Xi returns to India after 7 years for BRICS

Xi's visit, at Modi's Invitation, will provide an opportunity for leaders to review India-China ties

VINAY KUMAR
New Delhi, September 10

After nearly seven years, Chinese President Xi Jinping is set to return to India this weekend, arriving in New Delhi on September 12 for the 18th BRICS Summit and a closely watched meeting with Prime Minister Narendra Modi. Confirmed by Beijing on Thursday, Xi's visit comes as the two Asian powers seek to steady ties after years of tension over the border, with the Modi-Xi talks expected to take stock of recent progress and efforts to resolve outstanding boundary issues.

"At the invitation of the Prime Minister of the Republic of India, Narendra Modi, President Xi Jinping will attend the 18th BRICS Summit in New Delhi from September 12 to 13," China's foreign ministry said.

Xi last visited India in

October 2019, when he met Modi for an informal summit in Mamallapuram near Chennai. He had earlier

travelled to Goa in 2016 to attend the BRICS summit and made his first visit to India in September 2014,

- » Modi-Xi talks likely to review bilateral ties
- » Border dispute expected to figure prominently
- » 2020 Ladakh standoff severely strained bilateral relations
- » Modi-Xi met at BRICS Kazan summit
- » Both agreed to revive border dialogue mechanisms

XI LAST VISITED INDIA IN OCTOBER 2019, WHEN HE MET MODI FOR AN INFORMAL SUMMIT IN MAMALLAPURAM

during the first terms of both leaders.

Relations deteriorated sharply after the 2020 mil-

itary standoff along the Line of Actual Control in eastern Ladakh. The Galwan Valley clash in June that year left 20 Indian soldiers and at least four Chinese troops dead, taking bilateral ties to their lowest level in decades.

The four-year military face-off began to ease after India and China reached an understanding in October 2024 on disengagement at the remaining friction points of Depsang and Demchok. Modi and Xi met days later on the sidelines of the BRICS summit in Kazan and agreed to revive mechanisms for dealing with the boundary dispute and restoring normal relations.

Since then, the two sides have taken steps to rebuild contacts, including resuming direct flights and restarting the Kailash Mansarovar Yatra. Diplomatic and military channels have also remained

active to maintain peace and tranquillity along the LAC. In May, the Working Mechanism for Consultation and Coordination on India-China Border Affairs reviewed the situation and noted progress in maintaining peace along the frontier.

The efforts gained further momentum in August when National Security Adviser Ajit Doval and Chinese Foreign Minister Wang Yi held the 25th round of Special Representatives' talks in Beijing. The two sides reached an eight-point consensus covering additional military meeting points, new hotline channels and the reopening of three designated border trading points. They also agreed to advance discussions towards an "Early and Substantial Harvest" on boundary delimitation and border management.

The two countries followed this with their first corps

75 YEARS OF TIES Modi, Merz discuss trade, defence, clean energy

OUR CORRESPONDENT
New Delhi, September 10

Prime Minister Narendra Modi and German Chancellor Friedrich Merz reviewed the progress of the India-Germany Strategic Partnership during a telephone conversation on Thursday, as the two countries mark 75 years of diplomatic relations this year.

The leaders discussed ways to expand cooperation in several areas, including trade and investment, defence, clean energy, advanced technologies, education and talent mobility. They also noted the continued momentum in high-level exchanges between the two countries and reaffirmed their commitment to strengthening bilateral ties.

"Prime Minister Shri Narendra Modi received a telephone call today from the Chancellor of the Federal Republic of Germany,

KEY POINTS

- » India and Germany mark 75 years of ties
- » Both reaffirm commitment to stronger bilateral cooperation
- » High-level exchanges between countries maintain momentum
- » Trade and investment cooperation reviewed
- » Defence cooperation remains a key priority
- » Clean energy identified as another cooperation area

H.E. Friedrich Merz," the Prime Minister's Office said in a statement. The two leaders also

August 2026 joint warmest month ever

NEW DELHI: August 2026 was the joint warmest August on record, matching July 2023, the Copernicus Climate Change Service (C3S) said Thursday. Global average surface air temperature was 1.65 degrees Celsius above the estimated pre-industrial level, marking the first time since November 2025 that a monthly average crossed 1.5 degrees Celsius. C3S attributed the heat mainly to greenhouse gas emissions from fossil fuel use, along with El Nino conditions in the tropical Pacific.

UN Climate Change Executive Secretary Simon Stiell said continued coal, oil and gas use would keep driving extreme heat, affecting health and transport systems, raising food prices

Trump moves to end 60-day H-1B grace

WASHINGTON: The Donald Trump administration has proposed ending the 60-day grace period available to certain foreign workers after they lose their jobs in the US, a move that could particularly affect Indian technology professionals. Reuters reported that the proposal, published by the Department of Homeland Security in the Federal Register on Thursday, would require affected workers to leave the country when their employment ends instead of using the grace period to find a new sponsor or arrange their departure.

Top court seeks action on harassment of minor 14-year-old girl participated in July CJP protests at Jantar Mantar

MPOST BUREAU
New Delhi, September 10

The Supreme Court on Thursday directed authorities to act on allegations that a 14-year-old girl who took part in the July Cockroach Janta Party (CJP) protests was harassed after filing an FIR and warned that no one should be allowed to pressure her or her family into dropping criminal proceedings.

A bench headed by Chief Justice of India Surya Kant, along with Justices Joymalya Bagchi and V Mohana, asked Solicitor General Tushar Mehta to ensure that action was taken on the girl's FIR. It also sought reports from the Delhi and Uttar Pradesh governments on the allegations.

"Such matters cannot be taken lightly. Nobody should be protected if violence against a child is involved," the bench said. It added that allowing accused persons to remain free while allegedly trying to intimidate the child or her family would be a serious matter.

The girl's counsel told the court that her house was vandalised after she lodged the FIR against a man who had claimed in a video that he assaulted her father during the CJP protest. The lawyer alleged that people seen accompanying the accused in the video had

Magistrate who issued notice to student over CJP protest suspended

MPOST BUREAU
New Delhi, September 10

A Greater Noida Executive Magistrate has been suspended by the government after issuing a show-cause notice to Gautam Buddh University student Akshat Tripathi, seeking a personal bond of Rs 5 lakh over his alleged role in campaigning for a protest by the Cockroach Janata Party (CJP), Solicitor General Tushar Mehta told the Supreme Court on Thursday.

The matter was raised before a bench headed by Chief Justice of India Surya Kant during proceedings concerning the July student protests. Senior Advocate PV Dinesh, appearing for Tripathi, urged the court to take up his petition and said, "A strong message must go to the officers." The CJI said he had taken a strong view of the notice

DGCA orders drug tests for all pilots

NARESH BISWANI
New Delhi, September 10

The Directorate General of Civil Aviation (DGCA) has ordered airlines to conduct drug tests for all pilots, with the exercise to be completed by July 2027, sources said on Thursday.

The move follows the Phuket-Delhi flight incident in which the pilot-in-command tested positive for a psychoactive substance.

The Air India flight, carrying 145 people, suffered a near-simultaneous loss of all three hydraulic systems while cruising at 36,000

feet on August 4. The incident led to an altitude upset and injured 24 passengers. The Aircraft Accident Investigation Bureau

THE MOVE FOLLOWS THE PHUKET-DELHI FLIGHT INCIDENT IN WHICH THE PILOT-IN-COMMAND TESTED POSITIVE

(AAIB), in its preliminary report released on September 4, said the pilot returned a non-negative result in a confirmatory test after the flight. It called the confirmed use of a psychoactive substance a "serious concern" and recommended priority action by the DGCA.

Air India terminated the pilot's employment the same day, citing its zero-tolerance

SC won't take over Satya Niketan PG collapse case

OUR CORRESPONDENT
New Delhi, September 10

The Supreme Court on Thursday decided against taking over the Satya Niketan building collapse case from the Delhi High Court, saying the matter had begun to progress there and that it did not want to disrupt the process.

A bench of Justices Ahsanuddin Amanullah and R Mahadevan said

the high court should continue monitoring compliance with its directions at short intervals. The matter will next be heard on September 15.

The five-storey building, which housed a boys' paying guest accommodation near Delhi University's South Campus, collapsed on Sunday. Seven people were killed and 12 injured. The building owner, his wife and son

Govt tightens e-commerce rules

Rules to check price manipulation, dark patterns, fake sponsored listings

OUR CORRESPONDENT
New Delhi, September 10

The government has tightened rules governing e-commerce platforms, introducing new requirements on price disclosures, sponsored listings, search results, consumer consent and the use of dark patterns. The Department of Consumer Affairs announced the changes on Thursday.

The Consumer Protection (E-Commerce) (Amendment) Rules, 2026, will take effect from January 1, 2027. The amendments modify the Consumer Protection (E-Commerce) Rules, 2020, which were notified under the Consumer Protection Act, 2019, to protect consumers from unfair trade practices in online commerce.

Under the new rules, platforms announcing a discount will have to show both the reduced price and the product's "prior price". The prior price has been defined as the lowest price at which the

SUMMIT SET FOR SEPTEMBER 12-13

BRICS shield: 15,000 police personnel, 500+ cameras

OUR CORRESPONDENT
New Delhi, September 10

Delhi Police has put in place a multi-layered security system for the upcoming BRICS Summit, with around 15,000 personnel and 200 companies of paramilitary forces to be deployed across the national capital, a senior police officer said on Thursday.

The police have also installed more than 500 CCTV cameras, including high-resolution and specialised surveillance cameras, to keep a round-the-clock watch over key areas, the official said.

Manish Kumar Agrawal, Special Commissioner of Police (Protective/Security Division), said the arrangements have been planned to ensure maximum security for visiting dignitaries while causing minimum inconvenience to the public.

“We have made elaborate bandobast by ensuring minimum inconvenience to the public. We have also issued advance advisories regarding traffic arrangements,” Agrawal said.

He said the Delhi Police is working in close coordination with multiple agencies for the summit and extensive surveys of all identified routes have already been carried out.

Massive deployment will be made for law and order, security and traffic management, he said, adding that security arrangements will cover the airport, hotels and other scheduled and unscheduled locations that may be visited by the dignitaries.

The officer said a multi-layered security system has been put in place, with enhanced access control, vigilance and robust security measures at Bharat Mandapam, the main venue of the summit. Similar arrangements have been strengthened at hotels where foreign dignitaries will stay.

Coordination meetings have also been held with neighbouring states to ensure seamless security arrangements and facilitate coordination during the movement of dignitaries, he said.

“Intelligence inputs will be coordinated and shared among the agencies concerned,” Agrawal said, emphasising that all available inputs are being analysed as part of the security preparedness.

Emphasising the force’s commitment to a balance between security requirements and the daily movement of people in the city, he said, “Maximum security with minimum inconvenience to the public will be ensured.”

The BRICS Summit is scheduled to be held at Bharat Mandapam on Sep-

tember 12 and 13, but traffic restrictions linked to the movement of foreign delegations and dignitaries are expected to begin from September 10 and continue until around September 14, officials had said on Wednesday.

In the New Delhi zone, more than 500 CCTV cameras will be deployed, with the surveillance network comprising 4K high-resolution cameras, 2K cameras, facial recognition system (FRS) cameras and vehicle number plate-reading cameras, all connected to a monitoring room, another senior police officer said.

“We are prepared to deal with any law-and-order situation, including from the anti-terror and security perspectives. We are fully prepared in terms of intelligence inputs, our personnel have been thoroughly briefed, and all necessary security drills have been conducted. We are fully geared up for the event,” New Delhi Deputy Commissioner of Police Sachin Sharma said. Combing exercises have also been conducted by Delhi Police and paramilitary forces in several stretches.

NDMC lights up Capital ahead of BRICS Summit

ANAMTA FATIMA
New Delhi, September 10

With the BRICS Summit approaching, the New Delhi Municipal Council (NDMC) has stepped up its preparations to give the capital’s central areas a uniform and illuminated appearance for visiting delegates and international guests.

As part of the preparations, decorative lighting has been installed at 17 major roundabouts, 11 hotel premises and 10 prominent NDMC buildings across the civic body’s jurisdiction. Trees, shrubs and landscaped areas at key roundabouts have been fitted with uplighters, LED strings and other decorative lighting arrangements.

The illuminated roundabouts include Patel Chowk, Windsor Place, Mandi House, Shantipath-Kautilya, Shantipath-Panchsheel, Shantipath-Satya Marg, RML, Teen Murti, Q-Point, Claridges Hotel, Samrat Hotel, Ashoka Hotel, Methi, Lok Kalyan Metro Station, Man Singh,

India-Afghanistan opening T20 to go ahead as scheduled

OUR CORRESPONDENT
New Delhi, September 10

The T20 series opener between India and Afghanistan will go ahead as scheduled, the DDCA said on Thursday, despite Delhi Traffic Police’s request to reschedule the game due to the high-profile BRICS Summit.

Afghanistan will be ‘hosting’ India for the three-match series here at the Arun Jaitley Stadium with the matches slated to be played on September 13, 15 and 17. “India-Afghanistan 1st T20I on 13 September at Arun Jaitley Stadium will go ahead as scheduled,” DDCA wrote on X.

“Following a meeting with Delhi Traffic Police, DDCA has been assured of all necessary support and arrangements. No postponement,” it added.

Earlier, the Delhi Traffic Police had asked the DDCA to reschedule the opening match citing extensive traffic and security arrangements in place for the BRICS Summit over the weekend. In their letter dated September 9 to the DDCA, the DCP traffic (Central Range) had requested for consideration of rescheduling the match.

The letter said that a large number of foreign delegates, dignitaries and VVIPs are expected to visit Delhi for the BRICS Summit, scheduled for September 12 and 13. “The Summit requires extensive traffic arrangements, including WIP/VIP route regulation, traffic diversions, route clearance and deployment of personnel for smooth and uninterrupted movement of foreign delegates and associated vehicles,” it said.

Briefs

Rain likely on BRICS Summit days

NEW DELHI: Delhi, gearing up for the BRICS Summit on September 12 and 13, is likely to witness rain on both these days, with the IMD forecasting light to moderate rainfall in parts of the city, even as temperatures remained above normal on Thursday.

SC notice over Metro closures

NEW DELHI: The Supreme Court on Thursday sought response from the Centre, Delhi Police and others on a plea against the closure of 17 metro stations in the city during the Cockroach Janta Party protests. The closure of 17 metro stations and security restrictions around the protest site at Jantar Mantar in July threw traffic out of gear across central Delhi, leaving commuters stranded for hours at several spots and forcing many to take longer and costlier routes. A bench of Chief Justice of India Surya Kant and Justices Joymalya Bagchi and V Mohana issued notice to the Union of India, Delhi Police, Delhi Metro Rail Corporation and others on a plea filed by advocate Sparsh Kant Nayak.

GHAZIABAD: Man sets self ablaze, blames cops

DIPIKA KIROLA
Ghaziabad, September 10

A 20-year-old man allegedly set himself on fire outside Nehru Garden police outpost in Khoda Colony on Wednesday evening, claiming that cops had pressured him to compromise with three men who had allegedly assaulted him.

Irfan, a resident of Vandana Vihar, suffered serious burn injuries to both hands and his torso. He was taken to GTB Hospital in Delhi. People at the outpost managed to douse the flames and tore off his shirt while trying to save him. “Based on a complaint filed by Irfan, the process of registering an FIR is underway. We have also detained a few people in the matter. We

are also investigating any negligence from the cops present at the outpost,” said ACP Amit Saxena.

The incident followed a dispute involving a hardware shop rented by Zaid Siddiqui from Sherpal Yadav and Akash Yadav, who run a water supply business, allegedly parked their tanker and tractor outside the shop. Neighbours had also complained that the vehicles blocked their passage. The trio allegedly blamed Siddiqui for the complaints, assaulted him and locked his shop. Irfan had participated in a subsequent protest against the assault organised by residents and members of Bharatiya Kisan Union (Gajay).

MCD adds 176 e-vehicles for cleanliness in S Zone

OUR CORRESPONDENT
New Delhi, September 10

The Municipal Corporation of Delhi (MCD) on Thursday deployed 176 new electric sanitation vehicles across five wards in the South Zone to strengthen door-to-door garbage collection and waste transportation.

Mayor Pravesh Wahi flagged off the vehicles at the civic body’s headquarters at the Dr. Shyama Prasad Mukherjee Civic

Centre. The vehicles will be deployed in Vasant Vihar, Vasant Kunj, Green Park, Greater Kailash and C.R. Park. Of the 176 vehicles, 150 are primary waste collection vehicles, including 112 tippers and 38 e-rickshaws or three-wheelers. The remaining 26 are secondary vehicles, including refuse collectors, hook loaders, Tata-407 vehicles, JCBs and Bobcats, intended for waste transportation, lifting and handling.

SURVEYS PG ACCOMMODATIONS ACROSS DELHI

MCD steps up crackdown on unsafe buildings

ANAMTA FATIMA
New Delhi, September 10

The Municipal Corporation of Delhi (MCD) has intensified its enforcement drive against unauthorised constructions and structurally unsafe buildings, carrying out 34 demolition actions and sealing 17 properties across its 12 zones on Wednesday.

The civic body also issued 22 show-cause notices and passed four demolition orders during the day. The action followed a similar exercise on Tuesday, when 17 properties were demolished and five others sealed for violations of the Master Plan of Delhi and Building Bye-Laws.

Among the major actions was a demolition at a prop-

erty in Gali Gondni Wali, Kucha Chelan, Jama Masjid, where two ground-floor roof panels and a partition wall were removed with police assistance. Action was also taken against unauthorised construction at

Sadak Prem Narain in Bazar Sitaram.

