India (AAI) to jointly identify and develop aviation infrastructure based on regional connectivity needs. Naidu said the next phase of the UDAN scheme would facilitate Centre-State coordination besides working towards the larger goal of building regional aviation infrastructure. The scheme has so far operationalised 687 routes and 95 aerodromes with more than 3.66 lakh flights carrying around 1.71 crore passengers since its

launch, the ministry said. The next phase of the scheme to be called Modified UDAN will focus on keeping costs low besides ensuring sustainability, transparent process of challenge mode selection and promoting indigenous manufacturing. The government has set a target of 120 new destinations and four crore additional passengers in the next 10 years. The ministry has also launched a Challenge Mode Portal for Aerodrome Development for States and UTs to nominate airstrips and helipads for

development under the scheme. In addition, the ministry released the scheme document for next round of UDAN route-bidding process. Airlines will be invited to bid for the identified routes in the challenge mode to expand air connectivity in areas which do not have adequate connectivity. The launch of the next phase of the UDAN scheme comes a day after Prime Minister Narendra Modi flagged off the next phase of the scheme at Jodhpur on July 4 and a stakeholder workshop on July 16.

Samsung India profit falls 36% to ₹7,228 crore in FY26, revenue rises 1.2%

India serves as a major consumer market and manufacturing hub for Samsung, with exports to several countries

AGENCIES
New Delhi, September 22

Samsung India Electronics' profit declined 36 per cent to Rs 7,228.10 crore for the financial year ended March 31, 2026, according to a RoC filing. Revenue from operations, however, rose 1.2 per cent to Rs 1.12 lakh crore in FY26, according to financial data accessed through Tofler. The company had reported consolidated revenue from operations of Rs 1,11,183.40 crore and profit of Rs 11,287.50

crore in FY25. Total consolidated income, including other income, stood at Rs 1,14,738.60 crore (1.14 lakh crore) in FY26. An email seeking comments remained unanswered. Part of South Korean electronics major Samsung Electronics, Samsung India operates across mobile phones, tablets, televisions, home appliances and computers, with mobile phones contributing the largest share of revenue. Revenue from HHP (Hand Held Phones), including mobile phones

CLOSER LOOK

- » Revenue from HHP (Hand Held Phones), including mobile phones and accessories, declined 1.35 per cent to Rs 81,472.2 crore in FY26 from Rs 82,595 crore in FY25
- » Samsung India's total expenses increased 3.54 per cent to Rs 1.04 lakh crore in FY26
- » Meanwhile, 'cost royalty' paid to its South Korean parent rose 7.2 per cent to Rs 3,474 crore from Rs 3,240.50 crore in FY25

and accessories, declined 1.35 per cent to Rs 81,472.2 crore in FY26 from Rs 82,595 crore in FY25. Revenue from Home Appliances (HA), covering washing machines, air

conditioners, refrigerators and microwave Ovens, increased 3.52 per cent to Rs 12,240.60 crore from Rs 11,823.30 crore. Audio-visual (AV) revenue, comprising televisions and

soundbars, rose 8.5 per cent to Rs 8,055.90 crore from Rs 7,427 crore. Samsung is seeking to strengthen its television and appliances businesses and diversify revenue beyond smartphones. In the Software Development and Export (SDE) segment, revenue increased 6.85 per cent to Rs 2,430.10 crore. Samsung India Electronics is the only company in the Appliance & Consumer Electronics space with turnover above Rs 1 lakh crore. India serves as a major

consumer market and manufacturing hub for Samsung, with exports to several countries. Domestic revenue rose 9.34 per cent to Rs 65,873.30 crore in FY26 from Rs 60,243.50 crore in FY25. However, total export revenue declined 5.64 per cent to Rs 41,068.60 crore from Rs 43,527.80 crore. The company operates research and development centres in Bengaluru, Noida and Delhi-NCR, making India one of its largest R&D bases outside South Korea.