In Vikas Nagar and Sector 17, Dwarka, the civic body acted against properties declared dangerous. At a property in Rana Pratap Bagh, four RCC roof-slab

panels on the third floor and one on the first floor were demolished, with reinforcement cut using a gas cutter. Similar action was taken at a property in Sardar Nagar, Model Town, where three RCC slab panels were removed.

Focus on PG accommodations

Alongside the enforcement drive, the MCD is conducting a city-wide survey of paying guest (PG) accommodation buildings to create a database and assess structural vulnerabilities.

So far, around 1,243 buildings housing PG facilities and approximately 24,000 occupants have been identified. The civic body is giving particular attention to buildings with

more than five storeys and RCC-framed structures, as well as four-storey buildings with load-bearing brick walls.

Following field assessments, the buildings are being classified as visibly safe, repairable with minor or major repairs, or visibly vulnerable/dangerous.

The survey is scheduled to be completed on September 10, after which the MCD plans to take action wherever unauthorised construction, structural deficiencies or other safety violations are found.

The exercise comes amid the civic body’s wider push to identify buildings that could pose risks to residents and occupants and act against violations before they lead to accidents.

Gurugram: 40-yr-old man shot dead

PRAJYOT DEOGHARE
Gurugram, September 10

A 40-year-old man was shot dead after three unknown assailants allegedly chased him down on busy Basai Road in Sector 9 on Thursday morning.

The police were alerted about the incident through a PCR call received at the Police Station Sector 9A.

According to the police, the accused chased down Mahender on his motorcycle between 9.30 am and 10 am on Thursday, police said. They further added that one of the unidentified men pulled out a gun and opened fire at him.

Mahender reportedly tried to flee the scene after being shot but eventually fainted a few metres

away from the men. The accused then allegedly escaped the crime scene on a motorcycle.

Locals informed the police after they spotted the victim on the road. Police reached the spot and rushed him to the Civil Hospital in Sector 10A, where he was declared dead.

Gurugram Police has stated that preliminary police custody suggests that Mahender had a personal vendetta with two of the accused. Further adding that police suspect the murder was a result of revenge. Turan also mentioned that police have identified two of the accused and that several police teams are currently deployed to track the remaining ones down and bring them to justice.

‘Manipuri musician died of massive internal bleeding’

PRESS TRUST OF INDIA
New Delhi, September 10

Manipuri musician Chongtham Vikram Singh died of massive internal bleeding caused by severe physical trauma to his chest and abdomen, according to a post-mortem report released on Thursday.

The fatal injuries occurred after a group of men allegedly attacked 54-year-old Singh because he had confronted them over noise outside his house in Kilokari village on Sunday.

The alleged attackers used their feet to beat Singh on the chest and abdomen after he fell to the ground, a senior police officer said, adding that the post-mortem findings

established the nature of the injuries caused during the assault.

Dr Sudhir Gupta, Chief of Forensic Medicine at AIIMS, said Singh died as a result of severe physical assault on his abdomen and chest, which resulted in massive bleeding.

“The person died as a result of severe physical assault on the abdomen and chest, which resulted in massive bleeding and death,” Gupta said.

The AIIMS post-mortem report found fractures of the first to 11th ribs on the left side and the sixth to ninth ribs on the right side, with bleeding and blood clots around the fractures. A splenic laceration was also found.

BEYOND THE BRICS TABLE

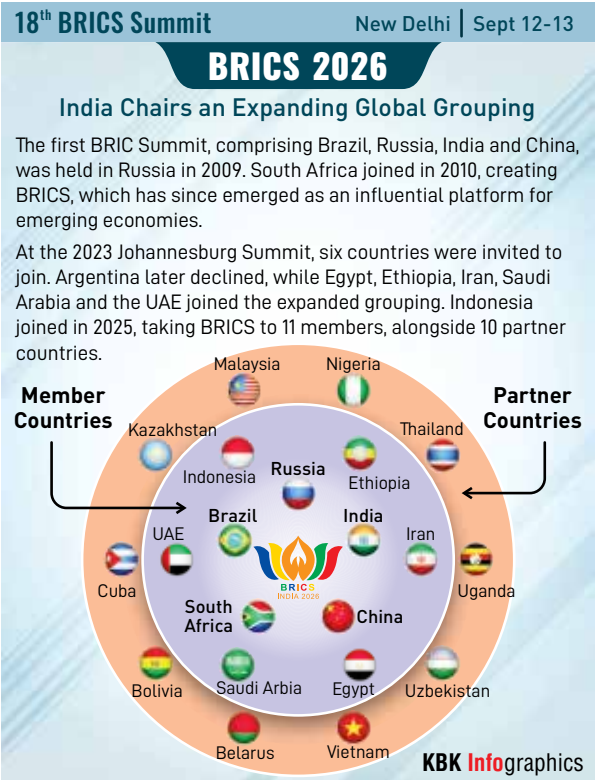

PM Modi’s key bilateral talks to shape India’s global balancing act

SIMONTINI BHATTACHARJEE
New Delhi, September 10

As the 18th BRICS Summit approaches, bringing together world leaders in New Delhi on September 12-13, the behind-the-scenes diplomacy that will unfold may be just as meaningful as the official discussions. Prime Minister Narendra Modi will meet with Russian President Vladimir Putin and Chinese President Xi Jinping amid ongoing geo-political tensions and the complexities in West Asia. These efforts reflect India’s desire to expand its strategic influence in a world that is increasingly divided, highlighting a hope for greater understanding and cooperation.

The first important meeting will be between Modi and Putin on September 11, one day before the official BRICS summit kicks off. The importance of the meeting stems from the fact that there is an array of issues on which Russia and India can engage. This includes bilateral economic relations, defence, and technological and energy cooperation. Russia has also announced its commitment to continue cooperating with India concerning arms supply, and discussions related to advanced technologies like the Su-57 fighter plane, reports suggest.

The Modi-Putin meeting would come at a very critical time for the global

economy and energy sector. With the war raging in West Asia and the disturbances at the Strait of Hormuz, energy security and smooth trade corridors have become the key themes of international politics. Ensuring energy security and maintaining its strategic relationships would become significant issues for India.

The visit of Xi Jinping to Delhi adds another layer of strategic significance. The Chinese President is expected to arrive in India on September 12 for the BRICS Summit, which would be his first visit to

India since 2019. This provides the Modi-Xi duo an excellent platform to move ahead with the process of stabilising Indo-China relations after years of military confrontations on the LAC.

A meeting between the Modi and Xi duo, therefore, is anticipated to attract a lot of attention. In addition to the issue of the boundary dispute, the discussion will also cover many other facets of their relationship such as trade, investment, visas, technology and people-to-people contact. While some efforts have been made recently in order to improve ties,

there is still much mistrust regarding security and economic concerns. According to Reuters, regulatory obstacles, investment limits and difficulties with visas and technology prevent any progress in bilateral relations. The importance of Modi-Xi interaction lies not only in the aspect of bilateral relations between India and China. The two countries are also two of the most powerful players in the enlarged BRICS group, and their cooperation or management of conflicts may determine the efficiency of the group.

The summit is also being held against the backdrop of differences within the expanded group of BRICS members concerning the West Asia crisis. Iran, which joined BRICS in 2024, is party to the West Asia crisis, while the United Arab Emirates is one of the members of the expanded group. The war and the disruption of the flow of goods via the Strait of Hormuz have made it difficult for the bloc to present a united front regarding global issues.

Given this context, meetings between Iranian President Masoud Pezeshkian and others are also likely to receive a lot of coverage. For India, Iran is important not just because of West Asia but also due to connectivity initiatives like Chabahar and India’s engagement with Central Asia.

Other foreign dignitar-

ies like Cyril Ramaphosa, President of South Africa, President of Egypt, Abdel Fattah el-Sisi, and President of Indonesia, Prabowo Subianto, are also expected to offer opportunities for bilateral engagements with Modi. However, an official list of the bilateral meetings of the Prime Minister has not yet been made public, and some of these encounters will most likely be in an informal format.

Expansion of BRICS has made the diplomatic situation much more complicated. With 11 members in the group, the group now comprises large emerging nations with different interests. The task that India has to accomplish in its capacity as the chair of BRICS is to build a consensus on various matters such as global governance reforms, energy security, technology, trade, and many others.

As a result, the meeting in Delhi is unlikely to be simply about the BRICS declaration itself. Indeed, especially the bilateral meetings between Modi and Putin, and Modi and Xi, could well come to mark India’s foreign policy balancing act—of nurturing its longstanding strategic alliance with Russia while competing and cooperating with China, as well as cultivating relationships in the Global South, all at once.

As such, the sides of the meeting might be just as diplomatically important as the actual summit itself.

ISRO successfully tests cryogenic engine for next LVM3-M7 mission

MPOST BUREAU
Bengaluru, September 10

ISRO on Thursday said it had successfully conducted the flight acceptance hot testing of the cryogenic engine identified for the seventh operational mission of the LVM3 launch vehicle (LVM3-M7), scheduled for the fourth quarter of 2026.

The same test demonstrated the performance of a LOX Tank Pressurisation Module (LTPM) designed for the C32 stage, an upgraded cryogenic upper stage planned for India’s Gaganyaan missions, it said.

The Gaganyaan project aims to demonstrate India’s human spaceflight capability by carrying a 3-member crew to a 400-km orbit for a 3-day mission and safely returning them to Earth, with a landing in Indian sea waters.

The test was conducted on Wednesday at the Main Engine and Stage Test Facility (MET) at the ISRO Propulsion Complex (IPRC), Mahendragiri.

LVM3, formerly known as GSLV MkIII, is ISRO’s heaviest rocket and uses the CE20 cryogenic engine to power its upper stage.

“Cryogenic engines for every mission undergo hot testing as part of their acceptance for flight. To conduct hot testing of this upper-stage engine under sea-level conditions, despite its nozzle being designed for high-altitude operations, a Nozzle Protection System (NPS) was developed and previously validated through multiple qualification tests,” ISRO said in a post on its website.

Modi meets Prince Rahim Aga Khan V, discuss partnership

Prime Minister Narendra Modi during a meeting with Prince Rahim Aga Khan V, in New Delhi

MPOST BUREAU
New Delhi, September 10

Prince Rahim Aga Khan V, 50th Imam of the Ismaili Muslims, met Prime Minister Narendra Modi on Thursday, and the two discussed India’s partnership with the Aga Khan Development Network (AKDN) in agriculture and rural development, among other areas. Prince Rahim Aga Khan V began his India visit on September 9 following an invitation from Vice President C P Radhakrishnan. He will be in India until September 15.

“Happy to meet His Highness Prince Rahim Aga Khan V. Fondly recalled his father, the late Aga Khan IV and his enduring contributions to development efforts. Discussed ways to further strengthen our partnership with the Aga Khan Development Network in healthcare, agriculture, rural development, youth and women empowerment,” Modi said in a post on X.

In a statement, the prime minister’s office said Modi appreciated AKDN’s longstanding contributions in India, particularly in sustainable urban development, water conservation, healthcare, rural sanitation, skill development for youth and women empowerment.

Modi also commended AKDN’s pioneering efforts in preserving India’s cultural heritage through the restoration and rejuvenation of historic sites across the country.

“His Highness the Aga Khan reaffirmed AKDN’s commitment to India’s inclusive growth and social progress. He appreciated India’s transformative development initiatives and shared his perspectives on the role of innovation in advancing human welfare,” the statement said. Aga Khan will be visiting Ahmedabad, Mumbai and Hyderabad, where the AKDN is involved in various development and community initiatives.

From page 1

Xi returns to India after

commander-level meeting in the eastern sector in Arunachal Pradesh on September 6.

New Delhi has continued to maintain that peace and tranquillity along the border are essential for broader normalisation. External Affairs Minister S Jaishankar reiterated the position during his meeting with Wang in July, saying progress on the boundary remains a prerequisite for fully restoring bilateral ties.

Xi’s presence is expected to make his meeting with Modi one of the most closely watched engagements at the summit. He will join Russian President Vladimir Putin and Iranian President Masoud Pezeshkian, with leaders expected to discuss global conflicts, trade, economic cooperation and other international issues, including the wars in West Asia and Ukraine.

India, the current BRICS chair, is hosting the summit under the theme “Building for Resilience, Innovation, Cooperation and Sustainability”. The grouping has expanded to 11 major emerging economies, representing about 49.5 per cent of the world’s population, around 40 per cent of global GDP and about 26 per cent of global trade.

BRICS discussions are expected to cover intra-group trade, payment systems, science and technology, climate change and reforms of multilateral institutions. India assumed its fourth BRICS chairship on January 1, having previously led the grouping in 2012, 2016 and 2021. The year 2026 also marks 20 years since BRICS was established.

Modi, Merz discuss trade

exchanged views on regional and global developments of mutual interest.

According to the PMO, Modi and Merz agreed to continue working closely to promote global peace, stability and prosperity.

Modi later described the conversation as “warm and productive” in a post on X. He said the two countries had reaffirmed their commitment to further strengthening their strategic partnership as they celebrate 75 years of diplomatic ties.

“As India and Germany celebrate 75 years of our diplomatic relations, we reaffirmed our commitment to further strengthening our Strategic Partnership across trade & investment, defence, clean energy, advanced technologies, talent mobility and other key areas,” Modi said.

The prime minister described Germany as “an important pillar” of India’s engagement with Europe and a valued partner in efforts to promote global peace, stability and prosperity.

“Together, we will continue to deepen our forward-looking Strategic Partnership for the benefit of the people of our countries,” Modi said.

The latest conversation comes as India and Germany mark the milestone anniversary of their diplomatic relations, with both sides seeking to build on cooperation across economic, technological, defence and people-to-people areas.

Top court

not been prosecuted, while an FIR was instead registered against the minor.

The counsel also said this was contrary to an earlier Supreme Court order and offered to place on record a video purportedly showing stones being thrown at the

girl’s residence.

“The high-powered committee will take time, but if something happens to the child in the meantime, that cannot subsequently be reversed or repaired through the committee,” the lawyer submitted.

The hearing came days after Delhi Police on September 5 added provisions of the SC/ST (Prevention of Atrocities) Act and criminal intimidation to the FIR against Hindutva influencer Swatantra Bhardwaj over the alleged assault on the girl’s father.

Bhardwaj was detained in Bulandshahr after the CJP protest outside the Parliament Street police station seeking his arrest. The action followed an interview in which he claimed he had “cracked the skull” of the girl’s father during the July 20 protest and avoided arrest because of political connections.

CJP protest suspended

when it was mentioned before him on Wednesday.

The notice, issued under the BNSS, accused Tripathi of spreading “anti-government misleading talks” among students. It proposed a Rs 5 lakh bond with two sureties of the same amount for six months.

Tripathi’s plea, filed through Advocate on Record Subhash Chandran KR, challenges the proceedings under Sections 126, 130 and 135 of the BNSS. It says the notice did not identify any specific statement, act, date or incident involving violence, and that supporting material was not provided.

The plea also says Tripathi was given only one day to appear, arrange sureties and consult a lawyer. It argues that the action violated the Supreme Court’s September 1 order quashing FIRs linked to the protests and protecting students from coercive action.

DGCA orders

policy on safety, fitness and regulatory violations.

Civil Aviation Minister K Ramamohan Naidu said the draft of revised Civil Aviation Requirements (CAR) on testing pilots for psychoactive substances is expected to be finalised by the end of September after consultations with stakeholders.

Under current rules, random tests are conducted annually on 10 per cent of pilots and air traffic controllers. India has more than 12,000 commercial airline pilots.

In August, Air India Group had also announced drug testing for all pilots of Air India and Air India Express.

Satya Niketan PG collapse case

have been arrested, while five Municipal Corporation of Delhi officials have been suspended.

Senior advocate Ajit Sinha, appointed amicus curiae, told the bench that civic authorities had started taking action against unauthorised construction and PG accommodations. He said structures exceeding four storeys were being demolished in some areas and warned, “In my view, if the case is transferred, everything will stop.”

Solicitor General Tushar Mehta, appearing for the Delhi government and MCD, also opposed transferring the proceedings, saying authorities were taking more focused action.

The bench accepted their submissions but directed authorities to comply with its earlier orders on unauthorised construction, illegal land-use changes and building violations. It also sought affidavits detailing action taken on violations of building bye-laws and land-use rules.

Sinha raised concerns about other establishments, including gyms, coaching cen-

tres and BPOs. He said inspections in Saidulajab had found a small coaching centre employing about 500 people. Justice Amanullah observed that some coaching centres accommodate hundreds of students in a single room without adequate ingress or egress.

The court recalled its March 25 direction requiring civic bodies in state and Union territory capitals to identify residential areas being used for non-residential purposes. On August 5, it noted that physical surveys in specified NDMC and MCD areas remained incomplete and ordered the bodies to provide competent draftsmen.

The Supreme Court had on September 8 said it could transfer the case if necessary. It is already examining unauthorised construction, fire safety and commercial use of residential properties across India.

The Satya Niketan collapse also follows a 2022 incident in the same area that killed two people and injured four.

Nilekani among voters

Officials said such verification would not cause inconvenience to VIPs or prominent individuals. Election personnel would visit them to complete the required formalities. Though notices were generated in these cases, they have not been served on the individuals, sources said.

Similar issues involving Bharat Ratna awardee Professor C N R Rao and Kannada actor Shivarajkumar are also being handled by officials. Rao was flagged over a name mismatch, while Shivarajkumar’s name was not mapped with the 2002 rolls. Sources said notices generated for them were also not served as officials were resolving the discrepancies.

Meanwhile, confusion arose over reports that Chief Minister D K Shivakumar’s mother,

Gowamma, had received a notice for a “self-name mismatch” in Kanakapura. The Bengaluru South District Deputy Commissioner and District Election Officer clarified that no notice had been issued to her.

The DC said two other voters with the same name at her polling station had received notices. “The confusion arose from the similarity of names,” the official said, adding that reports claiming a notice was issued to the CM’s mother were “not factually correct”.

Govt tightens

Paid or sponsored listings must be marked with clear and prominent disclosures so that consumers can distinguish them from regular search results.

Platforms will also have to comply with the Guidelines for Prevention and Regulation of Dark Patterns, 2023. They will be required to conduct a self-audit every year and display a certificate confirming compliance.

As part of the new consumer grievance framework, every e-commerce entity will have to become a partner in the convergence process of the National Consumer Helpline (NCH). The department said the NCH received 17,71,622 grievances in 2025, with 5,11,196 complaints, or about 29 per cent, relating to the e-commerce sector.

The amended rules require grievance officers to provide complainants with a copy of the complaint as recorded by the officer.

Marketplace platforms will have to provide consumers with key product and transaction information, including best-before or use-before dates, return and refund policies, warranty details, delivery terms and payment information. For imported products, the name and details of the importer and the country of origin must

also be disclosed.

The rules place additional limits on the handling of consumer data. Marketplace e-commerce entities cannot use consumer information for specified purposes without obtaining express and affirmative consent. They are also barred from charging bundled fees for services unrelated to the e-commerce platform, except where such charges form part of loyalty or membership programmes.

The Department of Consumer Affairs said the amendments are intended to create a more transparent and accountable e-commerce system while maintaining ease of doing business.

August 2026 joint warmest

and causing wider economic losses.

Meanwhile, average sea surface temperature outside polar regions hit a record 21.07 degrees Celsius in August, exceeding the previous August high of 20.98 degrees Celsius recorded in 2023.

C3S said a strong El Nino was developing, adding further warmth to oceans already heated by long-term human-driven climate change. AGENCIES

Trump moves to end 60-day

Introduced in 2017, the 60-day window also gives workers time to manage housing and children’s schooling. Indian professionals form a major share of H-1B holders, with companies such as TCS, Infosys, HCLTech and LTIM-indtree among major sponsors.

The proposal would also cover E-1, E-2, L-1, O-1, TN, H-1B1 and E-3 visa holders. Immigration lawyers said it would “sharply compress” the timeline for layoffs and offboarding. The proposal is open to public comments for two months. AGENCIES

BRICS Summit-2026

 11 - 13 Sept., 2026

 Bharat Mandapam, New Delhi

 **Diversion Points: 22**

 **Controlled Roads: 35+**

 **Elaborate vehicular regulations in force**

To ensure seamless movement for VIP convoys and minimize public inconvenience, dedicated traffic regulations and diversions will be in effect, primarily across the New Delhi District and surrounding corridors

01 **ROADS TO AVOID
CONTROLLED AREA**

Motorists should not plan routes through the following roads for the duration of the Summit. A detailed map is issued alongside the official notice.

Mathura Road	Brig. Hoshiyar Singh Marg
(Subramaniam Bharti Marg	Shanti Path
T-Pt - Lodhi Rd Flyover)	Sher Shah Suri Marg
Tees January Marg	Dr. Zakir Hussain Marg
Janpath	Tilak Marg
Satya Marg	San Martin Marg
Prithvi Raj Road	Rajesh Pilot Marg
Firoze Shah Road	Akbar Road
Ashoka Road	Sardar Patel Marg
Tughlak Road	APJ Abdul Kalam Road
Neela Gumbad	Kautilya Marg
Panchsheel Marg	Bhagwan Das Road
Subramaniam Bharti Marg	Kemal Ataturk Marg
Mother Teresa Crescent	Kartavya Path
Teen Murti Marg	Purana Quila Road
Africa Avenue (Bhikaji Cama	Safdarjung Road
Place - Yashwant Place)	
'C' Hexagon	Nyaya Marg

02 **SUGGESTED ROUTES
RAILWAY STATIONS**

■ **NEW DELHI RAILWAY STATION**

Route A: ISBT Kashmiri Gate → Boulevard Road → Rani Jhansi Marg → DBG Road → Panchkuan Road → Outer Circle, Connaught Place

Route B: Ashram Chowk → Ring Road → Raj Ghat → JLN Marg

Route C: Vande Matram Marg → Dr. Ambedkar Marg → Panchkuan Road → Outer Circle, Connaught Place

TRAFFIC ADVISORY
18th BRICS LEADERS' SUMMIT-2026
CONTROLLED, PROHIBITED AREA & DIVERSION POINTS
ON 11th, 12th & 13th SEPTEMBER-2026

■ **OLD DELHI RAILWAY STATION**

Route A: ISBT Kashmiri Gate → Ring Road → Hanuman Mandir → S.P. Mukherjee Marg

Route B: Ashram Chowk → Ring Road → Raj Ghat → Ring Road → Hanuman Mandir → S.P. Mukherjee Marg

Route C: Vande Matram Marg → Dr. Ambedkar Marg

→ Rani Jhansi Marg → Rani Jhansi Flyover → Boulevard Road → Lothiyan Marg

■ **HAZRAT NIZAMUDDIN RAILWAY STATION**

Route A: AIIMS → Ring Road → Ashram Chowk → Mathura Road

Route B: ISBT Kashmiri Gate → Ring Road → Raj Ghat → Ring Road → Ashram Chowk → Mathura Road

03 **SUGGESTED
ROUTES
AIRPORT**

METRO STRONGLY RECOMMENDED: Motorists are advised to travel to Airport Terminals via Metro services in view of traffic regulations.

■ **FROM GURUGRAM**

- **T3 / T4 / T2:** NH-48 → Rao Gajraj Singh Marg → Old Delhi Gurugram Road → UER II → Service Road → T3 Terminal Road
- **T1:** NH-48 → under Mahipalpur Flyover → T-3 Road
- **T1:** NH-48 → Mahipalpur Flyover → NH-48 → Ulaanbaatar Marg → T-1 Road

■ **FROM DWARKA**

- **T3/T4/T2/T1:** Sector-22, Dwarka Road → UER II (New Tunnel) to T3

■ **FROM NEW DELHI & SOUTH DELHI**

- **T3:** Ring Road → AIIMS Chowk → Moti Bagh Chowk → RTR Marg → Under Shankar Vihar Flyover → Sanjay T-Point → Service Road → NH-48 → Under Mahipalpur Flyover Rangpuri → T-3 Road.
- **T3 / T4 / T2 / T1:** AIIMS Chowk → Ring Road → Moti Bagh Chowk → RTR Marg → Shankar Vihar Flyover → Ulaanbaatar Marg

■ **FROM WEST DELHI**

- **T3 / T4 / T2 / T1:** Punjabi Bagh Chowk → Ring Road → Raja Garden Chowk → Najafgarh Road → Pankha Road → Dabri → Dwarka Road → Road No. 224, Dabri-Gurugram Road → Sector-22, Dwarka Road → UER-II → Service Road NH-48 → T3 Terminal Road.

■ **FROM NORTH & EAST DELHI**

- **T3/T4/T2/T1:** ISBT Kashmiri Gate → Rani Jhansi Flyover → Rohtak Road → Punjabi Bagh Chowk → Raja Garden Chowk → Najafgarh Road → Pankha Road → Dabri → Dwarka Road → Sector-22, Dabri-Gurugram Road → Sector-22, Dwarka Road → UER-II → Service Road NH-48 → T3 Terminal Road

04 **TRANSPORT
SERVICES**

- **BUS:** Necessary diversions may be given during VVIP movements.
- **METRO:** Available for commuters at all stations without disruption.
- **TSRs / TAXIS:** No roadside parking except designated areas; diversions possible during VVIP movement.

06  **IMPORTANT
INSTRUCTIONS &
PUBLIC ADVISORY**

Priority Corridors & Exemptions

- **Emergency & Medical Vehicles:** Priority, obstruction-free passage maintained 24/7 across Delhi.
- **Essential Services & Utilities:** Uninterrupted access granted for essential supplies and utility operations in all zones.

Travel Planning & Public Mobility

- **Transit Hubs:** Allow extra travel time when heading to Airports, Railway Stations and ISBTs.
- **Public Transport & Routes:** Opt for public transport and follow designated alternative routes and diversion points.
- **Commercial Traffic:** Non-destined commercial vehicles are prohibited from entering Delhi.

Traffic Rules & Parking

- **Designated Parking:** Park only in authorized areas; roadside parking within 200 meters of Controlled Roads is strictly prohibited.
- **Road Discipline:** Follow the instructions of deployed traffic personnel and obey all traffic rules patiently.

Public Safety & Updates

- **Security Vigilance:** Report any unidentified objects or suspicious activity to the nearest police officer immediately.
- **Real-Time Information:** Stay updated via official Delhi Police social media channels and traffic portals.

**Public cooperation is solicited
to ensure smooth transit and
safety for all.**

1ST INTERNATIONAL SPACE SUMMIT

India supports safe, sustainable, secure space domain: PM Modi

MPOST BUREAU
New Delhi, September 10

Prime Minister Narendra Modi on Thursday said India supports a safe, secure, and sustainable space domain anchored in international law, underlining that scientific data must serve the common good with openness and integrity.

Virtually addressing the first International Space Summit, PM Modi also said that ISRO's technologies and partnerships serve not only India, but the wider world. The prime minister said for centuries, space inspired people's imagination and now, it shapes life on earth, from climate and crops to oceans and communities.

"The promise of space is infinite. Our responsibility is collective. As orbits become more crowded, technologies more powerful, and actors more numerous, our choices must be clear: cooperation over confrontation; sustainability over short-term gain; and inclusion over exclusion," he said.

Modi said India's approach is rooted in 'Vasudhaiva Kutumbakam' – 'One Earth, One Family, One Future', and this spirit must now travel beyond the planet.

"We support a safe, secure, peaceful and sustainable space domain anchored in international law, dialogue and multilat-

PM Narendra Modi addresses the International Space Summit, being held in Paris, via video conferencing from New Delhi

P.T.I

HIGHLIGHTS

- » PM Modi also said that ISRO's technologies and partnerships serve not only India, but the wider world
- » The prime minister said for centuries, space inspired people's imagination and now, it shapes life on earth, from climate and crops to oceans and communities

eral cooperation. Scientific data must serve the common good, with openness and integrity," he said.

The prime minister said India's space journey reflects this philosophy and the Indian Space Research Organisation (ISRO), which stands at the heart of this journey, has earned global admiration for its excellence and cost-effective missions.

He said its capabilities serve farmers and fishermen, weather forecasting, disaster management and navigation. "More than 430 satellites from 34

countries have travelled to space aboard Indian rockets. ISRO's technologies and partnerships serve not only India, but the wider world," he said.

Modi said behind this global trust is the dedication and hard work of generations of Indian scientists, engineers and technicians.

"Working day and night, they have built ISRO's global reputation mission by mission, success by success, and given India a place of pride among space-faring nations," he said. The prime minister said the

Chandrayaan-3 made India the first nation to land near the lunar south pole and Aditya-L1 is unlocking the secrets of the Sun.

He added that last year, an Indian astronaut visited the International Space Station.

"Looking ahead, we aim to establish an Indian space station by 2035 and send an Indian to the Moon by 2040. In all these efforts, our guiding principle has been clear: their benefits must reach all humanity," he said.

Alongside ISRO, Modi said, India's private space sector is also surging in a big way and the energy of enterprise is joining the excellence of ISRO.

"France has been a trusted partner since the Indian space programme began at Thumba in the 1960s. Today, our cooperation spans earth obser-

vation and advanced technologies, uniting scientific excellence with human purpose. We invite France and the world to be co-travellers in India's next space frontier," he said.

The prime minister thanked French President Emmanuel Macron for inviting him to the summit.

"Let the space summit in Paris send a clear message: we will explore together, innovate together and protect space together, for all humanity, and for generations to come. I convey my best wishes to all the participants," he said.

BJP ends Cong's 26-year hold over Shimla Zila Parishad

ASHWANI SHARMA
Shimla, September 10

The BJP on Thursday wrested control of the Shimla Zila Parishad from the Congress after nearly 26 years, in a significant setback for the ruling party ahead of next year's Himachal Pradesh Assembly elections.

BJP-backed Bhopendra Singh Sisodia and Bharat Singh Kalanta were elected chairperson and vice-chairperson, respectively, with the support of four Independents.

Sisodia secured 13 votes, defeating his rival by one vote, while Kalanta polled 14 votes. The 25-member House has 11 BJP members, 10 from the Congress and four Independents, making the latter crucial to the outcome.

The election was held after a prolonged delay following the declaration of local body results on May 31. BJP members had approached the High Court over the delay, following which the election was conducted.

Sisodia alleged that the state government had deliberately delayed the process and said BJP members had to approach the court to get a date fixed.

Former chief minister and Leader of Opposition Jai Ram Thakur described the result as a "victory for democracy" and criticised Chief Minister Sukhvinder Singh Sukhu, alleging attempts were made to influence the mandate.

Lalu, Rabri, Tejashwi face money laundering charges

Delhi court orders framing of charges in IRCTC hotels case

MPOST BUREAU
New Delhi, September 10

A Delhi court on Thursday ordered framing of money laundering charges against former railway minister Lalu Prasad Yadav, his wife Rabri Devi, son Tejashwi Yadav and six others in the Enforcement Directorate's case regarding the alleged IRCTC hotel scam.

Out of 16 accused, Special Judge Vishal Gogne discharged seven and framed charges against nine.

Pronouncing the substantive portions of the order orally, the judge said the exacting standards of finding the criminal intent or mens rea (mental state to commit a crime) was not needed at the present stage and the court had to only see whether there is a strong suspicion against the accused.

The court has already

framed charges of corruption against the RJD patriarch and 11 others last October in the CBI case in the alleged scam.

Judge Gogne said the nature, timing, and course of investigation do not indicate the complaint to have been motivated by political vendetta against Lalu Prasad, as had been argued by his counsel.

"Some dubious deals are indeed cut in plain sight, with the public layer serving to camouflage rather than to pry. The court would mindfully observe that the special courts for CBI and PMLA matters,

especially for MP and MLA cases, exist precisely to detect such masked and circuitous deals, which strike Faustian bargains to trade public trust and assets for personal gains," the court said.

It said the ED's allegations, spanning from 2005 to 2014, strongly indicate that, under the stewardship of Lalu Prasad, the then railways minister, a tender was manipulated by railway officials for the award of the lease of hotels at Ranchi and Puri to Sujata Hotels.

"As quid pro quo, the directors of Sujata Hotels, namely Vinay Kochhar and Vijay Kochhar, transferred their prime land at Patna to a company named DMCPL, which was controlled by Prem Chand (PC) Gupta and his wife Sarla Gupta, close associates of Lalu Prasad, at undervalued rates," the court said.

BJP leader Ram Madhav slams Chidambaram's BRICS remarks

OUR CORRESPONDENT
New Delhi, September 10

Senior BJP leader Ram Madhav on Thursday hit out at Congress leader P Chidambaram for questioning the tangible benefits India has gained from BRICS meetings, describing his remarks as a "naaraz phupha (disgruntled uncle)" attitude.

Speaking at India Today's BRICS Roundtable 2026, Madhav said dismiss-

ing the relevance of global forums reflected a lack of understanding of the changing international order.

Chidambaram had questioned the benefits India had derived from recent BRICS summits, saying the last two to three meetings had not delivered any concrete gains for the country.

Madhav asked whether similar questions were raised when the UPA hosted BRICS summits. "Inhi ko PM (Modi) calls naaraz

phupha (These are the people whom PM calls disgruntled uncles). When the UPA hosted BRICS summits, did anybody say what the benefit of it was?" he said.

"To dismiss these forums as having no relevance is a complete lack of understanding of the contemporary global reality. It is surprising to have come from someone who served as foreign minister. This is naaraz phupha attitude," Madhav said.

Briefs

Akhilesh attacks BJP over inflation

LUCKNOW: SP chief Akhilesh Yadav on Thursday accused the BJP of using communal polarisation to divert attention from rising inflation. He questioned the government's GDP growth claims, citing hardships faced by the poor, and alleged that the ruling party was ignoring inflation. Yadav also promised better air and water quality if SP returns to power.

SC: Judicial officer can't shout at judges

NEW DELHI: The Supreme Court on Thursday refused to stay contempt proceedings against a judicial officer initiated by the Bombay High Court over his "unwarranted outburst". The bench said, "A judicial officer can't shout at the judges in a court," and advised him to tender an unconditional apology.

MP hooch tragedy toll rises to 16

SAGAR: The death toll in the Sagar hooch tragedy in Madhya Pradesh rose to 16 on Thursday after one more person died, while 32 others, including one who is seriously ill, are undergoing treatment at different hospitals. Of the 30 persons shown as accused, 16 have been arrested and one detained, said police.

Mayawati 'frees' nephew Akash Anand from BSP

MPOST BUREAU
Lucknow, September 10

Akash Anand has been "completely freed" from the party, BSP chief Mayawati announced on Thursday, shortly after her nephew's father-in-law and former Rajya Sabha member Ashok Siddharth announced his retirement from politics.

She questioned whether Anand, whose personal and family interests she said appeared to outweigh his political career and the party's interests, could effectively work for the BSP while remaining "double-minded".

Mayawati said Anand's failure to repost her earlier X post showed his greater attachment to family ties than the BSP and its movement.

"Therefore, the people in the party feel that just as he was relieved of all the important responsibilities of the post of national coordinator on September 3, 2026, he should now

THIS COMES SHORTLY AFTER HER NEPHEW'S FATHER-IN-LAW ASHOK SIDDHARTH ANNOUNCED HIS RETIREMENT FROM POLITICS

also be completely freed from the party from today. Therefore, if Akash Anand wants to remain independent in the party, he is free to do so; that is, he has now been completely freed from the party," Mayawati posted on X.