Samsung India's total expenses increased 3.54 per cent to Rs 1.04 lakh crore in FY26. Advertisement and promotion expenses declined 11.9 per cent to Rs 3,850.50 crore from Rs 4,370.70 crore. Meanwhile, 'cost royalty' paid to its South Korean parent rose 7.2 per cent to Rs 3,474 crore from Rs 3,240.50 crore in FY25. The royalty is linked to technical know-how, technology and manufacturing assistance provided by the parent for products manufactured in India.

BIZs MUST ENGAGE CONSTRUCTIVELY WITH GOVT & REGULATORS

Focus on scale, better governance, resilience: Sitharaman to India Inc

OUR CORRESPONDENT

New Delhi, September 22

Finance Minister Nirmala Sitharaman on Tuesday asked Indian industry to focus not just on scale but also on building stronger, more resilient, and better-governed enterprises as the country works towards the goal of Viksit Bharat by 2047.

Addressing an AIMA event here, Sitharaman said Indian industry needs to build institutions that combine scale with durability, higher quality, better governance and deeper technological capabilities.

"India today has the scale of market, the entrepreneurial energy and the institutional capacity to aim much higher. Execution will determine how successfully we convert these strengths into lasting national capability," she said.

The contribution of Indian management would be measured by the quality of enterprises and institutions being built today as the country moves toward Viksit Bharat by 2047, she

Finance Minister Nirmala Sitharaman

noted. The minister urged industry to focus on creating companies that are not merely bigger, but better competitive, innovative, trusted and resilient enough to contribute to India's growth over the coming decades.

Emphasising that sound corporate governance is not simply a set of external codes to be adopted, she said it also depends on the standards institutions set for themselves. Trust between businesses cannot be demanded; it has to be built through conduct on both sides, she said.

"Businesses must engage constructively with government and regulators. Legal recourse will always remain available, but every disagreement need not begin as litigation. There is considerable value in engaging early, placing evidence on the table, participating seriously in consultations and working towards solutions before differences become disputes," she noted.

Equally, businesses must provide predictability, transparency & willingness to listen, she said, adding that a mature economy should be capable of dis-

KEY POINTS

- » 'India today has the scale of market, entrepreneurial energy, institutional capacity to aim much higher'
- » 'Execution will determine how successfully we convert these strengths into lasting national capability'
- » Legal recourse will always remain available, but every disagreement need not begin as litigation, she said

agreement without immediately becoming adversarial.

Highlighting that India's next phase of growth must be built on quality, she said corporates need to spend more on R&D, either in-house or through collaboration with academia.

This will help in driving innovation and improving existing products, the minister said, adding that higher R&D expenditure should also translate into more intellectual property being created in and from India. "Our ambition must move from 'Made in India' to 'Imagined in India'

products not only manufactured here, but conceived, designed and technologically developed here, and then taken to markets across the world," she said.

India's Gross Expenditure on R&D stands at 0.83 per cent of GDP, far below the OECD average (2.7 per cent), China (2.6 per cent), and the US (3.5 per cent), reflecting a persistent shortfall in private-sector R&D depth, where the domestic private sector contributes just 36 per cent compared to over 70 per cent in leading advanced economies, she noted.

Sitharaman also underlined the need for building capability management education and designing short, practical courses for founders and early employees on hiring, delegation, financial discipline, customer management, compliance & building systems.

Besides, there is a need for practical programmes for family businesses covering succession planning, governance, professionalisation, conflict management and delegation.

India stands out with strongest growth outlook globally: WEF

OUR CORRESPONDENT

New Delhi, September 22

India stands out with the strongest growth outlook globally, but has slipped to fourth place in terms of favourable business environment for multinational companies, a new survey showed on Tuesday.

India was ranked second in the previous quarterly Chief Economists' Outlook survey published by the World Economic Forum in May this year.

The latest survey found that a majority (56 per cent) of chief economists surveyed expect the global outlook to remain stable or improve – a sharp improvement from May, when 89 per cent expected conditions to weaken. The improvement comes with limited confidence that the stabilization will hold.