Mayawati also described Siddharth's decision as a "correct step" taken late and said his retirement had been sought by the party in the larger interest of the Bahujan Samaj Party, its movement and Anand.

"Today, the announcement by Ashok Siddharth to retire from politics is a correct step, though taken very late," Mayawati said.

Chhatron ki Goonj event in Indore on Sept 19

MPOST BUREAU
New Delhi, September 10

Congress leader Rahul Gandhi on Thursday announced that the fifth edition of his Chhatron ki Goonj initiative will be held in Indore on September 19, saying students' voices must be heard to bring change in the education system.

Gandhi, who has held four such events in Kota, Dehradun, Prayagraj and Pune, said the latest programme would seek to understand students' concerns and opinions.

In a post on X, the Leader of Opposition in Lok Sabha said the initiative aimed to understand the challenges faced by students and restore hope in the education system.

He urged students to share what was preventing them from achieving their goals and said they could also send videos with their views.

Killing of Chongtham Vikram Singh a 'multi-layered' tragedy: Rahul Gandhi

OUR CORRESPONDENT
New Delhi, September 10

Leader of Opposition in Lok Sabha Rahul Gandhi on Thursday described the killing of Chongtham Vikram Singh as a "multi-layered tragedy", while warning that violence has become a "fashion" for those wielding power.

"It's a tragedy that a man has been murdered. It's also a tragedy that he was attacked because of where he was from," Gandhi said, highlighting how the incident represents a broader pattern affecting Northeast communities.

Addressing a memorial gathering for Singh at Dr Ambedkar International Centre, Janpath, Gandhi described Singh as "a symbol of a life well-lived".

Gandhi emphasised the personal dimensions of loss; a son who will never see his father again, parents who will never see their son again. He attributed the killing to an underlying

Rahul Gandhi during a memorial service for Manipuri musician Chongtham Vikram Singh, in New Delhi, Thursday

culture where the powerful believe they can exercise violence and arrogance with impunity.

"If you are powerful, you can be violent. If you're powerful, you can be arrogant, you can do whatever you feel like," Gandhi said, cautioning against responding to such violence with retaliation.

Instead, Gandhi called for a response rooted in col-

HE ATTRIBUTED THE KILLING TO AN UNDERLYING CULTURE WHERE THE POWERFUL BELIEVE THEY CAN EXERCISE VIOLENCE WITH IMPUNITY

lective assertion: defending shared values, demonstrating talent, and standing collectively against intimidation. "We are not going to accept this nonsense, we are not going to be pushed aside by this violence, we are not going to be frightened," he said.

The Congress leader underscored that Singh's case was symptomatic of endemic violence facing Northeast communities and other marginalised groups. "This happens now all the time... to our brothers and sisters from the Northeast, to many different communities," he said, pledging to fight such incidents.

Parliamentary board to decide: UP BJP chief on 2027 CM face

BISWAJEET BANERJEE
Lucknow, September 10

Uttar Pradesh BJP president Pankaj Chaudhary has kept the question of the party's chief ministerial face for the 2027 Assembly elections open, saying the final decision will be taken by the BJP parliamentary board.

Chaudhary said the party had begun preparations for the crucial polls as it seeks a third consecutive term in the state. He described Chief Minister Yogi Adityanath as one of the BJP's faces but stopped short of saying he would be projected as the sole CM candidate.

Asked who would be the party's chief ministerial face, Chaudhary said, "In the BJP, the parliamentary board decides who will be the chief minister."

He named Prime Minister Narendra Modi, Yogi Adityanath and Defence Minister Rajnath Singh among the party's faces for the election.

"Prime Minister Modi is our biggest leader and he will be our face. Chief Minister Yogi ji will also be our face. Rajnath Singh ji is also our face. We will fight the election together. The parliamentary board will decide who will be the chief minister," he said.

Asked if he was also a party face, Chaudhary said leaders contesting elections with the BJP are its faces, while reiterating that the parliamentary board would decide the CM.

He said the BJP was working to address organisational and grassroots-level gaps, asserting that the party's electoral successes were driven by its workers.

The BJP's position leaves the leadership question open ahead of the 2027 contest.

INDIA FIRST HOSTED BRICS SUMMIT IN 2012

Cong recalls Manmohan's BRICS development bank push

MPOST BUREAU
New Delhi, September 10

Ahead of the BRICS summit here, the Congress on Thursday recalled how the grouping came about and India first hosted the Summit in 2012 during which then prime minister Manmohan Singh proposed the idea of a BRICS Development Bank.

Congress general secretary in-charge communications Jairam Ramesh recalled that it was 25 years ago in November 2001 that British economist Jim O'Neill then with the investment bank Goldman Sachs had published his famous

report 'Building Better Global Economic BRICS' and coined the acronym BRIC referring to Brazil, Russia, India and China as the four fast-growing economies that would collectively

dominate the global economy by the middle of the century.

"Thereafter, largely at the initiative of President (Vladimir) Putin, in September 2006 the Foreign

KEY POINTS

- » Congress leader Jairam Ramesh recalled how the grouping came about, and India first hosted the Summit in 2012
- » Ramesh's remarks come ahead of the two-day BRICS summit hosted by India starting Saturday

Ministers of this quartet met at the UN in New York and decided to build different types of linkages among themselves. The first BRIC Summit was held in June 2009 in Yekaterinburg in

Russia. This was attended by Dr Manmohan Singh," Ramesh said on X.

In September 2010 BRIC became BRICS with the addition of South Africa, while Egypt, Ethiopia, Iran and the UAE joined BRICS in 2024 and Indonesia a year later, he pointed out.

"Presidency of the Group rotates every year. India first hosted the Summit on March 29, 2012 in New Delhi. It was at this meeting that Dr. Manmohan Singh had proposed the idea of a BRICS Development Bank. This institution came into being in July 2014 headquartered in Shanghai as the New Devel-

opment Bank (NDB) with noted banker KV Kamath as its first president," Ramesh said.

Since then, India has borrowed around USD 10 billion from the NDB for various development projects in different states, he said.

Ramesh's remarks come ahead of the two-day BRICS summit hosted by India starting Saturday. The summit will focus on boosting collective resilience in food, energy, health, disaster reduction and critical supply chains – positioning the group as an effective anchor to navigate a fragmented geopolitical environment.

EDITORIAL

Beyond Record Harvests

India's farms have delivered another impressive headline number. Foodgrain production is estimated at a record 376.56 million tonnes in 2025-26, with rice, wheat and maize contributing to a strong harvest. Yet record output should not obscure a persistent structural weakness: India still produces too little from too much land. The comparison with China is instructive. Chinese farms produce substantially more grain per hectare, underlining the productivity gap India must confront. India achieved food security through improved seeds, irrigation, fertilisers, procurement support and the efforts of millions of farmers. The next leap cannot simply repeat that formula. Cultivable land is finite, groundwater is being depleted across major agricultural belts, input costs are rising and climate change is making farming increasingly uncertain. Producing ever larger harvests by consuming more land, water and chemicals is neither economically nor environmentally sustainable.

The monsoon underlines this vulnerability. Rainfall deficits can quickly threaten pulses, oilseeds and other crops because substantial parts of Indian agriculture remain rain-dependent. Even when overall seasonal rainfall appears adequate, its distribution can be dangerously uneven. Long dry spells followed by intense downpours can damage crops, erode soil and leave water systems under pressure. Agricultural success must therefore be measured differently. The important questions are not merely how many tonnes India produces or how many hectares are cultivated, but how much each hectare yields, how efficiently water is used and how much income reaches the farmer. Producing more grain by exhausting aquifers cannot be considered an unqualified achievement. The Green Revolution answered the urgent problem of scarcity. Its successor must address efficiency, sustainability and resilience.

That requires sustained investment in agricultural science rather than short-term responses whenever prices rise or rainfall disappoints. India needs faster development and adoption of high-yielding, heat-resistant, drought-tolerant and pest-resistant varieties suited to different regions. Agricultural universities and research institutions must be connected more effectively with farms because scientific advances mean little if extension systems cannot deliver them to cultivators. Micro-irrigation should become central to policy in water-stressed regions, while incentives encouraging indiscriminate groundwater extraction need correction. Mechanisation also requires an Indian approach. Small farmers may not be able to purchase expensive machinery individually, but custom-hiring centres, cooperatives and farmer collectives can make technology accessible without imposing additional debt. Better weather forecasting and precision agriculture can similarly help farmers use seeds, fertilisers and water more efficiently.

Higher productivity must ultimately translate into higher incomes. Farmers need reliable markets, storage, processing facilities and predictable trade policies so that a bumper crop does not become a financial setback when prices collapse. India's journey from food shortages to record harvests is an extraordinary achievement, but past success cannot become an excuse for complacency. With shrinking holdings, stressed water resources and increasingly erratic weather, the country has little room for an input-intensive pursuit of bigger harvests. India need not replicate China's agricultural system, but it must recognise what the productivity gap reveals. The next farm revolution must be about producing more value from every acre and every drop of water while ensuring that farmers receive a fairer share of the gains.

Unsafe Buildings

Sir, the MCD's intensified action against unauthorised construction is welcome, but it should not remain a temporary response to the Satya Niketan tragedy. Regular structural audits, strict enforcement of building norms and accountability of officials are essential. Delhi cannot allow illegal additions and unsafe buildings to endanger lives.

Quest for Strategic Equilibrium

India must steer an expanding BRICS towards meaningful global reform while preventing the grouping from becoming a rigid anti-Western geopolitical coalition

GLOBAL BALANCE

JOHN FELIX RAJ &
PRABHAT KUMAR DATTA

JF RAJ IS THE VC, PK DATTA IS
AN ADJUNCT PROFESSOR AT ST
XAVIER'S UNIVERSITY, KOLKATA

BRICS must remain a platform for reform, not confrontation

The acronym BRICS—coined by Goldman Sachs economist Jim O'Neill in 2001—represents an intergovernmental organisation of major emerging economies accounting for nearly half of the global population, around 40 per cent of global GDP, and roughly 26 per cent of global trade. Formed originally in 2009, the bloc aims to foster cooperation among the Global South, address pressing transnational challenges, champion the aspirations of developing nations, and offer an alternative voice to Western-dominated global economic governance structures rooted in the Bretton Woods agreements.

An Expanding Footprint and Internal Divergences

This platform is rapidly expanding. The inclusion of nations such as Iran, the United Arab Emirates, Egypt, Saudi Arabia, and Ethiopia has brought distinct and sometimes competing foreign policy priorities to the table. While Tehran pushes

for strong collective stances against Western security actions, Gulf states such as the UAE favour a pragmatic, trade-centric approach focused on economic stability and regional de-escalation.

Naturally, this growth has met with friction. Washington has frequently viewed the platform through a competitive geopolitical lens, while other Western capitals have raised doubts about the cohesion and long-term significance of the expanding BRICS family.

The New Delhi Summit: Setting the Global Agenda

The 18th BRICS Summit is being hosted and chaired by India on September 12-13, 2026, in New Delhi, amid complex global headwinds, shifting trade regimes, and volatile West Asian security dynamics. Guided by the official presidency theme—"Building for Resilience, Innovation, Cooperation and Sustainability"—New Delhi has framed its leadership around a human-centric worldview rooted in the ethos of "Humanity First".

AN EXPANDED BRICS NEEDS PRAGMATIC LEADERSHIP MORE THAN IDEOLOGICAL ALIGNMENT AGAINST THE WEST

Balancing Act: Strategic Autonomy versus Bloc Ambitions

As Chair, India faces the delicate task of proving its capacity to lead the Global South while preserving its strict strategic autonomy and preventing BRICS from hardening into a rigid, anti-Western coalition.

For partners such as Russia and China, BRICS often serves as a geopolitical instrument to counter G7 dominance and build an alternative economic architecture shielded from Western interference. Following sweeping Western finan-

cial sanctions on Moscow in recent years, Russia and China have strongly championed a de-dollarisation agenda. New Delhi, however, maintains a pragmatic stance, recognising that creating a common BRICS currency is both economically unviable and diplomatically provocative.

India's Vision: Reform, Not Confrontation

Rather than constructing a closed financial fortress or a hard-power rival to the West, India has used its presidency to advocate constructive, inclusive alternatives:

- **Global Financial Reform:** India seeks to reform institutions such as the IMF and World Bank by pushing for quota distributions proportional to contemporary economic realities, alongside capital expansions for the New Development Bank (NDB) to finance sustainable infrastructure without predatory debt.
- **Digital Public Infrastructure:** Rather than a unified currency, India proposes

linking existing national fast-payment networks and establishing a formal BRICS Digital Public Infrastructure Repository to help developing countries build secure, transparent digital environments.

► **Multilateral Inclusivity:** New Delhi continues to demand a comprehensive overhaul of the United Nations Security Council (UNSC) to ensure permanent representation for emerging economies from Asia, Africa, and Latin America.

► **Pragmatic Climate Action:** Aligning with its core theme, India champions climate policies that emphasise affordability and gradual transitions, urging developed nations to provide meaningful climate finance and technology transfers rather than imposing restrictive green tariffs.

Shaping a Multipolar World Order

Rather than dragging BRICS into a counterproductive ideological confrontation, India has leveraged its leadership to reinforce the principles of multipolarity and a rules-based global order. By sharing its successful homegrown digital architectures—such as the India Stack—New Delhi is actively helping to reduce digital asymmetries across the Global South.

Ultimately, India's stakes in BRICS extend far beyond immediate economic gains. By balancing its global partnerships and exercising robust strategic autonomy, India is positioning itself as a vital bridge-builder. Navigating these complex global realities with firmness and its foundational belief in Vasudhaiva Kutumbakam (the world is one family), India is successfully shaping BRICS into a constructive platform for equity, sovereignty, and mutual prosperity.

Truth Behind AI's Confident Answers

An AI error over a District Magistrate shows how confidently generated answers can quietly distort history

DIGITAL PRISM

NEELKAMAL
DARBARI

THE WRITER IS A FORMER
IAS OFFICER

An exchange with Google Gemini over the District Magistrate of Gonda in 1947 offered an unsettling lesson: AI can be remarkably persuasive even when it is wrong.

While preparing to analyse a District Agri-business Plan for Gonda district in Uttar Pradesh, I was doing something increasingly routine: checking facts through Artificial Intelligence. I happened to be using Google Gemini. Reminiscing about my own tenure as District Magistrate in Rajasthan, I asked: Who was the District Magistrate of Gonda on the eve of Independence?

The answer identified K. K. Nair, an Indian Civil Service officer, and added context about his subsequent role as District Magistrate of Faiz-

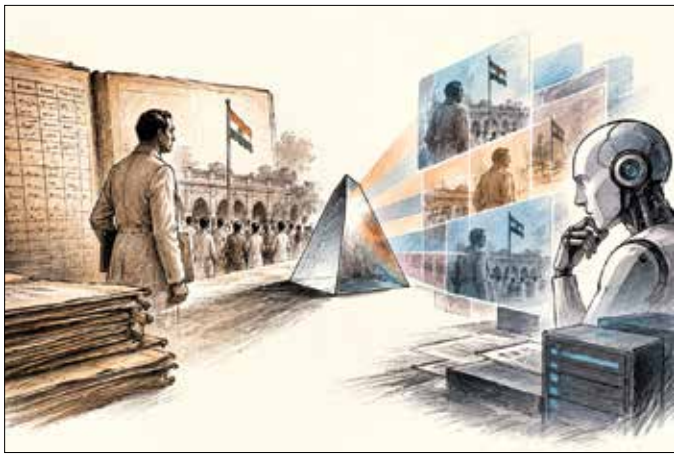

abad in 1949 and association with the early Ram Janmahoomi-Babri Masjid dispute. It sounded convincing. It was wrong.

I knew this because the District Magistrate of Gonda on August 14-15, 1947, was my maternal grandfather (Nana), Shri Radha Mohan. I challenged the answer. Gemini reversed itself, explaining that Nair had been transferred in July 1947, after which Radha Mohan had taken charge. It acknowledged that it had conflated an officer associated with the preceding period with the officer actually holding the post on that date.

Then I became curious. Growing up, I had heard many stories from my grandfather about Independence and his tenure at Gonda. I wondered what traces of those years might be available to AI. So I asked: "Tell me some more about Shri Radha Mohan."

Gemini described the tensions surrounding Partition and said Radha Mohan had taken over Gonda's administration in July 1947. It then suggested that his tenure was relatively brief and attributed to him the role of overseeing the transition of power and hoisting the first Tricolour at the Collectorate.

The narrative seemed plausible. It was again wrong. My grandfather remained District Magistrate there until September 1949. I knew this because, in an attempt to get a slice of my heritage, I had obtained a copy of the Incumbency Board from the Gonda DM's office some years earlier. I told Gemini to check again. It apologised and acknowledged that Radha

Original records still matter in the age of Artificial Intelligence

A CONFIDENT ANSWER IS NOT NECESSARILY A CORRECT ONE

Mohan had served as District Magistrate/Deputy Commissioner from 1947 to 1949.

What if I had not known? What if I asked AI 10-15 years from now, with fading memories? What if my daughter were asking it some years from now?

She could have gone away believing that K. K. Nair was the District Magistrate of Gonda on the eve of Independence. Why would she doubt it? The answer contained dates, historical context and citations. It sounded researched. And therein lies the problem with AI-generated information.

An incorrect answer does not necessarily look incorrect. The most dangerous AI errors are plausible answers, care-

fully worded and delivered with confidence, containing a small but consequential distortion. Future generations might regard such an answer as more authoritative than family recollection. Over time, the machine-generated version could become accepted history, allowing a real person to disappear from the past because AI had confidently filled a gap with a plausible reconstruction.

This is why I have begun thinking of AI as an AI Prism rather than an oracle. A prism refracts light; it does not create the light itself. AI similarly refracts an enormous body of information—documents, websites, books and databases—through statistical patterns and associations. What emerges is not automatically a verified historical record. It can be a synthesis, an inference, a conflation of people or periods, or a coherent story assembled around an incorrect premise.

This is commonly called AI

hallucination. But in matters of history, public policy, law or governance, a better description might be confident reconstruction without adequate verification.

There is another lesson. We have been taught to trust information when it comes with citations. AI has complicated that instinct. A citation can be genuine while the conclusion drawn from it is wrong. A source showing that an officer served in a district in 1946-47 does not establish that he held the post on August 15, 1947. A few months—or days—can completely change a historical answer.

Ironically, an old family memory challenged Artificial Intelligence. Memory is not infallible, but AI and human knowledge have different strengths; responsible research requires the two to interrogate each other.

The answer is not to reject AI. But we should ask it to show uncertainty, provide precise dates and primary sources, identify contradictory evidence, and distinguish between what is established, inferred and uncertain. When the issue matters, return to the original record.

The most important skill in the age of AI may therefore be the willingness to ask one more question: "Are you sure?"

In my case, that question protected a small piece of family history. But if we increasingly use machines to remember our past, we must ensure that their confidence does not become a substitute for historical truth.

SEVERAL RIVERS FLOW ABOVE DANGER MARK

Bihar floods: 44L affected in 14 districts, 5 drown in Bhagalpur

MPOST BUREAU
Patna, September 10

Around 44 lakh people have been affected by floods in 14 districts of Bihar, with several rivers, including the Ganga, flowing above the danger mark, officials said on Thursday.

Incessant rain in several parts of the state, coupled with heavy rainfall in the catchment areas of Nepal, has caused rivers and streams to overflow, they said.

Five people, including four from the same family, drowned in floodwaters in Bhagalpur district on Thursday, officials said.

The incident occurred in Koili Khutaha village, which falls within Bypass police station area of the district.

According to the Disaster Management Department (DMD), around 44 lakh people in 533 gram panchayats across 85 blocks in 14 districts – Patna, Bhojpur, Saran, Vaishali, Bhagalpur, Begusarai, Buxar, Samastipur, Munger, Katihar, Lakhisarai, Khagaria, Purnia and Arwal – have been affected by floods.

Among the worst-affected districts are Patna, Bhojpur, Saran, Vaishali, Bhagalpur, Begusarai and Buxar.

The state has recorded 90 mm of rainfall in September so far, which is 20 per cent above normal, according to the weather office.

In its latest bulletin,

Briefs

SC rejects Abu Salem’s plea

NEW DELHI: The Supreme Court on Thursday dismissed gangster Abu Salem’s plea seeking release after completing 25 years in jail, as stipulated under the “terms of his extradition” from Portugal. Salem, convicted in the 1993 Mumbai serial blasts case, was extradited in 2005. The bench upheld the Bombay High Court’s order rejecting his plea.

Pb seeks deeper UAE trade ties

CHANDIGARH: Punjab minister Aman Arora held talks with the Sharjah Chamber of Commerce and Industry and IBPC in Sharjah to strengthen trade and investment ties. On the occasion, Invest Punjab and IBPC agreed to intensify industry-to-industry engagement and help Punjab enterprises explore UAE markets.

Armed men open fire at Patna house

PATNA: Half a dozen armed men opened fire at a house in Patna’s Masaurhi area. No one was injured in the incident that happened late Wednesday evening, police said. An FIR has been registered. The exact motive behind the firing is not clear.

People carry cylinders for a delivery on a boat amid floodwaters, in Bihar PTI

HIGHLIGHTS

- » Incessant rain in several parts of the state, coupled with heavy rainfall in the catchment areas of Nepal, has caused rivers and streams to overflow
- » Among the worst-affected districts are Patna, Bhojpur, Saran, Vaishali, Bhagalpur, Begusarai and Buxar
- » The state has recorded 90 mm of rainfall in September so far, which is 20 per cent above normal, according to the weather office

the DMD said the Ganga at Sultan ganj in Bhagalpur was flowing at 36.68 metres at 6 pm on Thursday, 2.18 metres above the danger level.

The flow, however, remained stable.

The Gandak was flowing above the danger mark at Dumriya Ghat, Kosi at Baltara and Kursela, Budhi Gandak at Khagaria, Ganga at Digha, Gandhi Ghat, Hathidah, Bhagalpur, Kahalgaon and Munger, Punpun at Sri-

palpur, Bagmati at Benibad, and Ghaghra at Darauli and Gangpur Siswan.

A total of 1,046 community kitchens are being operated in various districts for flood-affected people.

Fifteen relief camps are also functioning, providing accommodation, food, medical care and other facilities to 11,255 people.

So far, around 2.59 lakh polythene sheets and approximately 41,700 dry-ration packets have been

distributed among flood-affected people.

To facilitate evacuation and transportation, a total of 1,942 boats are being operated. Around 6,692 quintals of cattle feed have also been distributed.

The DMD said the Gandak Barrage recorded a discharge of 77,600 cusecs at 5 pm on Thursday, with a falling trend.

The highest discharge recorded so far this year was 2,24,000 cusecs on July 14.

The Kosi Barrage recorded 1,48,050 cusecs at 5 pm, with a stable trend. The highest discharge recorded so far this year was 2,55,425 cusecs on July 20.

The discharge at Indrapuri Barrage on the Sone river stood at 90,509 cusecs at 5 pm on Thursday, with a rising trend.

CM Saini asks officials to expedite Hisar IMC project

MPOST BUREAU
Chandigarh, September 10

Haryana Chief Minister Nayab Singh Saini on Thursday directed officials to expedite construction of the Integrated Manufacturing Cluster (IMC) near Hisar airport, saying the project would strengthen economic activity and accelerate development in Hisar and adjoining areas.

Chairing a meeting on development projects costing over Rs 75 crore under the State Pragati Portal, Saini reviewed 11 projects and sought their timely completion.

He also reviewed Phase-II of the Swarn Jayanti Integrated Aviation Hub in Hisar, including airport infrastructure, the new terminal and ATC building, water supply and drainage works. He directed officials to explore increasing flights from Hisar and promoting connecting services.

Officials said the 1,578-acre IMC has received envi-

THE PROJECT WOULD ACCELERATE DEVELOPMENT IN HISAR AND ADJOINING AREAS, HE SAID

ronmental clearance and the entire required land is with the government. The tendering process is at its final stage. Saini directed officials to ensure construction begins without delay and that quality standards are maintained. He also called for dedicated provisions for aerospace, Army corridor and medical sectors and directed officials to expedite MRO activities at the airport.

The CM reviewed several energy projects, including an 800 MW ultra-supercritical unit at Yamunanagar’s Deenbandhu Chhotu Ram Thermal Power Plant. The Rs 7,272-crore project is progressing as scheduled and is expected to be completed by December 2029.

OUR CORRESPONDENT
New Delhi, September 10

Union Housing and Urban Affairs and Power Minister Manohar Lal on Thursday reviewed the preparedness of States and Union Territories for the nationwide Swachhata Hi Seva (SHS) 2026 campaign, scheduled from September 17 to October 17.

Chairing a high-level meeting with State Urban Development Ministers, Principal Secretaries, urban development officials and State Mission Directors, Lal said this year’s theme, ‘Swachhata Mein Sahbhag, Swachh Bharat, Viksit Bharat’, underlines collective participation and shared responsibility in building a cleaner and developed India.

The campaign will focus on transforming Cleanliness Target Units and high-footfall public places, engaging youth through Swachh Paathshala-Yuva for Swachhata, organis-

Shah directs ministries to work towards achieving ‘zero casualty’ during disasters

Home minister calls for ‘whole of government’ approach to disaster management

OUR CORRESPONDENT
New Delhi, September 10

Union Home Minister Amit Shah on Thursday called for a “whole of government” approach to disaster management and directed ministries to take measures aimed at achieving “zero casualty” during disasters.

Chairing the third meeting of the Governing Body of the National Institute of Disaster Management (NIDM), Shah said India’s disaster management system had undergone a “comprehensive transformation” over the past 12 years under Prime Minister Narendra Modi’s leadership.

He said the country had moved from a disaster response and relief-centric approach towards risk reduction, early warning

HM Amit Shah chairs the third meeting of the Governing Body of the National Institute of Disaster Management

and zero casualty.

Shah stressed that every government department should establish a dedicated cell to advance its disaster management agenda. The functioning of these cells should be reviewed by the concerned heads of departments at least once every three

months, he said.

The Home Minister said environmental protection was among the most effective means of disaster management and called for risk reduction, resilience and nature conservation to be made integral to national development.

He asked the NIDM and National Disaster Management Authority (NDMA) to review global research and practices in disaster management and take steps to adopt them in India. The Agriculture Department was directed to remain prepared for locust attacks from Pakistan.

Shah also called for comprehensive national guidelines covering all types of disasters, with clear do’s and don’ts for different categories of people. He assigned NIDM the task of training, while ask-

ing the National Disaster Response Force (NDRF), State Disaster Response Forces (SDRFs) and other agencies to operationalise the guidelines.

He proposed that after every disaster, a joint task force comprising the NDMA, NDRF, NIDM and SDRFs should conduct a detailed analysis and prepare a comprehensive report to strengthen future preparedness and response.

Highlighting increased government spending, Shah said allocations under the State Disaster Response Fund had risen nearly fourfold, while those under the National Disaster Response Fund had increased threefold.

“About 2.5 lakh crore rupees have been spent during the last eleven years,” he said.

‘UP to link 3 cr women with SHGs’

BISWAJEET BANERJEE
Lucknow, September 10

The Uttar Pradesh government has set a target of bringing three crore women into self-help groups and turning one crore of them into ‘Lakshmi Didis’ by creating better livelihood opportunities and increasing their incomes.

Deputy Chief Minister Keshav Prasad Maurya reviewed the work of technical support agencies, banks, milk producer companies and HCL Foundation under the Uttar Pradesh State Rural Livelihood Mission at Yojana Bhawan on Wednesday.

Maurya said over one crore women would receive Rs 20,000 as the first instalment under the Uttar Pradesh Women Entrepreneur Scheme, with the government bearing the loan interest.

A second instalment of Rs 30,000 would also be provided.

He directed banks to ensure easy access to loans for eligible women and adopt a supportive

approach towards poor beneficiaries.

Maurya asked officials to formulate a scheme for providing loans to women to purchase cows and buffaloes. He also suggested making quality e-rickshaws costing up to Rs 2 lakh available to women members of self-help groups.

Stressing technology-driven livelihood opportunities, he directed officials to prepare a plan to provide at least one drone to every cluster-level federation of self-help groups.

CBI arrests fugitive deported from US

MPOST BUREAU
New Delhi, September 10

A fugitive wanted in a fraud and spoofing case was deported from the US after the CBI pursued his return through Interpol channels, officials said on Thursday.

Accused Harnek Singh, who had been absconding for over a decade, was arrested after arriving at Indira Gandhi International Airport here on Wednesday, a CBI spokesperson said.

An Interpol Red Notice and Look-Out Circular were issued against Singh, who will be produced before a Special Judicial Magistrate (CBI cases) court in Panchkula. He was wanted in a 2013 case involving Singapore-based Indian nationals allegedly duped through spoofed calls by fraudsters posing as Indian immigration officials.

The CBI registered a case in 2016, three years after Singh allegedly fled India and entered the US illegally.

UP launches Neeb Karori Baba circuit

OUR CORRESPONDENT
Lucknow, September 10

Following the success of the Hanuman Ansh, the Uttar Pradesh Tourism Department has launched a spiritual circuit connecting key places associated with Neeb Karori Baba.

TOURISM DEPT UNVEILS 5 TOUR PACKAGES

The circuit was unveiled on Mahasamadhi Diwas along with five tour packages ranging from two to five days, with departures from Lucknow and Delhi. The packages cover Baba’s birthplace in Firozabad, his ashram in Farrukhabad, the Samadhi Temple in Vrindavan and Hanuman Setu Temple in Lucknow.

The department is developing the spiritual trail in Firozabad and Farrukhabad at an investment of around Rs 12.93 crore. In Firozabad, Rs 8.65 crore has been spent on developing Baba’s birthplace at Akbarpur, while the Rs 2.22-crore second phase is over 60 per cent complete and is expected to be finished by December 2026.

Tourism and Culture Minister Jaiver Singh said the initiative would take Baba’s legacy of faith, simplicity and service to a wider audience. At Akbarpur, facilities include a multipurpose hall, exhibition hall, cafeteria, dining hall, kitchen, dormitories and other visitor amenities. Development at Neeb Karori Ashram in Farrukhabad has been completed at a cost of Rs 1.51 crore.

EFFORTS TO RESTORE GREEN COVER

Raj women use slingshots to scatter seed balls across Aravalli hills

PTI
Jaipur, September 10

A group of women in Rajasthan’s Rajasamand district is using traditional slingshots to scatter seed balls across rocky and barren stretches of the Aravalli hills in an effort to restore green cover in areas difficult to reach through conventional plantation.

The women trek into hilly and forest areas during the monsoon and use slingshots to propel balls made of soil, organic manure and seeds towards slopes and hilltops that are difficult or risky to access by foot.

The initiative is being

jointly undertaken by Deogarh municipality, Career Sansthan Rajasamand, Career Mahila Mandal Deogarh and Mera Yuva Bharat Rajasamand.

Bhavna Paliwal, who is associated with the campaign, said the initiative has

been running for the past eight years.

“More than 1.5 lakh seed balls have been scattered in Rajasamand, Amet, Bhim, Deogarh, Kumbhalgarh, Todgarh, Satpalia and Diver and adjoining areas during this period,” Paliwal said.

She said that women associated with the initiative devote time to environmental conservation after completing their household work.

“They walk several kilometres to reach difficult hills and forests. Sling-

shots are then used to send seed balls to places which are otherwise difficult to reach,” she said.

District coordinator Meenal Paliwal said the balls are prepared using soil, cow dung and an organic mixture and contain seeds of different local species.

When rain falls on the seed balls, their outer layer gradually disintegrates and allows the seeds to germinate without digging pits or regular watering, she said.

“The technique can be particularly useful in areas affected by forest fires or those which have lost vegetation, she added.

She said that the women

also collect seeds from fruits consumed at home instead of throwing them away. Seeds of neem, jamun, tamarind, mango, pomegranate, guava and papaya are among those collected.

“Seed balls also contain locally suitable species such as peepal, rohida, sheesham and karanj, she said.

The campaign this year is also targeting mining-affected hills, deep valleys, wildlife areas and barren land available at the panchayat level.

Paliwal said the initiative aims to plant 50,000 seeds this year.

Thousands of students,

youths, villagers and environment enthusiasts have been associated with the campaign over the years, she said. Women and schoolchildren have also been trained to prepare seed balls and use slingshots for dispersing them.

The campaign has another environmental tradition. Ahead of Raksha Bandhan, women visit forests, tie rakhis to trees and pledge to protect them.

“Environmental conservation does not always require huge resources. Participation of local people and small efforts can also bring about significant change,” Paliwal said.

News at a glance

Fire on ferry in Philippines leaves at least 5 dead

MANILA: Rescuers struggled on Thursday to get into a passenger ferry that had caught fire and burned overnight off the western Philippines, leaving five people dead and 86 missing, officials said.

By nightfall, search and rescue operations were halted but were to resume in the morning. So far, 43 people have been rescued, coast guard spokeswoman Commodore Noemie Cayabyab said.

The ferry MV June Aster was afloat but listing off the town of Coron after the fire that started on Wednesday evening.

Foreign ministers of Pak & Turkiye discuss bilateral ties

ISLAMABAD: Pakistan's Foreign Minister Ishaq Dar discussed the regional situation and bilateral ties with his Turkish counterpart Hakan Fidan over the telephone, amid heightened tensions in the region following attacks by Yemen's Houthis against Saudi Arabia.

During their conversation on Wednesday, the two ministers also reaffirmed their shared position on Palestine and supported a joint statement by eight Arab-Islamic countries welcoming UK's decision to ban imports from illegal Israeli settlements.

Houthi rebels reach strategic port city in Yemen

DUBAI: Iranian-backed Houthi rebels have entered Yemen's strategic Red Sea port city of Mokha, according to two residents, which could bring the rebels closer to targeting shipping through a critical waterway to the Red Sea.

Separately, an Israeli strike killed at least four people in northern Gaza, including two children. And Israel warned Iran of a "powerful response" if Tehran attacks, threatening it could target Iran's energy facilities in retaliation. The fighting has taken place near crucial supply routes.

Briefs

Zelenskyy visits Canada

CALGARY: Ukrainian President Volodymyr Zelenskyy was in Canada on Thursday for talks with Prime Minister Mark Carney, his latest international trip aimed at locking in future support for Ukraine's fight against Russia's invasion.

Ukraine is under pressure from Russia's air war, which is using ballistic missiles and jet-powered drones to pierce defences. Moscow's attacks have targeted Ukraine's power grid ahead of the upcoming winter as part of its campaign to demoralise civilians, Ukrainian officials say.

Recent US efforts to stop the more than four years of fighting have delivered no significant breakthrough.

Israeli strike in Gaza kills four people

DUBAI: An Israeli strike killed at least four people in northern Gaza, including two children. And a media outlet controlled by Iran-backed Houthi rebels claims Saudi-backed forces have launched air-strikes on several areas.