Nearly all respondents (97 per cent) named geopolitical conflicts as a likely source of uncertainty over the next year, 58 per cent expected asset-price corrections, and only one-quarter expect the global economy to become more resilient, the WEF said.

About India, it said the country continues to have the strongest growth out-

look among the geographies covered in the survey.

Of chief economists surveyed from across the world, 98 per cent expected moderate or stronger growth over the next 12 months in India, including 74 per cent who anticipated strong or very strong growth, compared with 52 per cent in May.

The growth forecast for fiscal year 2026-27 was raised to 6.7 per cent in August, reflecting continued resilience in domestic demand.

"Growth is expected to remain supported by resilient domestic demand, although higher energy prices continue to weigh on the outlook," it said.

The report further said the US leads the ranking of favourable business environments for multinational companies, followed by South-East Asia and Europe (both up one position).

India dropped from second to fourth place com-

pared to the last outlook, with only 40 per cent of respondents including it in their top three destinations (down from 56 per cent in May). China came in fifth with 31 per cent of respondents including it in their top three destinations.

Globally, 97 per cent chief economists expect AI adoption to rise, but 79 per cent foresee data-centre expansion facing significant backlash, with 61 per cent not expecting significant global job creation, the WEF said.

It further found that the AI race between China and the US is expected to narrow, with 69 per cent expecting Chinese large language models to catch up to their US counterparts in the next 12 months.

Growth prospects have strengthened across most regions but remain uneven, with India, South-East Asia, Central Asia and the United States receiving the strongest assessments, the report said. China's outlook has weakened, with about one in three economists expecting weak growth. Europe has improved modestly but remained the weakest region, with 61 per cent expecting weak or very weak growth.

PSPCL Director refutes reports of shutdown of units at govt thermal power plants

MPOST BUREAU

Patiala, September 22

PSPCL Director Generation Er. Punnerdeep Singh Brar on Tuesday said social media reports about shutdown of power generation units at government thermal plants were factually inaccurate. He said all operational PSPCL units were generating power as per available capacity and supply was continuing smoothly across Punjab.

Brar said one Talwandi Sabo unit was earlier shut due to a technical fault, while a Ropar unit remained shut due to lower demand. However, all units at both plants are currently generating power. One Ropar unit may be kept shut depending on demand.

He clarified such shutdowns were not due to power shortage or supply problems. Farmers are currently receiving around 10 hours of supply against the scheduled eight hours, while domestic, commercial and industrial consumers are receiving uninterrupted power.

Brar said PSPCL, under CMD Gurkirat Kirpal Singh, IAS, was ensuring reliable supply and urged people to verify power-related information through official sources.

J&K Bank holds its 88th Annual General Meeting

MPOST BUREAU

Srinagar, September 22

J&K Bank on Tuesday held its 88th AGM at SKICC, chaired by Part-time Non-Executive Chairman S. Krishnan in the presence of MD & CEO Amitava Chatterjee and directors.

Krishnan said, "Trust is our inheritance. Tradition is our anchor. Transformation is our obligation," stressing the bank's role in regional economic transformation. Chatterjee said

the bank posted an all-time high net profit of Rs 2,363 crore in FY26, up 13.5 per cent, and crossed Rs 3 trillion in total business by June 2026. He said digital transactions grew up to 94 per cent during FY26 and the bank would invest in technology, cybersecurity and customer experience.

The AGM concluded with shareholders' queries, with Chatterjee announcing recruitment for associate and officer posts in J&K & Ladakh.

Sensex drops 330 pts on selling in IT stocks

PRESS TRUST OF INDIA

Mumbai, September 22

Benchmark indices Sensex and Nifty ended lower on Tuesday despite a positive trend in global markets and easing crude oil prices, dragged by IT, financials and capital goods stocks.

The 30-share BSE Sensex declined 329.91 points, or 0.44 per cent, to settle at 74,529.08.

The 50-share NSE Nifty ended 85.30 points, or 0.36 per cent, lower at 23,329, snapping a four-day rally.