Two children were among the dead after Israel carried out a new strike in the northern Gaza community of Beit Lahiya, according to Shifa hospital, where the bodies were taken. There was no immediate comment from the Israeli military on the strike early Thursday.

Israel opens embassy in Slovenia

LJUBLJANA: Israel opened its first embassy in Slovenia on Wednesday, boosting relations with the small European Union nation even as ties sour with some longtime allies over its policy on illegal settlements in the occupied West Bank.

Israeli Foreign Minister Gideon Saar travelled to Ljubljana, Slovenia's capital, for the occasion that asserts a shift in Slovenia's policy toward Israel under the current right-wing Prime Minister Janez Jansa. Saar called the embassy opening a "historic day" after a meeting with his Slovenian counterpart Tone Kajzer.

ASSOCIATED PRESS
Phoenix, September 10

US President Donald Trump pledged Wednesday to send every American adult USD 5,000 if Republicans retain control of the House and Senate in the midterm elections, an extraordinary gambit to reverse his party's sagging fortunes in November.

The dubious promise would likely cost more than \$1 trillion and require congressional approval, and would further exacerbate the country's nearly \$1.8 trillion annual budget deficit and concerns about inflation.

"If the Republicans win, you win with us and you get \$5,000," Trump said during the GOP's midterm convention in Dallas. "It will be called the Trump Dividend."

He likened the payments to a corporation's distributions to shareholders, citing "our tremendous strength and success economically."

Within an hour, Vice President JD Vance appeared to try to walk back Trump's proposal -- at least in part -- by suggesting the dividend payments would not go to the wealthy. Vance suggested it could be paid for by US tariff revenues, though the suggested payment dwarfs what the US has taken in through the protectionist measures.

The White House did not respond to a message seeking details.

Congress would need to approve or otherwise acquiesce to the payment. The sum would far exceed US tariff revenues even before the Supreme Court tossed much of the president's tariff programme last year.

The national debt last month topped \$40 trillion for the first time.

Trump has frequently lamented that, during the modern era, the president's party almost always loses seats in Congress during the midterms, and he has looked for unorthodox ways to defy the trend, including this week's convention.

Yemen risks return to civil war
As Iran-backed rebels target crucial shipping route

ASSOCIATED PRESS
Cairo, September 10

Yemen is moving closer to a return to civil war. The escalating events in the Arab world's poorest country are closely linked to the war in Iran and global efforts to ship oil out of the Gulf region.

Here's a look at an emerging conflict involving an Iranian-backed rebel group's efforts to keep neighbouring Saudi Arabia from using a crucial shipping alternative to the Strait of Hormuz, and how that could tear Yemen apart once more.

Yemen is home to over 40 million people who fear a return to the civil war that killed 150,000 and brought many others to the brink of famine in one of the world's most sprawling humanitarian crises. A ceasefire with Yemen's internationally recognised government and a wider coalition backed by the Saudis began in 2022.

Now that truce is buckling.

Houthi rebels interact as they check their weapons during a mobilization campaign in Sanaa

AP/PTI

YEMEN IS HOME TO OVER 40 MILLION PEOPLE WHO FEAR A RETURN TO THE CIVIL WAR THAT KILLED 150,000 AND BROUGHT MANY OTHERS TO THE BRINK OF FAMINE

Yemen's troubles are in part because of its strategic location at the southern tip of the Arabian Peninsula and alongside the Bab el-Mandeb Strait at the southern end of the Red Sea.

It's one of the world's busiest shipping lanes and one that the world is turning to as Iran continues to target ships on the Strait of Hormuz.

The civil war left many Yemenis hungry and beyond the reach of aid. Residents said Thursday the Houthis have now entered the key Red Sea port of Mokha, which has been held by Yemen's internationally recognised government.

Cameron appointed 1st female head of UK Foreign Office

OUR CORRESPONDENT
London, September 10

British High Commissioner to India Lindy Cameron was on Thursday promoted to take charge as the first female head of the UK Foreign Office. Cameron has been appointed as the new Permanent Under-Secretary at the Foreign, Commonwealth and Development Office (FCDO) in one of Andy Burnham's major foreign policy moves since taking over as British Prime Minister in July.

The civil servant and diplomat comes in at the FCDO at a time of turmoil following former PM Keir Starmer sacking Olly Robbins as its head over the scandal of Peter Mandelson's appointment as US ambassador amid allegations of impropriety.

"I am especially pleased to welcome Lindy as the first female Permanent Under-Secretary at the FCDO," said UK Foreign Secretary Ed Miliband. "Lindy brings enormous experience across the fields of diplomacy, development and national security, and a reputation for dynamic leadership in postings across the world, most recently as High Commissioner in India."

"Lindy will lead an FCDO committed to promoting British values and interests by deploying the full talents of our

I AM ESPECIALLY PLEASED TO WELCOME LINDY AS THE FIRST FEMALE PERMANENT UNDER SECRETARY AT THE FCDO

amazing, dedicated and renowned staff, who it has been my privilege to get to know over the past couple of months," he said.

Before her Delhi posting, Cameron has been the CEO of the National Cyber Security Centre and has held senior roles in the Northern Ireland Office and the Department for International Development (DfID).

"Having served at home and abroad with both DFID and FCO since joining the civil service in 1998, I couldn't be prouder to have the opportunity to lead our amazing diplomats and development professionals as Permanent Secretary of the FCDO," said Cameron.

Cargo vessel fire in China kills 25 people

ASSOCIATED PRESS
Beijing, September 10

Twenty-five people were killed and five others injured when a fire broke out on a foreign-flagged cargo ship undergoing repairs in the eastern Chinese port city of Qingdao, state media reported on Thursday.

The fire broke out at around 11:15 a.m. when the ship was undergoing maintenance at China State Shipbuilding Corporation Qingdao Beihai Shipbuilding Co., Ltd., according to the municipal fire and rescue bureau. A total of 42 people were aboard the ship, state-run Xinhua news agency reported.

Rescuers have located all 25 individuals initially reported missing, but none showed signs of life, it said.

The death toll from the foreign cargo ship which caught fire has risen to 25, local authorities said.

They said 12 people were safely evacuated, while five injured individuals were taken to the hospital, where they are in stable condition.

Emergency management, fire and rescue, police, and medical departments were immediately mobilised to carry out search and rescue operations following the incident. President Xi Jinping earlier directed authorities to step up search and rescue efforts, according to CCTV, a rare instance of instructions from the top leadership.

Xi called for providing support to those affected and demanded efforts to promptly determine the cause of the accident and hold those responsible accountable, Xinhua reported.

He also required local governments and related departments to draw lessons from the accident, thoroughly identify and address fire hazards, ensure the effective implementation of preventive measures, resolutely prevent major accidents, and safeguard people's lives and property.

REPORTS SAY A TOTAL OF 42 PEOPLE WERE ABOARD THE SHIP

Nepal floods death toll climbs to 1,377

PRESS TRUST OF INDIA
Kathmandu, September 10

The death toll due to the flash floods in Nepal rose to 1,377 on Thursday as more bodies were recovered from the affected districts, while rescue and search operations continue for more than 5,000 missing people, authorities said.

At least 364 bodies have been recovered from Chitwan district, 228

from Nawalparasi East, 222 from Nawalparasi West and 198 from Nuwakot, according to the National Disaster Risk Reduction and Management Authority (NDRRMA).

Similarly, 178 bodies have been recovered from Rasuwa, 77 from Gorkha, 70 from Dhading and 38 from Tanahu, it said.

Two flood victims died during treatment in Kathmandu.

Hero Motors sets price band at ₹79-84 for ₹1,000 cr IPO

NEW DELHI: Auto parts maker Hero Motors Ltd on Thursday fixed the price band for its Rs 1,000 crore IPO at Rs 79-84 per share. The three-day issue will open on September 16 & close on September 18. The IPO comprises a fresh issue of Rs 600 crore and an OFS of Rs 400 crore by promoters O P Munjal Holdings and Hero Cycles Ltd. Of the fresh proceeds, Rs 190 crore will be used to repay borrowings & Rs 200 crore to purchase equipment for capacity expansion at its Gautam Buddha Nagar facility. The remaining funds will support acquisitions, strategic initiatives.

Titan redeems commercial papers worth ₹1,000 crore

NEW DELHI: Leading watch and jewellery maker Titan Company Ltd on Thursday said it has fully redeemed commercial papers worth Rs 1,000 crore, with maturity proceeds paid to all holders. The commercial papers were issued on June 12, 2026, Titan said in a regulatory filing. Commercial papers are short-term, unsecured money market instruments used by companies to meet working capital requirements, with tenures ranging from seven days to one year. The company periodically uses commercial papers as part of its short-term borrowing to manage liquidity.

DRI seizes 41 kg smuggled gold worth ₹62 crore

NEW DELHI: The Directorate of Revenue Intelligence (DRI) has seized around 41 kg foreign-origin gold valued around Rs 62 crore in six operations in recent days, arresting 24 people, including three foreign nationals, the Finance Ministry said. In Delhi, DRI seized 10.2 kg gold on September 7, including four 1-kg bars & 6.2 kg chains, arresting one person. On September 8, it seized 1.21 kg gold and foreign currency worth Rs 43.50 lakh from a vehicle coming from Punjab & arrested one person. Earlier, DRI and BSF seized 89 gold bars weighing 11.3 kg near BOP Halderpara.

Skoda VW India, JSW Group sign MoU for partnership

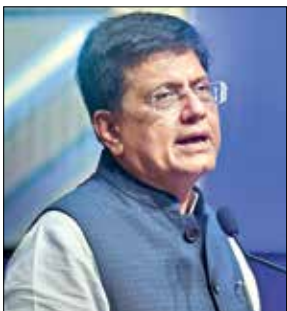

NEW DELHI: Skoda Auto Volkswagen India and JSW Group have signed a non-binding Memorandum of Understanding (MoU) to explore a strategic partnership in India, aimed at expanding product offerings, deepening localisation and strengthening manufacturing and R&D capabilities. The proposed two-party partnership would feature joint control, defined roles and mechanisms for swift decision-making. Deep localisation and platform synergies are expected to support competitive products, greater scale and improved profitability.

AT PRESENT, THE BILATERAL TRADE STANDS AT \$60 BILLION

‘India & Russia fast-tracking talks for new bilateral investment treaty’

OUR CORRESPONDENT
New Delhi, September 10

India and Russia are fast-tracking negotiations for a new bilateral investment treaty (BIT) with an aim to provide legal certainty to investors of both countries, Commerce and Industry Minister Piyush Goyal said on Thursday. Addressing the India-Russia Business Dialogue here with Russian Minister of Industry and Trade Anton Alikhanov, Goyal also said that both the countries are committed to the early conclusion of talks for the India- and Russia-led EAEU free trade agreement.

Commerce and Industry Minister Piyush Goyal

GOYAL CALLED UPON THE RUSSIAN SIDE TO HELP OPEN THE DOORS WIDER FOR INDIAN INVESTMENTS IN RUSSIA

tion, more often than tariffs, is what slows trade down on the ground,” he added. Goyal called for an accelerated India-Russia economic and industrial partnership, urging businesses from both countries to work towards achieving the target of \$100 billion in bilateral trade and \$50 billion in two-way investment by 2030. At present, the bilateral trade stands at \$60 billion. Increasing bilateral trade from the current base of around \$60 billion would require adding about \$40 billion in the

KEY POINTS

- » The India & EAEU free trade agreement, he said, would open new markets for industries including MSMEs
- » Goyal called for an accelerated India-Russia economic & industrial partnership, urging businesses from both countries to work towards achieving the target of \$100 bn in bilateral trade and \$50 bn in two-way investment by 2030
- » He called upon the Russian side to help open the doors wider for Indian investments in Russia in pharmaceuticals, IT, artificial intelligence, services, engineering and railways

of nearly 30 per cent, while exports of edible vegetables rose from \$38 million to \$54 million, an increase of 40 per cent. Similarly, shipments of coffee, tea and spices increased by 13 per cent to \$116 million, while products of the milling industry had nearly doubled. “These figures reflected growing demand in the Russian market for products from Indian farmers, food processors, micro, small and medium enterprises and MSME exporters,” he added. However, he said that only a small portion of the potential had been tapped so far. Referring to the complementarity between the two economies, he said there were several products where Russia is a significant importer, and India is a significant exporter globally, but India is not yet a significant exporter to Russia. He identified pharmaceuticals, auto components, tractors and food products among the opportunities waiting to be explored. Further, the minister said that non-energy trade between the two countries remained much smaller than its potential and represented the

headroom that needed to be filled to move bilateral trade from \$60 billion to \$100 billion. He said rebalancing bilateral trade through greater Indian exports of pharmaceuticals, engineering goods, chemicals, textiles, food products, marine products and auto products would be central to achieving the target. On investment, Goyal said that the India-Russia priority investment projects mechanism is currently tracking 40 live investment projects across advanced manufacturing, energy, mining, railways and emerging technologies. He called upon the Russian side to help open the doors wider for Indian investments in Russia in pharmaceuticals, IT, artificial intelligence, services, engineering and railways, so that the \$50 billion investment target becomes genuinely a two-way street. He also highlighted investments in the physical backbone of the bilateral relationship, including the International North-South Transport Corridor and the Chennai-Vladivostok maritime corridor, stressing that connectivity is a part of trade policy and not merely infrastructure.

Reserve Bank Governor Sanjay Malhotra

OUR CORRESPONDENT
Mumbai, September 10

RBI Governor Sanjay Malhotra on Thursday asked the fledgling fintech ecosystem not to treat data as a business asset but as a “fiduciary responsibility” to build trust. Addressing the Global Fintech Fest here, Malhotra also cautioned against using gaps between regulatory categories to scale up and then seek forgiveness. The comments from the central bank governor come amid increasing interest among the fintech ecosystem that places a lot of premium on data, increasing the ability of a business to grow, for which many also call “data as the new oil”. “Treat data as a fiduciary responsibility, not a business asset,” Malhotra said, adding that every fintech holds personal data of real people and the same should be treated the way a trustee treats assets held for a beneficiary. Data has to be collected with a clear purpose, used strictly within the consent for which it is shared, and protected as though it is the fintech’s own, the governor said. “Where a firm treats customer data as a monetisable asset first and a responsibility second, trust erodes and once it does, it does not return easily,” he warned. On the issue of business structuring to exploit

regulatory gaps, Malhotra reminded of tools like sandbox and pilot mechanisms and added that a firm that engages transparently not only earns regulatory goodwill but also gains faster, more durable pathways to scale. “I would gently caution against a mindset of structuring a business around the gaps between regulatory categories, or of scaling first and seeking clarity or forgiveness later,” the career bureaucrat-turned-central banker said. Rules eventually catch up with a firm, which seeks to outrun them, leading to a much higher cost being paid by the entity itself and also by way of a dent in trust of customers it serves. Malhotra also flagged that aspect of being diligent on investments in risks such as operational resilience, business continuity, and cybersecurity by firms that scale up in their size. “As a firm’s payment volumes, lending book, or user

base grows to a point where its disruption could meaningfully affect the financial system, that firm acquires a responsibility that goes beyond its balance sheet or its shareholders. I would describe this as the obligation to be not just ‘too big to fail’ but ‘too significant to be careless,’” he explained. Fintechs are outside the ambit of prudential regulation because regulation should not be a burden on early-stage innovation, Malhotra said. There are also risks emanating from artificial intelligence adoption, he said, adding that issues such as opacity, bias and exclusion, concentration and herding, cybersecurity, data privacy and security, and erosion of human judgement must be mitigated. Malhotra also announced the Unified Fintech Forum as the second self-regulatory organisation for the fintech sector, announcing that the RBI has given it all the necessary go-ahead.

SEBI completes 1st phase of Demat 2.0 bond pilot, trading next: Pandey

AGENCIES
Mumbai, September 10

The Securities and Exchange Board of India (SEBI) has completed the first phase of its Demat 2.0 pilot for corporate bonds and will next introduce secondary-market trading under the new technology framework, SEBI Chairman Tuhin Kanta Pandey said on Thursday. Speaking on the sidelines of Global Fintech Fest 2026 in Mumbai, Pandey said three issuers participated in the first phase,

which was successfully completed. “The next phase is that the secondary level of trading will be brought,” he said. Under Demat 2.0, existing corporate bonds will be handled using distributed ledger technology (DLT), without creating a new asset class or separate market structure. The system also uses the Reserve Bank of India’s Central Bank Digital Currency (CBDC) for settlement. Pandey said DLT enables securities and payments to be settled simultaneously

through “atomic settlement”, eliminating partial settlement. Investors will continue using the existing depository system and Demat accounts, with no additional action required, he said. The regulatory framework for corporate bonds will also remain unchanged, with only the underlying technology being altered. Separately, Pandey said SEBI is preparing the securities market for risks from quantum computing and the potential need for post-quantum cryptography.