Among the 30 Sensex firms, Bajaj Finserv, Trent, Bajaj Finance, SBI, Sun Pharma & UltraTech Cement were the major laggards.

Eternal, Interglobe Aviation, Titan & Tata Steel

were among the winners.

The BSE MidCap Select index dipped 0.27 per cent and the SmallCap Select index was down 0.22 per cent.

Among the BSE sectoral indices, Housing Finance tanked 1.03 per

cent, Focused IT 1.01 per cent, Capital Goods 0.87 per cent, IT 0.79 per cent, FMCG 0.68 per cent, Industrials 0.50 per cent, PSU Bank 0.50 per cent, Bankex 0.45 per cent and Insurance 0.45 per cent.

Telecom jumped 1.01

HIGHLIGHTS

» Among the 30 Sensex firms, Bajaj Finserv, Trent, Bajaj Finance, State Bank of India, Sun Pharma and UltraTech Cement were the major laggards

» Eternal, Interglobe Aviation, Titan & Tata Steel were among the winners

» BSE MidCap Select index dipped 0.27% & SmallCap Select index fell 0.22 %

Rupee jumps 16 paise to 95.62 against dollar

PRESS TRUST OF INDIA

Mumbai, September 22

The rupee appreciated 16 paise to close at 95.62 against the US dollar on Tuesday, supported by a sharp fall in crude oil prices and hopes of diplomatic talks to resolve the US-Iran war.

At the interbank forex market, the rupee opened at 95.75 against the US dollar, then gained ground & touched 95.55 against the dollar in intraday trade.

At the end of the trading session on Tuesday, the rupee settled at 95.62 against the American currency, up by 16 paise from its previous close.

Uttar Pradesh strengthens position as global trade, investment and manufacturing hub

MPOST BUREAU

Greater Noida, September 22

Uttar Pradesh is strengthening its position as a major centre for global trade, investment and manufacturing, with the state government focusing on attracting investments, promoting exports and connecting local entrepreneurs with international markets.

These efforts will be showcased at the Uttar Pradesh International Trade Show (UPITS)-2026, scheduled from Septem-

ber 25 to 29 at India Expo Center and Mart in Greater Noida. Vietnam, Japan, Singapore, Russia, Austria and Belarus will participate as Partner Countries, supporting the state's 'Local to Global' initiative.

According to the Partner Country Plan, Vietnam and Japan have been allocated 54 square metres each, Singapore and Russia 36 square metres each, and Austria 54 square metres. The proposed participation from five countries includes 36 exhibitors and 100 buy-

ers. Belarus will participate through chief ministerial and B2B activities.

The programme will include B2B meetings, country sessions, roundtables and interactions with high-level delegations. Special interaction sessions with Chief Minister Yogi Adityanath have been proposed on September 25. Delegations will include ambassadors, high commissioners, trade commissioners and senior industry representatives.

Vietnam's participation

will cover aviation, tourism, agriculture, pharmaceuticals, cosmetics, food, textiles, garments, handicrafts and electric vehicles. Japan will showcase technology and industrial products, while Singapore, Russia and Austria will feature businesses spanning surveillance, education, petrochemicals, industrial equipment, diagnostics, mobility and transport.

UPITS-2026 connects UP entrepreneurs with foreign buyers, explore investments & forge partnerships.

ED charges EaseMyTrip co-founder in Mahadev online betting app case

AGENCIES

New Delhi, September 22

The Enforcement Directorate (ED) has charged EaseMyTrip co-founder Nishant Pitti with allegedly facilitating the entry of proceeds from illegal betting into the Indian equity market under the guise of FPIs in the Mahadev online betting app money laundering case.

ED has also provisionally attached Pitti's demat shares worth Rs 59.60 crore under the Prevention of Money Laundering Act

(PMLA). The attachment order was issued on September 10, when the agency filed its fifth supplementary charge sheet before a special PMLA court in Raipur, seeking confiscation of the shares as proceeds of crime.