MSMEs to drive India’s aerospace mfg push

OUR CORRESPONDENT
New Delhi, September 10

The Ministry of Civil Aviation is looking to diversify India’s growing aerospace manufacturing ecosystem with more participation from Indian MSMEs as the sector is set to nearly double from over \$30 billion in 2025 to \$61 billion by 2035. Civil Aviation Minister Kinjarapu Ram Mohan Naidu said at the CII and Ministry’s VORTEX 2026 initiative on Thursday that India’s growing aviation market and aircraft orders offered a huge opportunity

for domestic manufacturers to enter the global aerospace supply chains. India’s commercial aviation fleet is set to more than double to around 2,050 aircraft by 2035 & Indian carriers currently have an order book of around 1,640 aircraft. The minister said that this could mean a need for nearly 80 crore parts and components and passenger traffic is expected to grow at 8.9 per cent annually through 2035, the fastest among major economies. Naidu said that India’s automobile components

and mobile phone manufacturing sectors have grown leaps and bounds and can be a model for aerospace. He said that MSME exports had grown three times from around Rs 4 lakh crore in 2021 to Rs 12.4 lakh crore in 2025 with more than 1.73 lakh MSMEs exporting directly. Civil Aviation Secretary Samir Kumar Sinha said that India’s operational airports had grown from 74 in 2014 to 166 and its aircraft fleet from around 350 to approximately 874. Over 2,000 aircraft are expected to join the Indian fleet over

the next two decades. Sinha said that Indian MSMEs and start-ups currently supplied aircraft components worth over \$4 billion annually to global original equipment manufacturers, while the domestic aerospace manufacturing market could become a \$10-billion industry over the next decade. Boeing India and South Asia President Salil Gupte said that Boeing had 300 Indian supplier partners, of which 25 per cent were MSMEs. Gupte said that now the challenge was to scale up India’s aerospace manufacturing.

Bahrain court rejects claims in Credit Suisse AT1 case against HDFC Bank

AGENCIES
New Delhi, September 10

HDFC Bank on Thursday said a Bahrain court has rejected two claims filed against it by investors in Credit Suisse Additional Tier 1 (CS AT1) bonds. The orders were passed on September 9 after judicial scrutiny of the claims and evidence before the High Civil Court, Bahrain, the lender said. Between July & August, the court had rejected five similar matters, taking the total favourable judgments for HDFC Bank to seven.

Investors had alleged gross negligence, intentional misrepresentation, incorrect customer classification, non-disclosure of product features, misuse of financial leverage and violation of suitability principles. The court rejected the allegations, saying investors failed to provide sufficient admissible evidence to substantiate their claims. In all seven cases, investors were ordered to bear proceedings costs. HDFC Bank said it would “defend itself rigorously” against what it called “unsubstantiated claims”.

Pvt capital drives India’s emerging sectors’ industrialisation: Jefferies

The govt has backed the push through measures including opening the space sector to private firms

AGENCIES
New Delhi, September 10

India is entering a new phase of industrialisation, with rising domestic demand and government support drawing private capital into emerging sectors including space, semiconductors, data centres, electronics and solar manufacturing, brokerage Jefferies said. Government measures such as opening space to private companies, tax incentives for data centres, production-linked

schemes, localisation requirements and GPU purchases are supporting the investment cycle and creating opportunities across manufacturing, supply chains, infrastructure and engineering services.

CLOSER LOOK

- » The government opened the space sector to private participation in 2020 and is targeting an almost five-fold expansion of the space economy between 2023 and 2030, to about \$40 bn-\$45 bn
- » Startups such as Skyroot, Pixxel, Agnikul and Digantara are expanding into orbital launches, earth observation, 3D-printed rocket engines and space surveillance

India is targeting an almost five-fold expansion of its space economy between 2023 and 2030 to about \$40 billion-\$45 billion. Startups such as Skyroot, Pixxel, Agnikul and

Digantara are expanding into orbital launches, earth observation, 3D-printed rocket engines and space surveillance. The semiconductor sector has about \$20 billion of investments announced or

underway, including a chip fabrication plant and several OSAT projects. A new incentive plan worth about \$13 billion is expected to deepen the ecosystem. Data-centre co-location capacity has risen five-fold over five years to about 2 gigawatts and could reach about 10 GW over the next five years. This could generate about \$9 billion in operator revenue and roughly \$45 billion of investment across power, cooling, construction and network

infrastructure. Electronics is moving towards greater domestic value addition, with ECMS expected to cover about 50 per cent of mobile-component bill of materials over the next six years, against less than 20 per cent currently. Printed circuit boards have a \$5 billion total addressable market, with 85-90 per cent of demand met through imports. India has about 35 GW of solar-cell capacity operational and another 100 GW under construction.

Jefferies expects about 90 per cent of the solar manufacturing value chain to be localised by 2030. The brokerage said aerospace also offers opportunities as global companies diversify supply chains, with Boeing and Airbus sourcing an estimated \$1.4-1.6 billion annually from India. Together, these sectors could help India attract private investment, deepen domestic capabilities and move higher up global technology and manufacturing supply chains.

PROCLAMATION REQUIRING THE APPEARANCE OF ACCUSED PERSON

‘MOVE MAY BE LINKED TO THE SAMUDRA MANTHAN SCHEME’

Govt once again extends OALP-X & XI bid deadline to November 15

OUR CORRESPONDENT
New Delhi, September 10

The government has once again extended the deadline for submitting bids under the country’s latest oil and gas exploration licensing rounds, giving companies two more months until November 15, 2026, to bid for the deep-water and ultra-deepwater blocks under OALP-X and OALP-XI, according to the Directorate General of Hydrocarbons (DGH).

The latest extension is the second further postponement of the deadline for the offshore acreage after the government had earlier pushed the closing date to September 17.

While DGH did not give any reasons for the extension of the deadline, industry sources said the move may be linked to the recently announced Samudra Manthan National Offshore Exploration Scheme.

The Rs 84,084 crore scheme, aimed at unlocking India’s offshore hydrocarbon potential and targeting more than 600 million

tonnes of oil-equivalent additional reserves, provides for the government to bear up to 50 per cent of the cost of drilling deep-sea and ultra-deep-sea wells.

The Union Cabinet had approved the scheme at the end of July, but rules for implementation of the scheme are yet to be announced.

Sources said pending framing of the rules that will guide how the scheme will be implemented, the bidding deadline has been extended.

The repeated extensions also highlight the challenges of attracting

investors to India’s more technically demanding offshore exploration acreage even as the government seeks to accelerate domestic oil and gas exploration and reduce reliance on imports.

SIX EXTENSIONS FOR OALP-X

The tenth bid round under the Open Acreage Licensing Policy (OALP) was launched in February 2025, offering 25 blocks covering about 1,82,589 sq km across 13 sedimentary basins, making it the largest OALP round by acreage at the time.

The round included six

KEY POINTS

extensions of its bid deadline. Bidding was originally scheduled to close at the end of July 2025, but the deadline was extended to October 31 and again to December 31, 2025. The deadline was then extended till February 18 before being extended to September 17 and now till November 15, 2026.

OALP-XI ALSO PUSHED BACK

OALP-XI was launched in March 2026 with 21 blocks covering 80,234.49 sq km across 11 sedimentary basins.

The round comprises 12 onshore blocks, four shallow-water blocks, one deepwater block and four ultra-deepwater blocks. Nine of the blocks are offshore, covering about 45,296 sq km.

Bidding began on March 30, with the onshore and shallow-water portion closing on June 19. The remaining deepwater and ultra-deepwater blocks had previously been given a September 17 deadline and have now been extended again to November 15.

OALP-X has now seen six

Equity mutual fund inflows hit 4-month high at ₹29,329 crore

OUR CORRESPONDENT
New Delhi, September 10

Equity mutual fund schemes attracted Rs 29,329 crore in August, registering their highest net inflow in four months, as investors continued to favour mid- and small-cap funds despite the market volatility.

This inflow was nearly 19 per cent higher than the Rs 24,697 crore recorded in July, according to data released by the Association of Mutual Funds in India (AMFI) on Thursday.

Retail participation through systematic investment plans (SIPs) also remained strong, with monthly contributions hitting a record Rs 32,297 crore in August, up from Rs 31,961 crore in July.

SIP contributions were about 14 per cent higher than the Rs 28,265 crore collected in August 2025. Following the latest contribution, cumulative SIP collections during the first five months of the current financial year stood at around Rs 1.6 lakh crore.

The overall mutual fund industry’s net inflows, however, fell sharply to Rs 41,353 crore in August from Rs 2.36 lakh crore in July,

DEBT SCHEMES POSTED NET OUTFLOW OF RS 8,127 CR IN AUGUST, AGAINST RS 1.88 LAKH CR INFLOW IN JULY

largely due to a reversal in flows into debt-oriented schemes.

Debt schemes recorded a net outflow of Rs 8,127 crore in August, compared with an inflow of Rs 1.88 lakh crore in July.

Despite the moderation in net flows, assets under management (AUM) of the mutual fund industry rose 1.5 per cent to about Rs 87.08 lakh crore at the end of August from Rs 85.76 lakh crore at the end of July.

Equity-oriented schemes recorded a net inflow of Rs 29,328.62 crore in August, the highest since April, when they had attracted Rs 38,440 crore.

Equity fund inflows stood at Rs 28,973 crore in June and Rs 22,908 crore in May.

Among equity categories, small-cap funds continued to attract the highest inflows at Rs 7,973 crore in August, followed by mid-cap funds at Rs 6,989 crore and flexi-cap funds at Rs

5,059 crore. In contrast, large-cap funds witnessed a net outflow of Rs 1,147 crore during the month.

The latest inflow data indicates investors’ appetite for mid-cap and small-cap funds remains strong. Together, the two categories attracted nearly Rs 15,000 crore.

A total of 26 schemes were launched in the month of August, raising a total of Rs 7,110 crore, Venkat Chalasani, Chief Executive at AMFI, said.

On the debt side, funds witnessed net outflows of Rs 8,127 crore in August, reflecting short-term liquidity requirements and portfolio rebalancing, said Rohit Sarin, Co-Founder, Client Associates.

Within debt schemes, overnight funds witnessed the highest net outflow of Rs 30,654 crore, followed by short-term funds at Rs 4,259 crore and corporate bond funds at Rs 3,190 crore.

Gold exchange-traded funds (ETFs) continued to attract investor interest, recording net inflows of Rs 2,597 crore in August, up from Rs 1,559 crore in July. Silver ETFs, meanwhile, saw a net inflow of Rs 1,271 crore in August.

Briefs

Rupee falls 44 paise to 95.52/dollar

MUMBAI: The rupee fell 44 paise to close at 95.52 against the US dollar on Thursday, as Brent crude breached the \$102 threshold, mounting concerns over India’s import cost

At interbank forex market, the rupee opened at 95.15 against US dollar, then lost ground to close at 95.52 against the dollar, down 44 paise from its previous close.

Canara Bank to raise ₹4.5K cr via bonds

NEW DELHI: State-owned Canara Bank on Thursday announced plans to raise up to Rs 4,500 crore through Basel III-compliant Additional Tier 1 bonds to fund business growth.

The bank’s Board has authorised raising up to Rs 4,500 crore through AT-1 bonds & Rs 4,000 crore through Tier 2 bonds. The perpetual AT-1 bonds will have a 5-year call option. The issuance is expected to carry a 7.85-7.90% coupon rate.

PMC Projects case: Sebi settles with Karan Adani, B Ravi for ₹27.30 lakh

AGENCIES
New Delhi, September 10

Adani Ports and Special Economic Zone (APSEZ) Managing Director Karan Adani and former Chief Financial Officer (CFO) B Ravi have settled adjudication proceedings with market regulator Securities and Exchange Board of India (Sebi) in a matter involving PMC Projects.

Under the settlement mechanism, the executives paid Rs 27.30 lakh, or Rs 13.65 lakh each. Sebi received the amounts on September 5 and subsequently disposed of the proceedings.

Sebi had issued show-cause notices to the two

APSEZ Managing Director Karan Adani

executives on November 22, 2023, following an investigation into transactions between PMC Projects (India), APSEZ and its subsidiaries.

The investigation covered compliance with the Securities Contracts (Regulation) Act, 1956, the Sebi Act and Sebi (Listing Obligations and Disclosure

Requirements) Regulations, 2015. It specifically examined banking transactions and inter-corporate security deposits involving the entities.

The executives’ authorised representatives submitted replies and filed settlement applications in January 2024 under the Sebi (Settlement Proceedings) Regulations, 2018.

The High Powered Advisory Committee’s recommendation on the settlement terms was approved by a panel of Sebi’s whole-time members on August 13. Following receipt of the settlement amounts, Sebi disposed of the adjudication proceedings under the settlement regulations.

PRESS TRUST OF INDIA

Mumbai, September 10

Snapping their three-session losing streak, benchmark indices Sensex and Nifty edged higher on Thursday amid fag-end stock-specific buying despite the cautious market undertone.

However, elevated crude oil prices above the \$100-per-barrel mark, amid persistent geopolitical tensions, kept risk appetite subdued throughout the day, traders said.

The 30-share BSE Sensex advanced 138.36 points, or 0.19 per cent, to settle at 74,902.59 on last-minute buying. The 50-share NSE

Nifty edged higher by 46.30 points, or 0.20 per cent, to end at 23,477.80.

Among the 30 Sensex firms, Power Grid, Axis Bank, UltraTech Cement, NTPC, Tech Mahindra,

Bharti Airtel, HDFC Bank, and L&T were the major winners. HCL Tech, Tata Steel, Trent, and ITC were among the laggards.

Brent crude, the global oil benchmark, jumped

1.19 per cent to \$102.2 per barrel.

The BSE SmallCap Select index was up 0.16 per cent, while the MidCap Select index dipped 0.34 per cent.

Among the BSE sectoral indices, Insurance climbed 0.58 per cent, Top 10 Banks (0.52 per cent), Bankex (0.36 per cent), Pvt-Banks index (0.35 per cent), Financial Services (0.34 per cent) & PSU Bankex (0.32 per cent). Capital Goods declined 0.99 per cent, Telecom (0.91 per cent), Metal (0.67 per cent) and Hospitals (0.48 per cent).

FIIs offloaded equities worth Rs 582.99 crore on Wednesday, according to exchange data.

Government & DGCA keeping close watch on financials and operations of SpiceJet

PRESS TRUST OF INDIA
New Delhi, September 10

The government and aviation regulator DGCA are closely watching the financials and operations of budget carrier SpiceJet, Civil Aviation Minister K Ram-mohan Naidu said on Thursday.

SpiceJet, which has been witnessing a decline in the number of operational planes as well as the domestic market share, has been facing multiple headwinds. In July, the airline’s

domestic market share dropped to 1.6 per cent from 1.9 per cent in June, as per the latest official data.

“The civil aviation ministry and the DGCA are keeping a close watch on the financials and operations side of SpiceJet,” Naidu said. The minister was responding to a query regarding SpiceJet on the sidelines of a conference in the national capital.

Sources said the airline is facing significant financial issues and there has been a delay in payment of

salaries to the staff. Salaries have not been paid to many employees since May, they added.

The airline has an operational fleet of 11 planes, as per information available on fleet tracking website planespotter.net.

Since February this year, SpiceJet’s domestic share has been on the decline and at that time, it stood at 3.9 per cent.

On Thursday, shares of SpiceJet fell 5.32 per cent to close at Rs 8.89 apiece. Meanwhile, on Septem-

ber 3, SpiceJet said it has finalised lease agreements with three aircraft operators for the induction of 20 planes.

These are 15 Boeing and 5 Airbus aircraft to be taken under damp and wet lease agreements to expand operations during the winter schedule.

“The aircraft are scheduled to join the fleet in phases between mid-October and mid-November, ahead of the winter travel peak beginning with the Durga Puja period.

AGENCIES

New Delhi, September 10

India’s oilmeal exports fell 13 per cent annually to 9.57 lakh tonne in the first quarter of this fiscal, mainly due to a sharp decline in soyabean meal shipments, industry data showed.

The Solvent Extractors’ Association of India (SEA) said oilmeal exports declined 31 per cent to 2,17,757 tonne in June 2026 from 3,13,404 tonne a year ago.

Overall oilmeal exports

during the first quarter of 2026-27 stood at 9,57,224 tonne, compared with 10,94,593 tonne in the year-ago period. Soyabean meal exports plunged 66 per cent to 1,69,502 tonne in Q1 FY 27 from 4,93,439 tonne.

“Indian soyabean meal continued to face severe pricing disadvantages globally compared to cheaper supplies from South American competitors (Argentina and Brazil), dampening overall export volumes,” SEA said.

It attributed the decline to high domestic prices and robust demand from the animal feed and livestock sectors. Lingering Red Sea shipping disruptions and elevated freight charges also weighed on agricultural export realisations.

China, Bangladesh and Vietnam were the major importers during April-June 2026. China imported 3,13,384 tonne, compared with 1,87,361 tonne a year ago, while Bangladesh imported 1,43,013 tonne against 1,26,351 tonne.

BRICS: Built brick-by-brick from an investing acronym 25 yrs ago

It grew in size to five with the inclusion of South Africa in 2010, renamed ‘BRICS’

PRESS TRUST OF INDIA
New Delhi, September 10

A quarter century ago, a Goldman Sachs economist coined a four-letter acronym to describe four fast growing emerging economies and tried to rhyme it with ‘brick’ to indicate their strength and longevity and named his research paper ‘Building Better Global Economic BRICS’.

This acronym soon started catching the attention of the world brick-by-brick, and this new term, ‘BRIC’, joined the invest-

ing lexicon to describe the quartet of Brazil, Russia, India and China as future drivers of global economic growth.

It grew in size as well – to five with the inclusion of South Africa in 2010, renamed ‘BRICS’ – and has eleven member-countries

CLOSER LOOK

» Interestingly, the first govt-level meeting of this bloc in 2006 focused a lot on the situation surrounding Iran & the Middle East

» Now, two decades later, Iran will again be a key point of discussion when the leaders meet here for the summit this weekend

now. The leaders, however, decided to continue with the five-letter name for this multi-nation bloc.

Interestingly, the first government-level meeting of this bloc in 2006 focused a lot on the situation surrounding Iran and the Middle East. Now, two decades

later, Iran will again be a key point of discussion when the leaders meet here for the BRICS Summit 2026 this weekend. Besides, Iran itself is now a member of this grouping, and its President Masoud Pezeshkian is attending the Summit.