Pitti, 40, chairman-cum-managing director of EaseMyTrip, was named among 42 individuals and companies in the filing. ED has described him as a "close associate" of Dubai-based businessman Hari Shankar Tibrewal, alleged owner of illegal betting platform

Skyexchange.

The agency alleged Pitti helped layer proceeds generated through Skyexchange and was involved in a pre-arranged deal to manipulate EaseMyTrip's stock price and inflate its market capitalisation. EaseMyTrip had earlier denied any direct or indirect association with the Mahadev betting app or other betting platforms.

ED has alleged the Mahadev betting network generated around Rs 80,000 crore in proceeds of crime since 2019.

Punjab's 5 co-op sugar mills win national awards

MPOST BUREAU

New Delhi, September 22

Five cooperative sugar mills in Punjab have won national awards for financial management, cane development and technical efficiency at the National Cooperative Sugar Industry Conclave-2026 here.

Punjab Agriculture and Farmers Welfare Minister S Gurmeet Singh Khudian received the awards from Union Minister for Road Transport and Highways Nitin Gadkari.

The Batala Cooperative Sugar Mills Ltd secured second position in Financial Management (Other Recovery Area), while Fazilka and

Budhewal Cooperative Sugar Mills Ltd secured second positions in Best Cane Development. Nakodar Cooperative Sugar Mills Ltd secured second and Bhogpur Cooperative Sugar Mills Ltd third position in Technical Efficiency.

Khudian said, "under the leadership of Chief Minister S Bhagwant Singh Mann", the government was promoting modern techniques to increase sugarcane productivity, improve recovery and reduce cultivation costs. He

termed the awards a matter of "great pride for Punjab".

He said growers receive Rs 416 per quintal, including Rs 68.50 subsidy. Sugarcane area rose from 1,11,818 hectares in 2025-26 to 1,16,131 hectares in 2026-27, with around 700 lakh quintals expected.

PAU experts, the Agriculture Department and mills have trained about 15,000 farmers through 320 camps. A Rs 3,200-per-acre incentive supports demonstration plots, while machinery is provided at 40 per cent subsidy. Punjab Cooperation Department Secretary Ajit Bala Joshi and Sugarfed MD Dr Senu Dugal were also present.

Experts stress on prevention for heart health

'We need to make prevention a habit, not just an afterthought'

MPOST BUREAU

New Delhi, September 22

Cardiologists and health experts called for stronger preventive healthcare programmes, wider CPR training and healthier lifestyles to curb cardiovascular risks linked to pollution, stress and changing lifestyles at an Illness to Wellness Foundation conference ahead of World Heart Day 2026.

(Padma Bhushan) Dr T.S. Kler, Chairman & HOD, BLK-Max Heart & Vascular Institute and Chairman, Pan Max - Electrophysiol-

ogy, called for structured preventive programmes, saying awareness must translate into sustained community action.

(Padma Bhushan) Dr (Prof.) K.K. Talwar, Chairman, PSRI Heart Insti-

tute, said, "Every minute is important. It is only the person who is by the side that matters," and sought wider CPR training.

(Padma Shri) Dr Ganesh Kumar Mani, Chairman, Cardiac Sciences, CTVS,

Max Smart Super Speciality Hospital, stressed prevention and healthier choices.

Anil Rajput, Chairperson, Advisory Council, Illness to Wellness Foundation, said healthy living depends on everyday choices.

Dr Gautam Singal, Member, FICCI Health Services Committee and Senior Consultant and Professor of Cardiology, Amrita Institute of Medical Sciences & Research Centre, said, "We need to make prevention a habit, not just an afterthought or a reaction."

TABLE TENNIS

Asiad: India knocked out

PRESS TRUST OF INDIA
Toyota, September 22

The Indian women's team crashed out of the Asian Games table tennis quarter-finals after a 0-3 defeat to North Korea but did one better than their men counterparts, who were ousted in the round of 16, here on Tuesday.