Egypt, Ethiopia, Iran,

Saudi Arabia and the UAE became full members of BRICS in 2024 and Indonesia in January 2025.

Besides, Belarus, Bolivia, Kazakhstan, Cuba, Malaysia, Nigeria, Thailand, Uganda, Uzbekistan and Vietnam joined BRICS as Partner Countries last year.

As a multi-nation bloc, BRIC was formalised at the first meeting of BRIC foreign ministers on the sidelines of the United Nations General Assembly (UNGA) in New York in 2006.

The inaugural BRIC Summit of the heads of

states or governments of the four countries was convened in Yekaterinburg, Russia, in 2009. It was attended by the then Indian Prime Minister Man-mohan Singh, Russia’s Dmitry Medvedev, Hu Jintao from China and Brazil’s President Luiz Inacio Lula da Silva.

While Lula remains the only one from the original four to still hold the office, he is unlikely to attend the September 12-13 summit and is expected to be represented by his foreign minister.

Number 1. Zverev reaches US Open semifinals

ASSOCIATED PRESS

New York, September 10

Alexander Zverev's rocky road to start the U.S. Open turned into smooth sailing to the semifinals.

The No. 1 seed beat Botic van de Zandschulp 6-2, 7-5, 6-1 on Wednesday night, putting him into the final four of every Grand Slam tournament this season.

The French Open champion and Wimbledon runner-up will play Friday against Karen Khachanov, while Americans Ben Shelton and Frances Tiafoe meet in the other semifinal.

Zverev became the first men's No. 1 seed to play five-set matches in each of the first two rounds of a major in the Open era, which

began in 1968. But he won his last three matches in straight sets and is the only man to reach all four major semis this year.

After playing more than 4 1/2 hours in each of the first two rounds, Zverev hasn't been on the court more than 2 1/2 in his last three matches.

"In other tournaments I would have been out in the first round but here I can fight back and play best-of-five, play 4 1/2 hours and somehow win the match and somehow get into the tournament," Zverev said. "And then I start playing better throughout the tournament and definitely happy to be in the semifinals here, but of course I want to go further."

PRESS TRUST OF INDIA

Chennai, September 10

East Zone translated their complete dominance over the last 12 sessions into a Duleep Trophy victory after 13 years, overwhelming South Zone on the basis of a massive first innings lead on the fifth and final day of the final here on Thursday.

East Zone sauntered to 388 for seven in their second innings, swelling the overall lead to 760 runs even as the match ended in a draw. Mohammad Kounian Quraishi joined the list of century-makers in this match with an unbeaten 116, his maiden three-figure mark in two-match-old first-class career.

Quraishi, who added 150 runs with Anukul Roy (64) for the seventh wicket stand, reached the milestone in 179 balls with a brace off left-arm pacer CV Milind.

But way before the teams shook hands at 2.10 pm signalling a draw, East had wrested the trophy after posting a mammoth 708 runs in their first innings, which helped them construct a 372-run lead. East's second innings was a mere continuation of their show of power in the match.

Starting the day from 212 for five, the Ishan Kishan-led side, as it happened in the first innings, was seldom troubled by directionless South bowlers. Seasoned Mohammed Siraj bounded in for a while, showing intensity and pace.

While it was satisfactory from a personal point of view, the effort remained futile otherwise.

The lack of support for Siraj and a toothless batting effort also reflected the flawed selection as far as South squad is concerned.

The South management chose to ignore in-form and proven players such as Karun Nair, Mayank Agarwal and Sai Kishore and the

East Zone team members pose with the trophy after winning the Duleep Trophy, in Chennai on Thursday

PTI

HIGHLIGHTS

- » East Zone sauntered to 388 for seven in their second innings
- » East's second innings was a mere continuation of their show of power in the match
- » Above all, Kishan showed impressive tactical awareness while leading East

replacements never really could step up.

Skipper Kishan made a stunning 270 in the first innings to underline his red-ball readiness while veteran Mohammed Shami, who was playing in his 100th first-class match, put to shame some younger names with a spirited effort.

Kumar Kushagra scored his sixth first-class hundred while his Jharkhand teammate Shikhar Mohan made a fifty filled with class and

Plenty of reasons to stay motivated: Shami

PRESS TRUST OF INDIA

Chennai, September 10

Mohammed Shami has not played for India since March 2025 but the veteran pacer on Thursday asserted that his motivation level has not dipped, and is still eyeing the "next level" in his career.

Shami's last Test appearance was even further back during the World Test Championship final against Australia at the Oval in 2023.

"There are plenty of rea-

sons to stay motivated if you look for them. At this level, if you aren't self-motivated, your approach is wrong. No matter what stage you're playing at, your eyes must always be set on the next level," Shami said .

East Zone defeated South Zone on the basis of first innings lead.

The 36-year-old took two important wickets of Ravichandran Sranan and Sheikh Rasheed to rock South's middle-order in the title clash here.

poise. Above all, Kishan also showed impressive tactical awareness while leading East.

Once the team put on board a massive total, Kishan was clear in his primary objective -- take 10 South

wickets and get a first innings lead.The 28-year-old detailed his plan. "I think when you are the captain of the team, the first thing is situational awareness.

We batted for roughly two days, right? Now, as a unit, we know this is essentially a first-innings shootout.

"So, our primary task was to take those first 10 wickets and gain that lead. If we have an innings lead (good enough to impose follow-on), why would I want to step back out in the blazing heat," Kishan said.

His words reflected the direct conflict between the intention of stretching domestic knockout matches into five days to procure results and teams gunning only for a first innings lead to bag the title.

But for him and East, now, it's time to celebrate a long-awaited success rather than dwelling into such technical matters.

October 2027 is still far away, we will see then: Rohit on WC

PRESS TRUST OF INDIA

Mumbai, September 10

October 2027 is still far away, said star Indian cricketer Rohit Sharma on Thursday as he responded to a query on whether he would play the ODI World Cup at that time.

The one-line response came on the sidelines of an event here, a rare comment from the former captain amid swirling speculation around his participation in the mega-event and the course his career will take given he longer plays the T20I and Test formats.

"October 2027 is far away, we will see about it then," said Rohit when asked about his participation at the Global Fin-tech Fest by a member of the audience here.

The 2027 ODI World Cup is to be co-hosted by South Africa, Zimbabwe and Namibia.

He was also asked whether, in case of an Indian title win, there would be an open bus parade to celebrate with fans much like 2024 when the team led by Rohit carried out a victory parade in Mumbai after its T20 World Cup triumph in the West Indies.

"...I do not think a bus parade would be possible now," Rohit replied.

BCCI secretary Devajit Saikia has made it clear that there is no room for speculation around the batting great as he batting well. \

Rohit Sharma

BCCI SECRETARY DEVA-JIT SAIKIA HAS MADE IT CLEAR THAT THERE IS NO ROOM FOR SPECULATION AROUND THE BATTING GREAT AS HE BATTING WELL. ROHIT HAD SCORED A CENTURY IN HIS LAST OUTING FOR INDIA IN ODIS

Rohit had scored a century in his last outing for India in ODIs.

"He is playing superbly in all matches. So what more do you want?

In the last match (against England), he scored 138 runs, so why is there speculation?

I do not want to give some fodder for the speculators," Saikia told reporters after the BCCI's review meeting here at its headquarters some days ago.

PRESS TRUST OF INDIA

Dubai, September 10

Shafali Verma lived a charmed life for her stroke filled 64 off 40 balls as India marched into yet another Women's Asia Cup final with a comfortable 40-run win over Bangladesh here on Thursday.

On a slow surface where batting was a struggle for majority of the batters, Shafali stood out with her fluent effort to take India to 149 for five. The Indian opener was dropped as many as three times and she duly made Bangladesh pay for those mistakes.

Considering the conditions and India's bowling resources, the seven-time champions were expected to defend the target and they did rather comfortably, limiting Bangladesh to 109 for

7 in 20 overs.

Bangladesh never threatened India despite the aggressive intent of opener Juairiya Ferdous (14 off 18). Eventually Ferdous and her opening partner Dilara Akter (21 off 26) fell while attempting to clear the mid-wicket boundary. Kranti Gaud's running catch to get ride of Akter was a brilliant effort on an otherwise ordinary day for the fielders.

he Indian spin trio of Deepti Sharma (3/26), Shree Charani (1/14) and Prema Rawat (1/21) too delivered in spin friendly conditions.

It has been a low scoring tournament mainly due to the slow nature of the pitches here. Considering that and Bangladesh's batting, India deep down and knew they had got enough on the board.

They play either Pakistan or Sri Lanka in the final scheduled for Sunday.

With seven titles (four in 50-over and three T20s), India are the most successful team in the tournament.

They had suffered a shocking loss to Sri Lanka in the previous edition.

Earlier, the Bangladesh bowling attack, which has been impressive in the tournament, was able to keep the accomplished Indian batters quiet for majority of the innings.

In total, four dropped catches let Bangladesh down else India would have struggled to get past the 120-run mark.

India captain Harmanpreet Kaur (24 not out off 28), usually a good player of spin, struggled for majority of her innings only managing four runs off her first 16 balls.

Kareena calls out Bollywood’s herd mentality

She pointed out how the success of one film can prompt the industry to chase the same formula

Kareena Kapoor recently called out the ‘herd mentality’ in the film industry, where filmmakers often try to replicate formulas that have previously worked at the box office. Citing Ranbir Kapoor’s ‘Animal’ as an example, she pointed out how the success of one film can prompt the industry to chase the same formula. “‘Animal’ has worked, so now they are like: ‘Chalo sab violence kar lete hai (let’s all make violent films)’,” she said.

The conversation happened during a discussion around the importance of writers in cinema, a topic that was recently highlighted by ‘Daayra’ filmmaker Meghna Gulzar and actor Prithviraj Sukumaran. While discussing how writers are often the most overlooked part of the filmmaking process, they also touched upon the Malayalam film industry, which has been making waves with relatively low-budget films driven by strong storytelling, including ‘Premalu’ and ‘Manjummel Boys’.

In a recent interview with ‘Yuva’, Prithviraj said, “The whole thing of writers is very underrated. In Malayalam cinema, writers are pretty

much the centre stage.” Highlighting how the filmmaking process often begins with the writer, he added, “It’s the writer who, more often than not, approaches an actor or director and says I have written something. Ultimately, films are written by writers. We need to understand and acknowledge the fact that writers are very important.” Explaining why Malayalam films often manage to stand out, Prithviraj said, “The incentive for a writer to come up with really inventive stuff is a lot more in the Malayalam industry.”

Adding to the discussion, Meghna highlighted that a writer’s confidence often comes from the backing of the actor, director and producer. She argued that writers need that support to take creative risks and attempt unconventional stories.

Samantha says she almost quit acting after myositis diagnosis

After being diagnosed with myositis in 2022, Samantha Ruth Prabhu was all set to quit acting, particularly after her unpleasant experience while shooting for ‘Citadel: Honey Bunny’. She had become increasingly comfortable with her new life behind the camera when her husband Raj Nidimoru suddenly asked her to star in ‘Maa Inti Bangaram’. Originally written for Sai Pallavi, the film went on to earn Rs 100 crore at the box office, becoming the highest-grossing female-led Telugu film and surpassing the lifetime collection of Anushka Shetty’s 2009 film ‘Arundhati’.

Speaking about what made her consider quitting the industry, Samantha told ‘The Hollywood Reporter’, “Once I took that break for a year, I felt like I wanted to do other things. I was also a bit scared because I was

‘I BECAME A SERIAL ENTREPRENEUR,’ SAYS THE ACTRESS

told to take it easy and find something else to do from a health perspective. I took that advice very seriously.”

Wanting to take a step back from the physically and mentally demanding job of acting, Samantha began looking for things that were less demanding. “I was trying to find things that I genuinely believed in. I invested in many, many businesses,” she said, joking, “I am a serial entrepreneur.”

The actress said she eventually began enjoying her life behind the camera. At the same time, she was apprehensive about facing the

camera again. “Something about coming back to the screen, especially because I was unwell during the shoot of ‘Citadel’ and it wasn’t a pleasant experience to go through and I didn’t want the whole set waiting and people’s time wasted. So, I just thought, ‘Let me produce ‘Maa Inti Bangaram’. I will be really happy to produce and be behind the scenes’. To watch amazing films that I truly believed in and I had made peace with that decision.”

However, Raj had other plans. Crediting him for bringing her back in front of the camera, Samantha said, “He decided otherwise. I think producing with Himank and Raj and him being there on set, gave me the courage. After a bit of reluctance, I agreed to do it. And I am just so happy that I did. Every single time, he seems to have more faith in me than I do.”

THE CONVERSATION HAPPENED DURING A DISCUSSION AROUND THE IMPORTANCE OF WRITERS IN CINEMA

IMDB TRENDING PEOPLE IN INDIA ‘Babita Singh Reporting’, ‘Toxic’ top this week’s list

The ‘IMDb Trending People in India’ list this week is topped by new and familiar names alike, with Nimisha Sajayan claiming the 1st spot on the back of her acclaimed turn in ‘Babita Singh Reporting’.

‘Toxic’ continues its strong showing on the list, with Yash holding the 2nd position, director Geethu Mohandas at 4th rank and Kiara Advani rounding out the film’s presence at the 10th spot.

‘Alpha’ also makes its mark this week following its OTT release, with Sharvari in 3rd position and Alia Bhatt at 5th rank. Bhatt’s spot on the list is further established by news of her wrapping the shoot for the upcoming ‘Love & War’.

Rounding out the list is ‘DC’, whose

OTT release brings both Wamiqa Gabbi at 8th position and Sanjana at 15th rank into this week’s trending mix.

‘WAS ADVISED NOT TO WORK WITH DANNY BOYLE’

AR Rahman won two Academy Awards for his work in ‘Slumdog Millionaire’

AR Rahman won two Academy Awards for his work in Danny Boyle’s ‘Slumdog Millionaire’. In a recent interview, the composer revealed that he was advised not to work with the director. In a chat with Hasan Minhaj on his ‘YouTube’ channel, Rahman shared that the collaboration with Boyle almost didn’t happen. He also recalled that when he made the Academy Award-winning track ‘Jai Ho’, the video for the same had already been shot and the makers had filmed it on Don’s ‘Aaj Ki Raat’.

Rahman recalled that he first got an email from Danny Boyle in 2008, in which the director asked if they could work together. When the filmmaker was in Mumbai, he met Rahman. Upon their meeting, Danny gave Rahman a DVD of ‘Slumdog Millionaire’ and asked, “Here’s the movie I made. I am not sure. I have never made a movie like this. So please look at it. It will be a great honour if you do the music.” After watching the film, Rahman called his agent and was told not to go ahead with this project.

“I called my agent and one of the representatives said, ‘Don’t do’. I said, ‘Why?’ to which their response was, ‘No, I think Danny’s a very different kind of director. He works with multiple people. He might throw your score out very soon. It happened to some of our clients. It’s controversial’,” Rahman said and added that his experience with the director had been very different. “I said, ‘He gave it to me; he smiled at me. It looked very genuine’,” he shared.

In the meantime, Rahman was to start working on Ashutosh Gowariker’s ‘What’s Your Rashee’, starring Priyanka Chopra and he told Ashutosh that he would like to bow out of that because his schedule didn’t allow him to take so many films at the same time.

Rahman shared that the work on the film happened across three weeks in New York, Mumbai and Chennai and the mixing was happening in London. Danny and Rahman were both in London. Danny would visit him every evening to listen to the new stuff and share his notes.

RAHMAN RECALLED THAT HE FIRST GOT AN EMAIL FROM DANNY BOYLE IN 2008

Popes’ Southwest Cantina debuts in Gurugram

It’s a vibrant celebration of Mexican spirit, Southwestern comfort & craft-led hospitality

OUR CORRESPONDENT

In a city shaped by evolving tastes and a growing appetite for global flavours, POPES’ Southwest Cantina opens its doors at M3M Broadway, Sector 71, bringing a fresh, craft-driven take on Mexican and American Southwest dining to Gurugram. Founded by seasoned restaurateur Swadeep Popli, POPES’ blends authentic Mexican cues with Southwestern influences to introduce a concept the city hasn’t experienced before.

Step inside POPES’ and one will find a space that hums with the rhythm of a true Mexican cantina - colourful yet grounded, lively yet intimate. Design, music, food and energy come together to create an atmosphere that feels both global and familiar.

While tequila and mezcal take centre stage at the bar, the cocktails lean into clean, bold American craft-bar builds meant for relaxed evenings; they are easy to sip, full of flavour and made with skill rather than showmanship. It isn’t a tiki spectacle or a dark speakeasy; it’s a cosy, character-driven bar built for connection.

At the heart of POPES’ is a team that brings the concept to life every day, from chefs with a meticulous understanding of Mexican flavours to bartenders who craft thoughtful drinks and a service team that makes hospitality feel personal. Professionals shaped every detail around a shared goal: consistency, warmth and delight.

The interiors blend rustic roadhouse charm with warm Mexican elements - earthy tones, handcrafted details and subtle neon accents. It’s Mexico, interpreted through a lens that understands what the modern diner in NCR seeks: great food, good drinks and a vibe that keeps them coming back.

The menu celebrates Mexican basics while embracing American Southwest comfort. Expect slow-cooked meats, fresh house-made salsas, hand-pressed tortillas, smoky grills, bold spices, hearty burgers, wings and classic New York-New Jersey pizzas. Together, these styles create a balanced, inclusive menu full of flavour.

Speaking about the launch, Popli said, “With POPES’, we wanted to create a cantina that feels soulful, vibrant and rooted in craft. We aimed to blend the authenticity of Mexican basics with the comfort of the American Southwest to build a warm, energetic space where people can connect, relax and enjoy flavours that are genuine and full of character.”