The Indian women's team had beaten Thailand 3-2 to make it to the last eight with a hard-fought win at the Sky Hall, but could not continue their momentum and suffered a crushing defeat in the quarterfinal against the Koreans. However, it was a disappointing outing for the Indian men's team, also against Korea, which bowed out of the competition.

Harmeet Desai made a winning start with an 11-8 victory in the first game, but lost the next three to Korea's Jang Woo-jin to go down 1-3 (11-8, 7-11, 8-11, 9-11) in the match.

In the second match, Manush Shah was under the pump following a 4-11 hammering in the first game but bounced back to win the next two. However, his opponent Oh Jungsung clinched the match 3-2 (4-11, 11-8, 13-11, 11-13, 6-11).

There was no respite for India as Manav Thakkar began with a 10-12 loss in the first game, before losing the third match to An Jaeh-yun 1-3 (10-12, 6-11, 11-7, 10-12).

Chanu eyes elusive Asian Games medal

PRESS TRUST OF INDIA
Nagoya, September 22

An Olympic silver, a world title and Commonwealth golds already adorn Mirabai Chanu's glittering trophy cabinet, but an Asian Games medal remains missing, and the star Indian weightlifter will look to complete the collection when she takes the platform here on Wednesday.

Chanu, who will compete in the women's 49kg category, enters the competition with the absence of Chinese lifters giving her a better chance of breaking her Asian Games medal jinx.

But standing in her way is reigning world and Asian Games champion Ri Song Gum of North Korea, who remains the biggest threat to Chanu's gold medal hopes.

The Manipuri has twice missed the Asian Games podium. She finished ninth on her debut in 2014, missed the 2018 edition due to a back injury and came fourth in Hangzhou in 2023 after sustaining a hip injury on the platform.

The 32-year-old has since been working specifically towards the Asian Games with chief coach Vijay Sharma.

Even after winning gold at the recent Commonwealth Games in Glasgow, Chanu returned to training the following day as she continued preparations for the Aichi-Nagoya Games.

"The focus is on to win a medal at the Asian Games. That's been the aim for a very long time.

EAST CENTRAL RAILWAY

E-Tender Notice
e-tender Notice No. 43 of 2026-27 (Open) - Engg/DDU

BECOME 1ST TEAM TO REGISTER 200 WINS IN MEN'S T20IS

One-off T20I: India survive Japanese scare to win by 2 runs

PRESS TRUST OF INDIA
Sano, September 22

Seasoned spinner Axar Patel choked the inexperienced Japanese batters just in time as India flirted with defeat before winning the rain-curtailed one-off T20 International between the two mis-matched sides by a mere two runs here on Tuesday.

With the match being reduced to five overs-a-side due to inclement weather and the underlying moisture on the surface offering more than expected turn, the apparent gulf in talent and experience was seemingly bridged as India managed only 32 for 4 in five overs hitting a total of three boundaries.

In the end, the sizeable expat turnout gave a standing ovation to the Japanese team whose players came up to click selfies and get their jerseys signed by some of the biggest stars of world cricket.

Jasprit Bumrah was much in demand for autographs and photographs although he did not play. One of the Japanese players got a signed India jersey from Abhishek Sharma while skipper Shreyas Iyer also had some words of encouragement for the home team players.

"See I always keep saying five overs game, it can go anywhere. The attitude shown by the Japanese team today was impeccable. I'm sure they are on the right track. For us, it was a great practice on the wicket," Iyer

Axar Patel in action

HIGHLIGHTS

- » Jasprit Bumrah was much in demand for autographs and photographs although he did not play
- » In the end, the sizeable expat turnout gave a standing ovation to the Japanese team whose players came up to click selfies and get their jerseys signed by some of the biggest stars

said at the end of the match.

Shafali climbs to No. 4 in ICC T20I rankings

PRESS TRUST OF INDIA
Dubai, September 22

Swashbuckling Indian opener Shafali Verma has climbed two places to fourth in the ICC Women's T20I Batting Rankings after her maiden century in the shortest format at the women's cricket competition at the ongoing Asian Games.

Shafali's unbeaten 100 against Bangladesh in the semifinal at Nisshin, Japan, came after she had scored an unbeaten 40 in India's victory over Japan in the quarterfinal.

In the latest rankings update that considers performances until Monday, Indian players continue to occupy the top two bowling positions.

Jugraj, Abhishek, Dilpreet's hat-tricks hand India 16-1 win over Sri Lanka

PRESS TRUST OF INDIA
Kakamigahara, Sept 22

Dragflicker Jugraj Singh, strikers Abhishek and Dilpreet Singh scored a hat-trick each as the Indian men's hockey team hammered a lowly Sri Lanka 16-1 in its second Pool A match at the Asian Games here on Tuesday.

India had earlier defeated Indonesia 13-1.

Jugraj (10th, 22nd, 42nd and 53rd) scored four goals, while Abhishek (11th, 17th, 49th), and Dilpreet (30th, 38th, 55th) scored three field goals each.

Skipper Harmanpreet Singh (16th, 45th), Mandeep Singh (5th), Sukhjeet Singh (29th), Manpreet Singh (31st), and Vivek Sagar Prasad (36th) also

found the net.

Sri Lanka's lone goal -- their first against India in the Asian Games history -- was scored by Suresh Rathnayake in the 50th minute.

India will next play South Korea on Thursday.

The Indians were expectedly the dominant side from the onset

as they controlled the proceedings against the unfancied Lankans.

It took India just five minutes to break the deadlock when Mandeep scored from an assist from Abhishek. About five minutes later, Jugraj doubled India's lead scoring with a powerful dragflick from a set piece.

Badminton: Indian men outclass Japan 3-0 to be assured of medal

Indian women's team out of medal contention with 1-3 QF loss to Japan

PRESS TRUST OF INDIA
Nagoya, September 22

Lakshya Sen's stirring comeback was the perfect subplot as the Indian men's badminton team produced a superlative performance to outwit Japan in the quarterfinals and assure itself of a medal, but it was curtains for the women's team following a 1-3 loss to the hosts at the Asian Games here on Tuesday. It was a flawless performance from the Indian men, silver medalists at the last edition, as they rode on victories from Lakshya, Satwik-sairaj Rankireddy and Chirag

Shetty, and Ayush Shetty.

Coming into the event after a series of early exits and low on confidence, Lakshya was staring at defeat after losing the opening

game and trailing 14-19 in the decider.

However, the 25-year-old from Almora proved his mettle, reeling off seven straight points to

beat world No.7 and two-time world championships silver-medallist Kodai Naraoka 11-21, 21-5, 21-19 to give India a 1-0 lead. Playing the first doubles, Satwik and Chirag, who have won two titles this season, registered a 21-18, 24-22 win over former world champions Hoki Takuro and Kobayashi Yugo to extend India's lead to 2-0.

Ayush, a finalist at the Badminton Asia Championships this year, then produced an impressive performance to see off world no. 16 Koki Watanabe 21-10 21-19 to seal the match and a medal for India.

FILM

‘Looking my best is now about feeling my best’

Bollywood actress Katrina Kaif opened up about how motherhood changed her

Katrina Kaif is not just an actress now - she is a successful entrepreneur and a new mom. In a recent interview, she spoke about her brand, how motherhood and pregnancy changed her and what makes her feel most like yourself, away from a film set, a red carpet or a brand meeting.

Speaking to 'The Hollywood Reporter India', Kaif spoke about what helps her feel grounded when she is away from films, red carpets and brand commitments. For her, spending time with family and friends is an important part of maintaining that balance.

"Having downtime with your family and friends always helps you find your centre. For me, I have to discipline myself to switch off sometimes. It's ingrained in me to constantly be working and creating something, whether with films or with 'Kay Beauty', so learning to have moments

FOR HER, SPENDING TIME WITH FAMILY AND FRIENDS IS AN IMPORTANT PART OF MAINTAINING THAT BALANCE

where you disconnect is important to recharge and reset," she said.

Reflecting on how her beauty standards have changed since she began her modelling and acting career, she said, "It's changed a lot. When I started out early in my modelling and acting career, there were a lot of stereotypes about what the beauty standards were. Now for me, looking my best is really about feeling my best and that comes from taking care of myself as a whole."

Krishna Mukerji passes away at 75

Krishna Mukerji, the mother of actress Rani Mukerji, passed away on September 22 at the age of 75. The news was confirmed by 'Yash Raj Films', which issued a statement on behalf of the family. The family has expressed gratitude for the love, prayers and support received and requested privacy as they grieve the loss.

In a statement, 'Yash Raj Films' said, "With heavy hearts, we share that Rani Mukerji's mother Mrs Krishna Mukerji, 75, passed away this afternoon."

The family has requested privacy during this difficult period as they mourn Krishna Mukerji's death.

Krishna was known to have connections with the Bengali and Hindi film industries, having worked as a playback singer during her career. Her reported film credits include 'Momer Alo', 'Haiwan', 'Teesri Aankh' and 'Tomar Rakte Amar Sohag'. She was married to filmmaker Ram Mukerji, who directed and produced films and was also among the co-founders of 'Filmalaya Studios'. The couple had two children, actress Rani Mukerji and filmmaker Raja Mukerji. Ram Mukerji died in 2017 at the age of 84.

Krishna Mukerji came from a family with strong ties to Bengali cinema. She was the sister of National Award-winning actress Debashree Roy. Through her marriage to Ram Mukerji, Krishna also became part of the wider Muke-

RANI MUKERJI'S MOTHER WAS KNOWN TO HAVE CONNECTIONS WITH THE BENGALI AND HINDI FILM INDUSTRIES, HAVING WORKED AS A PLAYBACK SINGER DURING HER CAREER

ri-Samarth film family. The extended family includes several prominent names from Indian cinema, including actress Kajol and filmmaker Ayan Mukerji.

Rani Mukerji has spoken on several occasions about the profound influence her mother had on her life, values and career. Earlier this year, while speaking to 'India Today', the actress recalled growing up in a 'humble Bengali family' and experiencing financial difficulties during her childhood.

‘DAREDEVIL...’ to end with season three

Marvel Studios' 'Daredevil: Born Again', starring Charlie Cox as the titular blind lawyer-turned-vigilante, will conclude with its upcoming third season, which is expected to premiere on 'Disney+' in 2027.

The third season has completed production and is currently in post-production. Co-creator and showrunner Dario Scardapane has also exited the series,

according to 'The Hollywood Reporter'.

'Daredevil: Born Again' premiered in 2025 as a revival of the live-action 'Daredevil' story, bringing Cox back as Murdock

and Vincent D'Onofrio as crime lord Wilson Fisk, also known as Kingpin.

The series continues the story of Netflix's 'Daredevil', which ran for three seasons from 2015 to 2018 and followed Murdock, a blind lawyer who uses his heightened senses to fight crime as the masked vigilante Daredevil. The 'Netflix' series formed part of Marvel's street-level television universe.

Actor Tom Cruise speaks about AI

Hollywood star Tom Cruise said artificial intelligence is 'coming and going to happen', but also agrees the audience wants to experience 'real things' on screen.

The emergence of AI and the use of technology specifically in the film industry has been a topic of debate. While some celebrities have spoken in favour of technological advances, others have expressed concerns.

Cruise, known for his roles

in 'Top Gun: Maverick' and the 'Mission: Impossible' franchise, attended the BAFTA 'Life in Pictures' conversation on Monday in London, according to the entertainment news outlet 'Variety'.

Asked about AI, the actor said, "You know, it is coming and it is going to happen... But people want to see real things." He also

HE ALSO ADDED CREATIVES SHOULD 'KEEP CREATING'

added creatives should 'keep creating'.

During the conversation, the actor also spoke about the theatrical experience of watching films and called it 'a different art form'. "I have nothing against streaming or anything like that, but seeing a film in theatres is simply a different art form," he said.
